

TO THE FUNDAMENTALS FOR THE AWAKENING OF A NATION AND THE INDIVIDUAL

As of today I have decided to post some reflections that I want to share with all of you, without distinction. To those who can understand, welcome, to those who surpass me, my respects. And to those who do not, no way. Maybe in another Manvantara.

PART ONE: AWAKENING

1. IMPORTANCE OF THE PAST.

We begin the development of this point with a question: What is the importance of the past in any conscious process directed towards awakening?

We say that it is con-sentient, because it must be FEELED by the individual, and that sense must flow from his blood. It is possible that this "value" is hidden in the depths of the Unconscious, waiting to be discovered by some daring person who wishes to integrate with the "shadow". The psychology of C. G. Jung points in that direction. True Alchemy,

too. So let us not rush to question the true meaning of BLOOD.

To carry out a serious retrospection we must use intuition, that is, reflect on the spatial and temporal reality in such a way that we can recover the sense (the feeling) of the men and women who were the protagonists of the historical event.

Now we must go further: the very Origin of the Human Being in the most remote past.

The first thing we will find is a gap. Where to locate the origin? Answer: Not in the official history that tells us about a ridiculously short period of time: only 6000 years.

History has established Sumer as the cradle of civilization. Let's see: there is a whole catastrophe in between: the universal flood. That is to say, the history of Sumer begins long before the flood; we know very little about the history of man, how he lived, what his civilization was like before that cataclysm.

Spatially speaking, the Sumerian civilization is located in the Tigris and Euphrates valley (present-day Iraq).

Were there no other regions on the planet in which to develop and expand a civilization? Of course there were. In America, the archaeological vestiges found in Tiwanacu take us back to fifteen thousand years ago, perhaps we are in front of the same source of the Origin, or very close to it.

When we speak of the Origin, we refer to the historical starting point in this world, of the ORIGINAL MAN; of that PRIMORDIAL MAN from whom we all descend, since we undoubtedly carry in our blood the inheritance of this common ancestor.

It is evident up to this point that official history is trying to hide something from us. It tells us nothing valid about our ancestor. It insists that he was just a monkey. Why? First, because he was not a monkey. We are not monkeys. Secondly, because the ORIGINAL men and women lived according to a radically different cosmogony. THEY HELD A VISION TOTALLY DIFFERENT FROM THE VISION OF

TODAY'S MAN, DISTORTED BY THE ACCUMULATION, OVER CENTURIES, IF NOT MILLENNIA, OF CRUSTS, CULTURAL WRAPPINGS, THAT MASK, COVER UP THE ESSENTIAL TRUTH NOT ONLY OF HISTORICAL FACTS, BUT OF THE WORLD AND ITS PHENOMENA. Here is the key, the real importance for modern man to recover the lost SENSE in order to enrich his poor historical vision of antiquity and of our ancestor, who, we repeat, was not a monkey.

The ancient world was not the gigantic supermarket that today's world has become. In the ancient world there were no nations but Empires. Ancient men were not Democratic, they were Aristocratic, Warriors. The ancient world and its human communities revolved around an ARISTOCRACY OF BLOOD.

All the empires of antiquity were ruled by a caste of kings and warriors. In the 13th century the first nation of the West, France, was born under Philip the Fair. It was governed by an aristocracy of blood and until very advanced the XIX century all the great European nations were governed by dynasties of royal and warrior lineage.

Its origins go back to lineages of kings and lords whose traces are lost, more often than not, in the most remote past.

It was not in vain that the ancestry, the ROYAL BLOOD, was taken care of. There was some "agent" in that blood that gave its bearer an attribute, a dignity that was unquestionable and only communicable to the community through charisma.

This means that the ORIGINAL MAN, THE ANCESTOR, was an INTEGRATED BEING, PURE, THEREFORE HAD AN INNATE LORDSHIP. IT WAS THE TRUNK FROM WHICH MILLIONS OF HUMANS WOULD BE GENERATED. So, those who think that we are "classist" because of the arguments made up to this point, we can only tell them that the "rojelios" teachers of the university have contributed in affirming to them an absolutely distorted vision of the objective reality. What a pity.

OUR ANCESTOR WAS A PERFECT HUMAN BEING, much more INTEGRAL than today's Human Being. Do you understand now?

The ancient imperial society has always been divided into castes for that reason. Generally three or four, with differentiated and specific functions. Ruling, a caste of Kings and Warriors where the blood of that "perfect ancestor" was more pure, that is to say, ORIGINAL, this caste was very small in number, sometimes only consisted of one family; It was not cloned, nor mixed. Then came a Priestly caste in charge of the cult, with less pure blood. The ancients were much more sacralizing than now. Next we have a citizen caste with specific rights and duties, already mixed, much more degraded, therefore more numerous. And finally the lowest of all, let us call it the plebeian caste, the most numerous, therefore the most promiscuous, the most mixed. It was so in ancient Sumer, in Egypt, in Persia, in Greece, in Rome, and also among the Mayas, Aztecs and Incas.

If you cannot believe it, and think that we are "oligarchs and discriminators" when we say this, you only have to analyze well the historical records that abound in these extremes, and realize that men ARE NOT EQUAL and that only some are qualified to govern.

ALL THESE EMPIRES LASTED FOR THOUSANDS OF YEARS, because they were very clear.

Question: Is the United States of America an Empire? Answer: on the analysis we have made we can answer with a categorical and resounding NO. The United States of America is not an Empire even though the Communist International is tearing its clothes.

AT PRESENT THERE ARE NO EMPIRES, ONLY ECONOMIC EMPIRES, DECADENT DEMOCRACIES.

It is better not to talk about Cuba. A Kamarada gave me an excellent criterion in this regard: CUABA IS AN ENTELEQUY OF THE SYNARCHY.

To conclude this analysis that began with a brief review of the world's oldest civilization according to official historiography, Sumer, we will say that it is evident that prior to the cataclysm or cataclysms that devastated the planet some 8 or 9 thousand years ago, there was a civilization whose name is still preserved in the myths and legends of many ancient peoples: Atlantis.

The Bolivian-German scholar Arturo Posnansky is one of the most recognized experts attacked by the scientific community for the archaeological studies he carried out at Tiwanaku at the beginning of the 20th century.

The archaeological remains of Tiwanacu, according to dating obtained and certified by laboratories around the world, correspond to the period of the Atlantean civilization that existed about 15,000 years ago. However, historians continue to attribute a ridiculously short age to Tiwanacu, ignoring any serious scientific dating that does not fit within their particular vision of history. Here the postulate of the cultural masking of the historical fact by premises, guidelines, reasoning, matters of faith, creed, doctrines, lines, or whatever you want to call the particular subjective influences of the historian is fulfilled.

Well, ancient civilizations were eminently warlike for "reasons" that modern man cannot explain, let alone understand. And this warrior legacy was assumed to a lesser or greater degree by later civilizations and peoples.

As an example, we will use Sparta as a historical reference. We can deduce that the history of Sparta goes back to about a thousand years before Jesus Christ, that is, about 3000 years. The origin of the Hellenic civilization is to be found in the Aryan peoples who came from the Caucasus to Mediterranean Europe. Among these Aryan peoples were the Dorians, who in turn originated the lineages of Cretan and Mycenaean warrior kings.

Sparta preserved the warrior tradition bequeathed by their ancestors as a way of life. They practiced euthanasia and only let live the strongest and most robust boys and girls. This may seem harsh to us, modern men, who practice humanism and compassion. But we must recognize that the only way to preserve the original purity of a race is to extirpate all that has been genetically degraded.

Let us continue: as their society is eminently warlike, they instituted the Agoge to form hard and ruthless soldiers. It was necessary that from childhood, individuals forged character and will. They had to develop a resistance to pain as a principle of survival. To be eligible for citizenship the future Spartan had to fulfill military and religious duties. Evidently, it was not like today, when any outcast is considered a citizen thanks to our abject sentimental humanitarianism.

As for the military, they used the FALANGE, a combat formation whose strength revolved around loyalty, mutual respect and teamwork. THERE IS ONLY ONE MORALITY FOR THE SPARTAN: HONOR AND RESPECT.

The Ilotas were a caste of artisans, herdsmen and farmers, they also had to assume a military preparation and fight for Sparta if necessary.

LET'S ANALYZE: WHY THE SPARTAN'S WARRIOR LIFE? ANSWER: BECAUSE IT WAS AN ANCESTRAL LEGACY. ONLY THE WARRIOR LIFE PSYCHICALLY INTEGRATES MAN. ONLY FROM A HIGHER PSYCHIC CENTER CAN WE REINTEGRATE, STRENGTHEN AND BE MASTERS OF OURSELVES. QUESTION: WHAT IS THAT HIGHER CENTER? ANSWER: THAT PLACE IN OUR CONSCIOUSNESS WHERE, AROUND A SYMBOL, A SUPREME PRINCIPLE

THAT CONTROLS AND AGGLUTINATES ALL PSYCHIC AND MENTAL CONTENT IS SEATED: HONOR.

Complicated? Well, let's make some clarifications. To reintegrate psychically we must master our fears.

Question: What is the primordial fear?...What is the mother of all fears?....

Answer: FEAR OF DEATH. So there is only one way to reintegration, that is, only one way to lose the fear of death, and that way is the FEELING OF HONOR. FEELING THE WARRIOR.

It is not possible to speak rationally of a spiritual principle. Honor is not rationalized, it is FEELED. We will try to unravel part of its meaning in order to approach this symbol rationally at a later point in this manifesto.

We will now introduce ourselves to the symbolic language that lies behind every Myth.

The Spartans were pagans, that is, they did not accept monotheism, they were polytheists. The Greek gods represented IDEAS that must not only be induced on the basis of rational thought, but primarily required symbolic INTUITION. Athena was the Goddess of Arts and War. She is represented with Helm and Mane as a Crest. Questions: Is modern man capable of understanding this symbology? Why did phalanx Captains wear a crest on their helmets and infantrymen did not? And why do kings wear a crown in the form of a "Crest" like the goddess Athena? What is a "Crest"?

For the curious seekers, you can refer to one of the contents of this blog where we refer to this particular symbol. The Serpent II.

Finally, what does the letter "Kenaz", which is represented as an inverted "V" on the Spartan shields, mean in our eyes?

We must admit that most modern men lack the necessary elements in their rational structure to answer these questions. Modern man has almost completely lost the symbolic intuition, the symbolic language, therefore, the meaning, THE original MEANING of ALL symbols.

WITH THIS CONTEXT WE CAN ESTABLISH THE IMPORTANCE OF MYTHS SINCE THEY CONTAIN, THROUGH SYMBOLISM, THE GUIDELINES WE NEED TO PUT TOGETHER THE PUZZLE OF THE LOST HISTORY OF MANKIND, RECOVERING ITS TRUE MEANING.

Now let's look at a sector of our society today and compare. Children are raised from birth around social symbols that alienate the will instead of reaffirming it. Overprotection.

For their formation, nurseries and schools have been created where the integral development of the individual is not promoted; the soul and the spirit are subjected to a permanent degradation in pursuit of a recalcitrant rationalism.

In all these institutions character and willpower are no longer forged, all discipline has been relaxed and spiritual symbols can no longer emerge, nor be understood, because of the metaphysical mutilation, i.e., THE LACK OF SYMBOLIC INTUITION, which is fostered by democratized educational systems.

The Goddess Democracy! Yes, almost everyone thinks it is a "good" thing. When the Athenians created it, it was very different from how modern man conceives it: An excuse to grant political decision-making power to those who don't know the first thing about politics. Great. Keep idolizing that distorted form of real democracy, which was only exercised by politically aware people.

Let us continue: The principle of resistance to pain no longer exists. Our race is in decline, individuals are insensitive because of the fear of pain, and it is impossible to even think of developing their sense. Sensitive men and women suffer psychic imbalances and traumas. Never before in its history has mankind suffered as now the apogee of mental illnesses.

Society develops in the cities far from the countryside, and the ill-named "citizens" who consider themselves as such only because they were born in a country or nation without any proof of their personal responsibilities and capabilities, live their lives to rationalize and buy. All fighting spirit has slipped away, giving way to a typically playful "competitiveness". Now the law of the hive rules, accumulate money and live without any sense, and without sense it is impossible for us to even understand a little of our Spartan or any other ancestor.

We are now in a position to answer the question with which we began this section: What is the importance of the past in any conscious process directed towards awakening?

Answer: IN THE PAST ARE THE KEYS TO UNDERSTAND THE SYMBOLIC CONTENT WE CARRY IN OUR BLOOD. ONLY BY UNDERSTANDING AND WHAT IS MORE IMPORTANT, BY FEELING THE SYMBOLS, WE WILL BE ABLE TO BEGIN OUR GRADUAL AWAKENING. WE WILL ASSUME A TRUE IDENTITY.

Let's review some facts that interest us. If we are going to look back, what do we know about the history of the Inca before the arrival of Christopher Columbus? Let's rephrase the question: Were there other "conquistadors" before the Spanish, English, Portuguese and French?

Answer: Yes, of course. But, why don't historians talk about those older expeditions that arrived to this continent?

Answer: Because they use cultural patterns rigged by Judeo-Christianity. Let us exemplify.

Let's talk about our folkloric traditions. We have all seen a "Morenada" and we know that it represents the memory that the indigenous people have of the black slaves brought by the Spanish conqueror. The same can be said of the "Caporales", the dance represents the yoke of the black slaves at the hands of the slave driver or "caporal". So, in this context: what does the "diablada" represent?

According to the average historian, half color-blind (unable to intuit the symbolic meaning), who relies on relative patterns to see history, it is a very abstract representation of good and evil, which is related to the mining myth of the "Uncle". We can only say in this respect that this historian lacks much imagination.

So let's answer the previous question by looking with the eyes of meaning. The "diablada" represents the arrival of Nordic peoples, specifically the Viquingos, to America. Now, let's visualize: the devils are represented with horns, because of the horns of the Viking helmets, the masks have blond or white manes, blue eyes framed in warrior fire, like the Viking Berserk. The costumes are white, due to the white skin of the Norse, and the "devils" carry swords. These devils are presided over by the White Bears, who only exist in the Arctic and

"Devils" representing the Walkyries of Norse mythology. In addition, at the head of this phalanx, there is an angel, who can be none other than Lucifer, the arch rival of the Jewish god. There we have the reason why they do not want us to see this historical reality and why they lie to us with this absurd tale of good and evil that does not explain ANYTHING, just as it does not explain anything about the relationship that the diablada may have with the myth of the "Uncle"?

We cannot see the historical facts and adequately interpret the Andean myths seeing through the "crystal" of the Judeo-Christian symbology. There is an eminently Christian symbolic vision, that is, not JUDEO-Christian. It is with that vision that we have deduced the meaning of the Diablada behind the Myth above. The Jewish always degrades any mythology of pagan origin, hence the need to detach ourselves from the JEWISH MENTALITY.

Someone may ask: Why are we attacking the "poor" Jews? No one is attacking the Jews, we are only highlighting their twisted mentality plagued with symbols alien to our ancestral traditions.

Imagine the implications: The Nordic peoples were allies of the Inca empire. What's more, we share the same symbology. We are blood brothers. And this even if the "Indigenists" stand on their hands. If we had kept this in our collective memory during World War II, we would never have allied with the enemy of our blood, as it happened, and therefore they would never have had the opportunity to impoverish us, as they finally did.

To conclude this section, we will talk a little about historical revisionism.

The cultural patterns that sustain today's West are remnants of history skillfully distorted towards an end: modern man has intellectually, culturally and integrally surpassed the forms and structures that governed in antiquity, and is heading towards a future of progress without parallel in history. Typical gnoseological pattern of the Judaic mentality. It is called "progressivism" and its mentors are, with rare exceptions, all Jews. This is SUPEREVIDENT.

It is enough to take a look at our democratic and modern palpable world to realize that something does not close with this conception of the world. That is why it is important for a movement tending towards the restoration and awakening of man, to review history again to find more solid foundations than the Fall of the Western Roman Empire, the fall of the Byzantine Empire, the French Revolution and the Bolshevik Revolution as starting points to establish the different historical periods, and thus build a cultural structure that sets other more valuable, more comprehensive and more valuable guidelines for those of us who do not conform to the Jewish mentality.

The French Revolution inspired all the disintegrating movements of a State by promoting the usurpation of power by the less fit with the fall of the monarchy. The Bolshevik revolution is better left unsaid, since it marked the beginning of the decline of the West and the birth of many of the world institutions that have turned the world into a globalized market.

If we jump in time, these same disintegrating tendencies promote that Athens was better than Sparta, or that the Knights Templar and lodges of all kinds were pillars for the evolution of societies and nations.

It is very important to look with different eyes at what these disintegrative tendencies look at with bad eyes. This is the basis of the so-called historical revisionism. Let us take a closer look at the achievements of the universal empire proposed not only by Alexander's Greece, but by the Persia of Xerxes and Darius, the Rome of Julius Caesar and Hadrian, the France of Philip the Beautiful, the Holy Roman Empire of Frederick II, the Napoleonic Empire, the Paraguay of Francisco Solano Lopez and National Socialist Germany.

We must go back to the bloody events of World War II to see the real causes that led to that conflict and to understand that what is happening today is a product of what happened in that war.

And here we touch one of the most important knots of these foundations and that consists in the proposal that we make to relegate the current cultural patterns for others, more reliable and true of man and his history. WE MUST GET RID OF THIS SPURIOUS MENTALITY AT ALL COSTS IN ORDER TO BE ABLE TO OBSERVE OBJECTIVELY THE MOST IMPORTANT HISTORICAL FACTS OF THE PAGAN HISTORY OF MANKIND. BECAUSE UNDERSTAND THIS, BEFORE THE TRIUMPH AND IMPOSITION OF JUDEO-CHRISTIANITY ALL MANKIND HERE AND IN EUROPE WAS PAGAN WITH ITS OWN PAGAN CHRIST.

Thus, we urge all men and women of good will to turn their eyes to the past free from the deceptive veil of Judeo-Christian symbols that are alien to our ancestral blood.

2. OF ANCIENT MAN AND MODERN MAN.

The ancients were tougher, they had more sense, more intuition. It is obvious, they did not need to go to colleges and universities, and man had to look inside what the contemporary citizen of the city looks for outside himself.

The ancient man was born knowing everything, he did not need to specialize as he does today. Childhood was hard because of the way of life, there were no complicated civilized structures such as schools and universities, the father had to act as a teacher of his children directing their innate wisdom to the proper understanding of the external world. There were no hospitals because there was no disease as a cultural object, indeed, there were very few cultural objects. After blood degraded, diseases appeared and our ancestor had to become a doctor; there were not many trades, so arts were practiced as a rule. Basically, in an ancient society the teaching of the new generations was much more comprehensive. Above all the arts, the art of war stood out.

One might ask: In ancient times, when there was nothing at all, no writing, no cities, no civilization, how did the ancients know about everything? Who taught them?

Let's rephrase the question: Is it possible that our ancestor in a remote origin was born knowing everything?

Rationality will say: No, it is impossible. Man had to evolve, develop his rational thinking to create these conditions little by little in the course of millennia, building more and more complex structures.

Then another question arises: How did the ancients erect fabulous civilizations that modern man can barely glimpse?

The answer is simple, but its complete understanding may involve some difficulties: BECAUSE THE ANCIENT MEN POSSESSED THE KEYS OF WISDOM IN THEIR OWN BLOOD. AND WHAT REMAINS OF THE LAW OF EVOLUTION? ANSWER: THERE IS NO SUCH EVOLUTION, BUT RATHER AN INVOLUTION, AND THIS IS UNDENIABLE. THIS INVOLUTION CONSISTS IN A DEGRADATION OF THE SYMBOLIC CONTENT IN THE BLOOD WITH THE GRADUAL LOSS OF THE ORIGINAL SENSE WHICH, BESIDES THE NORMAL RATIONALIZATION, REQUIRES SYMBOLIC INTUITION TO BE ASSIMILATED AND THUS TO UNRAVEL THE PRECISE NATURE OF EVERY THING OR ENTITY.

The ancients were small in number and had a much longer life span. There are indications that they were giants in the Origin itself. THEY INVENTED LANGUAGE BY UNRAVELING THE PALPABLE WORLD AND ASSIGNING A SYMBOL TO EVERYTHING IN THE CREATED UNIVERSE. THEY THEREFORE HELD THE KEYS TO WISDOM IN ITS FIRST AND ONLY SENSE.

We will now touch on a very difficult subject for the profane vision of the globalized world: the subject of race. As antecedent we must recognize that closer to the origin of humanity, human groups were well differentiated racially. Here we refer to the biological race, because there is, and we will deal with this subject later, another concept: that of SPIRITUAL RACE, which has nothing to do with the concept of biological race.

We understand by biological race the human biotype that can be differentiated from other biotypes by somatic characteristics such as height, skin color, physical traits, blood type, psychic tendencies, etc. Thus we can establish that in the beginning there were purer biotypes of the existing races, since there was no

admixture. THE ANCIENTS ESTABLISHED AS A PRINCIPLE TO AVOID RACIAL MIXING, PRECISELY TO AVOID THE DEGRADATION OF THE SYMBOLIC CONTENT OF THE BLOOD.

Over time, culturally confused peoples tended to mix indiscriminately and the consequences can be seen today in our own countries. High infant mortality rates, low resistance to both physical and mental illnesses, overpopulation with an overwhelming majority of mestizos, mental weakness, gradual loss of the power of abstraction, tendency towards mental debauchery, insipient spirituality, enervation of willpower, etc.

And here we enter fully into the consideration of the characteristics of modern, present-day man. AS A RESULT OF SANGUINE DEGRADATION, WESTERN MAN SUFFERS FROM A METAPHYSICAL AMNESIA. Every psychic content is the representation of a symbol. Every symbol is the representation of an idea. Therefore,

all mental content is immaterial, not palpable and can only be understood and rationalized through metaphysics, because if it were a material, tangible, palpable object, its comprehension would entail the use of physics.

The worst problem of this amnesia is that it affects our ability to understand and, therefore, to communicate. If you have not studied and passed a course of semantics and semiology with a degree, it is very difficult for a moderately educated human being to even know what he or she is saying. This is what blood degradation has led us to.

Man has become sentimental. Let us analyze: SENTI-MENTIMENT, i.e., SENSE. Interesting, however, it has the wrong meaning and by rationalizing a symbol with the meaning forged by the cultural crust it can only

there is confusion of language. IT IS ALL CONFUSION NOW. That's what we call Jewish mentality, ILLUSION-INDUCED SENSE.

Let us continue. In this blindness, man is unable to perceive the metaphysical reality behind all material phenomena.

We can thus say that if we were to define in one word the situation of Western man, it would be CONFUSION.

Man sustains with his mentality the reality and stability of his environment. That is to say, he sustains a PSYCHOREGYON.

Metaphysics is the foundation of physics and not the other way around. Our thinking affects sensible reality and if we are confused, reality will be confused.

That is the sad plight of Western man. He mints an endless number of symbols with the wrong meaning. That is to say: he speaks of democracy and has not the slightest idea of what this idea means. He speaks of equality, of fraternity, of love, but nevertheless we only see the opposite in the real world: Synarchy (concentration of power in a few hands), inequality, self-interested friendship, hatred.

Continuing with the characteristics that make contemporary man, we will say that his gnoseological evil has as a visible result the disintegration of his psyche, because he looks outside: schools, universities, jobs, possessions, what he only carries inside, in his blood: wisdom. Well, as long as the degradation is not irreversible.

IN SYNTHESIS, IN ORDER TO AWAKEN, IT IS NECESSARY TO ACCEPT THAT THE ANCIENT MAN WAS MORE INTEGRATED, KNEW MORE, WAS STRONGER, WAS CONNECTED WITH HIS CENTER OF PERSONAL POWER: THE SELF, AND WAS, THEREFORE, MORE CAPABLE THAN THE PRESENT MAN TO PROJECT A VISION OF THE WORLD THAT WAS MORE APPROPRIATE, MORE REAL, AND MORE HEARTFELT. THAT IS WHY THEY WERE

WARRIORS, BECAUSE TO LIVE IN THE MATERIAL WORLD WITH DIGNITY AND RESPECT, ONE MUST BE AND FEEL THE WARRIOR.

The ancients were barbarians because, for the reasons given above, they rejected civilization. Civilization requires the existence of more complex rational structures, therefore the more reason, the less sense. The less sense, the less symbolic understanding. The less symbolic understanding, the less expression of the spirit.

That is the reason for being barbarians, warriors: think little, feel much. And here we refer to the MEANING of the Symbol, to the SYMBOLIC INTUITION. We must not rationalize the symbols. That is why the Giants taught the Arts. Art is not rationalized, it is FEELED.

We speak of innate wisdom contained in the blood. The symbolic contents were latent, for the blood had not been degraded.

When we make a copy, it is not as clean or pure as the original. If from this copy we make another one, and from this one, another one, and so on, there will come a point where the degradation will be more than evident. It is the same process that operated with our ancestor. Now there are billions of men, clones, copies, and the degradation is EVIDENT. High rates of dishonor, disloyalty, disease, degeneration. Well, I hope you understand.

3. ORIENTATION.

For attitude to exist, there must first be Will. That is to say, attitude is closely related to will. But for the attitude and the will that drives it to be well directed, there must be an oriented sense. That is to say: Orientation.

We generally believe that evil is external, whether for men of the left or of the right, evil is outside.

Let's see: For the leftist, evil is in oligarchy, imperialism, unequal distribution of wealth, capitalism, etc. For the right-winger, the evil is in communism, populism, Cuba, anarchy, etc.

For most men and women evil is outside. But most of the time when a man reaches a position of power, no matter whether he is of the right or of the left, he demonstrates by his actions that the evil was not outside but rather within himself. Corruption is a disease that has its causes in a malformation of a metaphysical nature.

Evidently, like the lawyer who tenaciously defends, without knowing it, a guilty person, so the sense can be deceived and carry out an imposture. We live in the world of impostures, of mistakes, of accidents.

In order to explain what we should understand by orientation, we will use an analogy and then talk a little about the structure of the microcosm, that is, the person.

When we talk about orientation we establish a relationship with the four cardinal points. While we have an East, a West, a North and a South, we also have a fifth cardinal point: the Center. NOW, THIS CENTER IS THE ESSENTIAL POINT OF ALL ORIENTATION.

Now it is up to us to discover that center in the human being. But for this we must reflect on what a human being is.

To elucidate this, we will propose a structural analysis. From the integral point of view, man is analogous to a machine composed of three differentiated elements: body, soul and spirit. For us the answer to where this "center" is, is clear: IN THE SPIRIT. But what is the spirit and, more importantly, what differentiates it from the soul?

Let's see: the human body is a biomolecular ensemble of organs and organ systems. The body is connected to the psychic structures through the central nervous system. The psychic structure is made up of an emotional center that is linked to the heart and the endocrine system. We have a rationality center that is linked to the brain. Linking these emotional and rational psychic structures is the personality center, a memory that stores conscious memories and that is why it is called consciousness. The soul is the power that vitalizes this whole system of physical body and mind (psychic structures). Basically, the soul is energy. The soul is what we share in common not only with other men, but also with animals and plants. THE SOUL IS TRULY COMMUNISTIC.

(This image corresponds to the psychic structure of the common man or "Pasu", which in Sanskrit means "Needle", according to Gustavo Brondino's treatise on Hyperborean Gnosis. The graph, which masterfully explains by means of eccentric circles the psychic structure, allows us to arrive by induction to the understanding of abstract concepts in a topological level of diagramming, demonstrating the integral REALITY of a human psychic complexions; For that reason we are grateful for the GUIDANCE of the author of the same Don Felipe Moyano).

So, that "center" we are looking for is not in the brain, therefore it is not reason, nor is it in the heart, it is not emotional. THE CENTER WE ARE LOOKING FOR IS WHAT MAKES US UNIQUE, DIFFERENTIATING RADICALLY THE HUMAN BEING FROM THE ANIMALS AND WHAT IS MORE IMPORTANT, DIFFERENTIATING HIM FROM THE OTHER HUMAN BEINGS. THEREFORE, THE SOUL IS NOT THE CENTER WE ARE LOOKING FOR, BECAUSE AS WE HAVE ALREADY SAID, THE SOUL IS COMMUNIST PAR EXCELLENCE. THE ENERGETIC SUBSTANCE IS THE SAME IN ALL THINGS.

THE SOUL, BEING OF AN ENERGETIC NATURE, ANIMATES THE WHOLE MICROCOSM. THE SPIRIT IS IMMATERIAL; THAT IS WHY WE SAY THAT IT DOES NOT BELONG TO THE MATERIAL UNIVERSE. IS UNCREATED; THE SPIRIT IS ALIEN TO MATTER AND ENERGY, THEREFORE IT IS CHAINED TO THE SOUL. IT IS OF AN IMMUTABLE NATURE, UNREPRESENTABLE FOR THE PSYCHIC AND CONSCIOUS STRUCTURE OF THE MICROCOSM. WE CAN ONLY FEEL ITS MANIFESTATION THROUGH THE "I" AS WILLPOWER.

WE ARE ONLY NOW IN A POSITION TO MANIFEST THAT THE CENTER WE ARE LOOKING FOR IS A CARDINAL POINT THAT IS WITHIN MAN, IT IS CALLED "I" AND MANIFESTS ITSELF AS EGOIC WILL. FORCE OF WILL.

It is therefore necessary to speak of the Ego, but not of the cultural egos that are almic, but of the one true Ego, which is not a set of psychic aggregates, but a whole in itself. This is the center that we must find, neither rational nor emotional, but rather, exclusively volitional.

THIS SPIRITUAL CENTER IS A REFLECTION OF THE TRUE WORLD FROM WHICH IT WAS TORN, FOR LET US NOT OVERLOOK WHAT WE SAID ABOVE, THAT THE SPIRIT HAS BEEN CHAINED TO THE SOUL. BEING A REFLECTION OF THE TRUE WORLDS, THE EGO-SPIRIT MANIFESTS, AS LONG AS THE BLOOD IS PURE, THE PERFECT SYMBOLS OF THAT TRUE WORLD, THEN THE MAN WITH PURE BLOOD, WITH SPIRIT, MANIFESTS HONOR, LOYALTY, DIGNITY, JOY, IN A WORLD, OURS, WHERE THERE IS ONLY BETRAYAL, PERFIDY, PAIN, POVERTY, CORRUPTION, ETC.

This is the drama of the chained spirit, and why the synarchic system distorts history, clouds the memory of the ancestral origin, introduces false religions, political doctrines, etc., to prevent men from remembering their divinity, understood as that perfection of the primordial or original man.

TO BE ORIENTED THEN MEANS TO BE WITHOUT THE NEED FOR ANY KIND OF EXTERNAL DETERMINATION.

We have found the center, but it is not temporal, it is not spatial, it can only be felt with pure blood. Somewhere else in these fundamentals we will talk about blood, about purity, which has nothing to do with biological race and lymphatic hemoglobin. For now, we already know what is necessary to continue advancing towards awakening.

4. WHAT IS AWAKENING?

To be able to answer this question, we will first analyze what it means to be asleep.

When we speak of sleep, we are not referring at all to the physiological fact that consists in the rest of the physical body.

Here we refer to the fact that modern man is asleep to metaphysical realities that make him a predestined subject, that is, he is totally unconscious.

WE SAY THAT IT SLEEPS BECAUSE IT DOES NOT KNOW THE MECHANICS OF THE FUNCTIONING OF THE MATERIAL UNIVERSE WHERE ITS LIFE UNFOLDS. IT IS BORN, GROWS, REPRODUCES AND DIES. THIS LINE OF WHAT WE CALL DESTINY OFFERS NO ALTERNATIVE ROUTE. EVERYTHING THAT IS BORN MUST FULFILL A PREDETERMINED CYCLE AND THEN DIE.

In these times of the Internet, globalized world, free market, thousands of objects for consumption, and only one form of government recognized and accepted, democracy, man finds himself in the need to fill the existential void that haunts him by structuring himself wherever he can. The terrible competitiveness leaves him no margin to recognize his situation, he must insert himself in life if he wants to get a good slice of the world, the only valid thing for his miserable existence as a slave of time and money.

This is what we call sleeping, snoring. As he is unaware of his individual potentialities, he succumbs to the archetypes sustained by thousands, millions of minds as asleep as his own. The archetype professional reputation, the archetype house, form, travel, money, consumption, in short, to infinity.

In his condition, under the principle that time is money, he is unaware that the disease is a product of the life full of debauchery and stress that the globalized world fosters. He becomes dependent on all kinds of drugs, legal and illegal, he seeks the elusive happiness without even realizing that he can become independent of these structured determinations and be responsible for his destiny.

He seeks outside what he can only find inside, he lives backwards, supporting with his will reflections of himself that are not him: the doctor, the lawyer, the business administrator, the communicator, the military man, the priest, etc. Or more homely reflections: the father, the mother, the brother, the black sheep, the musician, the drug addict, the communist, the revolutionary, etc. He knows from what little intuition he has left, that there is something wrong with the world and not only with the world, with the country, with the government, with work, with life itself, but he is left to his sleeping condition, little or nothing is what he can do effectively to wake up and shout his truth to a world as sleepy as he is.

The sleeper lives glued to the roles, to the television, becoming vulnerable to the propaganda of the system, the insidious poison that is injected into us every minute, every second now, with the complicity of the media.

The first law of targeted propaganda is then fulfilled: a lie becomes true by force of repetition.

With this background, we are in a position to answer the question: What is awakening?

Answer: It is to voluntarily come out of the apathy caused by years of not having exercised serious and deep reflection.

It is the axionality of WILL that cannot arise from a passive attitude.

That is to say, to awaken is to open oneself to metaphysical realities unsuspected by the sleeping man and woman and to control the variables of our destiny based on pure spirituality, STRENGTH OF WILL, EXTREME VIRILITY.

TO WAKE UP IS TO FEEL FREE, EVEN IF ONLY FOR A SECOND, AND TO DECLARE INTIMATELY, IN A BURST OF LUCIDITY, THAT WE WILL NOT PROSTRATE OURSELVES BEFORE ANYONE OR ANYTHING.

TO AWAKEN IS TO FEEL THE BLOOD, THE FIRE, THE SUPREME ANGER DISGUSTED BY SO MUCH INIQUITY, ROBBERY, PREBENDA, BETRAYAL, DISEASE, DECADENCE, WEAKNESS, DEATH.

TO WAKE UP IS TO FEEL LIKE SHOUTING THAT WE HAVE THE RIGHT TO HAPPINESS, THAT WE HAVE DONE NO WRONG TO ANYONE TO DESERVE THE PUNISHMENT OF LIVING GOVERNED BY THE WORST, FOOLISH, FATUOUS, DISHONEST, INCAPABLE PEOPLE.

TO AWAKEN IS TO COME OUT OF PROSTRATION AND RAISE OUR FISTS AWAITING COMBAT, AND AT LAST! READY TO DIE FOR OUR COURAGE, IMMEASURABLE, INFINITE, PRECIOUS.

TO WAKE UP IS TO UNDERSTAND THAT THERE IS NO TIME, OUR KINGDOM MUST BE CONQUERED NOW, NOW, WITHOUT DELAY.

TO AWAKEN IS TO RE-KNOW THAT JOY IS GENTLENESS, NOT JADAITY; AND THAT IT IS A DUTY TO FIGHT FOR IT, OUR DIGNITY LOST BY A-MORT IN THE WRONG PLACE...THIS MISERABLE PLANET OF APES.

TO AWAKEN IS TO FEEL, TO FEEL, TO FEEL WHAT WE HAD NEVER DARED TO FEEL BECAUSE WE WERE AFRAID OF EVERYTHING.

TO WAKE UP IS TO MAKE A REI-NO AND A REI-NA AND REI-R, REI-R, REI-R, REI-R....

TO AWAKEN IS TO RISK GOING BEYOND WHAT REASON DICTATES.

TO WAKE UP IS TO UNDERSTAND THAT OUR MYSTIKA IS FRAMED IN THE "YES, IT IS POSSIBLE" AT THE END, WE WILL HAVE A TRUE VISION... WITHOUT PRIS-MAS, WITHOUT PRE-MURAS, WITHOUT MATERIAL UR-GENCIES... AND EVERYTHING WILL BE POSSIBLE... EVERYTHING!!!

5. BLOOD.

Now that we have a glimpse of what it means to awaken, we can talk about the Blood.

When we speak of blood, we do not refer to the hematic content of veins and arteries. Here we refer to symbolic blood, that is, blood as a symbol. The red that we display on our national flag.

That is why it is so important to awaken to these metaphysical realities in order to actualize the symbols and understand them with a Gnostic gaze.

This symbol hides a mystery as deep as it is dangerous for the supporters of blood degradation, that is, for Jews, Freemasons, democrats, communists, humanists, etc., because ALL OF THEM HAVE THE SAME MENTALITY.

Let us assume a dualistic perspective to approach this mystery.

In the origin there was war in the heavens, according to biblical accounts a third part of the angels joined Lucifer's side. This symbolism, together with the story of Cain and Abel, suggests duality, good and evil.

Just as the pantheons of the gods of various peoples were divided into two opposing camps, so were the human groups followers of one or the other. Homer prodigiously details this situation in his epic work: The Iliad. But we find accounts of this dispute between deities and the peoples who followed them in the mythologies of almost all the ancient peoples of the world.

In Sumer we have the accounts of the war between Enki and Enlil. Egyptian mythology revolves around the struggle between Seth and Osiris. In America, specifically in the Yucatan peninsula, the dominant gods take turns to influence between Maya and Aztecs, disputing with each other; sometimes Kukulcan is dominant, others Huitzilopochtli.

During the Second World War and since the Cathar heresy of the 13th century, the cosmic war between Jehovah (God of the Jews) and Wotan (Leader of the Germanic Aces) was actualized, so the Judeo-Anglo-Saxon coalition allied with the Soviet Union confronted the Germanic-Nordic power in a warlike confrontation of colossal magnitude, not only to impose a political vision, but also a metaphysical one, where two totally antagonistic worldviews were in conflict.

History provides us with irrefutable evidence of this duality and the cosmic confrontation of universal powers, a battle that has lasted for millennia and of which most human beings are totally unaware.

Let's see: Humanity is divided into two factions with different worldviews and conflicting objectives. THROUGHOUT HISTORY WE CAN SEE THAT THERE ARE PEOPLES WHO HOLD ONE OR THE OTHER VISION AND PASS IT ON TO THEIR DESCENDANTS. HOW? THROUGH BLOOD, SINCE BLOOD IS THE RECEPTACLE OF THE SYMBOLS THAT LINK MAN TO HIS GODS. But we must be clear, one faction inherits monotheism and servitude to a single God as a way of life. The other faction is not only polytheistic, that is, pagan, but expresses the ideals of freedom and non-submission like no other worldview.

Well, let us analyze a little the present Judeo-Christianity as a model of the monotheistic cosmivision. The monotheistic people par excellence is the Jew who makes a COVENANT OF BLOOD with the metaphysical powers that sustain his mysticism.

This mystique can be summarized as follows: it establishes above all social organization a priestly caste, establishes the cult and worship of the only deity as a way of life. They are nomadic and merchant peoples, who denigrate femininity and degrade women to a secondary rank of existence, proscribe the mixing of the blood of their racial elite with severe eugenic norms, etc. They proclaim love and peace among nations, of course, on condition that they worship the one god. In this sense, all Semitic peoples are recalcitrant. But their psycho-social behavior is governed by existentialist pessimism, the exaltation of pain and of all soul tendencies. They are CULTURAL peoples, their BLOOD is degraded towards the CULTURAL COVENANT, and the cultural is always characterized by half-truths, by the materialistic confusion that makes the Matrix the whole possible context. What Spiritual poverty!

The "Druids" Priests Cultors of the One God. Sacrificers.

The "Abeles", miserable shepherds.

A Modern "Abel". A Psychological Jew.

Now, let us analyze paganism: Aryan peoples are the absolute representative of this worldview. They also establish with the metaphysical powers that sustain their mysticism a PACT OF BLOOD. Above all social organization is a warrior caste. Their mystique does not lie in servility or worship to any god, but in the warrior way of life. They are sedentary peoples of farmers and herdsman, therefore, civiliziers par excellence.

Femininity and women play a preponderant role in their cosmovision. They have no priestly caste. They proclaim honor, dignity, and non-submission to anything or anyone. Their psychosocial behavior is based on the expression of joy and fullness, generating indifference to pain. They also proscribe the mixing of blood with severe eugenic norms.

The Warrior. The Pagan Blood.

Royalty. The "I" above any fucking god.

What is there in common in these two forms of life: THE BLOOD COVENANT AND THE PROSCRIPTION OF MIXING.

WE CAN NOW CONCLUDE THAT BLOOD IS THE MOST IMPORTANT FACTOR, BECAUSE IT IS THROUGH BLOOD THAT PEOPLE INHERIT THE MYSTICISM, THE PSYCHOSOCIAL ATTITUDE AND THE SYMBOLS THAT MAKE UP ANY BINDING STRUCTURE.

For this reason, blood purity is a priority for both factions.

After the Second World War, the worldview held by the Jews is externally imposed and they are only interested in protecting their blood purity, the rest of humanity must degrade their blood with indiscriminate mixing in order to avoid at all costs the appearance of pure pagan blood that could lead to a new update of the metaphysical contest or cosmic war here on earth.

One only has to look at Europe and its immigration laws to realize that it is conspiring against blood purity. Tolerance and relaxation of customs are being promoted in order to encourage indiscriminate mixing of blood and race.

However, it remains to add that today blood degradation and mixing are greater than ever. Almost all of humanity is hybrid.

Let's take a look at our history:

In order to understand the importance of the symbolic inheritance of blood, let us analyze the consequences of the blood mixture that operated through the "Conquest", to feel what we are now, what "Bolivianity" is.

Let's visualize: Before the arrival of the "Spanish" Conqueror (the word is in quotation marks, because it is not precisely the case, as we will analyze now) the pagan empire of the Incas was in decline. The causes of this decadence can be found in civil wars provoked by peoples conquered by the "Inca" among which were the "Aymaras", who were part of a group of more numerous peoples called "Diaguitas", essential enemies of the Incas by the Blood Inheritance.

In the XIII century of our era, that is, two centuries before the arrival of the "Spanish Conqueror", a bloody war destroyed the Viking Empire of Kolla-Suyo, named after the house of the Kollmans, a lineage of Viking kings. Even today, the "legends" speak of a great blood sacrifice that was propitiated by the Diaguita priestly caste in which they were beheaded on the shores of Lake Titicaca, about 30,000 descendants of the "people of the Moon", as it was known at that time to the Viking remnants already mixed with "Quechua", so we can assume that this "Viking Dominion" was part of the vast Inca Empire which at that time was divided into four regions.

It is obvious that when the Spanish Conquest took place, they found a weakened Empire, which was waiting for the arrival of the "Wirakochas" who would free them from decadence. This is the reason that made it possible for a few hundred "Spaniards" to dominate an empire of millions of people. It operated a confusion that the Spaniards knew how to capitalize on in favor of their strategy. The conquerors were "Whites" like the Wirakochas, and were confused with them. The same happened in Mexico, where they were confused with the representatives of "Quetzatcoatl" or "Kukulcan".

With this background, let's see what happened with the blood. First, the Diaguita blood spreads, fearful, sacralizing blood, blood of meekness, merchant, speculator, vile and cowardly. The warrior blood of the Empire has degraded and the Spaniards have no major inconvenience in dominating the military situation. And although, on the one hand, the mestizaje with the Spanish blood begins, it is worth asking: How is this "Spanish" blood?

The Inca Empire is completely degraded, but it is still dominant. The "Aymara" (Diaguita) masses make up a large part of its population and the Inca decrees: Ama Sua, Ama Quella, Ama Llulla, and it is for this reason and no other: **THE MASS THAT SHOULD GOVERN IS, JUSTLY, FAULTY, THIEVES AND LIARS.** With the arrival of the "Spaniard" operates even greater degradation because the "Spaniards" who arrive are greedy adventurers, criminals out of Spanish prisons, MARRANOS, that is, **CONVERTED JEWS**, who are enlisted as crew in "La Niña", "La Pinta" and "La Santa Maria"; Their commander, Christopher Columbus, is a "Ginoves", not because he is Italian from Genoa, as the color-blind historian above would have us believe, but **BECAUSE THAT IS WHAT THE MARRAN JEWS WERE CALLED IN HUELVA, SPAIN.** And who accompanied these misnamed "conquerors", who did not come to conquer but to **DESTROY?...** A sector of the Catholic Church completely Judaized: **THE JESUITES.** And what do the "Jesuits" do besides procreating with the Indians a good part of the mestizo population we have today?.... **DESTROY ALL ANCESTRAL LEGACY:** they burn books and relics, destroy records or distort them, burn at the stake the "pagans" who are the noble blood of the Incas, because they still keep the memory of their ancestral traditions and are not potential converts, their blood is very pure.

Obviously there are Spanish warriors, nobles, knights-at-arms, but they are the military contingent that accompanies this outcast. That legacy of very pure Spanish blood is also bastardized. Few are the marriages between people of Quechua and Spanish royalty and that is the good blood that still remains, a minimum, but sustaining people.

Blood we must find.

In short, that is the blood that we have inherited and that we must purify. The blood of a thief, a traitor, a liar, cowardly blood. What are they if not Víctor Paz Estensoro (El Mono), Hernán Siles Zuaso, Walter Guevara Arce, Juan Lechin Oquendo, and the entire MNR, a party, not a party, of thieves, traitors and murderers of our glorious Falange; Jaime Paz Zamora, the Banzer family, Gonzalo Sánchez de Lozada and his henchmen; the MAS in full, and a great etc.?

Evidently, somewhere, these wretches must have good blood, that is to say, pagan symbols can still emerge from their personal unconscious, that is what we want to **UPDATE, EMPOWER, RE-EMPHASIZE.**

IF AWAKENED TO THESE METAPHYSICAL REALITIES WE HAVE THE POSSIBILITY TO CHOOSE, AND MORE IMPORTANTLY, TO PURIFY THE BLOOD. Many will choose to be cultists, masses, cattle. But a few, the **LOYAL** ones will choose to charismatically follow the mystika of **GALLARDY, VALOR, RE-BEL-DAY AND WILL SEEK LIBERATION THROUGH THE TOTAL WAR AGAINST THE POWERS OF MATTER.**

When the Kairos of Honor arrives, you must listen, like Queen Elizabeth **THE VIRGIN**, to the wise advice of our Kamarada Jhonn Dee: **"WHEN THE STORM BEGINS, MEN WILL SHOW THEIR TRUE**

NATURE.... MANY WILL BE AFRAID AND WILL FLEE, OTHERS WILL HIDE.... BUT THERE ARE THOSE WHO WILL SPREAD THEIR WINGS LIKE EAGLES AND FACE THE WIND."

PART TWO: THE SENSE OF HONOR

1. AWAKENING OF THE INDIVIDUAL.

Once the first part of these contents is understood and comprehended, we can enter fully into the treatment of much more abstract topics, which require much more sense, and well directed, to be covered and understood. This is why I am presenting a personal, and therefore subjective, situation. You may agree or not, the important thing is that it is understood.

The awakening of the individual occurs as an explosion, as we have already said, but it is very painful. We want to say to all of you who are in pursuit of awakening, that only the fittest, the bravest, the true and tireless seekers of truth will be able to assume the forgotten truths. When we destructure ourselves internally we enter into a NIGREDO, friction produced by the confrontation of the emotional and rational psychological personality with the SHADOW, that is to say, the unconscious. And it must be so, since without a well achieved mixture in the receptacle, there is no possibility of MUTATION.

Awakening is an act of will. Whoever awakens will no longer be able to see the world with the same eyes. The structures will become manifest, and what was previously invisible will become manifest before the astonished gaze of the individual. This implies a rational and emotional imbalance, because everything that previously had a certain "value" for us, will lose meaning.

It is logical that this should be so, since the act of reflection consists of ceasing to make sense of the world, to turn it inward and toward the past. The awakening man or woman will look for other literature, other music, other cultural "values". In short, he or she will seek to isolate himself or herself for a moment from the world and its devouring archetypes.

Imagine a man waking up:

The first thing you will notice is that you have been lied to all the time. That is to say, that the lie that your life has become has been sustained by all the individual and collective subjects you have met in your condition as a prisoner of this world.

From one's own family, to the intimate friend, the work or study partner, the public servant, the professional colleague, the boyfriend, the girlfriend, the pets, ALL and ALL, live sustaining the big lie, doing their part to keep it wrapped, interwoven, structured, in dramas of the most varied: the teleological ideal, the "Good", "Justice", making "dreams" and DESIRES come true, fighting for them; from a simple daily pastime that gradually transforms into an enervating necessity, to the very work that must be done to subsist, since these structuring "archetypes" have been sucking volitional energy from it, that is, they have been capitalizing its meaning. The latter is a very common phenomenon in our current society: the nervous disease of the serious and dedicated professional, stress.

The subject in question has finally realized, we will say, that he is living a great deception, and the first thing he fervently desires is to be able to communicate it to the most important people in his life: his brother, parents, girlfriend, etc. He needs to talk, to listen to himself, because from now on, the people he talks to will NEVER be able to realize his true existential state, his NIGREDO; at most they will believe that he is going crazy and we must get him an appointment with a psychiatrist.

They find that their truth is not shared in the least. Most of them do not have political ambitions, this is a forbidden activity for the great majority of the population, because access to a position of power facilitates many things. Therefore, nothing can be done as a common citizen, as a poll number. Even if you recognize the evil, if you are not a union leader, a Mason, or if you are a member of a union, lodge,

guild, or if you have the sponsorship of an old politician, the lawyer must remain a lawyer, the doctor, a doctor and the engineer,

engineer, and so on. Maybe some people understand that something is wrong, it is obvious, but it is useless to lament, we must continue living, fighting, existing, because it is utopian to try to do something against the monster, the System. "Haven't the Nazis been responsible for the gassing of millions of "innocents"?", dare the functional illiterates, who know what little they know because they watch cable TV!

Undoubtedly all this disillusionment and the low level of communication produces a great pain, a feeling of loneliness never before imagined. Before waking up, one was not alone, one slept together with many; on the other hand, now that one is waking up, it is very easy to see that in reality we share our lives in a world of zombies oblivious to the rottenness that smells around them.

The new panorama is truly desolating. It will gradually begin a depressive state that will last until the final awakening, when we find the volitional center that sustains us and activate it to receive the grace of our own divinity.

But let's continue with the symptomatology of the "awakening" and unravel the semiosis of the body language of children who get up early to go to school, which can be translated into a single word: EMPUTE: The poor man will try to get out of his depression by looking for a new meaning to everything. This is positive because he will reassign values and priorities.

Everyone has lied to him, even he has lied to himself.

Most likely he will try to awaken his own, a struggle will begin and the communication that never existed or was tenuous and superficial, as is often experienced by the families that have to live in these decadent times, will begin to flow in another language, with new symbols. Man has understood that the only way to not feel so lonely and abandoned is to awaken others. We have taken the first step towards liberation.

This means that we have taken things seriously.

But let's say it once and for all: SOLITUDE HAS NO SOLUTION. IF WE ARE TO AWAKEN OTHERS IT MUST BE AS PART OF A COLLECTIVE STRATEGY OF LIBERATION.

Let us proceed:

In no way will such an undertaking be easy, since many times it will seem that we collide against insurmountable rational barriers, both on the part of the other microcosms, as well as on the part of our own soul subject. THAT IS WHY IT IS SO IMPORTANT TO BEND THE SOUL IN US, TO SET AN EXAMPLE. ONLY THEN WILL SENSE FLOW AND REASON WILL NOT BE ABLE TO GET IN THE WAY, SINCE SENSE IS IRRATIONAL, AND WE WILL COMMUNICATE RUNICALLY, EVEN IF YOU DON'T BELIEVE IT. A,HA,HA,HA,HA,HA,HA,HA...

As we have already said, the soul-spirit duality poses a struggle within us. AND HERE IS ANOTHER KEY: WHEN THE INNER CONFLICT BEGINS WITHIN US, WE ARE AWAKENING AND THE NIGREDO HAS BEGUN.

Now, this inner conflict, this clash of wills, is perceived as a struggle between the psychic, instinctive, psychic structures and the nascent sense of honor of the egoic will. On a completely metaphysical plane, two supreme principles confront each other: the I DESIRE of the almic will and the I REMEMBER of the spiritual or egoic will.

This is the most difficult moment of the awakening because it poses the irreconcilable conflict of values of the two sanguine tendencies that the aspirant to awakening possesses.

To conclude this point, we must talk about a very important concept, which is that of blood purification.

The awakening of the individual will only take place if the subject who is trying to awaken consciously assumes the need to purify his blood. TO PURIFY IS TO PURGE THE SYMBOLS FOREIGN TO OUR FELT PAGANISM.

The subject of purification is intimately related to esotericism and the Orders that practice it. There is no doubt that the awakening man will look for answers in all kinds of groups that claim to possess the keys to knowledge. We are referring to the whole range of religions and esoteric schools available to the subject. In this sense it is important that men and women seeking awakening consider that there is a universal war that is still being waged and from which they will not be able to escape at the moment of awakening. That is to say: they will have to choose.

The most logical thing is that, if you join an Order, lodge, religious sect, or whatever, you should first consider that it is a priority to have awakened yourself first. In this way you will avoid being deceived or diverted from the true objective, which is to find the center of inner gnosis (The Spirit).

That is why in these "Towards the foundations..." we advise the practice of the Egoic Willpower as a valid way for blood purification. Only the Force of Will can overcome the animic pulls of the Jewish blood, therefore, it can neutralize its symbolic charge, as well as endow us with the capacity to transcend them in order to understand their nature. Imagine what it means for a purification strategy to embrace the meaning of Love, of Desire, of Hunger, of "relativity", without being captured in the process.

A word of caution: if you are asked in any sect or group to shed the Ego as a condition for receiving "enlightenment," be wary. Remember that the Ego is what sustains individuality. We refer the reader to the fifth point "On Orientation" to clarify the concept of ego as psychic aggregate and Ego as egoic will, reflection of the spirit.

As a Kameradem who originated the concept used to say, for us it is all a matter of EGOSOPHY. We are egosophists, and we cannot detach ourselves from this symbol, because it would be like conceiving a vegetarian lion. Our stimulus par excellence is the "I".

June 2008

2. OF LOYALTY.

Before beginning this point, we ask Divine Providence that in those who have begun the process of awakening, the TRIUMPH OF WILL be realized.

WILLPOWER IS A PARAMETER OF BLOOD PURITY. THE GREATER THE WILLPOWER, THE PURITY, THE LESSER THE WILLPOWER, THE CONFUSION.

FINALLY, WE WILL SAY THAT AWAKENING IS A PURELY VOLITIONAL ACT.

When the individual has awakened he is capable of sustaining a PERSONAL MYSTIC that will lead him to meet other men like him or her.

When we turn towards the ideal, when we make the way, that is, when we walk the path of return to our integrity, we encounter a phenomenon that cannot be catalogued within the predetermined becoming of time and space. IT IS A MYSTICAL UNION WITH INDIVIDUALS OF THE SAME SPIRITUAL RACE. It is like a golden cord, a cathenic aura.

When we are "lucky" enough to meet individuals who pursue the same ideal, we recognize them as equals, because we intuitively exchange roles and realize that we share the same search, the same loneliness, the same primordial pain, the same existential suffering.

WHEN THIS REUNION OF THE PHALANX TAKES PLACE, WE VINDICATE LOYALTY AS A SPIRITUAL PRINCIPLE. WE UNDERSTAND THAT LOYALTY EXALTS, STRENGTHENS, SUSTAINS THE WHOLE AND THE PART.

LOYALTY IS A CONVICTION, A COMMITMENT TO OUR EQUAL. WE BELIEVE IN THE HEROISM OF THE ONE NEXT TO US, BECAUSE HE SUSTAINS OUR HEROISM. WE BELIEVE IN HIS RIGHT TO GLORY BECAUSE HE RESPECTS AND HONORS US.

LOYALTY IS THE VIRTUE OF THE PHALANX, THE MAN ON THE LEFT PROTECTS WITH HIS LIFE THE ONE NEXT TO HIM, COVERING HIM WITH THE SHIELD, WITH THE IGNEOUS MANTLE OF HIS MYSTICISM.

TO BE LOYAL IS TO FEEL THE SPIRIT AND INSPIRE IT IN THE PHALANX.

ONE CAN ONLY BE LOYAL TO THE BLOOD AND FOR THE BLOOD. THAT IS TO SAY, ONE CAN ONLY BE LOYAL FROM THE SELF TO THE SELF.

TO BE LOYAL IS TO RECOGNIZE ONESELF AS INCORRUPTIBLE, THAT IT IS BETTER TO DIE THAN TO LIVE IN DISHONOR.

BEING LOYAL IS AN ACT OF THE WILL. LOYALTY IS NOT THOUGHT, IT IS FELT. A PASSIVE PERSON CANNOT BE LOYAL.

LOYALTY IS THUS A FOUNDATION IN ITSELF. IT CONDITIONS THE BEING, IT ORIENTS IT TOWARDS SPIRITUALITY.

LOYALTY IS PART OF OUR ORIGIN, LET'S GO BACK TO IT. LOYALTY IS TO FEEL FREE, OUT OF ALL DETERMINATION.

In parenthesis, we will say that in the Origin, the ancestor carried in his blood a symbol. Part of that symbol is what we should understand as loyalty.

Loyalty is not a mere concept that we can unravel by consulting an encyclopedia or looking it up in a dictionary. As it is a fundamental attribute of spirituality, it can only be intuited through sense. For that we must put rationality aside and feel loyal.

Loyalty, we repeat, can only be felt through a charismatic bond. Loyalty can only exist between comrades.

The support we can give to someone in our circle or family is a slight reminder of the primordial loyalty of our spirit.

THE ONLY WAY TO RESIGN BETRAYAL IS THROUGH SPIRITUAL LOYALTY. LET US NOT FORGET THAT BETRAYAL TOGETHER WITH PAIN MAKE UP THE DYNAMICS OF THE MATERIAL UNIVERSE.

The material Universe only becomes a reality thanks to our sense. Pain is therefore necessary, since it is a culminating moment of expression of maximum sense. We will return to this later.

3. OF JOY.

Joy is the spiritual state par excellence. It is also pure meaning. Achieving a permanent state of social joy is one of the most important goals for a nation.

When we wake up, we feel a terrible need: fullness. Man is always searching for fulfillment in all his acts. In these difficult times, where it seems so utopian to seek fulfillment behind the structures having to save

a sea of pain between the longed for and the realization of that dream, it is worth asking ourselves: Why has the world become such a sinister place?

From now on, we are in a position to answer this question. Because we have lost the original meaning. And although we have transformed the world into something very cozy, behind every bend, desire, aspiration, ambition, mental and cultural object there are metaphysical monsters that seek to tear away our pain, that is to say, our meaning. Pain is the engine that makes the dynamics of this material world. Without our meaning the world would lose consistency.

Joy is part of that higher spiritual center that we are creating through our gradual awakening. Although the world and the current social, economic and cultural conditions sustain devouring structures that demand the prostration of man before the uncertain and inevitable, subjecting him to accept pain and misery, we say that this primordial state that we call JOY can break the illusion of any structuring paradigm.

Even now, writing this for those who want to awaken, like me, I feel pain. Love itself is a form of pain, a kind of synonymy of pleasure.

We are in a position to affirm that:

We all suffer. That suffering and pain are inherent to life in these times. And that pain is an endemic evil of our societies. That it is evident that we have become accustomed to living in fear. Yes, we are afraid of pain and suffering, but fear does not prevent us from suffering and feeling pain.

THAT IS WHY IT IS NECESSARY TO ACTIVATE THE WILL IN PURSUIT OF A SINGLE COLLECTIVE GOAL: A STATE OF SOCIAL AND INDIVIDUAL HAPPINESS. WE MUST FEEL THE COURAGE AND FACE FEAR WITH A SMILE FULL OF GRACE.

STRENGTH AND JOY. These two symbols must be urgently restored. It is not a matter of assuming an attitude of rejection of pain, but of assuming a defiant attitude: they will not bend us. Not by fear, not by pain.

We will resist and laugh, even if the circumstances are apparently dire, even if we face a collective egreore fed by millions of sleepers who escape pain, but believe in it.

In our world today, it seems that all the dramatic arguments exist to squeeze pain out of us and that there is no way to oppose that irresistible Will. Can we activate our will?

Let's try to exemplify: We love the world and it hurts, to the bone. A lover suffers for love, a father loves his son inordinately, we love the world and sometimes we hate it; we will realize that love and hate, although they are opposites, imply meaning, our meaning projected to the world. Now the question: Where does all this love or hate go? Answer: Not to the entity, person or object of our love or hate. Then: Who feeds with that energy, with that sense? Answer: The metaphysical structures that support all the dramatic arguments. Real astral monsters that we can slightly perceive in our dream world.

Joy, as Grace emanating from that volitional center, the Self, which is the Spirit in us, can break these structures. We will then use the recovered sense, no longer projected, for our psychic reintegration.

The following is the Law of Joy:

IT IS THE DUTY OF THE STATE TO PROMOTE SOCIAL AND INDIVIDUAL JOY.

EVERY MAN OR WOMAN WHO CONTRIBUTES TO SUSTAINING A STATE OF STRENGTH THROUGH JOY WILL BE WORTHY OF CONSIDERATION AND RESPECT.

IT IS A LABOR PRIORITY TO CREATE THE CONDITIONS AND DEMAND THAT THE WORK BE CARRIED OUT WITH JOY. THIS FACTOR WILL GUARANTEE A GOOD AND HEALTHY PRODUCTION, WHETHER IT IS OF A MANUAL OR INTELLECTUAL NATURE.

WE CANNOT HAVE THE RIGHT TO COLLECTIVE AND INDIVIDUAL HAPPINESS AS LONG AS THERE IS A SINGLE COMPATRIOT SUBMERGED IN SADNESS, GRIEF AND DESPAIR.

JOY WILL BE FROM NOW ON A SUPREME VALUE CONSTITUTIONALLY PROTECTED. A NATIONAL DEMOCRACY CANNOT BE CONCEIVED WITHOUT SOCIAL JOY.

4. OF THE SENSE OF HONOR.

The sense of honor is a volitional act, it is not rational but SENSE. Let us establish then that Honor is PURE SENSE.

We will try to approach the meaning of honor by making a clarification: it cannot be conceptualized as an eminently egoistic act of will, that is to say, an act that manifests itself only in an awakened man, master of himself.

HONOR IS AN ACT OF THE GRACIOUS WILL. We take this concept from the great work of Luis Felipe Moyano. We believe it is very concrete and accurate to explain a spiritual reality unrepresentable to the reason of the common man.

When we speak of grace, we speak of a transcendent charismatic bond, that is, completely outside the natural order. Because in an act of honor, we break the circularity of instinctive nature. Honor is the original sense of the ancient man, of the ancestor, of the great ancestor. And being PURE SENSE ("Pure" is Blood in Sanskrit), it can only be felt and not rationalized.

THIS IS WHY WE EMPHASIZE THE IMPORTANCE OF REGRESSION, OF REMEMBERING WITH THE MEMORY OF BLOOD AND NOT WITH PSYCHOLOGICAL MEMORIES, BECAUSE THE ONLY MEMORY THAT GOES BACK TO THE ORIGIN IS THE MEMORY OF BLOOD. THE INHERITANCE OF THE SYMBOL THAT CAN ONLY BE FELT.

Meaning is not emotion. In any case it is a-priori of all emotionality, it is its cause.

The sleeping man is after awakening, he can only feel honor for brief moments and only if he carries in his complexion the sign of the origin; then he accesses to a hyperlucidity that shows him the misery of his existence. And here we speak of spiritual misery, so widespread in all sectors of humanity, without exclusion of sex, race or nation.

In the face of honor, the lie is diluted as what it really is, NOTHING. With a glimpse of honor we become aware of the intrinsic evil of a commercial, superfluous world that steals our sense day by day to sustain an absorbing materialism.

It is inconceivable that today's man does not base his laws on transcendent principles. Like the economist who has graduated from any public or private university and masters the dynamics of the stock market and micro and macroeconomics, but does not know that the main source of wealth of a people is WORK.

If we are looking for examples, we only have to make a serious historical regression: in the Prussian State of Frederick William III, HONOR WAS THE GUIDING PRINCIPLE AROUND WHICH THE SOCIAL LEGAL MOTOR ROTATED.

That is why legislators, above all, must be awakened men. The juridical-social structures, if we live in a Constitutional State, must be sustained by transcendent principles emanating from the same Political Constitution of the State and be duly protected as true Legal Goods.

We see with sadness that the constitutional reform that is in vogue now, revolves around issues such as full capital, property, natural resources, and overlooks the fundamental principles, the symbols of ancestral blood, becoming a hollow legal mechanism, which will not solve anything, because it leaves aside what is really important: the metaphysical part essential to support any material counterpart of the constitutional precept.

Let us look again with awakened eyes: The State of Israel has the Pentateuch (Torah) as the basis of its constitutional law. The Pentateuch contains the symbols of its mystique, without it, we could not conceive of a State of Israel.

ELEVATING THE SENSE OF HONOR TO A JURIDICAL-PSYCHOSOCIAL RANK WOULD BE A PILLAR TO SUSTAIN A NATIONAL MYSTIQUE DIRECTED TOWARDS THE TOTAL RESTORATION OF THE STATE AND THE INDIVIDUAL.

5. OF THE KAMARDERÍA.

We have finally reached one of the most important points of these contents, because the virtue of a phalanx, its cornerstone, is camaraderie. But let's use a weapon bequeathed by our ancestor and resign the word with a "K", then we will speak of Kamaraderie.

This is not a topic to be dealt with in these fundamentals, but RE-SIGNIFICATION is fundamental, so we will make some clarifications.

We have already said above that the created world was designated by the first men and women in a remote origin, which is lost in the mists of time. So every external object, animate or inanimate, has its metaphysical counterpart as idea, sign, image, in our brain. Mentally meaningful, it becomes tangible and gives reality to our external world.

Well, we have inherited the Castilian language, which in turn has inherited signs, letters, from other alphabets, such as the runic alphabets of the Goths. The "K" is present in the Castilian language, but also in the Quechua and Aymara languages. This means that by symbolic tradition, we must use, give use, to the ancestral signs. Here is a symbolic proof that Alto Peruvians and Nordic people share a blood brotherhood.

The "K" as part of the name, of the symbol that sustains our Andean mysticism is contained in the ideogramapotency "Wirakocha", this also gives us another symbolic key, because the letter "W" is original of the Nordic runic alphabets, so we can only admit that both the Quechua and the Aymara were resigned with runic letters bequeathed by the common ancestor to both peoples.

Well, having made the parenthesis, we will continue with our argumentative development to grasp the true meaning of Kamaraderie.

Kamaraderie is not friendship. By this we mean that it is not sustained by the archetype, paradigm, concept: LOVE, but rather, by the concept, potency, ideogram: HONOR.

Kamaradas are those who have charismatically linked with the spirit and express the virtues of Honor and Loyalty beyond any soul, soul, emotional, rational, etc. determination.

Let's use an analogy based on historical grounds to try to explain this.

Perhaps the only way to induce the SENSE of Honor is through analogies, let's look at the history of a couple of military deeds. Let's talk about WAR.

In the Battle for the Alcazar of Toledo during the Spanish Civil War, an event took place that can help us to elucidate the meaning of Honor. The Alcazar was under siege and had been resisting the assault of the overwhelmingly superior Republican (Communist) forces. The Commander of the square unexpectedly received a phone call. His son had been captured by the besiegers and they demanded the immediate

surrender of the Alcazar in exchange for his life and put him on the phone. This one told him that he was going to be shot on the spot if he did not surrender the square. The Commander replied, "Son, when the time comes die shouting: Long live Spain!"

Let's analyze: Did the Commander act with Love or with Honor?

Before answering, let us reflect. If I love my child, I hold the Love archetype as a foundation. One cannot help but love. But if in the resulting paradox of confronting the love I have for a son with the collective sense of duty to fight to the end for the ideal of the Phalanx, I assume love leaving aside duty, I actualize in my psyche, or rather, in my blood, several symbols that dynamize the archetype love in me. I let myself be embraced by the resulting sentimentality: affection, companionship, warmth, peace, charity, compassion, unselfishness, etc. I yield to the complex symbol of Love and surrender the square.

If on the contrary, before the irreducible paradox that arises from the confrontation between totally antagonistic complex symbols, my duty prevails to hold the square at all costs so that a collective mystique triumphs, I update in my psyche, in my blood, symbols such as detachment, heroic selfishness, the sacrifice of the warm, the sentimental, the charitable, compassionate, and loving to thus manifest HONOR, LOYALTY, and ABSOLUTE VALUE in the face of the inevitable: To put the sense of HONOR before LOVE, since FREEDOM, SPIRIT, GLORY are the foundations of my BEING. NOTHING CAN DETERMINE ME. I WILL NEVER SURRENDER OUT OF LOYALTY TO MY KAMARADAS.

I will have imposed my individuality over the soulic communism that expresses itself through the fear of loss, of death, of the cold, of loneliness, of the warrior. BY IMPOSING MYSELF ON THE SOULIC, I HAVE FELT HONOR.

To speak of something more familiar, in Boquerón, during the Chaco War, the town fell after having resisted for almost six weeks to a siege by far superior forces, without provisions, suffering hunger and hardship.

Inexplicably it is a military disaster for Paraguay, because 600 defenders have caused more than 15,000 casualties. The Bolivian prisoners are taken to Asuncion, the masses were waiting for them with stones and white weapons of all kinds to avenge the death of their sons on the battlefield. But the collective soul Egregore that sought to atone for its sorrow by killing the fallen hero, disappears before the collective pure blood that sees in the Bolivians, malnourished, wounded, languishing, but alive, tremendously alive for the feat of resisting what many armies have not resisted, the True Man that is behind each individual that has been exalted by heroism. No! It no longer matters that they were Bolivians, they see their own children, their own Kamaradas and dropping the stones, they receive them with tears in their eyes, healing their wounds, giving them to eat and drink. What a glorious moment for these brave warriors and Kamaradas: Bolivian soldiers in the arms of Paraguayan mothers.

The love, which impelled those mothers to collect the blood of their children, is surpassed by the collective Honor of a people that has had the courage to look beyond the veil of the deceiving illusion, to pay tribute to the Hero, to his blood, to his courage. In short, to his HONOR.

LONG LIVE HONOR AND BLOOD!

LONG LIVE THE SPIRIT!

PART THREE: OF THE HOMELAND

1. OF THE WORK.

Labor is the main source of a nation's wealth. We must leave aside the idea of the beggar sitting on a golden throne. We cannot think of living only on natural wealth, as we have been doing up to now, when many Bolivians, supposedly the "majority", pretend to live on gas. What poison have they been inoculated with?

Getting rich from other people's work. Natural resources must be industrialized, and that means work.

It is a disgrace to have to depend, to this day, on the donations that some nations make to us. We cannot even supply our domestic food market.

What do we do with such a large number of lawyers, doctors, engineers, communicators, business administrators, etc.? We ask: What about manual labor?

Manual labor must be valued again, even on a par with any other intellectual profession.

If there is one thing this country needs, it is work. We must open more roads, industrialize moderately through microenterprises and small industry. We must have access to metacognition to develop creativity and originality.

A community awakened to the memory of blood will tirelessly search for dignity, and only work can make this world a better place.

Paper and metallic money should not be supported by invisible gold reserves or foreign capital in a foreign bank. Money must be sustained by labor value. That paper, that metallic will be valued with labor.

Inflation must be controlled through comprehensive border control. We must protect our nation by protecting its economy. If craftsmanship is the main source of a nation's income, smuggling of products and goods that can be manufactured in the nation itself must be controlled. If agriculture is another major source of employment, value-added food products should not be imported. Industry is the basis of an economy, better if it is small and medium, so we leave aside the mass production that lowers costs but at the expense of quality.

Machinery and technological products that we cannot produce should be imported at low tariffs. The State may establish an indirect tax on the trade of such products.

There will only be a healthy economy if there is work and there will only be work if the State promotes the development and implementation of a Labor Service.

The Labor Service will recruit into its ranks people from all social strata who want to work for their nation and will welcome the army of unemployed that fill the streets of the cities during working hours. They will have all the technical and logistical support to fully complete the circuit of interdepartmental and local roads, drinking water and sewage to the most remote village or region of Bolivia. One of the priorities of this Service would be to provide shelter and housing for all Bolivian citizens who can prove this condition due to their responsibilities and social contributions to the national community.

Agrarian reform must be redirected to the possession of land to and for agrarian collectivities of workers. Individuals will be able to own land if they work it and fulfill a social function: to create jobs. Land belongs to the State and the State grants and guarantees it to those who work it. Productive land will never again be subject to possession or division. Working land is not alienated, it is not divided and it is the duty of the state to consider it as NATIONAL PATRIMONY.

Private property must be respected. It cannot be the object of "communization".

An awakened community will tend towards de-urbanization. It will develop a program to dismantle the urban suburbs, because we will need people in the countryside. The countryside will have all the necessary resources to promote city-countryside migration.

THE STATE MUST PROMOTE ACTIONS AIMED AT CREATING AN ENVIRONMENT OF SOCIAL JOY.

WORK WITH JOY IN ORDER TO STOP BEING DEPENDENT.

Work will be well remunerated. We will no longer have to depend on foreign currency and capital to give value to our currency. Labor, and let this be clearly understood, is already a value in itself.

The State will establish barter as an alternative way to become independent of foreign exchange and intermediaries in the exercise of foreign trade. Valid trade tariffs will be established within our borders and beyond them through free trade agreements with other nations.

Commercial and financial intermediation must be efficiently regulated. Preference shall be given to direct trade.

One has the right to sell or exchange only by proscribing the use of usury and compound interest.

Imports will be regulated, but facilities will be granted to import products that are not produced in our country on condition of a fair valuation of the profit of an honest broker.

Work is a duty for every Bolivian citizen in his or her full capacity. An army of workers must be created. Work must result in the individual achieving economic fulfillment.

A community awakened to blood inheritance will use work as the springboard of its psychosocial strategy towards restoration.

A COMMUNITY AWAKENED TO THE INHERITANCE OF BLOOD MUST INOCULATE IN THE BLOOD OF THE NEW GENERATIONS THE VALUE OF WORK. NATURAL WEALTH MUST BE CONSIDERED AS WHAT IT REALLY IS, A MERE ACCIDENTAL ADVANTAGE, WHICH MAY BE USED, BUT WHICH WILL NEVER BE CONSIDERED AS THE FOUNDATION OF A HEALTHY ECONOMY.

2. OF THE POLICY.

Since the concept of politics has been tarnished by the synarchic distortion that interprets it as a mere attitude of human groups that use rational terms to propose social strategies aimed at placing them in the constituted power, we will better use the concept of psychosocial strategy.

Thus, politics is nothing more than the manifestation of a psychosocial strategy that agglutinates symbols related to a specific polis, in order to establish goals, parameters, aims, objectives and ways of leading in a framework of CHARISMATIC LEADERSHIP to a collectivity delimited by a NATIONAL STATE.

It is clear that we must then define a psychosocial policy or strategy in line with these contents:

Since there are very complex issues that cannot be covered here, we will define only general postulates of a psychosocial strategy appropriate for a collectivity that is awakening to its blood heritage: **THE NEW VEGANIST CURRENT.**

1. WE PROPOSE A NEW DEMOCRATIC FORM SUSTAINED BY A LEADER, THE BEST MAN OR WOMAN OF OUR COLLECTIVITY, AND WHO REPRESENTS WITH HIS OR HER BLOOD OUR MOST PRECIOUS PATRIOTIC VALUES AND SYMBOLS: AMASUA, AMAQUELLA, AMALLULLA. THAT IS TO SAY: RED, BLOOD (HONOR AND LOYALTY) YELLOW:

SPIRITUAL WEALTH AND GREEN: DIGNITY WITH HUMILITY. THUS, IT IS THE DUTY OF EVERY POLITICAL GROUPING TO ELECT A REPRESENTATIVE WHO IS PHYSICALLY, MENTALLY AND SPIRITUALLY IMPECCABLE, SO THAT IN DEMOCRATIC ELECTIONS HE CAN IMPOSE HIS CHARISMA ON THE COMMUNITY. THE LEADER WILL ONLY BE RECOGNIZED BY THE CHARISMA THAT WILL DIGNIFY HIM SPIRITUALLY TO ASSUME THIS GREAT RESPONSIBILITY.

2. WE PROPOSE THE FAMILY AS A SOCIAL STRUCTURE. ALL BOLIVIANS ARE A FAMILY AND WE ALL HAVE A FATHER: HE OR SHE, OUR LEADER, AND A MOTHER, ALL OF US,

THE BLOOD COMMUNITY. AS A FAMILY WE ALL HAVE THE DUTY TO WATCH OVER THE PHYSICAL, MENTAL AND SPIRITUAL HEALTH OF EACH AND EVERY BOLIVIAN. WE ALL HAVE THE RESPONSIBILITY TO WATCH OVER EACH OTHER'S HAPPINESS.

3. WE PROPOSE THE ABOLITION OF THE CENTRALIZED PARLIAMENTARY REGIME. EACH REGION SHOULD ELECT THE BEST LEGISLATORS TO FORM A DEPARTMENTAL GOVERNMENT WITH A REGIONAL LEADER AT ITS HEAD. THE DEPARTMENTAL GOVERNMENT WILL ONLY DEPEND HIERARCHICALLY ON THE NATIONAL LEADER, THE FATHER OF OUR GREAT FAMILY.

4. WE PROPOSE THE CREATION OF A WORK SERVICE THAT WILL COMPLETE IN THE SHORTEST POSSIBLE TIME THE MINIMUM INFRASTRUCTURE FOR A DIGNIFIED LIFE WITH ROADS, WATER, ELECTRICITY, SEWAGE, IRRIGATION SYSTEMS AND HOUSING FOR THE FAMILY: BOLIVIA.

5. WE PROPOSE THE CREATION OF A POLITICAL CONSTITUTION OF THE STATE WHERE ALL LEGAL, POLITICAL AND SOCIAL CONTENT REVOLVES AROUND A GUIDING PRINCIPLE OF ALL SUPRA-LEGAL AND LEGAL PRECEPTS: HONOR.

6. WE PROPOSE THE FORCE FOR JOY AS A SUPPORT FOR THE STATE AND SOCIETY, AS WELL AS FOR ALL COLLECTIVE AND INDIVIDUAL FUNCTIONS.

7. WE PROPOSE COMPULSORY MILITARY AND LABOR SERVICE.

8. WE PROPOSE THE INTEGRAL EDUCATION OF THE INDIVIDUAL. EVERYONE HAS THE DUTY AND THE RIGHT TO BE EDUCATED PHYSICALLY, MENTALLY AND SPIRITUALLY.

9. WE PROPOSE INDUSTRIALIZATION AND ECONOMIC INDEPENDENCE IN ALL AREAS AS THE GOAL OF OUR ECONOMIC POLICY.

10. WE PROPOSE THE SUPPORT OF A NATIONAL MYSTIQUE IN WHICH WORSHIP AND NATIONALITY ARE CLEARLY DIFFERENTIATED. WE RESPECT THE FREEDOM OF WORSHIP. THE CULT MUST RESPECT THE MYSTIQUE OF OUR NATIONALISM. IT IS NECESSARY TO BE INDIVIDUAL AND ORIGINAL, SO THE CULTS WILL BE ADAPTED TO THE NATIONAL MYSTIQUE SUPPORTED BY THE LEADER.

11. WE PROPOSE THE DEATH PENALTY FOR THOSE WHO HAVE ILLICITLY ENRICHED THEMSELVES BY STEALING FROM THE STATE COFFERS. CRIMES AGAINST THE NATIONAL STATE SHALL BE IMPRESCRIPTIBLE.

12. WE PROPOSE THE CREATION OF AN ELITE AS A MEANS OF PRESERVING PURE BLOOD, THAT IS TO SAY, THE BEST MEN AND WOMEN OF THE BOLIVIAN COLLECTIVITY. THEY, MEN OF HONOR, INCORRUPTIBLE AND LOYAL, WILL BE THE PILLAR NOT ONLY OF THE NEW REGIONAL POLICE, BUT ALSO OF THE FFAA OF THE NATION AND THE NATIONALIST PHALANX OF THE WORKERS FOR THE NATIONAL RESTORATION UNDER THE FRAMEWORK OF A DOCTRINE INSPIRED BY VEGANISM.

13. WE PROPOSE THE PROHIBITION IN BOLIVIA OF ALL MASONIC LODGES AND CULTS THAT THREATEN THE NATIONALITY AND THE ORIGIN OF THE ANCESTRAL BLOOD OF THE NATION. ALL INTERNATIONALIST AND GLOBALIZING CURRENTS ARE PROHIBITED. THOSE WHO DO NOT AGREE, ARE NOT NATIONALISTS AND THEREFORE, BOLIVIANS, SO THEY ARE FREE TO GO WHERE THEY PLEASE, INDEED, WE WILL HELP THEM.

14. WE PROPOSE THE RESTORATION OF THE POST-WRITTEN SOCIETY OF PENITENTIARIES AND DETENTION CENTERS BASED ON THE SPIRITUAL FOUNDATIONS SUPPORTED BY THE NATIONAL MYSTICISM OF THE EMERGING VEGANISM.

15. WE PROPOSE THE CREATION OF A MINISTRY FOR THE PRESERVATION, STUDY AND RECOVERY OF OUR ANCESTRAL LEGACY.

16. WE PROPOSE THE CULTIVATION OF THE ARTS IN ALL THEIR FORMS OF EXPRESSION. THE ARTS WILL BE THE OBJECT OF A SPECIALIZED DEPARTMENT OF THE MINISTRY OF CULTURE AND WILL BE CONSIDERED VITAL FOR THE INTEGRAL FORMATION OF THE INDIVIDUAL.

17. WE PROPOSE A NEW PEASANTRY AS A VITAL STRUCTURE FOR THE DEVELOPMENT OF THE NATION. THE CITY SHOULD BE GRADUALLY REDUCED ONLY TO THE FUNCTIONS OF REGIONAL CAPITAL AS A CULTURAL CENTER AND ADMINISTRATIVE POLE.

18. WE PROPOSE THE REACTIVATION AND STRENGTHENING OF SMALL AND MEDIUM DIVERSIFIED AND DECENTRALIZED INDUSTRY. WE ALSO PROPOSE THE IMPLEMENTATION OF A NEW ECOLOGICAL AGRICULTURE AND LIVESTOCK.

19. WE PROPOSE THE DEVELOPMENT OF SPORTS AND SPORTS INFRASTRUCTURE AS A SPRINGBOARD FOR THE INTEGRAL DEVELOPMENT OF SOCIETY.

20. WE PROPOSE A SINGLE PATRIOTIC MOTTO: BOLIVIA ABOVE ALL ELSE THROUGH AN INDIVIDUALISM SUSTAINED BY THE VEGA: VIRTUE, VIRILITY, COURAGE, WILL AND VENERABILITY.

3. OF THE STATE AND THE FAMILY.

This is one of the most important points of this manifesto, because we believe that a community that awakens to the legacy of its ancestral blood will reintegrate the idea of family, embracing in its spiritual vision the true meaning of family as the nucleus of a single great family, a collectivity united by a blood bond. There will be no more orphans because the Leader will be the father and our nation, that is, all of us, the mother of every child born in our country.

We will all watch over the welfare of all. A community bound by blood, awakened, will extirpate pain as a social evil and will only tolerate it as a necessary evil in this imperfect world in order to overcome and transcend it with the Will of the Vega.

Let's imagine for a moment that grandiose vision:

The motto that shouts from every mouth is: "Bolivia above all". We no longer live according to an individualism driven by desire and greed, we live an individualism that affirms the importance of blood, a selfish, heroic individualism that inspires respect and honor towards every man and woman, towards every brother of blood and soil.

Each and every one of us can experience the glory of serving our spiritual race, we stand in a compact phalanx in all strata of society. There is only one resolute attitude in each individual, the unwavering resolve to pull ourselves out of the national depression resulting from centuries of deception and lies.

There will be no abandoned Bolivians, lost in the light of day and in the darkness of the night, because we will be a great family, and the warmth of each home will be projected to all within the framework of a great mystique. And, from the blood, we will have the irrefutable certainty that, although we are alone, there is no abandonment because there is a whole multitude of Kamaradas ready to support us. In the homes, we will always project that mystique towards the beggar, the drug addict, the sick, the decayed, the Bolivian man or woman who, due to the circumstances of life, suffers in silence that misery imposed by destiny. We will know that the achievement of their restoration will be a reality, that this mystical, charismatic attachment will achieve their recovery, and that their contribution will be of vital importance for the greatness of our Mother.

Does it sound like a utopia? And isn't this planetary supermarket a utopia? Utopias, voiced by millions, become realities.

Just look around you, we all blindly believe in a consumerist world, and we can appreciate the stupid reality we have created by imagining a supermarket of planetary proportions.

OF COURSE WE CAN DO IT, AND WITHOUT THE HELP OF MILLIONS, ONLY A FEW THOUSAND AWAKENED PEOPLE. THE INDIVIDUAL HAS ALWAYS PREVAILED OVER THE BLIND AND MEDIOCRE MASS. WE MUST ONLY RELY ON THE MAN OR WOMAN OF THE PUREST BLOOD, ON HIS OR HER CHARISMA. IT IS A DUTY TO PROMOTE PSYCHO-SOCIAL STRATEGIES TO FIND, OR RATHER, TO FIND US, THE PUREST, TO GIVE THEM THE COMMAND, WHICH IS NOTHING MORE THAN URGING THEM TO INSPIRE US.

We must find and proclaim a Leader. And this can be either a man or a woman, so we will call this Wonderful Being EL-ELLA.

A HOMELAND UNITED BY THE BLOOD OF ANCESTRAL VALUES, A GREAT FAMILY THAT WILL AWAKEN THE LATIN AMERICAN REMNANTS OF THE PURE BLOOD AND THE VEGANS WILL DANCE AND JUMP AGAIN LIKE PROUD AND DIGNIFIED DEVILS. WE WILL ASCEND TO HEAVEN!

4. OF THE SPIRITUAL RACE.

All those who are willing to awaken have heard the call of their blood, and seek that spiritual center that will make them masters of themselves. ALL THESE INDIVIDUALS ARE PART OF A RACE

SPIRITUAL WITHOUT EXCLUSION FOR EXTERNAL SOMATIC ISSUES SUCH AS SKIN COLOR. THE FORMAL IS IMPORTANT IN THE CONTEXT OF A MYSTIKA, BUT THE ESSENTIAL, THE CHARISMA WILL ALWAYS SUPPORT THE FORMAL.

THE SPIRITUAL RACE IS THAT WHICH IS SUSTAINED BY BLOOD, SHARING THE TRANSCENDENT BOND OF ANCESTRAL SACRED SYMBOLS.

A spiritual race, we repeat, is sustained from the blood, where ancestral symbols prevail and pull the individual towards the understanding of metaphysical realities that can restore the original sense of liberation, of fulfillment, of resolved honor.

A SPIRITUAL RACE IS ONE THAT RECOGNIZES THE VALUE OF THE INDIVIDUAL AND EXALTS THE BEST MEN AND WOMEN.

A spiritual race is one that gives shape to a mystique capable of propitiating the appearance of a leader, a guide for the race. This leader, if he is spiritual and charismatic, will finally propitiate the conditions for the mutation of the imperfect, degraded human nature. He will have the power to transmute a collectivity,

making emerge from the interior of each man and woman, only the best, that latent spiritual force, the VALUABLE GEM, the GRAAL.

It will claim the true world of ORIGIN as the HOME OF THE SPIRIT and manifest it here, in this world.

A spiritual race is one that will finally subdue all materialism and transform your world. A race of honor, of loyalty, of heroism, of glory.

A RACE SUSTAINED BY THE STRONGEST, BY THE NOBLEST, BY THE BRAVEST, BY THE MOST LOYAL, BY THE MOST HEROIC, BY THE MOST SPIRITUAL. YES, A RACE OF THE SPIRIT THAT WILL PUT AN END TO PAIN, OPPRESSION, STRUCTURING AND HUNGER.

This spiritual race will dominate the hunger that devours man, the hunger for possessions, for material goods, restoring the ideal lost in the night of time, restoring our contact with the true divinity, the true God, the perfect world to which we are entitled by our ancestral heritage.

A race of Joy that will make it possible to regain hope in the road we have already traveled in pursuit of happiness, and why not, that will definitely overcome decadence, disease and death.

A race of true men and women who feel the SPIRIT and express it with the resonance of the resigning verb that restores that forgotten truth.

A spiritual race made up of men who will rise from the mire of their own decadence and show others the path of awakening. Yes, that is the race that we will be part of, crushing the evil of the false god of matter and greed with the uncreated light of the morning star, our PACHAMAMA. Our Uncreated Virgin who sowed in us the values of the Vega.

Race of awakened men that with trills and trombones, will awaken in turn all our sleepy America and inspire it towards new directions, towards new horizons. TOWARDS THE TOTAL WAR AGAINST THE POWERS OF MATTER.

Anyway, what else can I tell you about the race of the Spirit, let each of you awakened ones write your own apology.

Keridos and Keridas:

With the 16th issue we conclude the contents: "Towards the Awakening and Restoration of the Individual and the Nation"...

We wish everyone, not that they agree or not, but that they have understood the message we propose, because it is prior to the launching of the TRUE DOCTRINE that we will raise to win a political space and take an active part in the PSYCHOLOGICAL WAR for the collective unconscious of our peoples. The arena is the archetypal sky, then the battle will manifest itself on earth with a fury never seen before.

Those who have accepted and understood these contents will be part of the Veganist elite. Until then.

Ursus de la Vega.

C.D.C.B.

Epilogue.

We have reached the end of these contents: "towards the Foundations...", with the idea of providing the willful man and woman with the indispensable symbolic elements to embark on the task of truly changing a nation. We have developed a different vision, a transcendent conception of the individual and the State.

Today our country is torn between Being and non-Being, between the dissolving forces that want to keep it in spiritual poverty with its material counterpart and the heroic possibility of doing something to reverse the nefarious

processes that lead us to the abyss, towards the mediocrity of a nation without identity, without ideals where we do not

generate real contributions for the rest of humanity.

We are at a crucial moment, where many of us fear for our lives and our dignity in the face of the passive complacency of some fatuous economic power-holders, who do nothing because they have no interest whatsoever.

The irresistible globalizing tide that wants to make us just another number among the small forgotten countries of this world, a pyramidal base that can only aspire to produce raw materials for the excessive development of the comfort of economic emporiums that fight among themselves for world supremacy, is not an option for us.

To become a colony of communized ants under a regime of communistic "indigenous" terror, neither.

THE HOUR OF AWAKENING AND RESTORATION HAS COME; OR THE DEFINITIVE DISSOLUTION OF OUR COUNTRY AND OUR ANCESTRAL BLOOD IN THE PANDEMONIUM OF SERVICIST COLLECTIVISM PROMOTED BY A PLUTOCRATIC HIERARCHY (Fidel Castro is one of the wealthiest men on the planet) THAT SERVES A FALSE GOD: PROGRESS, EVOLUTION, TRILATERALISM, OR WHATEVER YOU WANT TO CALL IT.

All will agree that the above concepts will frighten many inert conformists who take refuge in their love of money and matter. It is evident that they are lost and sooner or later they will understand that their money cannot save them from spiritual death. Because of their senselessness, their lack of vision, they will wander like souls in pain, without any sense, in a globalized world of bees and ants hypnotized by the disastrous future of a "better future" that will never come.

IT IS BETTER TO DO SOMETHING HERE AND NOW! AND WE MUST DO IT NOW! WE MUST IGNITE THE MEMORY OF OUR BLOOD TO DRAW THE SPIRITUAL FORCES, THE SENSE THAT WILL FINALLY LEAD US TO THE IRREDUCIBLE PARADOX OF DYING RATHER THAN BEING SLAVES TO LIVE, OR LIVING RATHER THAN BEING SLAVES TO DIE.

THESE FOUNDATIONS MUST BE RAISED BY THE NEW PHALANX OF BRAVE VEGANS WHO WILL SHOW THEIR FACES IN HONOR OF THE ANCESTORS WHO MADE THE ANDE, THE GREAT MILLENNARY EMPIRE THAT RESTS IN THE MEMORY OF THOSE WHO DO NOT SHY AWAY FROM THE IMMENSE FORCES THAT WE MUST FIGHT TO BE MASTERS OF OUR DESTINY. TO MAKE OUR DESTINY PROPITIOUS.

The moment of the final battle between the forces of "Light" and decadence with the forces of TRUE LIGHT.

Restorative and perfect, is closer than ever. Let us be worthy to be part of the front line in this glorious Falange.

Let us remember that east minus west equals zero. That we must recover the Ande for our blood and our children's children, who in a time to come will complete the work and rescue the whole race of the spirit from the chains of materialism.

The Ande, the land of the Before, of giants, of heroes and millenary empires will one day be reborn and the definitive defeat of the powers of matter will be an unquestionable fact, our final victory is foretold and will be preceded by a grandiose era of profound changes, only the bravest will not fear.

Stand firm KERIDOS VEGANISTAS in the phalanx of respect and honor. Do not drop your shields and remember that we will never retreat, we will never surrender, we will never accept the slavery they want to impose on us.

Those who still want to remain in the warmth of the middle, of the billions who sleep placidly, still have a little time to reconsider and search within themselves for that sparkle of the precious stone that our Gallant Lord of Absolute Honor and Courage, the TRUE CHRIST, bequeathed to the giants who will once again walk the earth with uncontainable fury...

WIRAKOCHA SAYS: WAKE UP BOLIVIA! WAKE UP!

BOLIVIA ABOVE ALL THINGS!

July 2008.

Circulus Domini Canis Bolivia.
