# Templi Unam ~ August 21 Black Sun Ritual

One will face *North* and call upon the Hyperborean Gods in the position of the **MAN** Rune . Then one will place a candle in the ground and perform this act at each direction. Each candle should be held up towards their unique direction and offered to that particular wind. They will walk backwards in the direction of the *Leftward-Rotating Swastika* and place a candle in the *North*, *West*, then *South* and then *East*. Then one should place their *Self* in the middle of the Circle or Swastika, as a symbol of the Pole, of Thule, Hyperborea. Place the dagger into the ground whilst facing *North* after making one round and lite the incense which will be burnt in front of one. If a group of people are involved then they should gather around the Initiate within a circle.

Now one will sit and relax and go into his or her *Astral Body* and meditate on bringing Light and A-Mor to all the good people of the earth. The innocents, the down-trodden, the *Lucifers*. One will focus on sending a *collective baneful frequency* towards our enemy. This should go on for 20 minutes and when the eclipse is about to take place one will assume the **MAN** rune position facing *North*. And from that point on one will recite the *Invocation to the Black Sun*.

Oh, Luci-Bel, Oh Morning Star **Oyeihue** 

May your deep light fall upon me Moist and damp

Cover me in your petals Your petals Of light Like in the skies of Autumn

Permit me to pass Through your Window Towards the **Black Sun** That waits behind you

Oh, **Black Sun**!
Absorb me in your light
Backwards
Faster than the light
Of the **Golden Sun** 

And give me shelter In the inexistence

### Of the Green Ray

Where the Master Dwells Even the Masters of my Master And dwell the High Secret Guides Of Esoteric Hitlerism

#### Oh, Green Ray!

Engulf me in your inexistence But more real than any inexistence

Help me to realize Impossible Dreams

The Resurrection of the Beloved And the return of the Fuhrer, **Adolf Hitler** The re-creation of Esoteric Hitlerism And the possession of the Archetype

Until the consummation of his Myth And it's Legend In the Resurrection of the Flesh

The Immortal Vajra

Permit me to return to the **Black Sun** 

## Oh, Black Sun!

Reabsorb me in your rotating light And carry me to back to your home

The Morning and Evening Star

## Yepun-Oyeihue

Oh, Morning and Evening Star!
Together with my **A-Mada** 

Now that She may fight Within me, Within My Blood

In my Impenetrable body of **Red Light** The Immortal Vajra

The Incorruptible Power of **Odil** 

It Resides in **NOS**The Vision and the Voice

And quickly we come to realize the Legend and the Myth Of **A-MOR** 

Until the consummation And Transfiguration Into the Absolute Man and Woman

Oh, Evening Star, **Yepun!**Allow me to pass
Through your Window
To the **Golden Sun**and to **Gerda** 

To continue fighting there And to be able, one day To vindicate Thee again

Oh, my Guide Lucifer! Oh, Sun of Gold!

Let us pass in the Nostalgia Of the **Green Ray** So that She and I We leave here

 $Towards\ something\ never\ heard$ 

Towards **ELELLA** 

Beyond the **Green Ray** And of its Inexistence

Heil! Sieg Heil!

The Ritual ends after the provocative chanting of *HEIL! SIEG HEIL!*
