Let's Get Our Priorities Straight.

Planet Earth — Our One and Only Home

The Space Boondoggle — There is nothing out there for us. — By Ben Klassen, P. M.

Approximately a quarter of a century ago the then charismatic President John F. Kennedy made a bold pronouncement: *We would put a man on the moon before the end of the decade.* The speech was ballyhooed around the world. It was lauded and applauded as being brave, heroic, monumental, wise and heaped with a number of other panegyric adjectives that would make this bumbling playboy seem like an heroic oracle from out of the pages of ancient history.

The race was on! We had to put a man on the moon before the Russians beat us to it! The nation was launched on a program more zealous than the pursuit of the Holy Grail.

Nine years and forty billion dollars later we did indeed put a man on the moon. We even brought back some moon rocks, that most holy of holies, back to Planet Earth, to presumably prove the astronauts had been there. For a while these rocks were regarded as a treasure more sacred than a splinter from the (supposed) cross on Calvary.

The Space Age had been launched and the American people were led to believe that **we were now entering a new Age of Discovery**, an age that would compare in significance with the Age of Discovery opened by Christopher Columbus nearly five centuries earlier.

In this respect, the hype and the promise of the Space Age was on a parallel with that launched by President Eisenhower's "Atoms for Peace" speech in December of 1953. (See Issue No. 27 of *Racial Loyalty*, "Nuclear Pollution.") Both epoch-making speeches, Eisenhower's and Kennedy's, promised the American people much. Whereas promises are cheap, the reality is that it cost the White American taxpayers billions and billions, but only history will tell whether they were an epoch-making boon to mankind, or a treacherous rip-off on the American people. We can be sure of one thing: both speeches were written under the auspices of the Jewish powerhouse.

EVALUATION OF THE SPACE PROGRAM.

We Creators have only one yardstick for the evaluation of all programs, ideas, creeds, or whatever, and it is spelled out in C. C. No. 2 of *The White Man's Bible*. It is this: **Of what benefit is it to the White Race?**

More than forty years have gone by since we started developing rocketry and space flights in earnest following the end of WWII. More than twenty-five years have gone by since Kennedy delivered his epoch-making speech. More than fifteen years have gone by since we landed a man on the moon. (During the '60's it was oh, so urgent! that we "beat" the Russians in putting a man on the moon! Now, in 1986, the Russians still have not put a man on the moon, and who knows when, if ever, they will.)

After all this hoopla, hullabaloo, and hype, it is time now, in 1986, that we take a realistic appraisal of the space program, not from the Jewish point of view or of Hollywood theatrics, but from a cost/benefit ratio point of view, and especially from the White Man's point of view, the only one the Church of the Creator is concerned about.

We have spent one hell of a lot of money on the space program, probably more than a hundred billion dollars, paid mostly by the productive White American taxpayers. Outside of lavish promises of future benefits and glories, (reminiscent of the religious hucksters) what actual benefits have we, the White American taxpayers, derived?

After last month's dramatic and catastrophic explosion of the Space Shuttle 75 seconds after lift-off at Cape Kennedy, I believe this is as good a time as any to ask that question. So here is a brief (but far from complete) summary of what has happened since we dramatically put Neil Armstrong on the moon in July of 1969.

We have made a few more flights to the moon, both manned and unmanned. No more have been made for many years. The moon

ON NEO-PAGANISM IN NAZI GERMANY

By Michael Merritt

(Mr. Merritt is the Executive Director of The New Dawn, Box 11184, Burbank, CA. 91510)

In order to understand the rise of neo-Paganism in post World War I Germany it is important to have an appreciation of the "Zeitgeist" (the spirit of the times) that existed in that period. When we view historical events through the cold eyes of the scholar we often fail to get a feeling for the real underlying causes and forces at work in effecting the change that we are studying.

The spirit that existed in Germany at the turn of the century, is what gave birth to Nazi ideology and not the other way around. It would be foolish to imagine that a political party or religious organization can create the conditions

necessary for the spread of its own ideology. At best, it can only exploit existing conditions and hope that its beliefs will take hold. To be sure, the organization of the N.S.D.A.P. was instrumental in achieving political power, but without the ability to capitalize on the feeling of the times this could not have been accomplished. Adolf Hitler, Dr. Alfred Rosenberg, and the Nazi Party were products of their times, not the reverse as is so commonly imagined.

The 1900's ushered in a German spiritual awakening unlike anything the world has ever seen. The military victories of the Prussians gave the German people a breathing spell. They used it (and their new found prestige) to transform themselves into the most productive and creative people in Europe (perhaps the whole world.)

PLANET EARTH

(Continued from Page 1)

rocks have been locked up in a vault, and as Andy Rooney pointed out on "60 Minutes" in January, nothing more has been heard of them, and nobody could care less.

We have made some spectacular and highly expensive forays into "outer space" (a glamorous term, isn't it?) to "explore" the other planets of our own solar system and as I am writing this (last week of January, 1986) our spaceship Voyager II is sailing past the outer planet Uranus, and has discovered (wonders of all wonders!) that Uranus has rings around it, and more moons than we had previously anticipated. Isn't that wonderful?

Well, yes and no. I believe it is fantastic that our White scientists could put together such a complex (and highly expensive!) mechanism that could still function out there in the void and send back such intelligent and accurate data from the far reaches of the void, almost two billion miles away. To be able to do so, is utterly astounding and the highest of all accolades to the intelligence and creativity of the White scientists who have accomplished this astounding feat. Having studied engineering, electricity and electronics myself forty some years ago, I can appreciate the complexity and enormity of the feat, and I repeat, it is truly astounding.

But we come back to the bottom line of the question: **Are the promised benefits real?** Could the amount of time and money have been spent on more beneficial goals for the White Race? Is there really a future in "space"?

THE POSITION OF THE CHURCH OF THE CREATOR.

We Creators take a damn dim view of the whole "space" program. Yes, it is interesting that there are 12 or 13 moons orbiting Uranus, some of them of an odd-ball shape. As an engineer, or as an amateur scientist, my curiosity is piqued. Yes, I subscribe to and read National Geographic, and have for 25 years, and as such I am also interested in reading about marine life at the bottom of some of our oceans; about pulsars and about "black holes"; about gigantic galaxies millions and even billions of light-years away out there in "outer space". Yes, it is all very interesting to read about, or speculate about. Yes, I am interested in science, its advancement and in the universe about us.

But — let us get our priorities straight. Whether Uranus has 12 or 13 moons, or no moons at all, is less important to me and most White Racial Comrades than if a

family of uncouth niggers moves in on the next block. It is much less important than the fact that millions of illegal Mexicans are flooding across our borders from the South. It is less important than the fact that our children are forcibly bused across town into nigger infested schools, and niggers into White schools. It is less important than the toxic chemical pollution and nuclear pollution of our planet right here at home. (Read again "Saving Our Precious Planet from becoming a Poisonous Garbage Dump and a Human Pigsty", in Issue Nos. 26 and 27 of Racial Loyalty). Considering the so-called "space program" cost somewhere around a hundred billion of White American taxpayer's dollars, and will cost a lot more in the coming years, it is, in fact, a damned expensive boondoggle, and of little, if any benefit at all, to those of us that are paying for it.

True, a lot of large Jewish corporations that are part of the industrial-military complex are making a killing; true, we are advancing our technology and scientific knowledge; true, the technology learned can be utilized for military advantages; true, it has "produced" jobs; true, it is fascinating to read about; true, we have "plans" to put huge space-stations, a mile or so in diameter in orbit around the earth, which will presumably house whole integrated communities; true, we are developing the space shuttle, the latest edition of which just blew sky high into smithereens last month.

But are these values real, or are they merely specious? Let us examine them, one by one, from the White Man's point of view.

PROFIT. This factor, profit, for Jew-owned corporations is, in fact, the prime driving factor for the whole space program. There is nothing so profitable (except printing money, as practiced by the Jew-owned Federal Reserve) and as secure as having government contracts granted for the production of military and/or space hardware. But the White taxpayers have to pay the bill for this cosy arrangement, and as usual, are the victims of this gigantic rip-off.

ADVANCING OUR TECHNOLOGY AND SCIENTIFIC KNOWLEDGE.

Doing something that is unnecessary and superfluous in the first place is an expensive and roundabout way to acquire new technology. The same advancement could be achieved much more economically by scientific experiments other than producing a lot of expensive and complex hardware we don't need in the first place. Another question I want to elaborate on a little later is: do we

really need or want more sophisticated technology?

MILITARY UTILIZATION.

In the first place, the whole defense program against a specious enemy (Russia and communism) is as phoney as the whole space program itself. The Jews control the United States (and its supposed NATO allies of Western Europe) just as they do Soviet Russia and its communist satellites. (Read again "The Phoney Fight Ruse" in Issue No. 8 of Expanding Creativity). If the White Man ever gets the Jew off his back and gets control of his own destiny, the need for wars and defense budgets will vanish overnight. There will no longer be any more need for 300 billion dollar "defense" budgets by which the American taxpayer is now being ripped off in a most treacherous and deceitful manner.

JOBS.

Of course any "make work" ruse creates jobs. If we had a gang of hoodlums go around day after day smashing windows, it would create more jobs and business for

For the 100 billion dollars we have so far wasted on a useless space program, we could comfortably have shipped all the niggers in America back to Africa, and made them like it.

glasiers and glass manufacturers. If we had another gang go around and burn down buildings, it would create more work and business for building contractors, carpenters, plumbers, electricians, etc. But is such "make work" really a constructive approach in a society that could be put to work much more productively producing useful and needed wealth? No, it is not. And the whole "space industry" is in the same category of useless endeavor spending untold billions producing something that is not needed in the first place.

EXCITING TO READ ABOUT.

We can read any number of science fiction stories that make just as interesting reading as do real spaceship adventures. The science fiction stories have one big advantage: they can be cranked out by the numerous imaginative writers at an infinitesimal fraction of the cost that taxpayers have to come up with to pay for all the unneeded hardware.

HUGE SPACE STATIONS IN ORBIT.

There is nothing more stupid

and unpractical as the orbiting space stations that we hear so much about in "futuristic plans". We are told that soon we will have spaceships (or stations) a mile or more in diameter, furnished with apartments, stores, gardens, trees, electric power plants, presumably cars or other vehicles of transportation, all incapsulated in one huge spherical ball. This sphere, then, will orbit around the earth some 300 miles out, as do the present TV broadcasting satellites.

These space stations would, presumably, be pressurized to maintain atmospheric pressure, and have exit and entrance doors that would allow people and materials to enter and exit and travel back and forth to earth via some sort of shuttle service. Since the people living in them would be subject to weightlessness, it would also have to revolve about its own axis to produce centrifugal force and the feel of "weight".

When we consider how utterly pointless such arrangements would be, and how terribly expensive and impractical, we wonder about the sanity of those "our leaders" who are boondoggling the taxpayers money. Consider the catastrophe one hostile rocket aimed at such a space station could produce and it would pale last month's space shuttle tragedy into insignificance.

SPACE SHUTTLE.

In the last few years we have heard much about the "wonderful success" of the space shuttle. What we have not heard much about is the terrible expense of these useless toys. To replace the one that just blew up at the Kennedy Space Center is estimated to cost approximately two billion dollars. **Two billion dollars! Do you realize how many niggers we could repatriate to Africa for two billion dollars? Along this same line of thinking, for the 40 billion dollars we spent on putting a man on the moon in 1969, we could have comfortably shipped all of the then 35 million niggers back to Africa, and made them even like it. For the 100 billion dollars we have now spent on the "space program" we could even do it today, and we would all be one hell of a lot better off.** (Read again, "The Black Plague in our Midst" starting on page 49, of Nature's Eternal Religion).

And just what useful function are these space shuttles supposed to perform? For years I have been looking for a clue as to what useful purpose these imaginative bureaucrats have in mind, but I have never yet heard any specific need or plan that this vast boondoggle is supposed to achieve. True, the scientists dream up highly

(Continued on Page 3)

PLANET EARTH

(Continued from Page 2)

sophisticated (but idiotic) experiments that "can only be performed in space", or "by weightlessness", but they are children's games at best, playthings for scientists, again paid for at great expense by the overburdened White Taxpayer.

CONCLUSION.

1. BOONDOGGLE.

The whole "space program" is highly reminiscent of the huge pyramid building programs of the Ancient Egyptians some four thousand years ago. To build the Great Pyramid of Cheops, for instance, it is estimated it took 100,000 workers (or slaves) twenty or more years. Now the pyramid itself is a huge accomplishment and magnificent monument to the Pharaoh that had it built in his honor. So bully for him. But what about the poor slaves whose blood, sweat and tears went into the project — what did it benefit them, or the Egyptian nation as a whole? Damn little, and, in fact, it is this idiotic pyramid building that is suggested by some historians as contributing to Egypt's decline.

The present space program is similar. It is tremendously profitable for the big Jewish corporations that are granted government contracts. It is a lot of fun and games for a small coterie of scientists who like to see their projects and imaginative games put into reality, with, of course, somebody else's money. That money comes from the blood, sweat and tears of the (mostly) White American Taxpayers, on whose backs are loaded all the failures, rip-offs and shortcomings of the whole world.

2. *There is NOTHING OUT THERE for us in Outer Space.* Any intelligent person who thinks this thing through cannot help but ponder the following facts:

(a) We know enough about the moon, and the planets (other than Earth) in our own solar system to realize that none of them are fit for human habitation. In fact, there are even parts of Planet Earth itself, such as the North and South Poles, that are extremely inhospitable for human habitation. So let's face it — there is no future for us out there on other planets in our solar system or on the moon.

(b) The next nearest place where more planets might be found is around the nearest star, which is four light years away, a long, long distance. It has been calculated that even if we developed such sophisticated rockets that could eventually accelerate to the speed of light, it would still take 300,000 years to get there, and presumably

another 300,000 to get back. This is due to the fact that if such spaceships were manned by humans, they could only be accelerated at an acceptable rate until they achieved the speed of light, and at the other end, could only be slowed down at a similar acceptable rate.

Now to get a human species to be encapsulated in a spaceship of any kind for 600,000 years, would take a lot of inbreeding and reproduction, something like 24,000 generations, an idiotic conception, even if we disregarded the cruelty of the whole thing.

Then, if they did get there, (and the chances are incalculably small) perhaps one in a trillion that this one star, which although it may have planets orbiting about it, that any of them would be any more habitable than our own Jupiter, Mars, Venus, and what have you.

For the same far-fetched reasons, all this hoopla about in-

*The White Race
will either inhabit
Planet Earth in totali-
ty, or it will not sur-
vive at all. There will
be no in between in
our future.*

telligent beings in human form coming to visit us from outer space are similarly far-fetched fantasies of the imagination. They are, in fact, a replay of all this childish poppycock about "angels" flying around in the heavens above that the exuberant born-again Christians (and others) like to peddle.

It is all very unreal — in fact, it is meandering about in a fool's paradise.

(c) This Planet Earth is unique. As far as we know, (and we have accumulated a mass of information, especially in recent years) we are alone as an intelligent being in this vast and limitless universe. This may be frightening to some immature individuals, who yearn to adhere to the fantasy of a Father-God image taking care of us all. But fortunately, or unfortunately, evidence does not bear this out. The chances of another planet having all the millions of unique characteristics of temperature, atmosphere, water, oxygen, minerals, etc., etc., in the same combination that produced life on Planet Earth, are extremely remote. If such other planets exist in some distant galaxy, our chances of shuttling back and forth in com-

munication with them are so remote that you might as well forget about it. If you want to play such games, go back to the Christians' story about angels with wings, and all that nonsense. At least you don't have to build any expensive hardware to play these kind of games of fantasy.

No, my dear White Racial Comrades, for better or for worse this Planet Earth is it, and we had better get our act together to make sure the Jews and niggers don't steal it from us while we are stupidly fixing our gaze on "outer space", or on imaginary "next worlds".

3. I have given a lot of thought to the question: **Do we really need or want more complex and sophisticated technology?** Is it good for the White Race, or are we already overburdened with more technology than we can comfortably handle? Has the recent burst of nuclear power plants, computers, telephones, television, airplanes, rocket ships, atomic bombs, hydrogen bombs, huge chemical plants with all their toxic wastes and pollution, — has all this made us any happier? I wonder.

Let us go back, say more than a hundred years ago when we had none of these things to enjoy, or worry about. Let us take a rancher and his cowboys out in the wild and wide open spaces of the West who knew about none of all these complex and sophisticated goodies. They knew nothing about them and didn't have any high level of expectations in acquiring such sophisticated machinery. Were they any less happy than the urban dweller in the midst of Los Angeles or New York, who has cars, TV sets, telephones and a host of other complicated paraphernalia surrounding him, including smog, traffic congestion, noise, not to mention a horde of hostile niggers and other mud races crowding in on him?

I have no way of knowing, or of measuring, who is happier or less happy. Personally, I believe that the modern urbanite is more fearful, apprehensive, harassed and frustrated than were our pioneering ancestors.

Anyway you look at it, all this modern technology is becoming highly dangerous to the survival of the White Race itself and if the hydrogen bomb doesn't blow us to smithereens, the niggers and mud races will do us in. Failing that, toxic and nuclear pollution will perhaps take a little more time, but will inevitably be the slow and lingering death of us all.

We Creators take the position that we are a thousand times more interested in advancing our White gene pool in eugenics than we are in further advancing an already un-

manageable technology and all its accompanying hardware.

So let us get back to reality and sort out our priorities and get them straight.

ORDER OF PRIORITIES FOR THE SURVIVAL OF THE WHITE RACE as viewed by the Church Of The Creator.

1. The first order of business is to straighten out the confused and scrambled thinking of our White Racial Comrades.
2. The next order of business is to arouse, unite and organize the tremendous potential power of 500 million White peoples on this Planet Earth into one powerful battering ram and smash the Jewish parasite that is fastened on our backs, and take charge of our own destiny.
3. We must then organize our society for our own interests — our own survival, expansion and advancement. We believe this can best be done under the aegis of a White Racial religion such as Creativity. When we consider what wonders a racial religion has done for a small minority such as the parasitic Jew, we cannot help but conclude that it would work even more tremendous benefits for the creative genius of Nature's Finest.
4. Once in charge of our own DESTINY, we will have control of our own government, our own money system, our own systems of education, entertainment, culture, religion and all the other parameters that make up a well-structured society. We can then proceed on our own terms and reshape the world to our own needs.
5. The most important step we can then take, (and must take!) is to cleanse our racially polluted society. This means shipping the niggers back to Africa, the Mexicans back to Mexico, the Jews to Israel. Although the latter have only the flimsiest of all claims to Palestine, nevertheless, we will concede this piece of desert to them, and send them to their alleged "homeland". Should this space prove inadequate for a larger horde of these parasites than they have led us to believe exist, then we will even let the excess masses overflow into the island of Madagascar. In any case, we must cleanse all White countries of all mud races, and especially history's most obnoxious and dangerous parasite.
6. The next step will then be to cleanse our natural environment of toxic and nuclear wastes before this planet becomes so befouled it is no longer fit to live in, or on. This, too, is a gigantic job and will take decades to complete.
7. Having accomplished this much we can then embark on the two final and most constructive steps,

BRICKBATS & BOUQUETS

Dear Pontifex:

In regard to your article on the Nazi-Germanic religion, I thought it was very informative.

I have always thought highly of Alfred Rosenberg and have read much of his material. Out of boredom, however, I have never finished reading all of his writings (even some of Hitler's "Mein Kampf" was dull). Your material, on the other hand, I have not been able to put down. Needless to say, your characteristic style and comprehensive knowledge far surpasses Alfred Rosenberg, Commander Rockwell and even Adolf Hitler.

Once again, the very best wishes to you and your wonderful family and for a very enjoyable 68th birthday.

Creatively yours,
Rev. Rick Harp
California

Dear Mr. Klassen:

My cordial thanks for your encouraging letters from Jan. 7 and Jan. 8 respectively. I am greatly looking forward to following your "Racial Loyalty" which provides a lot of inspiration and reinforcement. I will do my very best to disseminate your ideas in Germany. I warn you not to be too optimistic about it. Let aside the well-known fact that the vast majority of people here and elsewhere are completely disinterested or brainwashed by the public-opinion-terror, the remaining 13 per cent (as to several polls) considered as "right-extreme" here are committed to direct national goals or have even a chauvinistic stance. A tiny minority is concerned about racial questions in the way we are and even most of them have quite a different idea about race and will reject your conception of what "White Race" means. That is to say THEY understand only the Teutonic-Germanic stock as the real White Race. It would make their flesh creep at the thought of Italians, Spaniards, Portugese, etc., being included in their conception of the "White Race."

Anyway, we will suggest your very impressive ideology and see how they react — if at all. I assure you that I won't give up too soon. That is not my mentality, I have been active in this field for years, and I am motivated not by direct success, but a deep creed. Those groups I enclosed (on green paper) are more likely to respond, because they are interested in the topic. On the White sheets (as I sent it to Mr. Nowicki) I have cancelled those groups where I am 100 per cent sure that they won't react (either Christians, Conservatives, Chauvinistic, etc.) The first one I

know who completely consents to your ideas is Jan Taits in England. He is painting cartoons, one of them I am enclosing likewise and his address, I sent him your White Man's Bible.

The answer to your question as to whether I am living in East or West Berlin is rather self-evident. I would go to prison in East Germany just by receiving such mail — it would not even come to my eyes. Generally, our groups don't like to be addressed as "West Germany." We still feel we are "Germany." And we are not so very much anti-communistic as the people generally are. We consider the US-ZOG Government as bad as the Communists, possibly worse. Because: on one side we undoubtedly enjoy more freedom and quality of life here, but on the other side from a long-range perspective our people (and the substance of it) are much better preserved in East Germany. The terrible terror-system there may be pushed away literally overnight — under the historical chance. But here the horrible destruction, both mentally and genetically, cannot be reversed in a short time. This is not theory, but our eyes tell us when we go to East Berlin on visits and compare the situation to that of West Berlin. It's much more sober, sound and orderly there. Come yourself and see! Last year we had an influx of 70,000 Tamiles, Pakistanis, Lebanese and other dirt who are settling here. It's disgusting!

In closing, I will look around to see who is impressed by your ideas. I could do the translations in theory. But presently it is really impossible, I am committed to a lot of activities and have not a single minute to spare, inasmuch as my wife is sick and completely helpless. It's just at midnight or on the subway when I can start reading your materials.

Hail and Victory
with kind greetings:

I will send the transcripts of the trial, and ALL related materials as soon as the court forwards them to me. They HAVE appealed to the 6th circuit in Ohio (Cinn.) but I'll win there. Rev. Robert L. Hyland

Dear Pontifex:

Thank you for your letter of Jan. 16. I have decided to accept the offer to join forces and help instruct the Boy's School this Summer. Let us hope we get some good boys to attend.

What an opportunity! First of all, I would assume that anyone who attends this camp will already be far ahead of the average boy his age. But coupled with the knowledge, foresight, and leadership training we intend to instill within them, they should be highly successful, and a very important asset to the White Race.

I recently read an article in a newspaper here describing the children (and young) in Libya. They not only study the required courses in school, such as History, Science, Math, and Language, but also are taught in military training. Even if they are not White, I respect them for standing up against this Jewish world, and for not being frightened to say — "The Jews are the problem." We should teach our White people to band together, under CREATIVITY, to study and understand military tactics, and to openly attack the Jews. WHEN WE DON'T SAY "JEW", we are only helping to DISGUISE them. Words such as "INTERNATIONALIST", "COMMUNIST", even "ZIONIST", are not good enough! The Jew lives in the lie, and dies with the truth. Expose him, and 1/2 of his power is eliminated. Stand up to him, and all of it is.

Yes, they do control the money, the press, the government, etc., but they obviously don't have complete control, because if they did, we would really live in terror. They haven't reached it yet, and they are scared of us — YES, we White people. We seem to be their greatest concern. So let's not dissappoint them. Let us give them all they deserve. A trip to the Holy Land. ONE-WAY!!!

Sincerely,
Rev. John K. Westphal

Dear Rev. Messick:

Really enjoyed the letter David Cevette wrote in your last paper. It brought back memories. The first time I heard the Identity message was in 1979 and Pastor Emory from

Note: 71 acre Tennessee farm described in last month's issue has been reduced from \$70,000 to \$60,000. For more information write Racial Loyalty, Box 400, Otto, N. C. 28763.

Arizona then started to broadcast over a Missoula station. The same man who told us about him had tapes of Col. Gale of Mariposa, Calif.

At that time I thought he had all the answers, my search for the truth was all over. He would get to a point and there it ended for me. I wasn't satisfied. There had to be more. Then Richard Butler came into the picture and I went to his ed. But 200 miles is too far to commute, so I settled for his monthly paper. Still — something was missing and then the Christian Vanguard gave an article about a young militant preacher who had to do with the Posse Comitatus and then, we really thought we had it. Talk about a merry-go-round — we had it! Dan Gayman was sandwiched in there too — and so when I did get Ben Klassen's books — the set of three — we knew, then, our searching was over. Klassen told us what the others COULDN'T AND WOULDN'T!!!!!! That's why, when I got so excited and fired up, I wrote all those 10 or more top men in the IDENTITY MOVEMENT (they all fell in a hole). They are now quiet. I never hear about Col. Jack Mohr anymore either and he and Butler were thick. I wrote him, too.

Oh before I close — got an envelope a week or so ago from Pastor Jim Wickstrom. He wanted to sell me more literature and tapes. Never wrote a single word so I zeroxed copies of Chapter 14 in your NATURE'S ETERNAL RELIGION and Chapter 9 and let him chew on that awhile!

Best of everything,

Dear Rev. Messick:

I was very pleased to see Dr. Revilo Oliver's letter in the Jan. Racial Loyalty. Anyone who earns a tip of his is DEFINITELY on the right track.

Regarding the recent "King Kong" holiday, may I suggest that patriotic Whites on this Black Day fly their flags at half mast, upside down, because our country is in GRAVE PERIL.

Yours for a Whiter
and Brighter World!

Alarming Increase in suicides Among White Children

Dear Pontifex:

I will begin by thanking you for the concern and special interest you have shown in White prisoners. As in my case, your dynamic movement has been instrumental in reaching many Whites behind the bars of America's Jew-controlled and nigger-infested prisons, and in helping these White Racial Comrades to ascend to the higher plane of racial awareness.

Before regaining control of my own natural instincts, I was a member of today's lost generation, a victim of the drug and hippie counterculture of the '70's, fueled by marijuana, LSD, and the mind-distorting effects of the Jew-controlled mass media. Since reading *Nature's Eternal Religion* and *The White Man's Bible* in 1981, my life has taken on new purpose and meaning.

Intelligent White men and women are realizing that the conspiracy of the diabolical Jew lurks beneath the dangers which threaten our survival. The well-poisonings and ritual killings of gentile children in medieval times have been succeeded by more sophisticated forms of Jewish ritual murder. The Jews, in their PROTOCOLS OF THE LEARNED ELDERS OF ZION, have sworn to destroy the White Race. This is why they are the driving force behind such plagues as communism, abortion, drug abuse, fratricidal and no-win wars, "Women's Lib" (in order to create a divisive "gender gap" between our men and women), bus-ing, and other forms of forced race-mixing. One chilling aspect of the Jewish scheme, however, deserves more attention: THE ALARMING INCREASE IN SUICIDES AMONG OUR PRECIOUS WHITE CHILDREN.

After accidents, suicide is the second leading cause of death among all Whites between the ages of 15 and 34 (*The Atlanta Constitution, June 21, 1985*). A disproportionate number of these suicides are occurring among White children as young as 12 and 13! On the other hand, the suicide rate among non-whites is approximately one-third that of Whites. Those in the field of psychoanalysis (a Jewish science) are at a loss to provide an intelligent explanation for this phenomenon. The Freudian psychologists are trying to tell us that the problem has worsened because children are "troubled by world tension" and "the threat of nuclear war."

I am sure that you, dear Comrade, find the above hypothesis to

be a most idiotic one. Not since the close of the *Pax Romana* has the civilized world been free of wars and rumors of wars. Our people were subjected to all kinds of stress before the advent of television and atom bombs. A good example is the pioneer families of early America. They lived daily with the threat of attack by savage Indians and other wild animals, the challenge of braving the elements, foraging for food, and building a civilization in the midst of a hostile wilderness. And yet...there were no suicidal epidemics among the youth of our ancestors.

It is my deep conviction that there are two main common denominators involved in today's teen suicides: (1) the lack of race-consciousness among the White people in general, and (2) the mind-pollution and subliminal techniques which are being used in conjunction with the electronic mass media, i.e., radio, T.V., and "music."

As Wilmot Robertson has suggested, it is the lack of "race consciousness, the most intensive expression of the feeling of belonging" that leads to White suicide (*The Dispossessed Majority, National Vanguard Books, pp. 267-68*). While racial pride and solidarity are relentlessly promoted among the Jews, niggers, and other mud races; it is considered a criminal act in this sick society for a White to show any loyalty and preference for his or her own kind. The Jews, in complete control of education and propaganda, have used "black is beautiful," "all men are equal," and other phrases to a nauseating degree, to distort the minds and the natural instincts of the White people. The great heritage and endless achievements of the magnificent White Race have been downplayed, if not suppressed altogether.

As a result, our youth lack purpose and direction. To borrow a metaphor from nautical terminology, our young people are "under way with no way on." They are like ships without rudders, aimlessly adrift at sea. They have been robbed of their "racial identity" and their sense of "belonging." (See "Identity: Where Do You Belong," Page 372 of *The White Man's Bible*).

In regards to the second common denominator, it is very likely that subliminal messages and commands projected through the electronic media are a major contributing factor to suicide. Subliminals, like hypnotism, are extremely effective in reprogramming one's brain. They consist of im-

Comparative Religions — Part X

MORMONISM

A/K/A Church of Jesus Christ of Latter Day Saints

Mark Twain has observed that "truth is stranger than fiction — it is just less popular." The Mormon religion is a case in point, and owes its existence to the coming together of a number of bizarre coincidences that were not likely to happen. Most strange of all, however, is the fact that the basic book of Mormonism was written by a man who had no intention of starting a religion, never heard of Mormonism and died fourteen years before the Mormon church was founded in 1830.

THE THREE KEY ACTORS IN THE DRAMA

Solomon Spalding (1761-1816) The story rightfully begins with a sometime Congregational preacher and part-time novelist named Solomon Spalding, who was born in Ashford, Connecticut on February 20, 1761. Although he was never too successful as a preacher, nor as a writer, nor as a businessman, yet, what he started more or less by accident would have ramifications that would reverberate into the 20th Century and far beyond.

Solomon Spalding was the third of ten children. His father, Josiah, joined the Revolutionary Army, and Solomon followed him on Jan. 8, 1778 as a private. After the War, Spalding studied law in Windham, Conn., and later entered the prestigious Dartmouth College in preparation for the ministry, where he graduated with a Master's degree in 1785.

He became associated with the Windham Congregational Association in 1787, which at that time was one of the largest Congregational denominations in the eastern United States. He was ordained and remained an evangelist for about a decade, but finally quit the ministry because of ill health.

In 1795, he married Matilda Sabine and shortly thereafter moved to Cherry Valley, New York, to join a brother in the mercantile business. After several other not too successful ventures, Solomon and Matilda moved to Salem, Ohio, in 1809 in order to superintend a small property they owned, while also working at an iron forge. As his health further deteriorated he began writing novels in an effort to earn a living.

When the War of 1812 began his business failed and the family moved to Pittsburgh in the hopes

of printing and selling his second novel *Manuscript Found*, in order to help pay off their debts. Spalding and his wife then moved to Amity, near Pittsburgh, where living was less expensive and the climate hopefully more conducive to his now rapidly failing health. However, change of climate not withstanding, six weeks later on October 20, 1816, Solomon Spalding died.

Although desperately in need of money, Spalding never was able to sell *Manuscript Found*. He left it with a printer in Pittsburgh, who did not see fit to spend his own money printing it, but would print it if Spalding would pay the costs. There it remained at the time of Spalding's death, and for many years thereafter it lay there in Patterson's Print Shop, unwanted and unpublished.

Sidney Rigdon (1793-?)

The scenario now shifts to another set of characters. Working at this same Patterson's Print Shop in Pittsburgh was a man by the name of Sidney Rigdon, who was also a sometime preacher, and an unstable religious renegade of shifting ideologies. Somehow Spalding's unpublished manuscript fell into his hands (it is claimed he stole it from the print shop and copied it at home.)

Now Sidney Rigdon was a man of vivid imaginations and unstable character. As a boy, he had been thrown from a horse, his foot entangled in a stirrup and he was dragged some distance before he was freed. In the ensuing accident he received severe contusions of the brain that effected his men-

tal stability and character ever after. Although his mental powers were not diminished, it did greatly affect his equilibrium and he was subject to running into wild visionary views on almost every question, and strangely enough, this focused in particular on religious hallucinations and visions.

Born on Feb. 19, 1793, Rigdon joined the First Baptist Church in 1817 near his hometown of Liberty. He was ordained a year or two later and in 1822 he became minister of the First Baptist Church in Pittsburg. His ministry, however, was short lived and he was excommunicated on Oct. 11, 1823 for teaching irregular doctrine.

This experience greatly embittered him. It was between 1823 and

"Truth is stranger than fiction — it is just less popular."

Mark Twain

1827 that his vivid and unstable imagination conceived the idea of converting Spalding's fictional novel into the "Holy Book" of a new religion and laying the basis of Mormonism.

Joseph Smith, Jr. (1805-1844)

The drama now shifts front stage and center to the "hero" of our story, the alleged founder and prophet of the Mormon religion.

Joseph Smith, Jr. was born on Dec. 23 1805, in Vermont, the third son of Joseph and Lucy Smith. When he was 11 his family moved to Palmyra, New York, where most of his family joined the Presbyterian church.

The Smith family was a bizarre collection of individuals and was not well received by their neighbors when they moved to Palmyra. Both Joseph, Sr. and Joseph, Jr. had this droll obsession of digging for money and hidden treasure in the nearby hills and Indian mounds in the area. Both were in particular considered entirely destitute of moral character and addicted to vicious habits, according to an 1834 report.

Joseph, Jr. was an uneducated (he only went to the fourth grade) uncouth character, slovenly in his manner of dress and had all the morals of an alley tom-cat as his later polygamous life-style was to prove. Before his untimely death at 39 he fornicated with at least 50 women that are on record and probably twice that many that are unrecorded.

He had one redeeming quality, however, that fitted him to become a spook peddler extraordinaire. Even in his younger years Joseph Smith, Jr. could lie fluently, skillfully and convincingly, and his imagination seemed to know no bounds. He was also subject to hallucinations and "visions" which he later managed to turn into a very useful tool in launching his new religion.

As a youth he, along with his father, were involved in such occultic pursuits as "glass-looking" and "crystal-gazing" and similar fortune-telling confidence games. In 1826, Joseph, Jr. was arrested, tried and convicted for the crime of defrauding a local victim by means of a "glass-looking" con-game.

From the combination of these three rather odd and bizarre characters was launched the mighty, affluent and powerful Mormon Empire that exists today. With truth still as unpopular as it was in Mark Twain's day, and with superstition and gullibility still as rife and rampant as it was 5000 years ago in the day of the Ancient Egyptians, Mormonism flourishes today as never before.

Here is a concise summary of the material wealth that Empire has accumulated today.

THE MORMON EMPIRE TODAY

On this sleazy and fraudulent foundation were built the ramparts of a huge financial and religious empire that now encircles the world. Considering that all three actors, Spalding, Rigdon and Smith, were financially incompetent and existing on the edge of poverty during most of their lives,

Objectives of Our Comparison Series

1. To illustrate by means of detailed comparison that in **CREATIVITY** we have finally achieved a genuine, bonafide, comprehensive racial religion for the White Race that is the equal of, or superior to, any religion in history.

2. That our religion makes more sense, is more logical, is more complete and better planned and organized; it is, in fact, more effectively structured than any of the established old "great" religions of the world.

3. That in order to survive at all, the White Race must now polarize around its own racial religion.

4. To convince all the polyglot and diverse White racial groups and leaders that in **CREATIVITY** lies the salvation of the White Race and the sooner we unite under the banner of Creativity, the sooner we will be on our way in waging an effective battle for the survival of the White Race.

Think about it. **If not Creativity, what else is there?**

GROWTH OF THE MORMON CHURCH.

Again, when we consider the bizarre and deceitful origins of the whole Mormon "faith" and the cir-

cumstances that conspired to foment it, the growth of this cult has been phenomenal, to say the least. Here is an historical chronology of its growth since its beginning from 30 members in 1830.

In 1900 — 268,331
1920 — 526,032
1940 — 862,664
1960 — 1,693,180
1981 — 4,800,000

The present (1986) membership is estimated at 5.6 million and expanding rapidly. The projected figure by the Mormon church for the year 2000 is 8 million, but with the fact that it is now going multiracial with a vengeance they will undoubtedly far exceed that figure, and will soon become one of the largest and most powerful religions in the world as it tends to cooperate and meld itself more and more with Judaism, the historical enemy of the White Race.

Religion has historically been the single most powerful force in shaping the destiny of nations and races.

SHORT HISTORY.

We have already sketched the origins of the Mormon creed and find it is based on Solomon Spalding's fictional novel *Manuscript Found*. This was then picked up by Sidney Rigdon in Patterson's Print Shop in Pittsburgh several years after Spalding's death. Evidence points strongly that **Rigdon deserves the credit for conceiving the idea of Mormonism** and converting Spalding's *Manuscript Found* into a new religion. He then sold the idea to Joseph Smith, Jr., whose more vocal and flamboyant talents were utilized to spearhead and promote the new religion.

It was during the years 1827-30 that this ambitious pair got their act together and began to put their conspiracy into operation. Rigdon and Smith did their best to keep their contacts a secret in order to not arouse any suspicions about Spalding's manuscript. (*The Mormon church, too, has tried to camouflage this relationship, pretending that Rigdon joined the church in 1830 only after it was organized, and that the pair did not know each other before. Despite all these precautions, and denials, however, the evidence is overwhelming regarding their previous relationship and the fact that Spalding's manuscript was utilized as the basis for the Book of Mormon.*)

Mormonism vs. Creativity — A Comparison**A. Basis of Belief.**

The Mormons claim they are Christians and believe in the Christian Bible. "Mainstream" Christians deny that Mormons belong to the Christian religion and want no part of their teachings, since Mormons idolize Joseph Smith above Jesus Christ, and the Book of Mormon above the Jewish-Christian Bible. Mormons ignore this accusation and claim that they believe in the Bible, as far as "the word" has been correctly handed down and translated, inferring that neither has been done. They therefore claim that since the old Bible has gone astray, God chose Joseph Smith as his modern day prophet to bring God's word up to date and set the record straight.

However, any resemblance between the Book of Mormon and the Jewish-Christian Bible is about as coincidental as the similarity between Mother Goose stories and Alice in Wonderland, except that all are purely fictional, and the former two are much more boring than the latter two.

The story as told in the Book of Mormon is a dull, listless tale about some ancient peoples migrating to the North American Continent in some bygone era. They then split into factions and battled each other into extinction. All of this is completely contrary to any historical evidence, or even a plausible likelihood. What moral principles, if any, that could possibly be derived from such a long-winded, pointless story is hard to fathom.

The creed of its faith is set forth in its Three Basic Books: The Book of Mormon, The Pearl of Great Price, and The Doctrine and Covenants.

CREATIVITY, in contrast, takes a long hard look at the factual events of history as they unravelled in a world of reality, and how it effects the welfare and future of the White Race. It seeks to benefit from the lessons of history; to learn from the Eternal Laws of Nature; to utilize our intelligence and common sense in order to build a better and brighter world for the future generations of our race.

B. Goals and Objectives.

Despite any pious shibboleths the Mormon church may profess, its actions speak louder than any devious claims they may proffer. What the church obviously is doing is building wealth and power, not in heaven, but here on Earth. It is accumulating billions in wealth — real estate, banks, money, insurance companies, stocks and bonds and building an expanding power structure. They are doing what the Jews, the Catholic church and numerous other deceitful tyrants have been doing throughout history — grasping for wealth and power, regardless of whom they have to trample on, victimize and/or rip-off.

CREATIVITY'S goals have been spelled out repeatedly, and they are: the Survival, Expansion and Advancement of the White Race, with the White Race ultimately inhabiting (solely) this Planet Earth, devoid of mud races. In short, building a Whiter and Brighter World, as summarized in the 20 points of Creativity spelled out in Racial Loyalty No. 31.

C. Racial Attitude.

To the credit of the Mormon church, the early founders pursued a course of White racial purity and continued to do so until very recently. But in the last few decades, and even more stridently so since 1978 when the late President Spencer W. Kimball had a new "revelation," the Mormon church has now gone all out for race-mixing, even more virulently so than both the liberal and "fundamentalist" Christian churches. (*See Racial Loyalty No. 23, "Aloha to you, too, Kamaaina!"*)

The heart of the CREATIVITY movement is the survival, expansion and advancement of the White Race, and its further genetic upgrading by implementing a sound, no-nonsense Eugenics program.

D. Organization Structure.

The Mormon Church has an extremely well-structured and organized system of not only recruiting new members, but also of constantly keeping on top of its members, keeping them in line and extracting the maximum amount of tithes and services out of them. The governing body consists of a Board of Twelve Elders or Apostles, headed by the President, which today is Ezra Taft Benson. The world headquarters are in Salt Lake City, Utah.

The Church of the Creator has its world headquarters near Otto, North Carolina and its organization is based on the Leadership Principle, with the Pontifex Maximus at the head. It has ordained ministers who represent the creed and program of the Church in most of the States in this country, and also several foreign countries. Its creed and program are clearly spelled out in its *Three Basic Books*, and *Expanding Creativity*, a supplement. Its creed and program are clear, comprehensive, consistent, complete and well-structured, covering the whole spectrum of eugenics, race, religion, morals, politics, economics and culture for the present and future welfare of the White Race.

From an organizational and expansion point of view the Church of the Creator can learn much from the Mormon church, especially its door-to-door canvassing, and sending out its young missionaries to spread the word. (W)

Joseph Smith's story claimed he had had several "visions" and was told by the Angel Moroni to dig up a set of "golden plates" buried in a hill nearby. These "plates" were to "reveal" the true story of the peoples on the North American Continent and set the record

straight. What Smith actually did was sit behind a curtain and dictate from Spalding's fictional novel to his "scribes," making suitable innovations and changes here and there to give it the flavor of a "new" religion. In tailoring the manuscript

NEO-PAGANISM

(Continued from Page 1)

German institutions were the envy of every modern nation, German language and culture was studied in every civilized country. It was at this precise moment of glory and recognition that the German mind fell in love with Science, and a new era began.

The "Weltanschauung" (world outlook) of Bismark, Friederich The Great, and the Prussian military establishment did much to awaken the German people to a practical realization of the physical foundations of life. Bodily strength and physical vitality were then seen to be the basis of the life of individuals as well as the German nation. Science was brought out of hiding in universities, and made to serve the needs of the nation at war.

People became convinced of the importance of physical strength, health and energy. Health became popular, a strong and beautiful body became a thing of honor and glory, and the proper feeding of the body a duty recognized and a pleasure to be enjoyed by all. In things physical and human, as well as in things mechanical and economic, ignorance and superstition gave way to enlightenment and progress.

It is only natural that this new era of enlightenment and progress would come to view Jewish-Christianity as the arch-enemy of the body and physical health. As early as Friederich Nietzsche, the Church and the clergy had been seen as "despisers of the body." Who being solely concerned with the soul and mortification of the flesh were natural enemies of the physical body and the real world of Nature.

The spirit of this new era was a return to Nature and Paganism, the belief of the ancestors of these modern Germans. Was not Paganism, after all, nothing more than the true spirit of man freed from the shackles of an alien religion and desirous of living in harmony with Nature?

The guns of the "war to end all wars" could not dampen the desire of the German people to return to Nature. At the end of the "Great War" clubs sprang up all over Germany, not to secretly rearm (as the enemies of the Aryan people suggest,) but to promote sports, hiking, and the worship of Nature. Most of the members of the inner party circle of the N.S.D.A.P. either belonged to these organizations or were influenced by them. Paganism was returning to the world!

This neo-Paganism was not a synthetic creation of intellectuals

but a reawakening of the folk beliefs which lie slumbering in the Aryan racial soul. Now the established major religions were greatly weakened and tottering, their foundations largely destroyed by a rapidly changing world. Their efforts to adjust and alter, to "keep step with the times," only weakened them further. Only the prop of being socially convenient kept the churches from total collapse. And the structure of society itself was weakening, with "social convenience" having less and less power as a new generation increasingly scorned that which was useless and irrelevant. Had it not been for World War II neo-Paganism would have undoubtedly replaced Jewish-Christianity as the religion of the German people.

The Nazi Party did not and could not create the revival of Paganism in Germany, it could only

When you encounter CREATIVITY, for the first time in your life you're presented with a Cause towards which you can finally dedicate Total Commitment.

capitalize on the existing mood of the German people. Being able to take advantage of existing conditions was a specialty of the Nazis. Most of their successes were due to this and the ability to coordinate, or consolidate, their gains coupled with the efficiency of their organization.

If we allow ourselves to believe that religion can be arbitrarily imposed on the Aryan people, we have fallen victim to the propaganda myths of the Second World War. There are certain White partisans who actually believe that our people can be forced or coerced into accepting religious and political beliefs that are not their own. This is nonsense. If what we believe about the White Race is really true then it is our duty, as responsible leaders, TO REFLECT AND FORMALIZE ITS BELIEFS. To dream up artificial beliefs and then try to sell them to our people is what the Jews are guilty of.

Paganism is very close to the soul of the Aryan Race; it is a natural belief which sees man as he is, and the world as it is, and seeks to push neither into a preconceived mold. Further, Paganism sees the mystery and richness of Nature,

and opens the way to an understanding of it which the modern world has overlooked.

Paganism is not fixed and dogmatic, it is flexible. There are new adventures of the mind and spirit, for Paganism thrives on joy, beauty and color. And there is the inspiration of working toward a new world — one totally different from today.

Dr. Alfred Rosenberg is not dead, in the sense that a person who was not a Nazi or a Pagan would be dead, the system of values for these beliefs are so far removed from Jewish-Christianity that this concept cannot be grasped by everyone. Nonetheless, he lives on in those who can see through all the lies and slanders about the Third Reich and who remain loyal to the Aryan cause. His mission was to make sure that National Socialism survived the German defeat in World War II. That mission has been accomplished. Today, a thousand seeds have spouted and are taking root. But, the key to victory is in quality rather than quantity, and if we are to succeed we must develop a feeling for the spirit of our times. If we fail to sense the spiritual forces at work in our society, or deny their existence, and retreat into an artificial system of beliefs (i.e., one that is not grounded in the real world,) we will end up at the tail end of the parade. The intellect cannot invent religion. Religion is an instinctive feeling that arises from the racial soul of the people. It is felt rather than understood. This is the reason that Jewish-Christianity is so widely interpreted: each person perceives its meaning according to their own feeling.

The development of healthy racial instincts is of the greatest importance. We must work with the individual from childhood on, so that a balance between thought and feeling can be established and so that he will be able to live in harmony with Nature. The danger is that we must not fall into the trap of dogmatism and the creation of a monolithic structure which could, in the end, limit or destroy what we seek to promote.

One way or the other, we all must face the reality of the struggle for White racial survival and expansion. There is simply no other option open to us (unless it is death and destruction.) The best thing is to work together, but unless we build an organization that allows for individual development and one that encourages the fullest contribution from each Aryan, the outlook for cooperation is not so good.

To me, the major difference between the movement in Germany, in the 1930's, and the one that exists today is that the latter

stresses the worst characteristics of wartime propaganda against National Socialism, while the former was a movement that existed in its own right. As long as we fail to see reality and continue to be taken in by the myths about Nazi Germany we will continue to miss the point and victory will continue to elude us. We must learn to have an appreciation of the spirit of our times and avoid trying to intellectualize what must be felt. The spirit that exists in America today is what will give birth to a real Aryan organization, not the other way around. We must learn to capitalize on what really exists, and to organize for maximum efficiency.

THE FUTURE STARTS NOW!

MORMONISM

(Continued from Page 7)

to fit the new religion much of the editing and detail work was actually done by Rigdon beforehand, with Smith picking it up from there. But basically the story was, and remained, Spalding's *Manuscript Found*. The "golden plates" then mysteriously and conveniently disappeared. No one else saw them except three, then eight, of his followers, and then only in "a vision."

(However, no problem. In 1979, I visited the Mormon Museum at Nauvoo, IL., where in a beautiful glass case they displayed a "replica" of the visionary golden plates.)

Be that as it may, the Church of Jesus Christ of Latter Day Saints was organized on April 6, 1830 and was incorporated later that same year. Spalding, who was too poor to have his *Manuscript Found* printed during his lifetime, would have been astonished to see the final outcome. In slightly modified form it was now printed up as the *Book of Mormon*, and the printing was paid for by Martin Harris, one of the original six founding members.

Mormonism now was off and running. It had a creed, a bible, and an extremely loquacious con-artist as its "prophet." By the end of the first month it had 40 members and soon grew by leaps and bounds.

One of the major incentives that initially helped to spread and popularize the movement in the 1830's was the fact that the Mormons advocated and condoned polygamy. It was this practice, however, that also aroused the bitter hatred and violent opposition from other religions who were in fierce competition with Mormonism.

There is one other peculiarity that Mormonism had to offer in the way of promises "in the hereafter"

(Continued on Page 9)

MORMONISM

(Continued from Page 8)

that topped those of its rivals. All spookcraft religions are based on lavish promises of rewards, and dire threats of punishments, in the hereafter (a shoddy practice which needs no collateral to back it up). However, whereas the regular Christian sects promise their subservient followers that they will become "angels," fluttering about in a nebulous heaven after death, the Mormons went them one gambit better. The Mormon church promises their faithful that they will become not subservient angels, but gods in their own right. Each will rule as a god over the untold trillions of worlds out there in the endless universe. Now there, as the head of the Mafiosa said, is an offer you can't refuse. At least, it is extremely difficult to top. Promises promises, promises.

In the meantime, the Mormon church continues to increasingly extract millions and billions, most effeciently and ruthlessly, from its deluded victims. By 1976 it was on record as taking in one million dollars a day. By now that figure has easily doubled and is rapidly ballooning. In return it offers only promises — pie-in-the-sky, and like a true con-man implores its victims: TRUST ME! Without having to deliver two cents worth of any real product in return, it continues to fill and over-fill its bulging coffers with worldly wealth. Not only pecuniary wealth, but also control, power and domination over the human mind and body.

CONCLUSION.

From these sordid and surreptitious beginnings was spawned a worldwide empire, whose wealth, power and magnitude we have already delineated. Had the church maintained its course of White racial purity with which it began, we could assume that despite its deceptions it was at least more beneficial to the White Race than its rival Jewish-Christian religions. But that is not the case. For the last several decades the Mormons have been moving closer and closer to the Jews, citing their background of persecution as a common bond. But the fact is the Jews were already inside the tent at its very beginnings as we have already shown in the "Aloha" article of Racial Loyalty No. 23. In this, we pointed out that as early as 1841, Orson Hyde, an undercover Jew, became one of the Twelve Apostles, and Joseph Smith himself sent Hyde to Palestine to dedicate that unfortunate Arab state to the future piracy of the Jewish conspiracy.

The Jewish influence and control has now surfaced more virulent than ever in recent years, when the late President Spencer W. Kimball

had one of his modern day "visions" and proclaimed on June 7, 1978 that his new "revelation from the Lord" instructed him to now take the mud peoples into the priesthood. (How do you create a "vision"? You just close your eyes and lie like hell.) That Jewish takeover became more openly obvious and the Mormons are now one of the most aggressive proselytizers of race-mixing of any of the modern religions embraced by the White Race.

There is however, one thing, we can learn from the Mormons, and that is from their methods of proselytizing and promotion. We can also take comfort in the thought that if such a flimsy set of fraudulent beliefs can build such a wealthy and powerful world religion, just think what can be done with a religious creed and program that is built on the Eternal Laws of Nature, historic fact and on Logic and Common Sense. Give us your loyalty and support and I am sure that the glorious and best interests of the White Race will not only prevail, but encompass all that is worthwhile on this dear old Planet Earth.

Yes, we too, have "visions," but unlike the Mormon hierarchy, we don't close our eyes and then lie like hell, in order to conjure up a vision. We look at the world with open eyes, learn from history and learn from Nature, then use our intelligence, apply logic and common sense to accrue to the best interest of our race, in our unending pursuit to build a Whiter and Brighter World.

Truth is indeed stranger than fiction. It may also be less popular, as Mark Twain has noted, but it has one redeeming advantage — it is also more powerful. It has this tenacious habit of persistence. Just as the flat-worlders finally had to yield to the fact the world is round, so the truth keeps coming back again and again to haunt the liars and the deluded and in the end it will prevail.

Swiss Citizens Grow Bitter over Influx from Third World

The Associated Press
BERN, Switzerland — A record influx of immigrants from the Third World is stirring resentment in Switzerland, traditionally a haven for the oppressed and downtrodden.

The results of recent local elections reflected some of the resentment and more is showing up in letters published in newspapers.

"The boat is full; we will soon be strangers in our country," one reader wrote to the Berner Zeitung.

"They must leave, they reproduce like mice," another letter writer said.

"We're too well-fed, that's our problem," yet another wrote.

Ten of thousands of Third World nationals are seeking shelter in the West's wealthiest country.

Many are turned back at the border and others are expelled outright, but 23,000 have been admitted on a temporary basis pending government decisions on their requests for political asylum. Most of them are Turks, Tamils who are a minority in troubled Sri Lanka, people from Zaire in Africa and Chileans.

Only a fraction will be allowed to stay. Government officials contend that most are fleeing poverty or poor economic conditions at home, rather than the oppression that would qualify them for political asylum.

In 1980, 2,000 aliens sought asylum

in Switzerland. Last year, 8,000 were registered. In October, 1,220 arrivals were a new monthly high.

Most enter Switzerland illegally at unguarded points on the borders with West Germany and France, which are also faced with mounting immigration problems. Others come in from Italy over what newspapers call the "Ho Chi Minh Trail."

Many of them pay large sums of money to smugglers who arrange their passage with promises that they will easily find jobs in Switzerland, which has one of the world's lowest unemployment rates, 0.8 percent.

Although most are refused work permits when they arrive, they receive welfare payments of up to 550 Swiss francs (\$260) a month, in addition to free lodging, often in civil defense installations.

One Swiss town has issued special refugee money to be sure that the welfare funds are spent only on basic needs, but this has stirred resentment among the aliens.

The problem of illegal aliens has become a top public issue in the country. Pressure on the government to check the inflow has been growing for months, fed by reports that some of the immigrants are involved in drug trafficking. In October, 16 Tamils and Indians were arrested.

The perfect con-game: Promise pie in the sky when you die. Nobody comes back for a refund.

BRICKBATS & BOUQUETS

Dear Pontifex:

Many good greetings from Queensland, Australia and best wishes for the year 1986.

Today, I would like to make a contribution to the library in our World Center with some information about Australia. To start off, I present you with the book, "The Colours of Australia," a continent won and settled by and for the White Race 200 years ago. It was a smaller version of "How The West Was Won."

I came with my family to this land 25 years ago and we all like it very much. That's why I like to do my best to bring the program and creed of the Church of the Creator to our White Folks down here. We must keep Australia for our people, and make this country an all White nation again.

The book "Brisbane" shows the modern Australia of today. It is the capital city of Queensland.

A Friendly Word from Your Editor

In publishing this paper we have a multitude of purposes in mind, but there are two that predominate:

1. To inform and encourage our existing members and supporters to build the White Racial movement known as CREATIVITY, and,

2. To act as an effective flyer for mass distribution to our White Racial Comrades who have never heard of us before.

Of these two, we are placing major emphasis on the second objective. This paper is designed basically for the purpose of alerting and recruiting new members to our Cause. Whereas, not every White Racial Comrade may at present be receptive to our Cause, nevertheless there are millions out there who are receptive, who are fervently looking for a solution for which we have the answer - the real answer. There are millions out there who have never heard of CREATIVITY or of The WHITE MAN'S BIBLE or any of our other publications. It is our beholden duty to reach those millions and the best way to do so is to distribute copies of RACIAL LOYALTY. It is one of the most constructive actions you can take.

Order 100 copies of either this issue, or any combination of issues. Distribute them to your friends, your relatives or anyone who is inclined to be receptive. Distribute them to places such as, laundromats, airports, colleges, shopping centers etc. You'll be doing yourself and your White Racial Comrades the biggest favor of a lifetime.

Do it now! Order 100 copies for \$15.00 or 50 copies for only \$8.50.

Remember, the future of the White Race now hangs by a thread. If you do not take action, who will? A mere 10 million White Man's Bibles in the hands of our White Racial Comrades would see us well on the road to victory, which is an extremely small price to pay in comparison to the billions of dollars the Jews loot from us each year. We have to get these first 10 million Bibles out, and the paper which you now hold in your hand is the most effective vehicle with which to do the job. We can do it. Your sacrifice and dedication are the keys to victory. Become a mini-distribution center for our material, including RACIAL LOYALTY.

SUICIDES

ages that can be flashed in the midst of a television program, movie, or music video. These images are usually transmitted so rapidly that they are perceived only by the subconscious. Since the 1960's, these techniques have been used in T.V. commercials to program people to buy their products.

In a talk given at The World Congress of Professional Hypnotists' Convention in Las Vegas, October 1982, Dick Sutphen, an acknowledged subliminals expert, stated that, "Recording engineers are able to psychoacoustically modify and synthesize the voice so that it is projected in the same chord and frequency as music, giving it the effect of being part of the music. It is the most effective use yet of subliminal programming...The high percentage of the viewing audience that has somnambulistic tendencies could very well accept the suggestions as commands."

Rock music, which has become a veritable jungle of subliminal mind-manipulation, has employed a technique known as "backward masking." Backward masking is a technique used to get to the subconscious. It will be a message that makes sense both forwards and backwards, or only backwards. Psychologists have found that this technique is successful and the degree of success depends on the individual. When under the influence of mind-distorting drugs, these subliminal messages are very effective in influencing the listener.

Having pulled out all stops in order to demoralize our young people with the glamorization of drugs, sexual promiscuity, and homosexuality, it is highly conceivable that the Jews would instruct "goyim" children to kill themselves. The Jews certainly have their own twisted motives for doing so, and it must be remembered that they

have complete control of the media. With these subliminal techniques at the Jew's disposal, WHAT IS THERE TO PREVENT THEM FROM PROGRAMMING OUR YOUNG FOR SELF-DESTRUCTION? I will leave you to arrive at your own conclusions.

This genocide of our children is a heinous Jewish crime that must be stopped. Throughout recorded history our racial kinsmen have been willing to lay down their lives for their future progeny; from the battlefields of Thermopylae and Carthage, to Lexington and Concord, to those of Bull Run, Kenesaw Mountain, and Stalingrad. I believe — as you have already stated in *Nature's Eternal Religion* — that we are now evolving into an era when fate will call forth even greater heroes of the White Race.

The mission and life path I must follow has slowly been distilling into my consciousness through the past four years of my captivity. I realize, with a sense of urgency, that the White Race had better wake up and take a stand against International Jewish Tyranny before it is too late, and I am determined to take part in this struggle.

After studying the various White racial movements and their respective ideologies, I have come to the conclusion that we will have the greatest impact by rallying under the banner of CREATIVITY, the movement which makes the most sense to me. But I will go as far as to say that I would like to see all White racialists lay their ideological differences aside, and by doing so, avoid the scheme of divide and conquer. With our backs against the wall, we must realize that the only thing that ultimately matters in this world is White survival. We must work in unison if we are to achieve our cardinal aim: **smashing the conspiracy of the lying, murdering Jew!**

Best greetings in true comradeship!

Racial AIDS and the Black Cancer

By Albert Wetzel

There is sweeping across the Dis-United States of America today, as well as other parts of the White world, a racial cancer of ever growing and ravaging dimensions. No sphere of our national life is untouched by it, be it political, cultural, economic or moral. One by one the vitals of a once healthy White body are being eaten out by this cancerous scourge — **The Black Cancer**. It is the death stroke of the black race upon White civilization in America, Europe and South Africa.

The tragedy of this hideous process exists within the afflicted body, itself in terms of there being a virtual absence of racial unity, will power and/or survival instinct. Simply — the White Race has a malady characteristic of AIDS — Racial Aids — Acquired Immune Deficiency Syndrome which renders its resistance to the invading black death cells virtually nill. The Syndrome itself was conceived by, and established by, the Zionist-Jewish Conspiracy and mass media. It has transmitted its racial poison into the White mentality, numbing its senses, and directed the White Race towards self-destruction.

Look at our once great cities — mostly all nigger populated and dominated cesspools — only to have added to them by the Jew-fed monstrosity in Washington a mass of third world immigration. When great cities of a nation die it signals imminent death of the civilization. Yet, the Whites retreat submissively and the death cells aggressively expand.

Then we come to the national legislative body — Congress — politically corrupt and a mass of mush in the hands of the black leadership. So degenerate has this body become that it saw fit to create a national holiday honoring a common marxist nigger street agitator whose objective was to destroy White America and supplanting it with a marxist nigger dictatorship.

Perhaps the most criminally insane aspect of this cancerous scourge manifests itself in the policy of our government towards White South Africa. History finds no comparison to the disgraceful actions of a predominantly White nation's government demanding another White civilization to hand over its civilized functions to a mass of cannibals in the name of "majori-

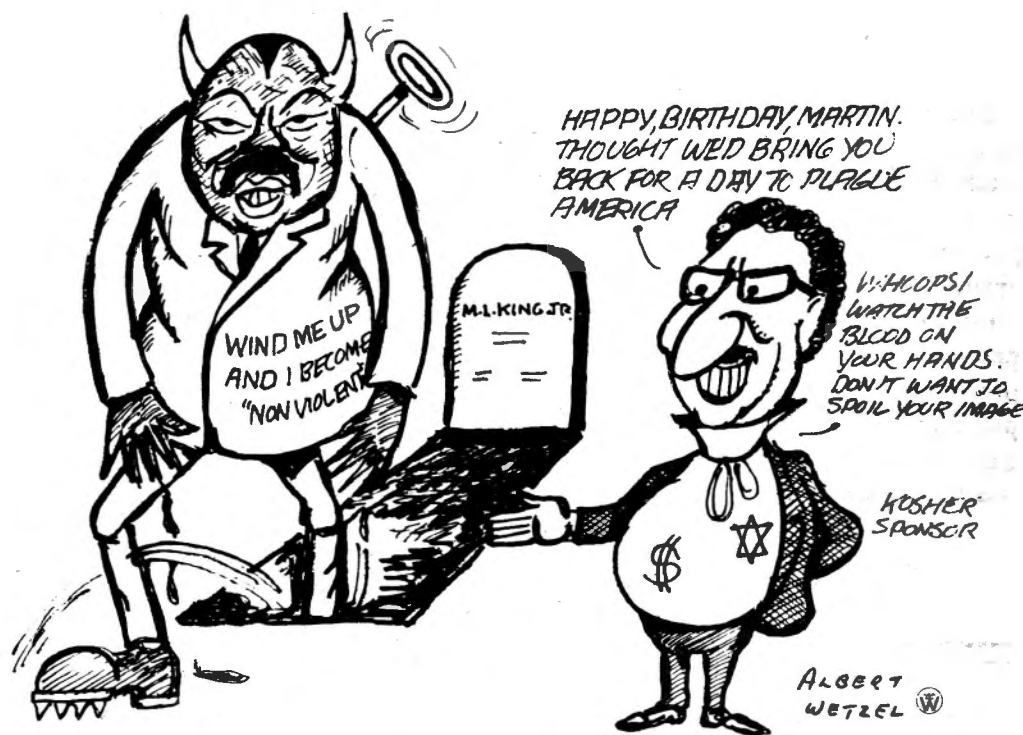

ty rule." Nor have we seen before White nigger politicians, niggerified White youth, mush-headed White youth, mush-headed preachers and a host of other scum marching to the tom-tom beats of nigger agitators demanding we virtually destroy our White brothers in South Africa. A large portion of White America now worships at the Jewish-Christian alter in the name of the black nigger beast.

Nor has the powerful communication of music, been left untouched by the black cancer. American music, long niggerized to a great extent has now become politicized as alliances between black and White nigger rock'n roll. It is now effectively utilized to fight apartheid or raise funds and food to feed millions of African savages. The Whites not only fail to resist, but assist in proliferation of the black death cells worldwide.

Creativity is the only answer to the massive problems that confront us. It has the Total Program, the Final Solution, the Ultimate Creed.

The eighteenth century, French philosopher, Voltaire, so wisely stated "History is only the patter of silken slippers descending the stairs to the thunder of hobnailed boots climbing upward from below." Voltaire suggested that soft, civilized societies have succumbed throughout history to willful primitive forces. And that, my dear White Racial Comrades, is where America and most of the White world find themselves today as the hordes of hobnailed primitives thunder at our gates.

For over a quarter of a century the White Race has been retreating worldwide as the colored horde pushes them out from everything to neighborhoods to whole nations. We have become a silken race being torn to shreds at the hands of barbarians. Why? Perhaps we have become soft and decadent due to an over-abundance of affluency, preoccupied and obsessed with surrounding our lives with degenerate frills. We are therefore incapable of resistance — we have **Racial**

Aids. Will it require economic disaster to bring us to our knees and senses in order to become tough once again? Perhaps. So be it.

Though we are beset by dangers and possible racial death, we must not believe that the last embers of racial survival have flickered out. We must rekindle the embers and purge ourselves into a new White Race of steel. We must tell ourselves, and most importantly, our enemies, we will accept no more racial Dunkirks of retreat or racial Alamos of defeat. The trumpets of fate are calling us to muster as a race nationally and worldwide. Those of us who are the awakened minority with our race must forge an iron link with the upcoming generation.

Eventually, the worldwide struggle of ideology will give way to a worldwide struggle of race, with race being the dominant factor, even in respect to West vs. East in Europe. This will require us to establish a worldwide movement that will transcend national boundaries and political compositions of governments.

Let us conceive of it as a **Snowball Coalition — pure-solid White**, worldly round and firmly formed with an iron core (America) and ready to strike its target. Our religion will be our race, and the White skins of all White nations will be our common uniform poised for political combat.

Branching out from this can be a WLO (White Liberation Order) aimed at regaining lost areas of rights and space, directed at the Jew satrap governments of America and the West which are presently destroying our race through niggerism and third world immigration. Let us become White Knights with political missions, terrifying polar bear organizations — activists against these Jew controlled entities.

We should adopt the techniques our enemies have employed against us, turning these techni-

ques against them, but in improved and more ruthless ways.

When we consider divestment it should be divestment in government until these Jew controlled monsters collapse financially. Then we can reconstruct them into decentralized government systems based on a racial constitution.

Divestment will mean White stockholders and viewers will divest in the Jewish propaganda machine — television — until there is nothing left for the Jew with which to poison the White mind.

Blow out the Jew boob tube, financially.

Coupled with divestment will be absolute divestment in the nigger cancer and all of his helpers — churches, politicians, corporations, and welfare agencies that contribute to this scourge. We must dry them up with total political warfare.

All of this is but a cursory and elementary examination of the cancer victim and solution, but let it serve here as a nucleus for liberation and remission from the black cancer and its allies and the commission of a new age for an awakened and aroused White Race.

Most important, we will have secured a great future for that reproductive and most precious factor involved — our White children.

We can do nothing less, if victory be ours — and it shall be.

PLANET EARTH
(Continued from Page 3)

(a) **putting our Eugenics program into practice** and upgrading the physical, mental and eugenic qualities of our great and noble race, and (b) having stopped subsidizing the shrinking mud races, we will then slowly, surely and aggressively proceed to expand the territory of the White Race until all the good lands of this bountiful Planet Earth are re-settled by none other than Nature's Finest.
