

[An interview with P.O.W. Chris Slavin-](#)

Please tell the DW readers more about yourself.

I'm a WHITE Nationalist who believes in old fashion ways like the white race is losing it's place in this world through political correctness and multiculturalism. I try to learn all I can about politics, race and history.

Why are you in prison? How long have you served so far?

I've been in prison for 10 years. I was given a 25 year sentence for attempted murder on two illegal alien Mexicans. Here in America non-whites have more 'rights' than white folks. I'm in prison not so much for what I've done, but for my 'racist' tattoos and 'thoughts' I was said to have. The American judicial system is a mess.

With the prison population consisting of 90% non-whites, I am sure life can be very difficult for you. Please tell us about your daily life behind bars...

Life in prison is not easy, especially being surrounded by so many non-whites. Yet I really haven't had many problems. I stay to myself and have no time trying to argue race, history, or politics with those who do not share the same views as myself.

Was it hard to adjust to prison life away from family and friends? Do you maintain contact to them? How has it affected your family knowing you are facing life in prison?

Prison life is still hard to adjust to. I still stay in touch with family and friends by writing, phone calls and the occasional visitor. As the years drag on folks start fading out of my life. My family was affected by my prison sentence in a bad way. They do support me, but not my beliefs. The large media attention to my case was difficult for them. Yet over the years, like many people, they realized I was used by the system, as well as unfairly treated by the courts.

Have your beliefs and views changed in prison?

When I entered prison I was very much involved with the Christian Identity Movement. Prison allowed me to read and learn so much with all this time sitting around. I no longer believe in the Christian Identity doctrine nor any of the Semitic myths that have influenced Western civilization. Other than that prison has only proven most of my views to be correct.

What can you tell us about your life before prison? What things do you miss the most?

My life before prison was basically like a normal person. I worked everyday as a plumber and welder. What made me different was my support for the pro-white movement. What I miss most is the company of white women!

Do you know about John Demanjuk?

John Demanjuk was accused of being a concentration camp guard, correct? He's now in prison on false charges? If this is the guy, it's very wrong what has been done to him. I hope he has a lot of support. If I'm wrong about who this man is please correct me and tell me about him.

How long have you been involved in "The Movement"?

I've been involved with the Movement since the late 80's. I never joined a gang or organization. I believe in unity for white racialists. I would support anyone who I believed was working to better our future.

What can you tell us about The Movement in the USA? How has it changed from the 80's till present?

I can only tell you about the Movement here in America and what is currently going on from the updates folks share with me. Because I'm in prison its hard to know exactly what's going on. From what I'm told, today's Movement is very inactive. With the rise of the internet and other technologies the movement has suffered. Back in the early to mid 90's the Movement was growing and we had more unity, folks tried to awaken our people to the dangers we face. Today it seems like everyone is gossiping online, no positive work-just division. We have a lot of the "gang" mentality within the Movement today as well. Also a lot of those who wrote and taught so well are no longer with us. It seems like nobody has risen to take their place.

In your opinion, what is the greatest lie in history?

The greatest lie in history is "All races are equal."

-The rumors behind 9/11?

9/11 happened, it's over, what would change if the rumors were true?

-The mysterious death of Rudolf Hess in Spandau prison?

Rudolf Hess was probably murdered and should never have been in prison. At least he is free now. His deeds should never be forgotten.

-Nostradamus' prediction of 2012 being the end of the human race/world?

If Nostradamus is correct I won't be in prison much longer! Ha!

-The current U.S. president and the forth coming polls?

America gets what it deserves. Obama will be president a 2nd term.

-The changes in the Middle East and the role of NATO and the USA, how does this affect the Western world?

Let the Middle East take care of itself! America should get out of everyone's problems. All this only causes more hatred for America. This will affect the Western world by more terrorist attacks on our lands. Also more anti-white propoganda.

-The future of the white race? Family? Comrades?

The white race has a very bleak future. We are a dying race/culture. We are being bred out of existence and invaded by non-white immigration. Yet it's our own fault. Whites allow this to happen and there are not enough people trying to stop our destruction.

-The economic situation in the USA?

The economic situation is very bad with no change any time soon. It may actually get much worse.

-What is the biggest problem in the USA?

The biggest problems in America are Jewish influence in politics, the media, illegal immigration, what's taught in schools and so much more. We need to rebuild the whole damn country!

-What is your favorite (A) Film? (B) Band/album? (C) Food? (D) BOOK? (E) Sport?

(A) Film - Jude Suss (B) Band/album? I like too many bands/albums to pick just one favorite!(C) Food? Any home cooked meal. (D) BOOK? My favorite book right now is "Revolt against the Modern World" by Julius Evola. (E) Sport? No sports.

-What person in history has influenced/inspired you the most? Why?

One of the people who inspired me would have to be ADOLF HITLER. The reason is, growing up we were taught how 'evil' this man and his beliefs were/are. Yet the only explanation is what they claim was against the filthy Jew. When I read Mein Kampf and translations of his speeches I realized this man was a genius and we have been lied to! This made me read so much more and to question a lot of what I was taught in school. ADOLF HITLER was probably the last savior of the Aryan race.

-What is your opinion of the following people? (A) David Lane? (B) Timothy Mcveigh? (C) George W. Bush? (D) Ian Stuart? (E) Winston Churchill? (F) Saddam Hussein?

(A) David Lane? 14 Words!(B) Timothy Mcveigh? Taught the government people will only put up with so much.(C) George W. Bush? Traitor, coward and war criminal.(D) Ian Stuart? Hero. Excellent song writer.(E) Winston Churchill? Anti-German destroyer of Europe.(F) Saddam Hussein? Dead Arab.

-Where do you see the USA in 20 years? The white race? The rest of the world?

The USA in 20 years will be mostly non-white. It probably will not be the top Super-power. White people will be in constant struggle to survive. We'll be victimized daily - rape, murder, robbery and our cries will not be heard. The USA will also be in the stages of 'Balkanization,' where different parts of the country will try to separate based on economics, race, etc..

America may also be a nation that doesn't play much of a role in the world because of its problems at home.

-Any final words? Greetings?

I want to thank all those who have supported me over these long years. Thank you to everyone who fights for our race and nations. And also a big thank you to you and D.W. for the interview.
