

Invocation of Sepheranz

Spider Goddess of Atlantis

With the Blood of the Dragon
I open the Gates to the Atlantean Universe,
By the power of Hecate I walk the Path of the Ancients,
Fortified by the Scorpion Armour I face the Eternal Black Void,
With Lucifer's Fire I illuminate the Way,
As I descend into the Heart of the Darkest Night,
To summon the Spider Goddess of Atlantis,
Queen of Forgotten Temples,
Sepheranz,
She who has risen to consume the world in Her Black Flames!
I walk through the gateways of the Witch Gods
To ignite the Fire of Witchflame.
Come forth to me from the Lost Realms of Atlantis,
Arise from Forbidden Temples beneath the Paths of the Nightside,
Enter through the gates of flesh,
And enflame this body which I offer you as Temple!
Devil Queen of Black Atlantean Fire,
Seducer of Souls,
Devourer of Gods!
Inject your Venom into my soul,
Let it flow in my veins,
And transform it through your forbidden alchemy!
Fortify my soul with your Primal Essence,
Open the Eye of the Dragon,
And reveal to me Knowledge and Wisdom of the Trident!
Open for me the Gateways of Power,
And let me walk through the Paths of the Spider!
Goddess of purest Light and Dark,
I call you to enter my flesh, my mind, my soul,
My whole being,
Sepheranz, Black Atlantean Queen,
Let your Black Fire consume me from within!
