

state religion dictates for their children, our rootless race, in dire need of any meaning to life, *wants* to believe in all these fairy tales. Our race has embraced the Holocaust hoax because it is an important tenet of their new religion -- a new religion they do not even realize they have adopted!

### **The Opposite of National Socialism**

It is interesting to note that the major tenets of the state religion are really only the exact opposite of National Socialism. National Socialism promotes: the inequality of the races; concern for the welfare of one's own race (not race hatred); Folk-communities of those with common heritage and blood; those with common heritage and blood; Racial purity; Military training; Strong, disciplined, responsible males and females; and Motherhood as the highest virtue. Obviously, one major purpose of the Holocaustists to obscure the fact that Adolf Hitler was right.

National Socialist Germany was a highly successful Folk-community, completely in harmony with Nature, which provided an Aryan Folk with a rich supply of heritage, values and purpose. The results were social and economic miracles which astounded the world. No wonder that the enemies of all mankind have used all their powers to falsify Adolf Hitler and National Socialism, and created the Holocaust fantasy to obscure the truth.

### **Another Viable Part of our Struggle**

Today, our primary task in the great struggle is to follow the path of Adolf Hitler, creating a new Folk-movement, forming Folk-communities, and ultimately bringing forth a more highly evolved species of mankind. It is, however, still an important part of our great struggle to fight, debunk, and show the Holocaust to be a malicious lie. This is necessary not only for the sake of truth, so dear to all Aryan hearts, but also to eliminate a great obstruction to revealing the true

nature of National Socialism. In addition, the demise of the Holocaust would be a mortal wound to our state religion. Destroying the Holocaust, and with it the State religion, can be nothing but beneficial to our Folk-movement, and it is therefore an important part of our struggle! National Socialists everywhere should do all they can to fight this despicable lie, and to support those who are leading this part of the struggle.

Great strides in historical research have been made which show the Holocaust for the bald-faced lie that it is. Instrumental in this, and deserving of our support, are the *Institute of Historical Review*, PO Box 2739, Newport Beach, CA 92659; *Ernst Zuendel*, 206 Carlton St., Toronto, Ontario, Canada, M5A 2L1; Jack Wikoff's *Remarks*, PO Box 234, Aurora, NY, 13026; and Hans Schmidt's *CANPAC Brief*, PO Box 1137, Santa Monica, CA 90401. These organizations have excellent publications on Holocaust Revisionism with which we can educate ourselves and be prepared to expound the truth about the Holocaust whenever possible.

**The Holocaust:**  
an important tenet in the new State Religion

Every effort has been made to convince us that during World War II Germans gassed Jews by the boxcar full in compliance with a sinister program of extermination, known today as the Holocaust. No one would have been in a better position to know about such a massive program to exterminate Jews than the Allied Commanding General, Dwight Eisenhower, and the Prime Minister of Great Britain, Winston Churchill. And yet, looking through their respective memoirs of the war, Eisenhower's *Crusade in Europe* and Churchill's *History of the Second World War*, both written after the Nuremberg "revelations", one discovers that in neither book there is any reference at all to gas chambers nor to any sort of program to exterminate Jews! This is just one more of the myriad of obvious inconsistencies which should cause any thinking person to have some grave doubts about the veracity of the Alice-in-Wonderland world of the Holocaust.

Obviously, Eisenhower and Churchill were not about to discredit their books by including what they knew to be nothing more than simple-minded war propaganda, which they would have rightly assumed to be forgotten in just a few years. In fact, those of us who have honestly investigated the gas chamber legend find it hard to believe that such a fairy tale could be kept alive for so many years. Yet here it is, alive and well, and part and parcel of our national culture! At this late day we need to ask *why* our race has embraced this brazen lie with such unquestioning, guilt-ridden enthusiasm!

**Our Unique Reaction to the Holocaust**  
We must understand that our race's reaction to the Holocaust is very unique. To illustrate this, we need only surmise the reactions which the Holocaust would bring if

it were directed toward any of the other races. For instance, who would doubt that if Jews tried to pull this sort of trick on Negroes, they would get a much different reaction. Most likely, Negroes would accept the accomplishment of exterminating six million Jews with the greatest of pride, and then warn them that if they didn't quit whining it would be sixty million next time! Certainly, the "Jathnos" would adopt a similar attitude. Asians, however, might look duly sad and even offer the humblest of apologies -- all the while patiently waiting until the time was ripe to not only dismiss the lie, but provide a suitable demise for the liars! There really isn't any question that a fairy-tale like the Holocaust would have little or no power over any of these races. But the majority of our race treats this fable like a religious tenet. Unfortunately, this is because to many it is a religious tenet!

### The New State Religion

Long ago, with the forced conversion to Christianity, we lost our natural tribal identity, and with it, our true spiritual heritage and our very purpose in life. Make no mistake about it, this is a significant loss for anyone! The natural consequence of this loss is not only the selfishness and materialism which is epidemic among our race, but the mass adherence to a new religion -- the media-created religion of liberal democracy, which, in fact, is now the official State religion. Like the Christian state religions of old, this new state religion is complete with undebatable, *a priori* assumptions which compose the tenets of its anti-Nature dogma, and it demands unquestioning belief in this dogma. Already "heretics" are persecuted, and clearly there are efforts underway to impose special laws to punish transgressions of any tenets of its dogma. The most important of the official tenets of this new state religion are: that all races are absolutely equal (except for Jews, who are under-

stood to have many superior abilities); that racism is the greatest crime (except for non-White racism against Whites, which is understandable, and usually not a crime at all); that all nations must be multiracial (except for Israel, because Jews need their own special homeland); that paradise comes on earth when all races have vanished and everyone is of mixed blood (except Jews, who need to keep their own special identity); that militarism is evil (except if used against South Africa or any enemy of Israel); that weak, effeminate males and masculine females are normal and desirable; that motherhood is a waste of time; that Adolf Hitler was the most evil person in history, "nazism" the most evil creation in history, and the Holocaust the most evil deed in history -- and that this deed somehow or another proves beyond doubt the veracity of all the aforementioned tenets. (An inferred tenet is that somehow everyone of White race shares a collective guilt for the Holocaust, which can only be atoned for by loyal adherence to the state religion).

The above tenets are taught in the schools, preached by the government, affirmed by the courts, and have been added to the dogma of virtually every establishment Christian church. Although even an imbecile can see that this is nothing more than a very overt recipe for social chaos, economic collapse, and racial extinction, our race has willingly embraced this suicidal creed by the millions. This is because it fulfills the important criterion of religion far better than most establishment churches: it satisfies the inner needs for a sense of belonging (in this case more herdish than tribal), a sense of order, and even a (somewhat vague) sense of purpose. In addition, it does not require any self-discipline, and even encourages selfishness and indulgence. Since any purpose or sense of belonging *now* is far more valuable to the selfish than the dismal future such a
