While Netanyahu blamed Israel's critics for delegitimizing state of Israel at the recently concluded 4th 'International Conference of the Global Forum for Combating Anti-Semitism' and comparing Hitler's "Final Solution to Europe's Jewish Problem", Israeli daily YNet (June 9, 2013), reported the following "Blood Libel" news item from Italy.

Last week, Italian airport security officials at Rome arrested Israeli Jew, Gedalia Tauber, 77, for running a human organ harvesting ring from Brazil to South Africa to Israel. Tauber, who collects money from German funds for surviving the Jewish holocaust, is a former member of Israel's elite Navy commandos (Shayetet 13) and former head of Tel Aviv district police fraud investigation unit.

Tauber, a fugitive from a Brazilian jail where he was serving an 11 year sentence for his role in country's organ harvesting trade. In January 2002, an international warrant for Tauber's arrested was issued by a Brazilian court.

According to Brazilian media, "the ring enlisted poor Brazilians, enticing them to "donate" their organs for relatively small amount of money and then, together with an additional Israeli conspirator, the ring allegedly sold the organs to Israel, which had no knowledge of their shady origins for close to 20-times the amount paid to the donator."

Israeli and American Zionist Jews top the world's organ harvesting industry – from Haiti to Kosova to United States. On April 7, 2010, BBC reported the arrest of Israel's three-star General Meir Zamir and his five accomplices being investigated for their role in an international organ-trafficking ring.

In 1998 Scottish Alisdair Sinclair died under questionable circumstances while in Israeli custody at Ben Gurion airport. An autopsy performed at the University of Glasgow found out that Alisdair's heart and a tiny throat bone were missing. At this point the British Embassy filed a complaint with Israel.

In 2000 Dr Yehuda Hiss, former head of the Abu Kabir forensic institute near Tel Aviv – admitted that his staff was involved in harvesting skin, corneas, heart valves and bones from the bodies of Palestinians killed by Israeli soldiers.

Israel daily YNet reported on May 22, 2012 that Israel Police's National Fraud Unit has arrested ten Israelis including one physician for allegedly part of an organ harvesting network operating in Israel's two Muslim allies – Azerbaijan and Kosova.

In 2009, Solomon Dwek, a bankrupt Jewish real-state dealer helped FBI to nab several rabbis and pro-Israel politicians for money laundering and organ harvesting.

On August 17, 2009, Israeli writer, Donald BOSTROM, in an article entitled, Our sons plundered for their organs, claimed the Israeli soldiers have killed Palestinian kids just to collect their body organs. The author was hunted down by Jewish military apologists and Israeli Hasbara goons, calling him an antisemite.

In August 2010, Ukrainian police, busted an Israeli-run organ trafficking network illegally recruiting organ donors to send their body parts to Israel. In 2009, Ukrainian professor Vyacheslav Gudin, had claimed Israel had brought around 25,000 Ukrainian children into the country over the past two years in order to harvest their organs.

In September 2010, Israeli-linked organ harvesting ring was busted inside South Africa's largest healthcare company Netcare.

In January 2002 Nessim Dahan, an Israeli cabinet minister admitted that organs taken from Palestinian victims of Israeli soldiers could have been used in Israeli hospitals without the knowledge of victims' families.

Update. Her name isn't Marie it's Desirae K Salter. She works in corrections. She has a public

Facebook page.

More information about the Syrian Sayanim Zionist connection: are these Sephardic Jews funding the so-called Free Syrian Army?
