

## Racial Egalitarianism Is Jewish – Equality, The Slothz'in Perspective

The radical biological-race egalitarianism of the Jewish programs of Christianity, Liberalism and Communism where differences between races, ethnicities, the sexes, cultures, nations, where every person is just an interchangeable and thus a disposable human being with nothing unique or special or important about them, and which leads to the purposeful demoralization and dehumanization of everyone. Which is what opens the gates to the massacres of over two hundred million people by Christianity and Communism together, the two great egalitarian ideologies. This egalitarianism is from the Jewish mind. It's their view of the goyim. Literally that's it. Just interchangeable and disposable chattel slaves.

*This is from a series of questions I answered in a thread on the forum.*

### **The “we’re all equal crowd”:**

The “we are all equal” mentality comes from people with outer directed values which they require fulfillment from to derive a sense of positive self-regard and identification with. What they mean when they say we’re all equal is “I am just as good and of as much value as anyone else and I matter too.” And I extend this to everyone else for the cause of social reciprocity process back to me to gain esteem from. Part of this is the basis of most moral systems.

However this is all occurring in a dysfunctional social environment. So it reflects this. To be balanced, a person has to be inner directed. From this they develop the needed sense of internal wholeness and well-being that allows them to assign their own values and meanings to the world that are not dependent on others. What happens is logically there is a natural meeting between social values and internal values as many parts of the two align in natural reality. This is where normal social cultures, ethics and norms originate from. However the solely outer directed types are unbalanced in never developing the inner anchor, and they have no instrument to measure any outer ideological values. This is done in this society, and is engineered to create a person who can't stand upright psychologically on their own two feet. Otherwise the needed consciousness wouldn't be there for the jews to create a herd of two legged cattle. This is why the SJW types are always obsessed with the praise of others to the extreme that they don't think. Instead, they just prattle on for social praise and the feeling of worthiness they require from repeating the platitudes. If Nazis ran the world tomorrow, they would be the biggest Nazis. The value is superficial, and it's just the means to the end. It's a nose ring to be led around with.

## **Egalitarianism do not want and want:**

Radical egalitarian systems don't work because they are built on the false premise of equal qualification in all realms by declaring the eternal differences between all individual races, beings and even the sexes to be superficial. Which is the only way they can make such a claim in the first place. This physiological egalitarianism does not exist and is left over Xian superstition. You can only have a level of social egalitarianism which is needed to establish a meritocracy within the state. This is basically the point of the American Constitution. Every citizen is protected by the same due process and constitutional rights and freedoms. After that you have the freedom to go as far as you can in whatever you're qualified in. However the qualification for being a citizen was based on Race as the Founders stated in the Alien and Immigration acts of the Constitution. Only Whites are citizens, and only White Europeans may immigrate to America and become Citizens. When you have a natural system, the qualifications are based in eternal scientific laws, and not in schizophrenic jewish mumbo jumbo from the bible.

Multi-racial societies never work because the psychophysical differences between the races violently break them apart very fast in the scale of time. Nature demands racial separation and self-determination. Nature is God in the big sense, and it can't be denied. Its laws are absolute. The eternal god, nature has decreed that race is the qualification for strong civilizations and their nation states. Science has shown that kin-based altruism is hardwired into our psyche and it's based on race solely. Civilization and society need legitimate kin-based altruism to exist and survive, and only members of the same race manifest this glue that keeps it all together. This is why the universal morality for all groups is that there is an in-group morality and an out-group morality. The universal radical egalitarianism types try to extend the in-group morality and altruism to all of the outer groups by claiming we're all one big in-group, all ONE RACE, ONE PEOPLE, while attempting to deny that the out-groups exist. Trying to make that appeal on those very grounds obviously points to the truth of different races of beings and the only real universal morality. Europe is paying for allowing jews to trick them into violating this.

The natural prerequisite for social egalitarianism and the sharing of resources is Kin Altruism. And thus a racially and culturally homogeneous society. This is a positive force in such a society and strengthens the entire population and civilization. A chain is only as strong as its weakest link.

## **Superiority exists and we all know it, it's quality:**

Who is we? I never said superiority was jewish. Just jews believe their false sense of superiority gives them license to be murderous criminal bastards and

vampires to everyone else. Because jews are criminally insane and their racial psychology is predated upon psychopathology. They are not some model to compare reality with. Their false sense of superiority is just an excuse to do what they're going to do anyway. A way to grant moral legitimacy to themselves.

That however does not mean levels of qualification do not exist; they do. Nature is aristocratic, and even the point of evolution is based on this. Evolution automatically presupposes physiological inequality along races, sexes, individuals and on. However I don't believe this is license to dehumanize or mistreat others over such differences, just as most people don't. As most people are not psychotic yids, and are not at war with bio-diversity and the entire natural order of existence. It's normal for people to create social-nation boundaries and classes based on natural recognition of such qualities and differences, and to segregate over them to preserve their value and increase it. Which is why the jews want to tear this down in the host society as a weapon of war against the goyim host.

The jewish psyche is so unhealthy they have an unconscious urge to self-destruction. And they are taking everything with them.
