

## Reverend Matt Hale Speaks In Indiana (2003)

imagesg

Brothers and Sisters, how happy I am to be here today, in a state that is probably a little bit better than California now I think. A little nicer, a little more pleasant. But of course as Brother Metzger stated, the country is going the route of California. I'm very happy to follow Tom Metzger. Tom Metzger is very much a person that I've learned from over the years. Very much a person whose writings I've read and appreciated. Now and then there has been disagreements, ideological disagreements, but at the same time, I know of his sincerity, I know of his passion for our beloved White people, and far beyond any small ideological difference, far beyond any religious difference is our sameness. The sameness of the cause of blood. The sameness, the unity that we have, my Brothers and Sisters for our White People. There is no difference that can possibly supplant what we have in common here today.

Love of our White People, and yes, indeed hatred of our enemies. The love of White Children who deserve a place to play. The love of White Older People to deserve to be able to walk down the street being mugged, without being raped, without being brutalized. The love of White People yet born—whom we hope to give a land of their own, to whom we yearn to bequeath a land far better than the decadent, despoiled land that we have the misfortune of today inhabiting. So it is very proper, very necessary indeed for us to be here today, my Brothers and Sisters, in unity. White Unity Fest. White people who care about White people coming together for White people. And I'm very pleased to be here, I know I've said that a few times, but I'm pleased in more ways than one. To stand with you, my Brothers and Sisters. You for whom my heart beats, as I know it is for you as well. You who believe in a future for White People, and are willing to do whatever it takes to get that future.

My Brothers and Sisters. We stand today, and perhaps with what one day will be considered one of the most momentous times in our people's history. We stand today as the preface of either total defeat as a race, as a people, or: total victory as a people. We stand today before ourselves we can look ourselves in the mirror and ask ourselves will we do our duty, and know that if we do our duty, each and every one of us, each and every day, our people will live.

OR: we can stand and look in that mirror and say: "Well, I would rather do something else today. I would rather not spend any time preaching the message of White Racial Loyalty. I would rather not lift my finger for White People today." AND know with certainty, know with certainty that if each and every one of us do not do our duty, we will perish! So we have that before us. We have the option of having one day a beautiful land of peace, of security, in which we can call our own, in which our money that we pay in taxes go for ourselves, in which our politicians care about us, in which the word "politician" becomes a good word again in the English language.

And we have the alternative, and the only alternative—living in a Nigger, Jew, Oriental, Mexican slum, and have to look behind our shoulder everywhere we go for fear that anyone of these mongrel hordes will put a knife in our backs. There is no other alternative, there is no other option. There is the option of victory or the option of defeat. And what you must know and feel in your heart, is that: it is up to YOU! Up to YOU INDIVIDUALLY, each and every one of you, my Brothers and Sisters.

To know in your heart, each and every one of you, that YOU stand between defeat and victory, or victory and defeat. That you stand in the way of the enemies of your people!

That when the Jews rubs their hands with glee about the impending doom of the White Race, it is YOU who will wipe their smile off of their faces! RAHOWA! It is YOU who will make the powers that be CRY. It is you who will make them WHINE. It is you who will make them RUN FOR COVER. If you feel/view it that way, it is indeed a challenge, it is a burden.

But if we all share the burden, if we all go forward into the world and share that duty, that duty that goes far beyond just believing. Believing is not enough! Believing has never been enough. It is ACTION, action that will turn this world around! And it is FANATICISM! That's one thing that I certainly gathered from Tom Metzger's writings over the years. Fanaticism! Fanatic is a good word! It is good to be a fanatic, because it means that you have enthusiasm, extreme enthusiasm for something. And you know what, we do! Our race—our blood. We have more enthusiasm for that or should have more enthusiasm for that, than any of those individuals that want to say "As long as someone is an American, he's good". The nigger criminal is our equal, they say. We say "NO". We say that: If it is of our race we are for it, if it is not we're against it. Get out, leave!

We must have every bit as much enthusiasm as those who oppose us, and more! What resources do they have? They have unlimited funds. We could count all of the paychecks in this gathering today and it wouldn't equal one Jew's paycheck.

They have all kinds of money, they can throw money around, at will. They can buy the politicians, they can subsidize the other races. They can create trojan horses, that are indeed to lead you astray. Pat Buchanan is a very good example of that. "The Great White Hope"... NO! Obviously not. And yet so many people fall for it. So, they have the money, they have the politicians, they have the Jew media, they have the Christian churches, most of them, 99% of them, preaching that we're all God's children, we're all created equal, God loves us all the same, Jesus cries for the Jews so love the Jews, etc. They have these churches saying that. So they have all these institutions of power, various institutions of power, their saying these things. What do we have? Our HEARTS! That's what we have.

We have our PASSION! We have our FAITH IN OUR RACE! We have our LOVE FOR OUR PEOPLE! And we have the DETERMINATION TO TURN THE TABLES—come what may.  
\*applauds\* RAHOWA! RAHOWA!

We can't compete with their money. We can't compete with their politicians. We can't buy one politician, let alone 435 or 535 or thousands if you count the state offices. We can't compete with their media very much, we have the Internet and that's good, that's helpful. But the Internet requires a person to be looking for you in order to reach you. But what they can't stop is us talking, us preaching, us going to the people and telling them to BE LOYAL TO THEIR RACE—RACIAL LOYALTY.

Now, I know. There have been who have said: "Well, talking doesn't accomplish anything." But if I had a quarter for every member of our Church, every adherent of the World Church of The Creator who USED TO disagree with us, but who today embraces everything we say, who embrace the White Racial Loyalist Cause, maybe I would be able to bribe a politician.

Because there have been many, many who were taken aside at the grocery stores, at the malls, in the streets, and talked to by THOSE WHO LOVE THEIR RACE. And who came to our cause as a result. So do not discount that for one moment, THE POWER OF THE WORD... it's the most powerful thing there is! And our duty indeed is to go to the people and preach.

Not to preach at them, but to tell them what the system is doing to them! To educate them and to inspire them to DO THEIR DUTY! TO FIGHT! That's THE MISSION of The World Church of The Creator. That's the mission that we have LAYED FORTH FOR OURSELVES: to WIN THE HEARTS AND THE MINDS OF THE PEOPLE.

It can be done, we've done it, we've done it over and over again, and besides the very situation that we face, the situation in which so many see, the cancer that is the non-white races. So many of the White people are LIVING IN FEAR of these mud races! They are living in fear and they see what they are doing, that it doesn't take much to get them on our side. It doesn't take much to bring them in to our Cause. It doesn't take much to impress upon them that White People do deserve a land of their own.

Recently, of course, recently a month ago, we had Independence Day. People day now and then ask me about Independence day: "What do you think about it?" I say: "Well, independence for who?" Are we independent?! Are White People free of domination by the other races and by traitor Whites? No! Not by any sense or form. Are we free of domination by the Jews?

No. They own our money, they own the media, they own the banks, they have the power, they have the politicians in their pockets. The independence we have to fight for is White Independence. A land for White people, a land in which we can call our own exclusively. A land that is free of nigger street crime, a land that is free of latrino invaders. A land that is free of Jew parasites, a land in which we can have control of our own destiny.

That is not too much to ask! That's the way it should be put. It should be put that way to the people we seek to win. If people out there who says: "Your Cause is wrong, I saw it on Oprah Winfrey what you guys are about", or "I say it on this talk-show what you guys are about, I don't want to hear that". Ask them the question: "Do you believe that America should be an independent country?" Start with that! What are they going to say? "Of course!", they're going to say "Of course America is going to be independent! That's what we fought our revolution over! That's what I set off the fireworks for, on Fourth of July! America, independence – it's wonderful!"

Then ask them the question: "Do you believe that White People should be able to have independence?" It's going to be harder for them to disagree with that, after just saying that America should have independence. Why America and not White People? What reason can they give? They might find one, they might find one. They might work up something. Say: "Well, because we all want to live together here and this is the melting pot, and we all just want to get along". And then you point to them: "Well, I don't!" \*laughs\* "I don't! And I'm a living testament to one person who doesn't want that! And where I came from, there's many millions more"

And yes, MILLIONS, my Brothers and Sisters – MILLIONS! We may be hundreds today, but there are MILLIONS across this land. Ask people the simple question, I like to ask this question: "If you could snap your fingers and the Niggers, the Latrinos, the Jews, and the Orientals would disappear from this planet – WOULD YOU?"

People might whisper to you: "Well sure, sure I will..." They might say: "Can we go inside and I'll give you your answer?" They might say: "Oh, you're not taking notes, are you? And there's no tape recorder?" MILLIONS WOULD SAY YES! They would snap the fingers. And so what does that tell us? That tells us the problem is not that people don't agree so much, it's that they're NOT DOING ANYTHING ABOUT IT! That's what it tells you. If 20 million people in this country, or maybe even

50 million would snap those fingers and say “Oh yeah, well I’ll do it but I just wouldn’t tell anybody I did it”.

It’s kind of like I ran for City Council 7 years ago, and people were asked: “Well, did you vote for Matt Hale?” And nobody voted for me, but I got 14% of the votes somehow! 😊 Nobody came out of the voting booth and said “Oh yeah, I just voted for Matt Hale” but they did. It’s the same basic idea. So the problem is, the problem is COURAGE for so many. COURAGE & LAZINESS. They’re AFRAID of what might happen to them if they tell the truth, but do you know something? The White Race will die as long as it is afraid!

If we are afraid of what the enemy thinks, afraid of what the Jews think, afraid they might take a picture, afraid that the Jews might take down a license plate or the feds, or... TO HELL WITH THIS FEAR! There must be no fear about doing what is right! Our ancestors had all kinds of challenges, but they didn’t let fear immobilize them! It didn’t make them cower either! White People who faced the Moors, White People who faced the Huns, White People who faced Genghis Khan and company, they didn’t just roll... lay down and allow themselves to be slain, and they didn’t worry about what language they used to describe their enemies.

And nor should we. Nor should we. The only way we can impress upon our White People that we are the real deal, that we will fight for them, and die for them if need be, is to show them our courage, face-to-face, wide open for the world to see. And to show them our passion. White People are looking, they want somebody that actually cares about them, they want to follow someone who will care about them. Every White Person, most of them are transitory figures. You can interchange one with the other, it doesn’t matter—they’re all corrupt! Most White People even know that.

What they need to see from us, is that no matter what is thrown at us, no matter what persecution come our way, we stand firm. They can sue us, they can physically attack us, but if our heart continue to beat we will say what is right! RAHOWA!

We must know, my Brothers and Sisters, that it is PERSECUTION that builds movements such as ours. YES-persecution!

Our motto, Church of the Creator is: PERSECUTE US! Go ahead! Sue us, try to attack us, come to our public meetings, try to raid the public meetings, we’ve had some scenarios similar to that described in Mein Kampf many times, several times actually, where anti-racist action group came in with their mask and chairs are flying... BEAUTIFUL! That’s WONDERFUL! Because then the people say: “Gosh! These people must have something important to say! If people are trying to break up their meetings!” The more we are seen, the more we are heard – the more people we win. Not being silent, that’s not the answer. — Going forth, and being NOTORIOUS! Notorious.

My goal, my hope is to make sure that the World Church of the Creator and the White Racial Loyalist struggle is known in every house in this country, every White Person knows who we are! And that shouldn’t just go for us – the Church – that goes for all White Racial Loyalists. Let people know what we stand for, otherwise we cannot complain if they do not agree with us. If they haven’t heard our message from us, we can’t complain, because they’ve been hearing it from the Jews. The Jews have their propoganda, we have to have ours! And reach the people with more enthusiasm, more effectiveness than do they.

My Brothers and Sisters, we have before us the most crucial cause in the history of this world. We have before us the most tireless task that a people could ever bear, that a people could ever take on, take upon themselves. The task of making sure that our children continue to live, the task of making sure that one day we have independence for our race. It must be our resolve that we today – on this field, at this time – did our duty.

As I like to tell my members, our supporters around the world: one day we will wine and dine in the White House with our flag up that pole! One day we will be together reminiscing about the defeat of our enemies! The White House may not be in one piece at that point.

The White House might be crumbled. There might be a nigger corpse here or there. And yes, a traitor politician. Of course by that time, they would have fled. The guys that claim to love, they just love the nigger, they love them so much, but when the shit hits the fan, they'll be outta that town quicker than \*laughs\* quicker than I don't know what but. The struggle will be hard! The struggle will be one in which there are casualties. The struggle will be one in which there will be many sacrifices, but if our people are worth something to us – they are worth whatever sacrifices we can give. Whatever sacrifices are necessary to make sure that a White Child can play in the street without fear, is worth it. What one of us would not lay down our lives to make sure that our children can live and be free?

What one of us would shrink back for doing whatever we need to do to make sure that our people live? I hope there are none here. I hope that each and every one of you love your people, love your racial family, and will do your duty for it.

My Brothers and Sisters, the victory we seek – is WITHIN US! Each and every one of us. Within us is the victory that we all covet. If we do our duty, if we preach the truth, we preach racial loyalty to the people, we have the passion, the passion that our enemies have, and more. If we have the love in our hearts and the hatred – love for our friends, our family, our race – and hatred for its enemies. And we resolve ourselves to do our duty each and every day, to make sure that one day is not wasted – NOT ONE DAY IS WASTED – we will win this Racial... Holy... War! RAHOWA!!
