

## THE GNOSTIC MOVEMENT

The Gnostic Movement is the movement-synthesis of the new Era of Aquarius. All the Seven Schools of Yoga are in Gnosis, but in a synthetic and absolutely practical form.

There is tantric Hatha Yoga in the Maithuna (Sexual Magic); there is practical Raja Yoga, in the work on the Chakras; there is Gnana Yoga in the works and mental disciplines that from millions of years ago, we cultivate in secret. We have Bakti Yoga in our prayers and rituals; we have Laya Yoga in the meditation and respiratory exercises; there is Samadhi in our practices with the Maithuna and profound meditations; we live the Karma Yoga in the correct action (in the correct thought, in the correct feeling, etc.)

The secret science of the sufis and dancing dervishes, is in Gnosis; the secret doctrine of Buddhism and Taoism, is in Gnosis; the sacred magic of Nordic, is in Gnosis; the wisdom of Hermes, Buddha, Confucius, Mohammed, Quetzalcoatl, etc., is in Gnosis; the doctrine of the Christ, is the very Gnosis.

Jesus of Nazareth is in fact, the Super-Man of the synthesis. Jesus of Nazareth was an Essenian, he studied the Hebrew wisdom and had two Rabbi masters during his childhood. However, besides his profound knowledge of Zohar and Talmud, he also is an Egyptian initiate, an Egyptian Mason (Jesus studied in the pyramid of Kefren, Jesus is an Egyptian hierophant). He also travelled through Chaldea, Persia, Europe, India and Tibet. The travels of Jesus were not done with tourist intentions, the travels of Jesus were in order to study.

There exists secret documents that demonstrate that Jesus, the Great Gnostic Master, stayed in Lasha, capital of Tibet, sacred headquarters of Dalai Lama.

Jesus visited the holy Cathedral of Jo-Kang, in Tibet. It were enormous the quantity of knowledge that Jesus attained in all of those countries, in all the ancient schools of mysteries.

The Great Master gave us all of those Yogis knowledge, all of those Buddhistic, Hermetics, Zoroastrians, Talmudics, Chaldeans, Tibetans knowledge, etc., but in a synthetic manner, been already digested in his Gnosis.

Jesus did not found the Catholic Roman Church, Jesus found the Gnostic Church, the one that existed in times of Saint Augustine, the one that knew Jerome, Empedocles, Saint Thomas, Marcion of Ponto, Clement of Alexandria, Tertulian, Saint Ambrose, Harpocrates, and all the first Fathers of the Church, which in that epoch was called the Gnostic-Catholic Church.

The actual form of the Catholic-Roman Church, was not founded by Jesus. That Church is a deviation, a branch separated from the Holy Gnosis.

Humanity needs to return to the starting point, to come back to the holy Gnosis of the Hierophant Jesus the Christ, to return to the primitive Christianity, to the Christianity of Gnosis.

The doctrine of Jesus the Christ is the doctrine of the Essenes, the doctrine of the Nazarenes, Peratiseneans or Peratas, etc. In the doctrine of Jesus the Christ there is digested Yoga, Tibetan magic, practical Buddhism, Hermetic science, etc., etc., etc.

In the Gnosis is all the ancient wisdom, already digested.

Jesus the Divine Master, is the instructor of the world. If in truth we want the Inner Self-Realization, let us study the Gnosis, let us practice the Gnosis, let us live the path of the Gnostic Arhat.

The best exposition of the secret Doctrine, is in the Gnostic synthesis of the Great Hierophant Jesus, the Christ.

Gnosis save us work and study. If it were not because of the synthesis made by the Christ, we would need to assimilate millions of books in our head and to travel through the entire world, in order to find the path.

Fortunately, one person already did it, he was the Christ, who studied in the Buddhist Cathedral of Jo-Kang, investigating very ancient Tibetan books.

Why should we do that work of investigation? He already did that work, and in a synthetical manner, he gave us the whole Yoga, all the secret science. What else do we want?

Our duty is to study the Gnosis and to live it; that is what really counts. If the other laugh at us, if they attack, and calumniate us, how important could be it to the science and who cares?

You can be sure dear reader that the best of Yoga is in Gnosis. The best of Buddhism, Egyptian, Chaldean, Zoroastrian science, etc., is in Gnosis. Then, what? What else do we want? What else are we looking for?

The Gnostic Movement is the Revolutionary Movement of the New Era of Aquarius. In this moment there are many reactionary, backward people, that call themselves "Gnostics," and anathematize us because we teach the Great Arcanum, the Maithuna, they say that "we are doing a pan-sexual sinful work." They do not want humanity receiving the key of the Inner Self-Realization.

We have received letters from one of those pseudo Rosicrucians, pseudo Gnostics, in where he affirms that "he is in the Gnosis and with the Maithuna (Sexual Magic)," but he wants that key not to be taught to the painful humanity; he says that "people has to be prepared before giving the Maithuna..." And however, when that leader speaks with

certain students, he contradict himself, when he speaks against the Gnostic Movement and the Great Arcanum, qualifying us as pornographics, etc. Really, what he wants is not to allow anybody to go into the path of the razor's edge (those are the ones that do not enter and do not let others to enter). He knows the key of Sexual Magic, he knows the Maithuna, but he does not want the others to know it, he is committed to hide the truth to the poor human beings.

Sincerely, we have decided to fight constantly in order to initiate the New Era of Aquarius. We do not care of being criticized, insulted, betrayed; Gnosis has to be given to humanity against all odds. Jesus gave the Gnosis and we deliver it to humanity at any cost.

The Gnostic Movement presents the Gnostic knowledge in a revolutionary manner. The Gnostic Movement is revolutionary one hundred per cent; the Gnostic Movement has been created to initiate the New Era which is directed by a revolutionary planet, that planet is Uranus, the planet of sexuality, the planet of the constant revolution.

The Gnostic Christian Universal Movement has to fight tremendously, the good battle for the New Era of Aquarius... All the missionaries have to commit themselves in a fight to death, for the victory of the Christ-Jesus. All the Gnostic Schools have to do an extensive Gnostic promotion: pamphlets, flyers, books, commercials in radio, newspapers, etc.

Whoever wants the christification, has to be committed to give even the last drop of his blood for the Christ and the painful humanity. The egotistics, those that only think in themselves and their own progress, will never attain the Christification.

Actually, the Gnostic Movement has more that five millions of persons, but it needs to grow more, it needs to become powerful, gigantic, in order to transform the world to the New Era, that have already begun.

The war to death has to be against the ignorance, the fanaticism and terror. It is necessary to work intensively in the Great Work of the Father and to bring to our Gnostic lines thousands and thousands of people. We need to strengthen the Worldwide Salvation Army.

Remember, Gnostic brothers, that in the Gnosis of the Cosmic Christ is the synthesis of the Yogas, Lodges, Orders, Religions, Schools, Systems, etc. Our Great Master, Jesus the Christ, studied profoundly all of that Yoga, all of that ancient wisdom, and afterwards he delivered it to us in his Gnosis, but already digested and perfectly simplified, in absolute practical manner.

There is Gnosis in the Buddhist doctrine, in the Tantric Buddhism of Tibet, in the Buddhism Zen of Japan, in the Buddhism Chan of China, in the Sufis, in the dancing Dervishes, in the Egyptian, Chaldean, Pythagorean, Greek, Aztec, Maya, Inca wisdom, etc.

If we study carefully the Christian Gospels, we will see in them the Pythagorean mathematic, the Chaldean and Babylonian parable and the formidable Buddhist ethic.

The system of teaching adopted by Jesus, was the Essenian one. Certainly the Essenes were Gnostics in one hundred per cent.

The four Gospels are Gnostics, and would not be possible to understand them without the Maithuna (Sexual Magic).

It would be absurd to adulterate the Gnosis with distinct teachings. The Christian Gospel forbid the adultery.

It is absurd to imagine Gnosis without the Maithuna. We can drink the Wine of Gnosis or Divine Wisdom, in a Greek or Buddhist or Suphi or Aztec or Egyptian glass, etc. but we do not have to adulterate that delicious wine with different doctrines.

In the Gnostic Movement is the practical synthesis of Gnosis, in an absolute revolutionary manner.

The Gnostic Movement is related with the zodiacal sign of Aquarius, therefore it is absolutely revolutionary.

The Schools of the Gnostic Movement have to be Esoteric Academies and Temples of Solar Liturgy.

As a matter of fact, the Gnostic Rituals, are Solar Liturgy.

Today, the intellectual animal does not have a Solar Astral body (that is a luxury that very few can have). The actual humanoid, that is to say, the intellectual animal, only has Ego, the intellectual animal is a slave of the Lunar Influence, it carries the Moon in his Astral Substance. Really, the humanoid is a hybrid mixture of "vegetable and ghost."

The only thing that carries the intellectual animal is the Legion of the "I" and the asleep Buddhata (inclosed among the Ego).

The Gnostic Movement teaches the Maithuna, so the intellectual animal can fabricate the Solar Astral body.

It is necessary for the intellectual animal to freed himself from the Moon and to become a Solar Man.

The Gnostic Rituals identify ourselves with the Solar Force.

It is necessary to fight against the Lunar Force, to be really free. That is what the Gnostic Movement wants.

The Moon is death, the Sun is abundant life. The Moon is materialism, drunkenness, banquets, lust, anger, greed, envy, pride, laziness, incredulity, etc. The Sun is fire, wisdom, love, divine spirit, splendour, etc. The Sun is the Cosmic Christ, the Word, the Great Word. The four Gnostic Gospels constitute the Solar Drama, the Drama of the Christ.

We need to live the Solar Drama, we need to become the central personage of that Cosmic Drama.

It does not matter if we are criticized, hated, for divulging the Maithuna (Sexual Magic), for the good of this poor painful humanity.

Really, it produces pain to see those poor infra-sexuals in the Molecular world: after death they walk through the Molecular world as shadows (sleepwalkers, asleep, colds, unconscious).

How useful could it be (to those infra-sexuals) all their subjective practices? How useful could it be all their believes, systems, orders, etc.?

\*Uselessly they will intent the liberation, despising the sex or renouncing to Maithuna, or following the degenerate path of the homosexuals, lesbians, masturbators, etc.

\*Uselessly the (sincere mistakenness) will try to create the Solar Bodies practising respiratory exercises, or Yogi exercises without Maithuna, or with similar exercises, or with vegetarian diets, etc.

It is completely demonstrated that we are sons of the sex, and that only the sex can create.

Really, only by means of sex we can create the Solar Bodies; only with the marvellous force of the Third Logos we can become Solar Men.

We want to teach to humanity the Solar Religion, we want to deliver to this poor lunar phantoms, the Solar Doctrine of the Cosmic Christ, having as only goal the Christification of man.

It is urgent the birth of Christ in the heart of man, it is necessary that each human being could transform himself in a Super-Man.

The Gnostic Movement has a gigantic work in the Era of Aquarius: we have received the sacred mission of teaching to this poor humanity the Doctrine of the Solar Logos.

We have to fight to death, in order to make the Gnostic Movement more and more powerful. We need this Movement to become omnipotent, for the good of so many millions of human beings that are in the path of the Second Dead. We need to be compassionate and deliver the Solar Doctrine to humanity, at any cost!
