

## 2016 Year of the Jew

Jews have so much power and aggressive influence that our way of measuring history is literally based on the claimed birth of a Jewish Leader. It has been 2016 years since the claimed birth of a Jewish Leader from the ancient Middle East that two billion people worship as God. We are supposed to believe that the Jews have had no active agenda at all in the world, yet for 2016 years our western world has been framed by the Jewish ideology of the Torah. Did this all just happen by accident or something? Pay no attention to the Roman Emperor who created the Dynasty that created the Christian Church and Bible, who erected a statue to the Jew from Alexandria, who by his own statement was responsible for him becoming Emperor. That same dynasty just happened to be funded by the money of Jewish bankers of the Empire, and it created an Imperialist Theology where God is a Jew, which was violently forced on the world. To notice this strange coincidence would be Anti-Semitism. Also consider that the people who hate us have been rewriting our history in their image.
