An Analytical Review

The zodiac sign representing this planet is Libra (Do not confuse this with the birth-sign in Astrology). Librans are basically down-to-earth practical people.

Libra is an earthly sign and hence its mundane nature manifests itself as down to earth practicality.

Librans are generally all-rounders. All-round excellence in all fields is the characteristic of the Libran.

Your materialistic outlook on life will be detrimental as far as happiness is concerned. The best way out of this lack of fulfillment is to indulge in yogic practices.

Librans even though love the pleasures of the mundane have a penchant for poetry and philosophy. "A flask of wine, a book of verse and Thou singing with me in the wilderness " is their basic philosophy.

Negative Aspect

Venus is a mundane planet giving you all the pleasures of Life. Carnal gratification of the senses and momentary pleasures he will give you in plenty. The main spiritual aim of Life will be thwarted and blocked by Venus. His movement is against Moksha or Self-Actualisation.
