Jewish Billionaires

With the jewish people making up such a minuscule portion of the global population, why is it that the majority of billionaires around the globe are jewish? Are you ignorant enough to believe it's simply because jews work

harder? Of course not, jews don't work hard. Are you going to buy the line that jews are smarter? Of course not, jews are not smarter. It boils down to nothing more than deception and underhanded swindling that has made these notorious carpet baggers so wealthy. This list barely scratches the surface of jewish billionaires, another area like the media, hollywood, congress, senate and government in general where jews are far over-represented, and it's not by accident.

History Speaks

“A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and carries his banner openly. But the traitor moves amongst those within the gate freely, his sly whispers rustling through...all the alleys, heard in the very halls of government itself.

For the traitor appears not a traitor; he speaks in accents familiar to his victims, and he wears their face and their arguments, he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation, he works secretly and unknown in the night to undermine the pillars of the city, he infects the body politic so that it can no longer resist. A murderer is less to fear. The traitor is the plague.” - Marcus Tullius Cicero
