

Break Out Of Your Death Cell, White Man!

The Death Sentence And Its Execution

The white man is a prisoner, sentenced to death, in a world whose civilization, science, technology, superb literature, true art, fine music, and all higher thought are mostly of his own making, of his own genetics.

His death sentence has been decreed by world Jewry, in accordance with its sinister covert tradition, its auto-messianic mania, who has gained control of money, the engines of propaganda and thought control and hence most political structures, legal systems and educational and religious institutions. Nearly all important armed forces and police, espionage, and security agencies are at least indirectly under Jewish control.

The death sentence is to be carried out by:

- 1) Mass murder as exemplified by the vast liquidations conducted wherever Jewish Communism gains open, direct control; extermination by non-whites, mostly blacks, inflamed by "kill whitey" propaganda; and continued Jew-instigated wars and revolutions;
- 2) Race-mixing, mongrelization;
- 3) Birth control and abortion propaganda to which whites are particularly susceptible;
- 4) The generation of economic pressures and conditions which are not conducive to a desire for children;
- 5) The subtle encouragement of homosexuality among young white men in particular. Men who don't desire women are not likely to contribute to the perpetuation of the race. Moreover, many white women are therefore deprived of white mates and hence fall prey to non-whites which affairs contribute to mongrelization;
- 6) In general, stripping the white man of any power or control over his future.

Amid a population explosion of black and mud races, the already small white fraction of the world's masses is not only rapidly shrinking, but the absolute number of whites is also decreasing. Already the white man's voice in his own affairs is virtually non-existent. Look about you! The most cursory, honest glance will show you how increasingly beleaguered the white man becomes.

What The White Man Must Do To Escape Execution

Rid as many white people as possible of pacifying, neutralizing, stupefying beliefs. Partially informed whites must cease giving only a half-hearted effort in behalf of their racial survival—consciously or unconsciously entertaining the notion that God or fate, by one or more of a variety of stratagems, will save them. This notion makes them feel: why bother exerting more or really risking anything? The highest good or virtue is to fight wholeheartedly for the survival of the white race and work for its perfection. The greatest sin is the opposite of these: mongrelization, working for the enemies of the white man.

Dismiss any silly notion that white survival can be effected by so-called democratic or legal processes. Governments and legal systems are in the hands of the Jews. Contemporary "democracy" itself is a Jewish device instituted to achieve white-race subjugation and destruction and other malicious Jewish goals. The majority of citizens in modern "democracies" can always be controlled by the power of money, propaganda, "legal" pressure, bribery with the public funds, etc., to do what the Jews want. As a last resort, elections can be rigged, but Jews or their lackeys probably rarely have to resort to this. All leading candidates for important office are Jew-chosen beforehand. Jews love to have well-meaning whites waste their time and resources trying to gain their salvation through the "democratic" framework. This has been tried for several decades with only failure being the noticeable result. The Jews in a modern "democracy" always have the political/legal situation well under control.

Study the tactics of our Jewish and Jewish-Communist enemies and masters, how to thwart these

tactics; decide which ones to appropriate to our own use.

Certain tactics will be peculiarly appropriate for the use of the white man. These must be perfected. The white man's brains, the best in the world, must bring forth strategies and methods which even our cunning, diabolical enemies have not thought of.

Master the science and art of terror in particular. The white man has been, in general, rendered too nice, too above-board, too insipid by his Jewish-instilled, meek-and-mild, lie-down-and-die version of "Christianity." (Any Biblical or religious interpretation that espouses or condones non-resistance to evil or mongrelization of the white race cannot possibly be valid.) The white man's deadly enemies, the Jews and Jewish Communism, are not hindered by any such anti-survival conditioning and scruples. Whites, as their mortal enemies have done, must study and develop methods of murder or assassination, torture, kidnapping, etc., and how to create psychological states of terror even without violence.

1) In openly Communist controlled countries, a few percent are able to maintain control of the vast majority by the unabashed use of terror.

2) Many white traitors in ostensibly non-Communist countries are undoubtedly induced to do the Jewish bidding by terror or the threat of terror or its close cousin, blackmail.

3) Many brainwashed, influential, white traitors, including a great number in high positions, follow Jewish directions because of perverted convictions and/or material gain from so doing. They presently face no real threat to themselves or loved ones for their white-race destroying acts, their perpetual Jew/Communist-benefitting decisions. **THIS MUST STOP!** These toadies to the Jews and traitors to their own race must feel the full mental and physical impact of terror for their loathsome deeds. Being a race-traitor must be made a hazardous occupation!

Master the art and science of conspiracy. Again, the white man's religious conditioning, directly or indirectly, has rendered him too goody-goody, too honest, too fair, too open. **THIS MUST CHANGE** in about conspiratorial methods. They must learn to scheme, to plot, to be cunning.

Underground or conspiratorial mode of resistance is the only practical course of action now because:

1) It is impossible for the white man to get any lessening of the assault upon his existence through the Jew-controlled or influenced "democratic" or "legal" processes.

2) Open rebellion or insurrection against Jewish control in practically all of the nations of the so-called free world is presently impossible of success. The Jews, with their control of the organs of propaganda, armed forces, police and security agencies, and judiciary systems would actually welcome such an attempt! This would give them the chance to destroy their active opposition; it would bring more of their hitherto unknown enemies out into the open where they could be liquidated, etc.

3) With reference to the United States, a Citizens' Posse Comitatus movement would not have a chance unless it could possibly be successfully initiated in a large number of strategic counties simultaneously. Otherwise, it would be disposed of summarily like any other attempted insurrection against governmental authority no matter how constitutional or fundamentally legal CPC may be.

4) Coup d'état is only possible when sufficient infiltration of the armed forces, police, and security agencies can be achieved. So far, in only a few Latin American countries has such a strategy proved successful. Even a successful anti-Jewish coup is constantly subject to counter-coup and external infiltration and invasion by Jew-controlled neighboring states. **EXTREME** care in detailed planning and execution, by people who really know what they are doing, must be exercised in conducting a coup. If by some miracle the coup is successful, extremely good planning and ruthlessness must be employed to maintain the results of the coup. The holders of power in the new government must at all times act like "they may be murdered in their beds any night" which is true!

The objectives of conspiracy must be the following:

1) Induce ever more loyal whites to become part of the conspiracy forming new, independent,

WHITE M

ALL YOU HAVE TO LOSE AT

organizational units. Though whites, presently, vastly out-number Jews, the Jewish power and control as cited earlier is so great that it will take large numbers of dedicated real workers for the cause to make any appreciable dent in the present Jewish hegemony. Also there is safety in numbers. The more directions the Jew is hit from, the less counter effort he will be able to exert against any particular one, and the less exposed any one acting individual or group becomes. Pro-white, anti-Jewish feeling and actions must grow and become ubiquitous. The Jews and their stooges must always feel harassed and become increasingly wearied.

2) Undermine the Jewish propaganda onslaught against the white man's survival. Discredit his lies and half-truths in the eyes of "sleeping" whites. Awaken a sense of race pride among whites, a dedication to their racial survival and a hatred for those who mean their racial destruction.

3) Sabotage Jewish efforts to actively degenerate, mongrelize, subjugate, etc., the white man.

4) Make the Jew and his cat's-paws ever more uneasy, threatened and attacked in their seats of power. In general, by whatever means necessary, no matter how unethical, cruel, brutal, or treacherous, Jewish power must be diminished to the point where more overt, open action can be assured of success. Then push the Jew to oblivion where he can never again by his wealth, his "magic spells and poisonous charms" seduce white peoples to slaughter each other, give up their freedom and great destiny, surrender their world, and indulge in racial suicide.

Conspiratorial action to be successful must include, but not necessarily be limited to, the following principles:

1) Organizational units must be secret and independent of each other except for perhaps the most highly-trusted, closely-guarded liaison. Any higher echelon control or cooperation is always potentially dangerous. The late J. Edgar Hoover bragged about how easy it was for his FBI to infiltrate rightwing action groups in the United States. Why not? These groups would accept anybody with open arms if they expressed the slightest conviction or interest in the rightwing cause. Trial, terror, and death must be the bywords in accepting membership in a secret organization. A neophyte must be subtly led along certain paths of action such that if he is an infiltrator he will be given enough rope to hang himself; and then hang him! It is much better to have a small organizational unit of highly trusted and proven people than a larger one of less dependable membership. A person must have a true "need to know" before he is "allowed to know," no matter how proven or trusted he is.

2) Infiltrate as much as possible enemy organizations, police, security agencies, armed forces, anything that leads directly or indirectly to a source of power, authority, information or thought-control. The white race must develop a reservoir of "sleepers"—whites with "clean," non-activist backgrounds, good intelligence and dedication to infiltrate enemy-controlled groups. The Jew still has to use whites to control, suppress and degenerate whites.

3) It goes without saying that any secret organization must be cognizant of the modern science of surveillance, counter-measures and the protection of information.

4) Non-secret, non-conspiratorial organizations are still of value for the dissemination of propaganda, as "transmission belts," and possibly for the recruitment of members into the secret ones. It must obviously be assumed that open organizations, if they become at all large or effective in their sphere will be swarming with infiltrators. It probably behoves non-secret organizations to still pretend, at least, that some good can be derived through the "democratic" process. Do not try to influence non-secret, friendly organizations to engage in illegal activities. This is the tactic of an enemy agent provocateur who wants to destroy or discredit such an organization. Form your own completely secret and independent organizations.

5) It must be expected and planned for that the legal ability of the white man to openly express his opposition to Jews and their plans for his destruction will become ever more curtailed. This is exemplified by the ever-pending ratification of the Genocide Convention in the United States and other "anti-hate" laws already in effect in other countries. The Jew, at present, increasingly

WHITES UNITE!

REMOVE YOUR JEWISH SHACKLES!

becomes more of a "sacred cow" immune from criticism and exposure.

6) It must be expected and planned for that when the Jew and his establishment sense any truly meaningful resistance developing against them, intimidating, punitive, repressive measures and propaganda campaigns will be instituted. Hence, the thinking and tactics of white people conspiring for their racial preservation must be kept flexible to deal with rapidly changing situations and ever-ready to take advantage of new action and propaganda opportunities as they may present themselves.

7) Known activists must engage in or be associated with any overtly illegal activity with extreme caution since they will be the first suspected by the police. Some have been framed by the enemy.

8) In general, white people must learn how to live double, even triple, lives. The implication of this remark should be obvious.

9) The white man must exhibit the pluck, drive and resourcefulness for which he is famous and not feel faint-hearted at the immensity of the task facing him for his preservation. A modest beginning with only a small number of intelligent, informed, truly dedicated, courageous, hard-working people does have a chance of eventual success. This chance must be taken. It may well be our only hope.

The Dedication The White Man Must Have To Save Himself

To be effective in saving himself, the white man must develop an intense dedication to the cause of his survival and eventual return to world ascendancy. He must not only know academically, but believe with emotional fervor that, as far as is known, he is the ultimate, the brightest jewel on nature's evolutionary ladder, in God's creation, and that his survival and betterment are the highest good—BAR NONE!

To effect white race survival, many brave whites will have to risk their lives and, regrettably, some will suffer imprisonment, torture, and death at the hands of our cruel enemy and his cat's paws. These will be the future heroes of our race to be honored without bound along with the many others who have so died in the past. This will come when true history is permitted to be published at large.

Those who die for the white race in no matter what manner or circumstance should rest assured that they have died for the greatest cause ever, and that no matter how they may be currently defamed and slandered in the eyes of the present world, they will be vindicated in their righteousness and the justice of their cause. If there is any eternal mechanism for perfect justice encompassing both the here and the hereafter, these brave souls will find peace, honor and reward.

It is abhorrent to most white men to kill by stealth or treachery; however, this will be a necessity in many cases if we are to survive. The good, loyal, white doctor who disregards his Hippocratic oath and manages to administer a poison (perhaps one whose effects mimic those of a natural death) to an important Jew or influential race traitor should not only feel he is doing a good act but a beautiful deed and should have immense pride in his heart for it to his dying day. He will realize that many good white men have been dispatched by the enemy in like manner. The lad who manages to attach a bomb to the ignition of a car owned by a key enemy or traitor, with successful consequences, should feel the same way. The pretty young white woman who becomes the mistress of one of our foes for the purpose of espionage, though she feels defiled and dirtied by the horrid enemy, must realize her sacrifice is a glorious one and her purity and reputation are untarnished. And so it must go. The battle for survival is everywhere; it is desperate! The white man must have such dedication to the cause of his own continuation that any sacrifice or any deed is justified for this cause. The Jews, in their Babylonian Talmud and elsewhere, write even more strongly in their favor and against non-Jews.

Time is short! If this dedication to his own survival does not materialize quickly enough, the white man will be further subjugated and enslaved, ruthlessly exterminated, mongrelized, and otherwise eliminated from the scene. Many now living will witness or be enmeshed in the final debacle of the white race. In just a few generations, not hundreds of years from now, the birth of a pure white baby will be a rare event. The Jews will rule a world of slaves, "human" cattle, ranging in color from black to brown without the intelligence or spirit themselves to ever conspire, rebel, or assert themselves. They will, of course, be treated like the cattle (goyim) that their Jewish masters consider all non-Jews to be.

Break out of your death-cell, white man! Your time to be able to do so is short. Time is on the side of your Jew executioner. You must act now! Later will be too late!

This or something similar must be gotten into the hands of vast numbers of thinking whites, surreptitiously, without record of origin. This can be done in anonymous, chain-letter fashion urging each one who receives it to make copies and send them on to many others in a pyramiding fashion. Every white person who is concerned about his future and that of his posterity and recognizes the urgency of the situation should send copies of this to all whom he knows, anywhere in the world, who are considered trustworthy and of a similar mind or potentially so.
