

cainite commentary 4

But regarding to the other statements, yes, it is true that the professor and perhaps a psychologist, Erroo Aragón, he had an order called Archicephalo, Archicephalo, not Archipelago. And in that order, the pontifex was, as a pontifex, they practiced sex magic, sexual magic, as to gain more magic power, but Nimrod D'Rosario, he didn't have sex, you know, that's the characteristic, actually, of him. He never had any sex other than only for transmutate himself, once he did the ritual, and then never had sex again.

So that was actually a characteristic of him. And many others, you know, he was a remarkable person because he was not a human being, really, he was an agent, yes, he was an agent from the gods. He went to live on Antarctica a lot of time, you know, an inhuman amount of time.

He passed there, he went there in the cold of Antarctica. He was inhuman in every aspect of his life, and we have the works, you know, his books are completely out of this world, out of the human capability of doing things. So this is true that the order Narcissephalo existed, especially in 94, and it is true that they practiced sexual rituals, you know, magic.

Nimrod de Rosario was a pontifex of that order, because he gave the theology of all that. But the order wasn't from Nimrod de Rosario, it's not his order, it's the order of the parapsychologist Herubaragon, he's another thing. Many people want to bring it all together, but it's a different thing.

In the Narcissephalo, the goal was to gain magical power, it's another purpose. The order of the Tyrodal Knights of the Republic of Argentina was founded by, started by Nimrod de Rosario. So there is two order, there are two different order completely.

There are. This has to be addressed, have to be addressed, because there is some truth, but there is falsehood in those claims, you know. It is a delicate matter, because it's, yeah, a very taboo thing, you know, to speak.

What is that? They make magic rituals, but everything is about magic here, everything. But parapsychology, you can exercise it without getting involved in sexual practices, but sexuality is important. To retain your sexual energy, to know how to use it, it is important.

Yes, and what else? Nimrod de Rosario never died, really. He never died. So he was, yeah, when he fulfilled his mission on Earth, he was waiting to the extraterrestrials, so to speak, which are the gods, to carry him again to Agartha.

And he disappeared. Even more stranger than that is that this death, you know, or disappearing of Nimrod de Rosario, they wanted to delay the noticing of that, so they put

a clone of Luis Felipe Moyano. They put a clone of Luis Felipe Moyano, which was very different than the thing, but yes, why did they do that? I don't know.

They delayed, for this matrix, the awareness of the disappearance of Moyano. I don't know why they did that. But it is that clone what really died, so to speak.

Luis Felipe Moyano was, yeah, how do I say this? He was an extraterrestrial, so to speak. He came here to a mission, which is writing a book, the magical novel. And then he went again to Agartha, and that's all.

He didn't die, really. Adolf Hitler didn't die as well. In Hiperborea, you don't become old, apparently.

You live forever. In the myths, the god Apollo went to Hiperborea to be young again, you know. So, that's it.

That's what is true and what is false of Nimrod de Rosario and Heru Aragon. It is true that Heru Aragon created an order, to study the magic and study the sexual magic specifically. But they had experiences there and having encounters with the gods in that order.

But that's intimacy of the members of the order. It doesn't concern the public discussion or opinion. What is true, it is the Hiperborean path traced by Nimrod de Rosario in the Orden de Caballeros Tirodal.

It involves the knowledge of sex as the tool that enchained the spirit in here, and what is capable to free the spirit from here. But it is a very specific way to make the sexual act. It's not for pleasure.

It's another thing. And ultimately you transcend even sex and you transcend everything. That's why we are here.

We want to go away from this world. And that's some of the explanations that these rumors have. The enemy likes to spread rumors.

The enemy says that, I don't know, Nimrod de Rosario was a Jew or whatever. The enemy invents. The enemy just makes fables.

But sometimes they make fables out of certain things that are true. I clarified everything now. There are two orders.

Arquicefalo is different from the Tirodal. I am a Tirodal. And that is why I can speak.

But there are two ways to regard this thing of the Tirodal Knights of the Argentinian Republic, etc. Some say that the order is over. No more Tirodal Knights.

That's ended. But yesterday I was listening to an ex-Tirodal. And this ex-Tirodal, the ones who were actually initiated by Nimrod in real life.

He says that, yes, it is true that the physical order is over. But the order still exists. How so? The order exists in the chosen ones.

You have read the magical novel, El Misterio de Belisena Vilca. And have accepted the Fundamentos de la Sabiduría Hiperbórea. The Fundamentals of the Hiperborean Wisdom.

The ones who read that and accept that. And the ones who have chosen themselves in other lives before coming here. The ones who are chosen ones.

Chosen by the gods as well. Because the gods guide him. The gods guided him to awake his spirit.

And this is the chosen one. So, wherever a chosen one awakens his spirit and reads all of the Fundamentals and all the work, there is a Tirodal Knight. That is very interesting.

Because in my experience, in my personal experience, when I was reading the Fundamentals, the Fundamentals of the Hiperborean Wisdom, I perceived that. That that was the truth about the Tirodal Order. It is a metaphysical order.

Sorry about the noise.
