Jewish Expulsions and Exiles

If jews had been exiled, expelled, or otherwise done away with by one or two countries, you could possibly make a case for this fable of “anti-semitism” or that maybe just certain people had a problem with the jews. However, when it

gets to the point that you have a list of 109 different exiles from 84 different places, with some of them having to do so repeatedly, one is forced to start looking at the jew it's self as the problem, and not those attempting to free themselves from the grasp of these parasites.

Just the fact that some countries were forced to repeatedly exile the jews, proves that these are relentless parasites, who will stop at nothing to gain control of our countries, enslave our people, and commit genocide against all peoples of the earth.

This list also dispels the myth that "zionism" (which didn't appear until 1898) and "zionists" are the root source of today's problems. Both of these are merely symptoms of a much larger problem with the entire **jewish race**. None of the countries listed below exiled just *some of the jews*, and none were foolish enough to simply consider them a religion or ideology. The jews were exiled and expelled as an entire race then, and should be dealt with as an entire race now.

Anyone doubting the danger of just one jew, needs to click [HERE](#) and watch the film below the article.
