

## ***Electronic Mind Control and Weapons***

**Is Crestone/Baca, Colorado, “The Vatican City of the New World Order?:”  
An Exposé of the Occult “New World Religion”**

**Electronic Mind Control and Weapons**

**Dr. Eric Karlstrom, Emeritus Professor of Geography**

**November, 2013**

*The individual may think that the most important reality is his own existence, but this is only his personal point of view. This lacks historical perspective. Man does not have the right to develop his own mind. This kind of liberal orientation has great appeal. We must electronically control the brain. Someday armies and generals will be controlled by electric stimulation of the brain.”*

*These weapons are more dangerous than atomic destruction. With knowledge of the brain, we may transform, we may shape, direct, roboticize man. I think the great danger of the future is that we will have roboticized human beings who are not aware that they have been roboticized.”*

**Dr José Delgado, Congressional Record, No. 26, Vol. 118, February 24, 1974**

### **A. Technological Background on ‘Psychotronics’**

In Part V of this series we learned that 1) the focus of the ten Macy Conferences that occurred from 1946 and 1953 was mind control and cybernetics and 2) that the Macy Conferences grew out of a March, 1942 meeting on the topic of “Cerebral Inhibition.” Wikipedia states:

*This so-called “Cerebral Inhibition Meeting” was sponsored by the Josiah Macy Foundation and attended by scientists like [Gregory Bateson](#), and [Margaret Mead](#), and five others. Together they would initiate the Cybernetics Group. Among its members this group was called the “Man-Machine Project”. ....*

*It was one of the first organized studies of [interdisciplinarity](#), spawning breakthroughs in [systems theory](#) and leading to the foundation of what later was to be known as [cybernetics](#)....*

*(The term) Cybernetics was borrowed by [Norbert Wiener](#), in his book “Cybernetics”, to define the study of control and communication in the animal and the machine.*

This field of research, along with others, has resulted in the creation of “cyborgs” (short for “cybernetic organisms”), or beings that combine biological and artificial (electronic, mechanical, or robotic) parts. Philosophers have joined the fray to help explicate and legitimize the new field of “transhumanism.” These “transhumanists” articulate a vision of a “post-human” world in which human abilities are artificially enhanced and aging is eliminated altogether. From Wikipedia:

*In 2002, the WTA (World Transhumanist Association) modified and adopted The Transhumanist Declaration. The Transhumanist FAQ gave this formal definition for transhumanism:*

*“The intellectual and cultural movement that affirms the possibility and desirability of fundamentally improving the human condition through applied reason, especially by developing and making widely available technologies to eliminate aging and to greatly enhance human intellectual, physical, and psychological capacities.”*

Based on what we have learned in previous sections of this paper..... We are now in a position to speculate on some of the end goals of these kinds of research. It would seem that the combined tools of “cybernetics” and philosophy of “transhumanism” may soon provide “the controllers” with the scientific powers to greatly increase their own life spans, perhaps, thereby achieving some sort of physical immortality. And they believe they will have the ability to transform the rest of the human (and animal) population to robotized slaves. As it happens, these so-called scientific advances have largely been carried out and funded by we, citizen-scientists and citizen-taxpayers, i.e., their future slaves. Good joke, no?

(However, as an Emeritus Professor of Geography, it is my educated opinion that the diabolical project of redesigning and replacing the natural ecosystems which took 4.6 billion years to evolve with artificial life forms and ecosystems is bound to fail,

spectacularly. The very idea is preposterous and idiotic, as shown by the failure of Biosphere II. What is the phrase?: “Pride cometh before the fall.” So while our “controllers” may succeed, to some extent, in destroying the natural order, they will not succeed in replacing the natural order with a better system.)

But to resume our exploration of electronic mind control or “psychotronics:” By 1974, Lawrence Pinneo, a neurophysiologist and electronic engineer at Stanford Research Institute (SRI, a premier Tavistock institution in America) had developed a computer system capable of reading a person’s mind. It correlated brain waves on an electroencephalograph with specific commands. Whereas twenty years ago, the computer responded with a dot on a TV screen, today, it can be the input to an EBB stimulator that uses radio frequencies.

A *Freedom of Information* request produced a 1970 NASA report on implantable biotelemetry systems, which describes the development of this kind of device:

*... it is therefore possible that the biological application of radar could be used as a weapon on an individual basis for sociological or political purposes.....*

## 1. Tesla/HAARP/ENMOD

As noted previously, the discoveries of Nikola Tesla bear directly on mind control as well as many other topics, including ENMOD, or “environmental modification” (Appendix 4). Here, I include more about of his still poorly understood innovations. Those with the intellectual fortitude to read this section will be amply rewarded with a rudimentary understanding of how and why mind control technologies relate to technologies of weather manipulation and earthquake production, among others! It seems Tesla was about 100 years ahead of everyone else in the field of electro-magnetism!

In “Total Population Control, 2000 ( <http://educate-yourself.org/mc/mctotalcontrol12jul02.shtml> ), Nicholas Jones states:

*Earth is wrapped in a donut-shaped magnetic field. Circular lines of magnetic flux continuously descend into the North Pole and emerge from the South Pole. The ionosphere, an electromagnetic-wave conductor, 100 kilometers [62 miles] above the earth, consists of a layer of electrically-charged particles acting as a shield from solar winds.*

### *Earth Resonant Frequency*

*Natural waves are created which result from electrical activity in the atmosphere. They are thought to be caused by multiple lightning storms. Collectively, these waves are called ‘The Schumann Resonance’, with the strongest current registering at 7.8 Hz. These are quasi-standing [scalar], extremely low frequency (ELF) waves that naturally exist in the earth’s electromagnetic cavity, which is the space between ground and the*

ionosphere. These 'earth brainwaves' are identical to the frequency spectrum of our human brainwaves.

Electromagnetic waves can be measured in three ways, wavelength, energy, and frequency: The wavelength is the distance between two crests (or two troughs) of a wave. The frequency refers to the number of waves that passes a given point in a second.

[Frequency nomenclature: 1 hertz = 1 cycle per second (cps), 1 KHz = 1000 cps, 1 Mhz = 1 million cps. Wavelength: A 1 Hertz wave has a wavelength that is 186,000 miles long, a 10 Hz wave is 18,600 miles long, etc. All EM waves, including radio-waves, move at the speed of light (186,000 miles per second or 299,792,458 meters per second).

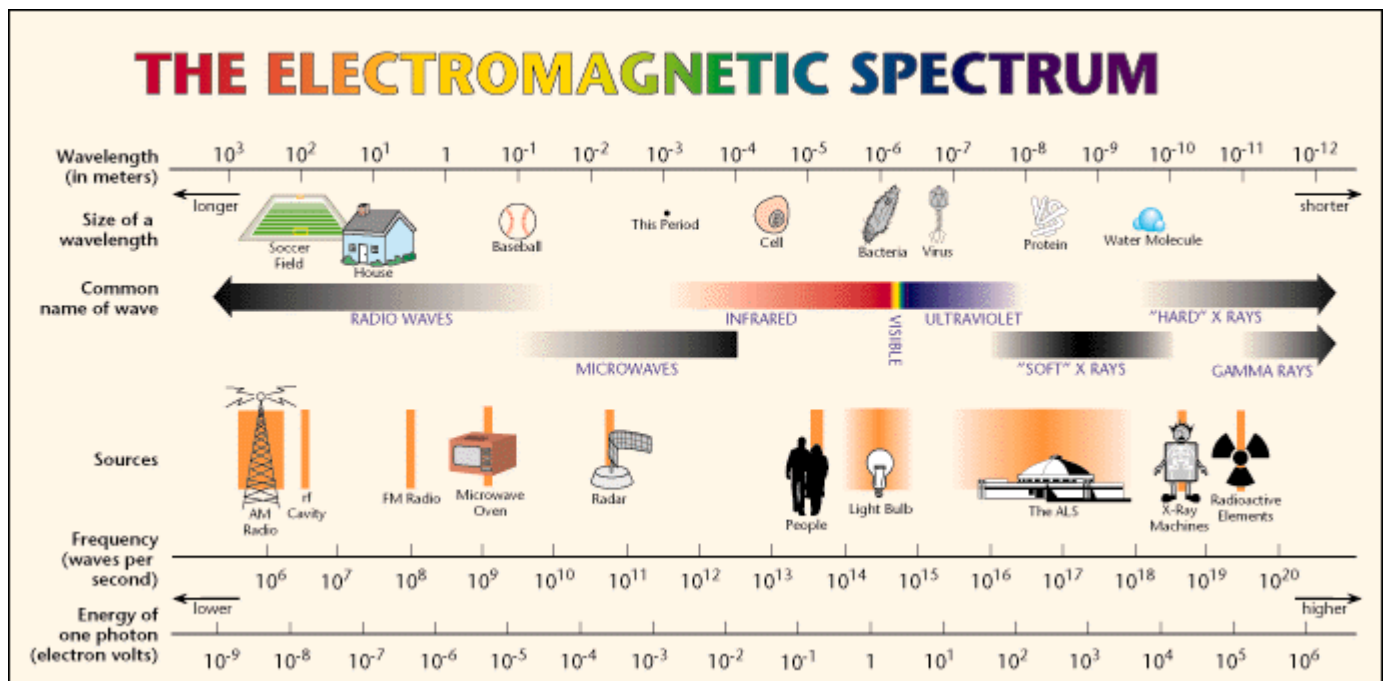

Figure 1. The Electro-Magnetic Spectrum of wavelengths of electro-magnetic energy and their applications for humans.

The following terms are used to measure frequency:

1,000,000 cycles per second (cps) = Megahertz (MHz)

1,000 cycles per second = Kilohertz (KHz)

1 cycle per second = Hertz (Hz)

In measuring amplitude (distance from peak to peak of a wave) length of the waves is measured with kilometers, meters, and centimeters. The very small waves are measured in angstroms, microns, and nanometers. What is an angstrom? It is 10<sup>-10</sup> m or one 10 billionth of a meter. A nanometer is one billionth of a meter... A micron is one millionth (1/1,000,000) of a meter.)

The following terms are used to describe different frequencies:

***Extremely High Frequency EHF: 30,000 to 300,000 MHz***

***Superhigh Frequency SHF:3,000 to 30,000 MHz***

***Ultrahigh Frequency UHF: 300 to 3,000 MHz***

***High Frequency VHF: 30 to 300 MHz***

***Medium Frequency MF: 300 to 3,000 KI-Iz***

***Low Frequency LF: 30 to 300 KHz***

***Very Low Frequency VLF: 3 to30KHz***

***Extremely Low Frequency ELF: Below 3 KHz to 1 Hz or less***

### ***BRAIN FREQUENCIES RELATE TO STATES OF ACTIVITY***

***The lower brain frequencies pertain to sleep and dream states. The middle brain frequencies pertain to normal wakeful activity. The higher brain frequencies pertain to aroused, or concerned or states of anxiety. No brain waves means a person is “brain dead”, even though some body functions may continue. Naturally occurring phenomena, such as lightning in thunderstorms, or sunny days that soak a person with extra positive ions, can all affect the thinking of the brain.***

### ***THE FREQUENCY SCALE***

***These frequencies in Hertz, cycles per second, are important:***

***1 Approximate beginning of brain wave activity***

***6.66 Theta brain waves***

***7.85 Alpha brain waves***

***15.7 Beta brain waves***

***30-30.56 Government VLF stations***

***32-33 Government VLF stations***

***34-42 Government VLF stations***

***50 Approximate upper limit of brain wave frequencies***

***60 Produces an audible sound***

***62-254.1 CTCSS (Continuous Tone Coded Squelch Systems).***

*CTCSS tones are broadcast continually interspersed on a frequency, which allows several different users to broadcast separately on the same frequency and only pick up the message that has their CTCSS tone. For example, Post Office tones are 82.5, 91.5, 97.4. & 100.9, U.S. Customs & border patrol is 100 Hz. U.S. Secret Service is 103.5 Hz., EPA is 114.8., etc.*

## **HAARP**

*The Creator designed living beings to resonate to the natural Schumann Resonance frequency pulsation in order to evolve harmoniously. The ionosphere is being manipulated by U.S. government scientists using the Alaskan transmitter called HAARP (High-Frequency Active Auroral Research Program), which sends focused radiated power to heat up sections of the ionosphere, which bounces power down again. ELF waves produced from HAARP, when targeted on selected areas, can weather-engineer and create mood changes affecting millions of people. The intended wattage is 1,700 billion watts of power.*

*“Electron Cyclotron Resonance Heating Method” is now being used to alter the earth’s magnetic field—in order to modify weather, create or trigger earthquakes and volcanoes, spread viruses, create the phenomenon known as ‘electromagnetic pulse’, and, to modify/control behavior amongst the populous. The HAARP transmitter site, located northeast of Gukona, AK, is large enough to cover most of the Northern Hemisphere. It is however but one of (numerous) other such sites (known as “Ionospheric Research Instruments” or “Ionospheric Heaters”) scattered around the world. And, many of them here in the U.S. are able to tie into the much smaller GWEN (i.e. Ground Wave Emergency Network) remotely-controlled transmitter sites that have been built all over the U.S. in a grid pattern, with their antennas spaced about every 200 miles or so.*

*The original research concerning the “Electron Cyclotron Resonance Heating Method” was done by Nikola Tesla, and later expanded upon by not only Soviet scientists, but also by U.S. scientists, such as Bernard J. Eastland—a scientist who was associated with ARCO (Atlantic Richfield Oil Co.). ARCO has traditionally been controlled by members of the CFR (Council on Foreign Relations). Eastland transferred the patent rights to APTI, Inc. (i.e. ARCO Power Technologies Industry, Inc.) in the late 1980s, which was a Los Angeles, CA subsidiary of ARCO. APTI, Inc. then sold out to “E-Systems” on June 10, 1994, which company has pretty much, over the years, been under the control and influence of the CIA. On April 3, 1995, “E-Systems” sold out to the still larger Raytheon Corp.*

*The U.S. and the Soviet Union first began secret cooperation on world weather engineering in about 1971. On July 4, 1976, the Soviets began generating powerful electromagnetic transmissions, that were dubbed “The Russian Woodpecker” by western ham radio operators. On June 18, 1977, the US government OFFICIALLY became covert partners with the Soviets in these operations by sending them sophisticated scientific material and equipment for further research and development. The secret code name given U.S. operations was Project Woodpecker. The Lawrence Livermore National*

*Laboratory located at Livermore, CA was and is the main research center for U.S. development of the project. Covert funding for the project was funneled through the CIA and the National Security Agency. The DOD and NASA have, of course, been cooperating in the Project from the beginning stages. On Jan. 10, 1985 there was officially filed of record a Patent No. 4,686,605 entitled: "A Method and Apparatus for Altering a Region in the Earth's Atmosphere, Ionosphere, and/or Magnetosphere". The Patent was approved on Aug. 11, 1987. This patent explains and describes the "Electron Cyclotron Resonance Heating" method that is presently being covertly and cooperatively used by the two superpowers to help bring about their coveted NEW WORLD ORDER, which is a "One World Government".*

*In 1993, researchers announced that they had discovered (back as early as perhaps 1985) a never-before seen network of rivers, some of which flow for thousands of miles ABOVE earths surface, that transport as much water in the form of vapor as the Amazon River. Apparently, these narrow streams of ATMOSPHERIC rivers are transient, but at any given time, there are at least a few of them in the atmosphere, typically around five in each Hemisphere. The longest of them runs for about 4800 miles. They are generally about 150 miles wide (the largest being almost 500 miles wide), and about a mile deep, with some 364 million pounds of water vapor flowing past a given spot each SECOND—which is comparable to an average flow of the Amazon River. These atmospheric rivers are flowing at an altitude of no more than 1.9 miles above the earth's surface, which makes them readily reachable by low pressure weather cells. In general, the atmospheric rivers head for the poles, but on the way, they can get deflected by the earth's jet stream. Their flow originates from along the equator. These vapor rivers sometimes get sucked into low pressure systems, and are the major sources of the massive flows of water that rains out of the storms and into the sky river's counterparts on land. U.S. and Soviet scientists are now cooperatively "tracking" these atmospheric rivers for use in covert activities of Project Woodpecker.*

*In order to fully understand how the conspirators are able to use high-powered radio frequency transmissions to trigger earthquakes and/or volcanoes, one must have some knowledge of the "principle of sympathetic vibratory resonance". Von Nostrand's SCIENTIFIC ENCYCLOPEDIA (Seventh Edition) defined RESONANCE: "Every physical system (i.e. all bodies, structures, mediums, etc.) has one or more NATURAL (or Fundamental) VIBRATION FREQUENCIES, characteristic of the system itself and determined by constants pertaining to the system. If such a system is given impulses with some arbitrary frequency, it will necessarily vibrate with that frequency, even though it is not one of those NATURAL to it." These "forced vibrations" may be very feeble, but if the impressed frequency is varied, the response becomes rapidly more vigorous whenever any one of the NATURAL (i.e. Fundamental or a harmonic of that Fundamental) frequencies is approached. Its amplitude often increasing many-fold as an exact synchronism (i.e. or at a harmonic of the NATURAL) frequency is reached. This effect is known as RESONANCE. The greatest vibration will be induced in a system at its NATURAL or FUNDAMENTAL frequency (or at a harmonic thereof).*

*The Earth's NATURAL (or Fundamental) frequency (also sometimes referred to as the Schumann Resonance) is around 8 Hz. This appears to be the Resonant Frequency of our Galaxy, so, all bodies, structures, mediums, RESONANT at either this Natural frequency or around 10 Hz, or at a harmonic thereof.*

*In the triggering of earthquakes or volcanoes, the trick is in determining the unique resonant frequency of the earth's mantle AT THAT PARTICULAR SPOT (or target!) ON THE EARTH. Once the conspirators determine this, they can unleash an ELF carrier frequency through the earth, and then SUPERIMPOSE the harmonic frequency of the "target zone" using a second set of transmitters. This might be called: "Selective Targeting". Of course, the conspirators will also have predetermined that the target zone will have built up enough stress within the zone to be "ripe" for activation.*

*This system of using ELF radio waves as a technique has many other applications. Not only is it being used to artificially trigger earthquakes and volcanoes, to develop high and low pressure weather cells that are used to steer the Jet Streams, to transport and deposit microscopic entities such as viruses and chemical agents, but, they are able to create a phenomenon known as an earth damaging "electromagnetic pulse" (EMP).*

*But how is the HAARP facility related to mind control? From "Mind Control and the Intelligence Services," ([www.declarepeace.org.uk/...inc/.../mindcontrol-intelligence-services.htm](http://www.declarepeace.org.uk/...inc/.../mindcontrol-intelligence-services.htm)), we read:*

*During the 1970s, when he was living in Mexico, Uri Geller was asked by the CIA to psychically eavesdrop on the Soviet embassy. The Agency asked Geller to describe the interior of the building, erase the computer tapes there, read the numbers of a combination lock, name the ranks and duties of visiting personnel, crack codes, predict espionage drops and describe the papers in the diplomatic pouches. Another of the tasks that Geller was asked to do for the Agency was to influence the mind of incoming U.S. President Jimmy Carter at his presidential inauguration on January 20th, 1977. By 1975, Harold Puthoff and Russell Targ reported that the development of Remote Viewing at SRI "has evolved to the point where visiting CIA personnel with no previous exposure to such concepts have performed well under controlled laboratory conditions... generating target descriptions of sufficiently high quality to permit matching of descriptions by independent judges."*

#### *Advances in the 1980's*

*According to Ken Lawrence's testimony before Congress in 1985 on the issue of CIA campus activity, a revival of the MKULTRA program exists at the University of Florida, where CIA-funded researchers have been carrying out "truth detector" experiments using a computer to read brain waves. Major Edward Dames of Psi-Tech said in April 1995 on NBC's 'The Other Side' program: "The U.S. government has an electronic device which could implant thoughts in people." Dames would not comment any further.*

*Psycho-kinesis or tele-kinesis (the use of the mind to move matter) is an area of major interest to the CIA. A total of 281 laboratory experiments in psycho-kinesis were carried out over a ten-year period on behalf of the Agency. SRI in particular conducted some extraordinary demonstrations of metal fork bending in front of generals and colonels and other highly-qualified witnesses. In a 1995 television documentary, John Alexander revealed that “people would ask, are you going to bend tank barrels? And no, that’s ridiculous. But what we can do is impact electronics and things of that nature. Rather than moving large amounts of physical matter, we’re talking about moving electrons.”*

*Anybody doubting that the U.S. military is not seriously involved in the area of psychic research should bear in mind the December, 1980, issue of the U.S. Army’s Military Review, whose cover story was entitled “The New Mental Battlefield,” complete with cover pictures of Kirlian photographs of the aura surrounding living organisms. The article, written by John Alexander, related to the use of telepathy to interfere with the brain’s electrical activity. This caught the attention of senior Army generals who encouraged him to pursue what they termed “soft option kill” technologies.*

*On November 30th and December 1st 1983, a symposium was held in Leesburg, Virginia, entitled “Applications of Anomalous Phenomena”. It was organized by Kaman Tempo, a division of the Kaman Sciences think-tank in Santa Barbara, California, and its stated purpose was “to provide a venue where researchers could present government managers and scientists with details of their research on psychic phenomena, and an assessment of the potential of applications of this research.” Subjects discussed ranged from telepathy, clairvoyance, precognition and psycho-kinesis to “human/equipment interaction systems” (eg. people affecting computers), “the continuity of life” and “the military applications of anomalous phenomena”. There were nineteen speakers from all parts of the country, several of them heads of major university departments, and it should be noted that they were not asked to discuss the possible existence of psychic phenomena, but to describe what was being done with them. The guests were described as “senior scientists and civilian and military managers.” No guest list was published.*

*In 1983, John Alexander set up a course called Neuro-Linguistic Programming (NLP). This presented to selected officers and Senior Executive Service members a set of techniques to modify behavior patterns. Among the first generals to take the course was Lieutenant General Maxwell Thurman, who went on to become Vice Chief of Staff at the Army and Commander Southern Command. Among other senior participants were Major General Stubblebine and no less than vice-president Al Gore, who still retains his friendship with Alexander.*

*Another of Alexander’s programs is the Jedi Project (taking its name from the Star Wars movies) which aims to “construct models of behavioral/ physical excellence using unconventional means” – in other words, paranormal methods of raising human performance to optimum levels and therefore producing an invincible warrior – a disquieting concept when one considers the sort of people employed by the intelligence agencies.*

*After retiring from the army in 1988, Alexander began working with Janet Morris, the Research Director of the U.S. Global Strategy Council (USGSC), chaired by Dr Ray Cline, former Deputy Director of the CIA.*

### *The 1990's: So-called "Non-Lethal Weapons"*

*Throughout 1990's, the USGSC lobbied the main national laboratories, major defense contractors and industries and senior military and intelligence officers to develop what they termed "Non-Lethal Weapons (NLWs) for Disabling Measures." In her support of their doctrine for the use of such weapons by the U.S. "in crisis at home or abroad... by projecting power without indiscriminately taking lives or destroying property," Janet Morris admitted that "casualties cannot be avoided." A senior Department of Defense official described the term "Non-Lethal Weapons" as "an almost obscene oxymoron."*

*During the Gulf War in 1991, cruise missiles with Electromagnetic Pulse (EMP) warheads were used against the Iraqis. This information was released via the American military trade publication Defense News in April, 1992. The same year, the UK Ministry of Defense confirmed the development of a British microwave bomb. The EMP bomb works by "emitting a massive pulse of radio energy which would render humans unconscious by scrambling neural paths in the brain but would not cause lasting injury." In fact, evidence from research scientists exposed to EMP has shown that it can cause cancers such as myelogenous leukaemia, a fatal bone marrow disease.*

*The principal secret of secret intelligence is how to get someone to do your bidding..... From its beginning in 1947, the CIA... has spent millions of dollars on major program of research to find drugs or other esoteric methods to bring ordinary people, willing and unwilling alike, under complete control- to act, to talk, to reveal the most precious secrets, even to forget on command.*

### *SOUND WARFARE*

*William Arkin, a U.S. consultant on the humanitarian impact of weapons and warfare, revealed in the journal, Medicine, in 1998 that the United States Army and Air Force were developing a new generation of acoustic weapons that rupture organs, inflict burns and create cavities in human tissues. The research was so far advanced that deployment of the weapons was imminent.*

*Such weapons can radiate a directed energy beam with an intensity varying from a 90-120 decibel low-frequency sound-wave "to provide extreme levels of annoyance and distraction" through 140-150 decibels for "strong physical bodily trauma and damage to tissues", up to "shockwave" levels of over 170 decibels, producing "instantaneous blastwave-type trauma" which could be lethal.*

*Abstracts from a U.S. Department of Defense program on the military's acquisition of mind control technology described the use of "a system for altering the states of human consciousness" involving "the simultaneous application of multiple stimuli, preferably*

*sounds, having different frequencies and wave forms.... Researchers have devised a variety of systems for stimulating the brain to exhibit specific brain wave rhythms and thereby alter the state of consciousness of an individual subject."*

*Dr. Oliver Lowry, who has carried out several classified projects for the U.S. Government on what is termed by the military and intelligence services 'Silent Sound Spread Spectrum' (SSSS), sometimes called SQUAD, developed and patented a system which he described as "a silent communications system in which non-aural carriers, in the very high audio frequency range or in the adjacent ultrasonic frequency spectrum, are amplified or frequency modulated with the desired intelligence and propagated acoustically or vibrationally, for inducement into the brain. The modulated carriers may be transmitted directly in real time or may be recorded and stored on mechanical, magnetic or optical media for delayed or repeated transmission to the listener."*

*The first known military use of the system was against Iraq during the Gulf War. Although completely silent to the human ear, the negative voice messages programmed by PsyOps psychologists were clearly perceived by the subconscious minds of Iraqi soldiers: "The silent sounds completely demoralized them and instilled a perpetual feeling of fear and hopelessness in their minds."*

*In the course of the siege of General Noriega's headquarters during the U.S. invasion of Panama, U.S. forces used psychological warfare techniques to drive Noriega out by playing extremely high volume Western rock music through loudspeakers. Less publicized was the use of microwave beams and other experimental weapon systems against Noriega.*

*During the siege of Waco, Texas in 1993, the FBI blasted out tapes of the sounds of dentists' drills and the squeals of rabbits being slaughtered to keep the cult leader, David Koresh, on edge. It has been speculated that microwaves and other non-conventional weapons may have been the cause of the ensuing fires which killed Koresh's cult followers.*

*A series of 'Anomalous Mental Phenomena' programs were carried out at SRI from 1973 to 1989 and were continued at the Science Applications International Corporation (SAIC) from 1992 to 1994. A technique known as 'Sleep-Wake Hypnosis' was developed, in which a hypnotist transferred hypnotic commands telepathically to a subject, whether they were a few feet or even a thousand miles away. Psychics were trained to influence foreign leaders as they spoke to the public on the TV or radio. Some of the experiments had highly negative effects on subjects, including sickness, nervous breakdowns and even insanity. The 'Sleep-Wake Hypnosis' technique was recently demonstrated on Paul McKenna's World of the Paranormal television program, when an Eastern European hypnotist telepathically raised and lowered the heartbeat of a subject in another room.*

*Stanford Research Institute – now named SRI International – termed their telepathy work Remote Viewing (RV), which involved a sender transmitting messages telepathically to a receiver. Two of SRI's most important projects were Grill Flame, a multi-million dollar*

*psychic research and development program, started by the CIA in 1972, and now primarily run by the DIA; and SCANATE (SCANning by coordinATE), which started on May 29th 1973 and was completed in 1975. Grill Flame produced telepathic information, later confirmed by satellite, about a very sensitive nuclear test site at Semipalatinsk in Soviet Kazakhstan and which led to the location of a crashed Soviet Tu-95 'Backfire' bomber in Africa. Little else is known at present about the project.*

*Major General Stubblebine stated that Remote Viewing practitioners tended to give more controlled readings than non-RV psychics, adding: "I can go anywhere on this Earth. I can go into any closet, I can go into any mind. I can access that information at any location that I choose." Stubblebine directed several operations employing psychics, including Project BLUEBIRD which targeted Libyan leader Colonel Qaddafi; Project LANDBROKER, which targeted Panamanian leader General Noriega; and Project ARROWSHOP, about which little is known. A letter from U.S. Army Intelligence and Security Command, signed by Deputy Commander Brigadier General Ira Owens, dated February 29th 1996, states: "In 1983 this Headquarters initiated a project named Landbroker.... This was an offensive intelligence collection operation broken down into four parts, designed to collect information using psychic penetrations. Landbroker projects were always targeted against foreign nationals and never involved U.S. citizens." This last-sentence denial bears wary consideration.*

### *The 2000's*

*Today, U.S. military and intelligence have projects, identified only by numbers, which monitor the progress, research and development of psychic and paranormal research worldwide. Project 223310 also collates information on paranormal topics in relation to their use in psychic warfare. This project has been ongoing for 25 years. U.S. Air Force Project 140410 is similarly tasked.*

*One project currently being undertaken by the U.S. military, named SLEEPING BEAUTY, is directed towards the battlefield use of mind-altering electromagnetic weaponry. Jack Verona, a highly placed, highly secretive DIA chief, heads this project. Verona's associates include Major Edward Dames (ex-DIA), who recently founded a company called PSI-tech, which performs Remote Viewing experiments for both the government and corporate clients. PSI-Tech's company board includes now-retired Major General Stubblebine and Colonel John B. Alexander (who was a Commander of Green Beret Special Forces in Vietnam and Cambodia, and took part in a number of clandestine CIA operations including the mass-murder Phoenix program during the Vietnam War). The company also employs Major David Morehouse (ex-82nd Airborne Division) and Ron Blackburn (a microwave scientist and a specialist at Kirkland Air Force Base).*

*There is a massive investment program in NLWs, about \$1 billion over the next few years. The Army's Training and Doctrine Command (TRADOC) is rewriting military strategy to account for the new weapons. It states that "a wide range of disabling measures now exists. This was not true ten years ago." John Alexander is currently involved in over 20*

*mind control and psychotronic projects at the Los Alamos National Laboratories, where he holds the post of Director of Non-Lethal Programs. Alexander and his team have been working with Dr. Igor Smirnov, a psychologist from the Moscow Institute of Psycho-corrections, who pioneered a technique to electronically analyze the human mind in order to influence it. They input subliminal command messages using key words transmitted in “white noise” or music. Using an infrasound very low frequency transmission, the acoustic psycho-correction message is transmitted via bone conduction – ear plugs would not restrict the message. The subliminal messages by-pass the conscious level and are effective almost immediately.*

*A 1995 report by a task force, whose members included Richard Perle (the hard-line Jewish/Zionist Assistance Secretary of Defense under President Reagan) and John Alexander, sponsored by the Council on Foreign Relations, titled ‘Non-Lethal Technologies: Military Options and Implications,’ concluded that “a number of non-lethal technologies deserve serious consideration for future military contingencies.”*

*An ongoing top-secret CIA mind control program is called MONARCH, which apparently involves the deliberate creation of severe multiple personality disorder. Little else of this project is confirmable at present, but its ramifications are said to be staggering.*

*Following the Irangate scandal, newly-appointed National Security Adviser (and former Deputy Director of the CIA) Frank Carlucci ordered the destruction of records of the Agency’s more exotic programs which might be prone to public scrutiny. This included much of SRI’s paranormal work, and the motors of two paper-shredding machines were burned out in the process of destroying their records. The remaining DIA Remote Viewing agents were moved from their posts at Fort Meade. Their whereabouts and the future of the program are unknown.*

*Even though the world’s governments have yet to officially acknowledge the harmful effects of electromagnetic radiation and microwaves, the evidence available does clearly indicate that both within NATO and the former Warsaw Pact countries, electromagnetic and/or microwave weapons are now being used or field-tested. Already police departments of some governments such as France have reportedly used powerful infrasound beam devices to control crowds and to make rioters lose control of their bowels.*

*The ability to modify human behavior with auditory-cortex stimuli, brain-rhythm modifications and many other biological applications of microwaves has been repeatedly shown since the 1950s. The radio wave energy used in most of the experiments is pulse-modulated or RF microwave energy. It is the same type of RF used in radar techniques: radar equipment is used in almost all mind control experiments. Radar range at 10 cm wavelength – the type used in most of the experiments – is over 25 miles. A 1976 U.S. State Department Office of Security report stated: “It is therefore possible that the biological applications of radar could be used as a weapon on an individual or mass basis for sociological or political purposes.”*

*The involvement of NASA in this field raises the sinister prospect of not just individuals being targeted by the new technologies of mind control, but of entire cities and larger areas of the population being affected via satellite transmissions.*

## *2. Monarch, “non-lethal weapons,” and the New Phoenix Program*

*Clearly, mind control is a military weapon that can be directed at both foreign and domestic “enemies.” In Monarch: The New Phoenix Program (2007), Thomas’ points out that modern invisible mind control weapons, including microwave (MW) and radio frequency radiation (RFR) weapons, are currently covertly being used against American dissidents. This highly illegal “black op” uses modern electronic weapons to implement assassinations against American “political dissidents,” much as the U.S. military systematically targeted the civilian population of Vietnam in “The Phoenix Program.” The Phoenix Program began in 1967 and targeted for assassination Vietnamese civilians such as tax collectors, supply officers, politicians, some local military officials, and “suspected communist sympathizers.” Estimates of the number of Vietnamese civilians killed range between about 20,000 and 60,000. (“Blowtorch”) Robert William Komer was head of the Phoenix Program under President Lyndon Johnson. Growing up in the Washington D.C. area was interesting.... I knew his kids.*

*The military’s motivation for assassinating loyal American opposition “stems from the perception of dissent against war as treason.” This philosophy is clearly stated in the ‘Mind War’ paper (“From PSYOP to Mindwar: The Psychology of Victory”) written for the NSA (National Security Agency) by Col. P. E. Valley and Major Michael A. Aquino (pedophile and founder of the Temple of Set, a spin-off of Anton LeVey’s Church of Satan). According to Thomas, the Defense Department is now using ionizing and non-ionizing radiation as “soft kill,” “slow kill,” and “silent kill” technologies to kill off American civilians. Some have sarcastically noted that the use of these so-called “non-lethal weapons” results in “non-lethal death.”*

*Thomas states:*

*The counterinsurgency doctrine has now been applied to the home front, so that the perceived betrayal of the military in Vietnam will not be repeated. The generation of CIA and military intelligence led by Shackley, Helms, and Casey have built the perfect beast, using selective assassination that leaves no trace. The ability to cull the human herd with ‘Silent Kill’ technology allows a few personalities to remake the entire society in their own image. Extremely Low Frequency (ELF) technology kills with ionizing and non-ionizing radiation, slowly driving the target crazy with silent sound, similar to CIA MKULTRA psychiatrist Ewen Cameron’s psychic driving technique used to break down the target’s personality. The new buzzwords at the Pentagon are silent kill, synthetic telepathy and psychotronics.*

*Another means of attack on targets is the Smirnov patent that uses subliminal suggestion to manipulate human behavior. This patent was purchased by the remote viewing company Psi Tech Corporation. Military intelligence officers involved in developing these*

***“non-lethal weapons” also control Psi Tech. Emotional manipulation is accomplished using Dr. Michael Persinger’s work to remotely project emotional states that the brain entrains or locks onto and emulates. One can broadcast rage or fear at an individual target to manipulate and control them. As if these methods were not enough to torture and murder people, add to this nightmarish toolbox, active gang stalking.***

***CIA-created cults and other cause-oriented groups are used to induce further trauma in the target by actively harassing them in public in a neutralization technique described in counterintelligence operations manuals that are aimed at enemy agents. In the race to develop a new weapon system it has always been necessary to test it on human beings. Perfecting the latest weapons designed to kill slowly and silently as well as perfecting the process of controlling the human mind are no different. Once the weaponry has been perfected on these few thousand people the same techniques will be applied en mass to the general population, and then to humanity as a whole. It is probable that the detention and debriefing of the heads of the DIA, NSA, INSCOM, and CIA (Maples, Alexander, Lacquement, Hayden) and their replacement with civilian reformers will end the current war crimes (against American civilians).***

#### ***B. The Human Potential Foundation, Black Science, UFOs, and High-Tech Demonic Occultism***

***In “The Wycliffe Bible Translators, John Mott, and the Rockefeller Connection,” Dillen asserts that the horrific MK-ULTRA CIA mind-control experiments of the 50’s – 70’s were replaced by the work of groups such as the Human Potential Foundation and CSETI (Center for the Study of Extraterrestrial Intelligence). Post-MKULTRA mind control programming also was carried out by innumerable other cults, many of which were the creation of the CIA and other intelligence agencies.***

***Wikipedia states: “The ‘human potential movement’ is sometimes categorized under the broader umbrella of the New Age movement. Michael Murphy and Dick Price founded the Esalen Institute in 1962, primarily as a center for the study and development of human potential, and some people continue to regard Esalen as the geographical center of the movement.” Aldous Huxley, author of Brave New World gave lectures on the “Human Potential” at Esalen in the early 1960s, and some people consider his ideas as fundamental to the movement. Marilyn Ferguson, author of The Aquarian Conspiracy is also an important proponent of HPM.”***

***(Rockefeller-funded) CSETI, or Center for Study of Extraterrestrial Intelligence, is all about UFOs, extraterrestrials, paranormal phenomena, multi-dimensional beings, etc. Dr. Steven Greer, a medical doctor who practiced medicine for only one year, is the ‘ufologist’ who founded and leads the Orion Project and the Disclosure Project, the latter of which alleges that the U.S. Government has covered up information relating to UFOs. Greer claims to be a UFO “contactee of the fifth kind,” that is, he claims to have initiated contact with aliens.***

*Apologies to the reader, but things start to get very, very weird here. And we must understand that intelligence agencies and increasingly, the media and politicians that are their pawns, typically fabricate “cover stories” to conceal their real activities and goals. For example, in *Psychic Dictatorship in the U.S.A. (1995)*, Constantine asserts that “Star Wars was a superficial public relations effort conceived to obscure a massive military push into mind-control technology.” Thus, he posits that ‘Star Wars’ research of the 1980’s was really a cover for radio-biological (or “psychic”) warfare,” i.e., “the brain-manipulating effects of gigahertz radiation on human subjects.”*

*Citing testimony by scientists at a Congressional hearing in 1993, Constantine documents that of the \$40 billions in government spending earmarked for ‘Star Wars’ (or SDI, Strategic Defense Initiative) research, about half was secretly siphoned off to “Black Budget” projects. He documents that “Star Wars officials falsified data” in order to keep Congress fooled and keep federal monies pouring into the usual defense contractors’ coffers (Martin Marietta, McDonnell Douglas, Tracor Aerospace, Northrup Grummon, Lockheed, Westinghouse, Boeing, Oak Ridge National Laboratories, etc.). Broeder’s *Zapping of America: Microwaves, Their Deadly Risk and coverup (1977, but currently unavailable)* provides another good resource on these issues.*

*So what was all the federal “Star Wars” money really spent on? Constantine continues:*

*Marconi and Thomson-CSF share a common interest in microwave communications. Devices like the troposcatter are in the same technical genus as the Gyrotron resonance maser, a machine that talks to the brain... (A resonance maser)... surrounds and penetrates the entire body in an EM flux, and beams it into a microwave communications field. A laser, like the needle of light on a compact disk, reads changes in electrons after passing through the body. A computerized CAT scan sorts the frequencies of the brain and five senses. The maser, with pulsed-power source, fits inside a truck. With it, “special forces” trained in radio-biological warfare could wipe out entire officer corps, divisions, and battalions. Masers, not lasers, are the hidden thrust of “Star Wars.” The weapon is an extremely sophisticated mind and body machine capable of thought transfer, manipulation of emotions, and muscle control. Images, even dreams, can be beamed to the subject. A human or cybernetic controller can carry on a conversation telepathically, and at the same time instill physical sensations, subliminal commands, emotions and visual and aural hallucinations. Computerized EM devices that talk and transmit images to the brain were current when Reagan delivered his first SDI pitch in 1983.*

*The Microwave Mafia often rely on the implantation of miniaturized radio receivers. The technique is known as intra-cerebral control and uses radio or ultra-sound. It was developed by the CIA’s MK DRACO and HATTER brain-telemetry projects. The implantation of a micro-receiver in the frontal or temporal lobes by trained teams of operatives is done with an “encaphalator,” usually through the sinuses of a drugged subject.*

*Alas, there's much much more, of course. There's the "Electronic Brainblaster," the "Cycle Slicer," and more, all usually lumped under the deceptively benign-sounding umbrella of "non-lethal weapons."*

*In Constantine's Virtual Government: CIA Mind Control Operations in America, there is a chapter on "Alien abductions, Psychic Warfare, and Cult Programming: Military, Corporate, Academic and Quasi-Religious Fronts for Mind Control Operations in America." Basically, Constantine asserts that intelligence agencies such as the CIA have been intertwined with the so-called "aliens" and occult societies for quite some time. "The Army and DIA have elite "Psychic Espionage Units." Much of this "technology" has made its way into the private sector now. "Psi-Tech" is a for-profit remote viewing service in California founded by former intelligence officers that provided services to the CIA, NSA, DIA, DEA, Navy and Air Force.*

*Constantine remains skeptical of all the "alien"/UFO activity in particular:*

*The paranormal activities spun by (Ed) Dames, a veteran of the CIA's UFO "Working Group," could be interpreted as a blind (or "cover") for illegal mind control experimentation and the harassment of subjects or anyone falling into disfavor with the intelligence community. In fact, the deep-history of Psi-Tech is a story of a much larger movement, one that thrives on the spread of religious programming, "alien" invasions and other forms of irrational belief. The surface of the underground movement swarms with seemingly delusional quasi-mystical savants. Beneath, (there is) a hidden world of terror- with origins in the waste of war-struck Europe and the beating hearts of some of Nazi Germany's most ruthless military scientists. From these cold chambers exploded many of the mysteries that have since riddled the postwar world.*

*One sector of the virtual government, the CIA-sponsored mind control and biocybernetics group, was born in academia. The goal of the research: to gain "control of an individual to the point where he will do our bidding against his will and even against such fundamental laws of human nature as self-preservation."*

*Of course, all this military/intelligence/corporate/academic activity in the occult begs the question: Are the "spirit guides" and other channeled entities real or not? Opinions differ. Rod Lewis, spokesman for the American Federation of Scientists, stated: "They have no idea what they're dealing with. Of course, the immediate speculation is that they are dealing with the demonic realm." The other possibility is that many of the 'voices of spirit beings' heard by various New Age figures could be the voices of MKULTRA-type "psychiatrists" or their sponsors, electronically beamed into the head of the channeler*

### *C. 'Psychic Warrior' William Ross Dean's story*

*In a series of fascinating and seemingly almost outrageous articles posted on the internet, veteran "psychic warrior" William Ross Dean claims direct personal experience with some of these high-tech psychotronics programs. In "Riders in the Storm" (2000), Ross describes some of the extremely covert 'black operations' in which he participated. Hang*

*on, dear reader, now it gets really wild. However, based on the background research we have done up to this point, many of the operations and themes he discusses very sound familiar. In my opinion, this gives his accounts credibility. Dean states:*

*In the United States Government's Black Sciences Compartment of the Black Operations, there are two major divisions:*

*1. The electronics E.L.F. (Extremely-Low Frequency) mind control and hologram imaging known as "Project Blue Beam." Mind control radio waves are transmitted from man-made saucers to the targeted individual or group. The so-called UFO has light-ray-bending capabilities to appear invisible or masked in a cloud. These hovercraft were developed by forward-not reverse-engineering over 50 years ago. Much of the hype about the crash at Roswell and the Alien Autopsy was fabricated because of the Cold War. E.L.F. mind control, man-made flying saucers, cloning, the atomic bomb, the Philadelphia and Montauk Experiments were what World War II was really all about.*

*2. The earth energy and spirit-manipulating group. This group uses a mixed bag of tricks combining occultism-black witchcraft with E.L.F. (extremely low frequency) radio-wave enhancement. Groups making spirit or UFO contact come under the title "Falling Star" which symbolizes the effort to bring Lucifer to earth in the physical. (An alien invasion of earth by the entire demonic realm and establishing a new high-tech Babylonian World Empire.) (Author's note: Numerous authors refer to this event as the "Black Awakening," including Dizdar, 2009, in his book, *The Black Awakening: Rise of the Satanic Super Soldiers and the Coming Chaos*).*

*Usually, corporate and college groups are totally misled on what their Federal Grant projects are really about. In the field, hidden intelligence teams monitor, document, manipulate and manage the naïve human 'test rats.' Many so-called investigative and recuperation organizations like the Human Potential Foundation are set up to accumulate data from the targeted victims. In many cases, the so-called "concerned" organizational workers are mind-control or cult victims unknowingly doing intelligence retrieval for the C.I.A. or N.S.A.*

*In the Spring of 2000, I was contacted by "Cloud-Rider" of the UFO "Aviary", Dick Farley, of the Human Potential Foundation, an organization that was supposed to be funded by Laurence Rockefeller and some European Royalty, but it was really financed and managed by the CIA via Senator Claiborne Pell... Also, in the spring of 2000 according to neighbors – out here in farm country – black helicopters were dropping off and picking up men on the mountain behind me. These soldiers were camouflaged and armed. (This happened after I challenged some of the top New World Order "think-tank" personalities that hang out on the Internet websites connected to mind-control.)*

*The Human Potential Foundation President was C.B. Scott Jones, an ex-Naval Intelligence officer that worked with characters like the CIA's godfather of mind control, Hal Puthoff. The D.O.D.'s "doctor-of-death", Col. John Alexander, of the so-called "non-lethal" microwave weapons program, and Puthoff worked on E.L.F. mind-control technology.*

*They are associated with Dr. Steve Greer, and Dr. Steve Bassett of the UFO CSETI programs. Note that I was on one of their CSETI (Search for Extraterrestrial Intelligence) projects called "Falling Star".*

*In UFO seminar and conference circles, Alexander and Jones were known as "Penguin" and "Falcon." "Falcon" has taught the world the profile of the aliens on various television shows –with his face masked and hid- standard mass mind control. Recently, I had –after 25 years – recall of Scott Jones when I was in the Navy during the Vietnam War era. I asked other veterans to try the recall process and they remember being pulled from their units and privately meeting in a building and going under hypnosis. They also picked out the mug shot of C.B. Scott Jones! They chose servicemen from West Virginia, Texas, Montana and a couple other states. These states all by coincidence have the highest numbers of veterans of foreign wars and today's Militias. I wonder if the most patriotic are programmed to self-destruct in some way some day.*

*In 1992, Dr. Steve Greer was at the first CSETI-CIA-NAS-UFO alien contact meeting and they chose me to be the "Pointman" for E.T. contact. I was told that the UFOs were 'etheric' and spiritual and no harm would come to me. Both Greer and Jones at that time told us that the E.T.'s were inter-dimensional entities. Now, today they are quoted in books like Dr. Lammer's "MIL-LABS" supposedly changing their stories claiming that UFOs are all special military high-tech mind-control games through hologramic images; but, at the same time they still were organizing civilian CSETI contact teams at UFO seminars and preaching the spiritual etheric "Benevolent-Space-Brother "Ascended -Masters-Heaven's-Gate-Gospel." A very strange contradiction of both their so-called beliefs and actions- to say the least. Dr. Spaniol of State College and the D.O.D., Dr. Sutton, and Dr. Suffon of NASA all would duck and cringe when I would joke and call the Project the "Church of the UFO". (A few years after I quit, an intelligence-agency-sponsored UFO Church called "Heaven's Gate" committed mass suicide – supposedly!)*

*The book, "Mt. Shasta-Mystic Mountain," by Emile A. Frank, tells the reader that many UFO communes – like "Heavens Gate"- have been around the boundaries of Shasta Mountain for years. The author links the beliefs of the aliens as the same as the United Nations, globalist community, New World Order, the ultra-liberal Democrats and many popular New Age writers and cult/commune leaders like Ruth Montgomery and Elizabeth Clare Prophet. The author also specifically points out that in order for the lords of the underworld to come forth and rule, a "cleansing" or mass genocide of people hanging onto traditional values – like the Constitution and Christianity- must take place first. She makes no bones about it that the masses must die and then reincarnate back to here as Gods – like her New Ager-New World Order friends.*

*Hence, she believes the aliens are from the inner-earth (not outer space), exactly what CSETI and NASA told me in 1993. Note that the Ascended Masters are the spirit-guides and are the E.T./Aliens. Note that the E.T.s tell the psychics what to tell the occultists in the U.N. and in the C.I.A. and N.S.A. what to do next concerning worldly issues.*

*These are the same thoughts expressed in Alfred Webre's Age of Cataclysm (written in 1974). The Age of Cataclysm and Mt. Shasta the Mystic Mountain and the information written on the "Georgia Guidestones" cover the same material: UFOs, abolishing the Bill Of Rights, and committing mass genocide to save nature. You can find the "Guide Stones" by going to Elbert County, Georgia. You will see on the stones the same message proclaimed from the secret societies in their pro-New World Order books. They all call for the genocide of 70% to 90% of the world's population to save nature (GAIA), abolishing the Senate, Congress, Bill of Rights and U.S. Constitution. The agenda of the "Left-hand Path" is in what they call "THE PLAN"- setting up of a one-world electronic mind-control totalitarian police state system of slavery and tracking with a one-world religion offering ancient human sacrifices to their God – Lucifer. Out of the Skia or Gaia will come the Ascended Masters – the UFOs. This is the true Harmonic Convergence when man and demon are one again as in Genesis 6:1 of the Bible. We are in for a new high-tech "Tower of Babel!"*

*The Masons, the Club of Rome, the Future World Society, the World Federalist Association, and many secret societies along with all intelligence agencies are pushing for it to happen before 2013. Thirteen means the "Rebellion."*

*It is their hope to merge the seen and unseen world. It is their goal to make sure we have a 'oneness of mind' and are spiritually harmonized to a frequency that will bring this about. That is why many conservatives, Christians, Jews, Muslims, Buddhists are on the surveillance and extermination lists.*

In 'The Hidden Evil Agenda' (2000), Ross reveals more about the New Age "Plan." In my opinion (ETK now), this man has far too much insider information to be written off as crazy or deluded. This information should therefore be carefully considered in light of other information presented here and elsewhere:

*The One World Government and One World Religion will not succeed in forming as long as there are differences in thought. All other political and religious belief systems must be eliminated by a variety of methods through the press, television, movies, and educational mediums.*

The [New World Order](#) philosophy is to subdue passively in the beginning, but aggressively near the end. It is now accepted because it appears to be for peace and prosperity. Later, when the majority of political and military power-elite has accepted it, it will show itself for what it really is- very violent and aristocratic.

The New World Religion is pushing for the 'hive mentality' with the achieved collective consciousness, harmonic convergence of oneness of mind. There will be no room for any personal opinion or individual thought process. Persons that choose a separate route will be eliminated.

In 1989, when George Bush, Sr., and Mikhail Gorbachev shook hands, the nobility of Black Arts Occultism converged with Socialist "oneness of mind" and atheism. This 'Unity through Diversity' doctrine was a must with our CSETI/NASA Group in Project Falling

Star. When the group was together and had an honest oneness of purpose, the UFOs would come to us. I entered some sort of altered state of mind and UFOs would communicate with me by ESP. I knew which mountain to go to and they would show up.

The New World Order is constructively socially engineering all societies on earth to meet this purpose. The people that I was associated with have been working to achieve the New World Order for quite some time. Some of the spin-doctors have been under CIA pay and/or the training and dictates of the Tavistock and Stanford think-tanks. One must wonder why a medical doctor like [Steve Greer](#) who has not practiced medicine very long, would be chasing UFOs and who is paying him? Why is it Greer and [Dr. Alfred Webre](#) (lawyer and environmentalist) appear on the most popular UFO and Globalist shows like Art Bell's, "Coast to Coast" and Jeff Rense's "Sightings" and they have no evidence to prove their so-called experiences?

The majority of the media is dancing to the beat of the spin-doctors in radio, television, newspapers and movies. Those people that were really on the inside of any Black Science or [Black Operations projects](#) are barred from the media until the World Federalists have eliminated them by death or imprisonment or have converted them to their agenda through a variety of mind control techniques.

*Gorbachev and the Pope have been meeting for a decade with the men I mentioned in "[Riders on the Storm](#)" that are connected to CSETI. The idea is to bring the UFOs and the Ascended Masters to earth for all of humanity to see and worship. The project I was on was a "dry-run" for it. Remember, Barb Hubbard's 'New Ninja Army' are the 'Riders on the Pale Horse' (of the Book of Revelations) that are ordained to commit mass murder and genocide.*

*Emile Frank's book, ([Mt. Shasta-California's Mystic Mountain](#)) claims "walk-ins" are demonic-possession and her statements that the E.T.s are from the inner earth are identical to the Bible and Jewish Kabbala's interpretation of the dwelling places of demons and evil spirits. Hence, a demonically-possessed army will kill billions of people inspired by the evil spiritual fallen angels type of UFO's...*

*Oh yes, a world being "spirit-guided" by Ascended Masters and Aliens via government-paid High Psychics. Just take a surfing trip on some of the so-called UFO sites. Many of them have little to do with UFOs, but a whole lot to do about the New World Religion. You will also see that what the aliens want for us is exactly what [the United Nations](#) and Globalists want for us. What a coincidence? Confused? Oh, but the E.T.'s tell the Psychics what to say at their trance channeling sessions and the psychics tell the leaders what to do!*

*Those conservatives, Christians, Muslims, Buddhists, etc., that do not go along with the New World Order Religion will be "cleansed" from the earth. Foundation for Conscious Evolution, leader of the "First Earth Battalion" and a member of Task Force Delta; a United States Army think tank predicts for our future in The Book of Co-Creation: (She is*

also former director of the Federal Union, founded by Fabian Socialist Rhodes Scholar Clarence Streit and supported by the Rockefeller Fund).

*“Out of the full spectrum of human personality, one-fourth is electing to transcend .... One-fourth is destructive [and] they are defective seeds. In the past they were permitted to die a ‘natural death.’ ... Now as we approach the quantum shift from the creature-human to the co-creative human — the human who is an inheritor of god-like powers — the destructive one-fourth must be eliminated from the social body .... Fortunately, you are not responsible for this act. We are. We are in charge of God’s selection process for planet Earth. He selects, we destroy. We are the riders of the pale horse, Death. We come to bring death to those who are unable to know God (Lucifer?). The riders of the pale horse are about to pass among you. Grim reapers, they will separate the wheat from the chaff. This is the most painful period in the history of humanity.*

Here, Hubbard seems sanguine, even enthusiastic, about killing off that portion of humanity, about a fourth of us, who seem to have somehow missed out on acquiring god-like powers. And she seems very confident that she and her New World Order cohorts are qualified to oversee “God’s” selection process.

But again, the \$64,000 question is this: Are Lucifer and the “spirit guides” real spirits or is this all just another staged, mind-boggling, huge hoax? In “Catch a Falling Star” (2000), former intelligence officer William Dean Ross indicates that Lucifer and the “spirit guides” (demons) are real:

*In Mount Shasta, California’s Mystic Mountain, Emile A. Frank (a UFO cult leader and Barb Hubbard fan) proves that the UFOs and E.T.s are from inner earth- not outer space. She also clarifies that they are spiritual- not physical beings. She demonstrates that almost all occultic organizations are Masonic and Luciferian.*

*So here it is. Psychics (witches) telling world leaders to unite and exterminate the masses and enslave the survivors for a super-high-tech occultic Luciferian Age. An endless network of pagans, masons, witches, and occultists in an alliance with Nazis hired by the CIA in Project Paperclip 50 years ago. A secret government sworn by an oath to Satan itself to enslave the earth and destroy all those that do not worship him. Their goal is to bring the King of the Ascended Masters to earth “in the physical” for all to see. That is why they called the CSETI project “Falling Star!”*

*The Alien Agenda is the same as the Ascended Master Agenda. The Ascended Master Agenda is the same as the Psychics Agenda. The Psychics Agenda is the same as the World Federalist Agenda. The World Federalist Agenda is the same as the United Nations Agenda. The United Nations Agenda is the same as the FEMA Agenda. The FEMA Agenda is the same as the New Constitution of the United States Agenda.*

*Through massive electronic networking and artificial intelligence, the mind frequency and soul-spirit harmonics will be altered to allow a mass invasion of demonic “walk-ins.” The world will explode with chaos and madness. Remember the Masonic slogan is “Ordo Ab*

*Chao”- out of chaos comes order and out of the ashes of the Phoenix, the Serpent rises to power.*

*The aliens are the archangels of hell. The world leaders are taking orders from witches and demons from Hell! This is exactly what is in the book of Revelations of the Bible. Even the description of the evil spirits that bring the United Nations to the Battle of Armageddon appearing as frogs or alien reptoids is in Revelations 16:12-14 of the Bible*

*The first wave of an alien invasion is out of hell. The second wave of strange balls of fire and lights coming down in flashes of lightning east to west is out of Heaven –do not be deceived! (Our covert government-sponsored black-budget geoengineering technologies at work no doubt.- ETK comment).*

*When the skies light up with an alien invasion – that will be Satan and 1/3 of the ex-arch-angels of heaven falling (materializing) on earth. They will meet with the Illuminati Brotherhood for a Harmonic Convergence. The man-made police state hovercraft will come out of their secret underground bunkers and will hunt the majority of you down with these so-called non-lethal microwave weapons. The television may call it the Second Coming of Jesus Christ and the Rapture or something to that equivalent. Whether it is God’s Tribulation Period or just another man-made Armageddon instigated by cruel, lying utopianists, take my advice: Do not go outside and try to..... “Catch A Falling Star!”*

*Finally, Ross relates that he managed to expose the “CIA-CSETI-PHYSIC-SATANIC-SCAM,” thus revealing that many of our high officials and intelligence services are actually “in league with the devil:”*

*(By making a fake film that fooled the so-called experts), I had proved the psychics and their space brother religion to be a lie. I had proven that many of the abduction scenarios are created by both E.L.F. electronic mind control and also, demonic high-tech occultism enhanced by E.L.F. Yes, it was a NASA-NSA-E.L.F. project but the New World Order/UN/World Federalist/CIA was trying to make a World Religion out of it. It was a staged play and I was making the actors stumble and forgetting their lines. It was the CIA-SETI-PSYCHIC-SATANIC-SCAM!!!!....*

*The spider web of Masonry and its great influence on NASA and the “intelligence agencies” is also pointed out in The Kundalini Tales, by Richard Sauder. Your mind and your life are nothing to these Fascist Luciferians. We are all destined to be “test-rats” in their world of “Electronic-Witchcraft.”*

*In addition to these revelations, Ross reports the following:*

- 1) Intelligence agents “selling their souls to the Devil.”**
- 2) CIA volunteers contacting aliens through drugs and mental telepathy.**

**3) UFO portal-vortex hot zones (Crestone?).**

**4) Speaking to ghostly aliens in a strange language that the New Agers call “Enochian” (or Hebrew, the language of the Illuminati?)**

**5) NASA Nazis wanted the ultimate “war machine”... They wanted one of “God’s Chariot’s of Fire.” Why? “With that type of technology they thought they could defeat any enemy, even the coming of Christ.”**

**6) UFO groups directly linked to Barbara Marx Hubbard’s “First Earth Battalion” which is led by the California Church of Set’s satanic highest priest (now Gen. Michael Aquino, Head of the NSA). Thus, Hubbard is instructing the U.N. to murder all Christians on earth and everyone else while they are at it. She claims to be ordained to do it.**

**7) Maurice Strong communicates with the Ascended Masters. (In Enochian)?**

*It seems we have ventured (again!) into Dante’s 9th circle of hell. Have we civilians become the targets of governmental “mind war” or “psychological warfare” programs? Are we now the real enemy? Do these various threads weave a deliberate, albeit, sinister plan for total world domination? Or are Ross and others involved in some kind of “mindwar” against the American civilian population- a war that is fabricated and designed to confuse all those that might want to learn the truth?*

*In the next chapter, we will examine some of the many thousands of cults..... many of which indeed, have been created and controlled by intelligence agencies for various nefarious purposes.*

*As I noted earlier, had Dante known about mind-control and the machinations of our world elite, he might have added a “10th circle of Hell” to his classic poem, The Inferno. In The Inferno, Hell includes nine circles of suffering. Upper Hell, or the first 5 Circles, is populated by individuals mired in the sins of self-indulgence. Circles 6 and 7 are for those overcome by violent sins, with the inner ring of the 7th Circle populated by blasphemers, userers, and sodomites. Circles 8 and 9 are for the malicious sins of fraud and treachery. The 8th Circle includes those guilty of simony (buying or selling of something spiritual, such as spiritual offices) and sorcery as well as false prophets, corrupt politicians, and imposters. At the center of the 9th Circle, populated by murders and traitors, is Satan himself, who is condemned for the ultimate sin of treachery against God. Apparently, Dante was ignorant and innocent of the fact that for millennia, some individuals have assumed godlike powers over others, using systematic and even satanic rituals to torture and to deliberately destroy the souls, the free will, and the spiritual potential of other people.*
