

KABBALEH

EXPOSED

BERSERKER
BOOKS

This work has been modified from the original and contains terminology such as the words 'mage' and 'magian' which indicate a certain archetype present in certain populations and has no fixed reference to any biological type or cultural group. It expresses this type which inheres in all such groups to varying degrees and the writer suggests this tendency be opposed both in oneself and in others through the requisite education.

The Joy of Satan Ministries' compilation of writings: Preface- The Kabbalah is the pinnacle of the magian faith, its innermost knowledge, the foundation of all Judaism. As with all magian 'culture,' there is nothing original in it. All the magian 'Culture' elements are stolen from Gentiles and incorporated from pre-existing pagan religions worldwide. Judaism is laden with stolen concepts and perversions of spirituality.

Still, it also exists to aid the mages in furthering their objectives against this world — using occult means against non-mages.

As much as we would like this was not the case, this is the case, and many vocal and critical rabbis across the planet admit to this very fact without a shred of conscience or guilt. Some rabbis (top leaders of the magian people) also talk openly of the genocide of the non-mages being part of a magian divine plan.

Therefore, this website exists to awaken people regarding us, but we rarely hear about these. mages

are a Kind, not simply a 'religion,' as they're so commonly, foolishly believed to be. 'You can draw a picture of a mage, but you can't draw a picture of a Catholic or a Protestant.'

Going one step further into the depths of magian knowledge and thought, one also finds other truths, such as that the mages are not only non-human but that they are the offspring of an alien Kind. These are not the beliefs of their 'accusers' either — these beliefs come directly from the words and innermost ideas of the mages. mages are an alien-Kind of people, as some of their own have admitted; thus, their alien and worldwide hateful behavior, and they plan to dominate this world and enslave its inhabitants, which they call by the word goyim (Meaning Cattle in Hebrew). While

these truths may be too resounding to some 'normal' people, these are the internal beliefs of Judaism. So, this website not only exposes the 'Kabbalah' but will also expose this very reality in full.

Contrary to what many people believe, the mages use occult methods that they have stolen from prior pagan civilizations and appropriated, later calling it 'magian culture.' These spiritual powers not only exist, but they help shape the fabric of this world. For this reason, those who fight them mentally and spiritually did create this website for people to get enlightened and understand the importance of understanding this centuries- old magian plot. The mages will be brought to justice by the being they call 'the Accuser' — 'the Enemy.' These titles are the Hebrew translations and meanings of the word 'Satan.' While Satan means negative things to mages, it means nothing but positive things in the ancient language of Sanskrit, predating mages, Judaism, and the perception of the 'Demons' being evil' by thousands of years. Demon is the ancient name of the Gods of the pagan people (pagans are heathens according to the Bible and the idolaters).

magian Kabbalah is the root of all magian lies and malice against Humanity and the Creator of Humanity, Satan Himself. The Kabbalah is the core

of the spiritual warfare of the mages against their old nemesis, Satan, and the pagan Gods. We proudly expose the genocidal secrets of the magian Kabbalah, following Satan's words: 'Pissreal WILL GET WHAT SHE DESERVES,' on the topic of the destruction of Pissreal and the so-called magian 'people.'

• The One God' — A Perverted and Stolen Concept, Corrupted by mages

I have decided it's essential to educate on the critical number of the 'one' and what this means. The number one is the number of undivided, eternal, permanent, and all that is; the formless, the Aether — the void that permeates all creation. It's at the same time, all potentiality. In other words, everything begins with the 'O..'" This power is the God-force that is everywhere in creation. Essentially, this is not even 'God,' but the all-pervading power of nature, so to say.

The enemy scammed this allegory and replaced this concept with 'themselves' in the position of 'God.' They

based this concept to justify their crimes against creation, against humanity, and their alien agenda. The enemy knows, as we have stated many times, that all these things are hoaxes. But like any other hidden order of slavers, their fear is — that you know it, too.

Creation does not start with the 'one.' It begins with two. Satan was attributed the number two and was thus, called the 'Evil one — who Divides,' but also at the same time, the ultimate Creator of the Cosmos and perceived reality, symbolized by a Serpent. It divides and brings together at the same time. The Satanic Serpent is the whole and the division at the same time.

When something does get 'divided' from this 'whole,' as a separate consciousness, this is when creation begins. — making beings co-dependent on it. We are, indeed, 'one,' in the fact we are all permeated by this very essence. Still, the enemy hides it by hiding spirituality, killing — and cursing spiritual people, and trying to pass spiritual communism as a rule (everyone is 'one') and the

'same.' This is precisely the opposite of what beings in nature should be doing. So, this wickedness reveals the enemy's soul to be that of a parasite and nothing more.; this is only an excuse. To

make people understand this. It's polytheism that is divine and non-primal. Polytheism recognizes that individuals can all be 'All-powerful' and Gods in their own right, for the universe (nature-God force) is limitless and infinite. Only when the reptilians set foot on the planet, they stated this was 'evil' and that humanity had to forget this and just worship 'the one forcibly.'

The 'one,' without beings, is nothing — absolutely nothing. The enemy knows this and pretends to be the highest authority, but nobody is, let alone the enemy. It doesn't have to do with 'worshiping' this thing, either. We must worship our Gods, for its them caring about our survival — not the 'one' or 'nature.' Nature launches a solar flare, and off goes 'humanity.' Respect, upholding, and understanding nature, yes — by all means. On the other hand, it's the pagan Gods that need our attention, worship,

and love — and admiration — because, due to them, we exist; know occult sciences; medicine, and so forth. All these are survival tools given to humanity so that they can endure nature's negative decrees. These weren't given to us by 'God.' Satan was the only one that cared to

save these petty monkeys on this abandoned planet, and to him, we owe our existence.

As for 'nature,' we respect her, uphold her, and again, seek to understand her, but on the other hand, we cannot deny the fact that with one solar flare, mommy nature can have us extinct in no time. Therefore, we must survive. The enemy tries to play 'God' and tries to exterminate humanity, de-evolve it, and enslave it. Never buy the lie that this 'God/Nature' is against or pro anyone. It just is. It's just creation, infinite potentiality. Everyone is part of it. Now, the more beings develop, they apply this force into developing themselves. Judgment from 'God/Nature' is actually — what one brings upon themselves for meditating or not meditating, upholding the laws or not. This principle doesn't

have to do with the tablets of some reptilian kike named Moses, which is a fictitious character, neither with some demented genocidal rabbis. In short, you must correct your relation to Nature and how you understand it, work with its laws, etc. If this sanctified interface isn't upheld, then people are punished. This reality has

nothing to do with conformity to the mages. It's all a dupe.

The more these 'divisions' happen, the more creation flourishes and evolves — that is the intended function of genesis. The final steps of such, as manifested on the planet, are different lifeforms — the humans, the Kinds, the separate souls that nonetheless — are all 'Divine.' The enemy is a criminal and tries to make 'reasons' for the universal crimes they do, such as Kind-mixing. Everything that removes what makes us 'different' (the ultimate result of Kind-mixing will be one 'Human Kind') regresses us back into the 'one.' The same goes for death; in short, the more docile and the lower the type of the life-form,

the more towards non-existence it goes. It goes back to the first primal state from where it divided to advance.

Of course, we must unite with this force (this is what the Kundalini and Meditation do), and we must respect it and work with it. In simplicity, understanding that we are one with nature and the world around us is not just 'separate.' This is where the power is. Therefore, let all the enemy's lies, that this is 'nature,' 'normal' or even spiritually 'founded,'

as far as their crimes go. Know they go straight up against nature and the purposes of creation, for the development and evolution of species. They are throwing or attempting to throw humanity billions of years of labor, time, and evolution back into becoming stupid amoebas with a low IQ to that of a pig. The above is only one example. The key is with Satan.

Satan is the teacher and the master of the ways of Nature, some naive people who call 'God.' Satan commands, in all the levels, Satan knows. Without

Satan as a representative, creation remains faceless, so to say. Unapproachable and dull.

Lastly, Satan never had a problem with nature, which many naive people call 'God' and its understanding. It's the enemy that invented this lie. If anything, Satan — and only Satan and the Gurus (Demons) lead to God (the Godhead, understanding of nature) and our realization as people. It's them that brought about, mastered, and passed us down this science. However, Satan has a problem, same as all the Gods, with these scumbags that lie to Humanity, plague us, and convince us by lies, deception, and killing that they are 'God themselves. I, therefore,

reveal them in front of you know, so that you know, they are lowlifes, trash, and if anything, very against and disrespectful to nature and creation in general. For that reason, amongst many others, they need to be spiritually destroyed and rendered inept. Satan, the Gods, and us all see to it.

- **Lucifer and the Philosophy Behind Satan/Lucifer**

As we all know by now, we can call the essence of the universe 'God,' 'Source energy,' 'Akasha,' 'Ether' or as we see fit. This one energy permeates the whole of creation and keeps it going, but then, there is another thing that keeps creation going: Consciousness. Lucifer/Satan represents this, and the channeling of the universe's energy at the same time. Essentially Lucifer/Satan is the Creator.

It's a kosher magian lie that pre-Christian Satanists/pagans denied the existence of a 'source' of all creation, a primordial cause, or a sole essence that was the source of creation. But they considered this useless because this was unexpressed and latent in existence. In other words, without beings to express this, the universe is as meaningless as anything that

never existed. Therefore, the 'created' have a similar position to the 'creator force' in this sense. However, they all believed that simple; this is an eternal concept and cannot be expressed, but rather, experienced. For this, the Gods are needed. In Egyptian mythology, the Gods came from the

Neter, basically like the Source or Akasha. i.e., the force of 'God' or 'Nature' created the Gods. Subsequently, the Gods then created us — and so forth.

Learning to understand this concept and one's position in this infinity was central and fundamental thinking. Spiritual Satanism or Satan never denied this either. As this something real. The second title for Satan is Lucifer. Now, Lucifer breaks down in two. Luci comes from the Latin Lux, which means 'light,' and 'fer' that means 'bringer.' Therefore, Lucifer is the bringer of the Light. Lucifer is a title even admitted by his enemies, but what does this title means — I briefly explain here. When people think of light, they think of Sunlight according to the human sense. However, this light is an unseen, formless, unexpressed light that is not a light, but only what it is — of itself. But we still call it the light, although it's the light that hasn't

manifested. When the light manifests in full power, that is the power of the Sun, and therefore, the Sun is the power of the embodied and authentic, felt and

active light. The other type of energy is thoroughly passive.

Anything revealed from creation is a form of light and vibration. The revealed potential worlds are light, and they all come from the Abyss of 'Nothingness,' the Akasha or the 'Chaos.' Nothing exists there but endless potentiality. It's a void, just waiting for a conscious entity to express it. Without a conscious entity or a teacher (Who is what Satan/Lucifer is), this light would remain unexpressed, and all living entities would never figure this out, thus, staying ignorant. The person who does this enlightening process is called a God, and this is exactly what Lucifer is and what his role is in creation.

Therefore, the Demons (Daemon means 'genius spirit' (God) in ancient Greek) all obey Lucifer. The other name of Lucifer, which is Satanas is related to Truth and the realization of Truth. His enemies even admit Lucifer to be the 'Angel' that was closest to God, i.e., the formless light of the Neter, or the Akasha or

chaos, you name it, and he was the creator and the transferrer of the light, i.e., the creator manifested. He has the same position in the Yezidis who honor him above 'God.' Simply because God is neither a kike named magehovah, and it's neither a form that needs worship or following — as on its own, it leads nowhere.

Sat means 'actual,' 'An' means 'God,' and as in the magian Kabbalah in Hebrew — concealed to hide from the masses, means 'boundless light.' Satan still technically means 'truth,' but to break down the name as in above reveals Satan's fundamental nature as a being. The mages removed the 'as' from the name of Satanas to show their wish to cast him 'down' from his position. This notion of Satanatan, as a being in the universe (or more accurately — the E.T. behind the title), is reality. Lucifer brings the light and creates the world, the Soul, and everything that is and exists.

Without Lucifer, the active creator, a manifest creation cannot be, and 'God' remains a useless potentiality in the middle of nowhere. As thus, the perverted statement of 'Lucifer being the favorite

angel of God.' It is evident that this being behind the title has reached a state of equality with this force,

what the Godhead is. The light he brings from the highest source of creation, the creative source par excellence, the depth of depths, the 'One God' that so many idiots boast about, which is the chaos or the light. Indeed, there is no way to accurately 'explain' what this 'is' because we start to define it.

Additionally, as all of us know, Satan leads man to understand the Godhead and become a part-taker in this Divine Creation. Because indeed, Satan/Lucifer is God and there can be infinite Gods in the infinite universe. Therefore, Satan/Lucifer is not afraid of us, scorns us, or puts us down. Why should he? For some reason dealing with the aliens and E.T.s hiding behind theology, the mages decided to attack Satan and try to curse him from falling from this high position he had in 'front of God,' which is a metaphor in the mastery of the light, which even the enemy admits, was the superb and the highest

possible. This is all strong allegorical language here, coded in the 'Fall Lucifer.'

This came because the mages put themselves as 'God' and Satan went against their plans, so putting words in the Neter's mouth, they supposedly stated that Satan was to be punished. Mass belief in this lie

pushed energy into this direction to some extent. But obviously, the mages have nothing to do with 'God,' nor this is real. Therefore, people like the Yezidis never bowed to the mages and their crap. Because enlightened people like Sheik Adi can see what is real and what isn't spiritually wise.

In the Yezidi tradition, Lucifer was asked to bow before 'Adam' (Man, or what have you) and he denied this proposal because he was the most ancient and the most ancient and he knew that would be disrespectful to the creator, or the universe, to obey something that is so recent — and fragile as man. In this fable of the Yezidis, 'God' or the source rewards Lucifer because he stood to his

stature, and puts him as ruler over all creation, seen and unseen.

Lucifer/Satan is basically the conduit from which the infinite unexpressed light gets an expression into existence. Rightfully so some people take this and say that Satan is the Creator God of the universe, but this is allegorical. Satan is one with this force and there is no division, and, consequently, comes the statement of Satan being everywhere and anywhere, which many people took and named him as a 'force' later. This is

the future of advanced entities who ascend spiritually on these higher levels, to reach this state. And — as always, it's Satan that leads to 'God' and is God.

Deprogramming from magian lies that are off-base and extremely blasphemous is a necessity for all Gentiles who seek to rise to a higher spiritual level. All the above should show who Satan is, and who we are as a result by calling ourselves Spiritual Satanists, which is to strive towards the highest spiritual awareness and objective.

- **The Holy Bible: A Book of magian Witchcraft**

There is nothing 'holy' or anything for spiritual advancement or the betterment of humanity in the Bible. Look to the numbers, the books, the scriptures, and the contents and you will see it for what it is really for; it is a book of magian witchcraft, of which they use liberally way at the top, to advance their agenda and to enslave the masses. The whole point of this article is to explain in everyday simple terms how they do this. The mages are an alien Kind within all Kinds. One does not say 'I am a quarter Catholic,' or 'half Lutheran,' or 'part magehovah's Witness,' or that 'there is some Presbyterian blood in the family,' but one can

be half magian, quarter mage, etc. And — a mage is still a mage regardless of whether he/she practices or observes the 'religion.'

For those of you who are unfamiliar with spirituality and the workings of the mind, known as witchcraft, I am going to explain this so you can understand how this works. Look around you;

everything you see, your computer screen, your chair, your bed, your furniture, the cars outside, buildings, windows — everything you see was once someone's idea before it materialized into a physical form — in reality. Now, I also want to add in some instances, such as with science, for example, storms manifest on their own; hot humid air colliding with cold, dry air for example, but the majority of everything here was once someone's idea.

Most of you are familiar with the cone-shaped hats that classic both wizards and witches' wear. These often have stars drawn on them and such. The symbolic meaning of the cone is energy welling up to the top of the head. This is also symbolized by the Egyptian pyramids. Energy is needed to manifest an idea into reality. Energy is also like water in that it will take the easiest way out if not thoroughly directed. A

conscious witchcraft working needs energy and the focus of the mind. The more important the working, the more it may take planning before doing it. By planning, I mean a date where the planets are

supportive of the working (hence the stars on the cone-shaped hats), along with timing, and knowledge. The more forces working in harmony to support the spell, the better, especially the numbers, as life is made up of numbers.

The working is empowered by the right (female) side of the brain. This side of the brain rules over the subconscious mind and is also the passive side of the brain. The left side of the brain is the male, logical side that directs the working. The more energy that is directed toward a working, the more likely it will manifest. Little things do not require massive amounts of energy but controlling the world and what I reveal later in this article, do require the participation of the subconscious (female side of the brain) mass mind.

The populace is unaware of this. This is the reason a Bible is in nearly every home, as it acts as a subconscious receiver and it has subliminal power, a connection with the numbers, the verses and given the

centuries of massive amounts of psychic energy being poured into it from believers, it has plenty of power.

Believers subconsciously tie into the energy and unbeknownst to most, can be controlled this way. This is only a summary of how the powers of the mind and soul work. To learn more, study up on the subconscious mind, especially how some people can obtain the entire contents of a book by just holding the book and focusing on it, without reading it. This should give you some idea of the power the Bible has. This is another reason why Bible verses are memorized, as these become embedded in the subconscious, and this bleeds over into the mass mind, making the mass mind a powerful tool in working a spell.

In addition, many of you are familiar with subliminal messages. Most of us have heard or read about how popular advertisements, music, and other media use subliminal messages that are not usually detected by the conscious mind. We are unaware of them, but they do work, and they do influence people. At the end of this article are links to

YouTube videos that further demonstrate this. To further confuse and misdirect the populace, these workings such as the 9-11 are blamed

upon Satan, but with a little research and study, you will find the opposite to be true. All these are of the Judeo-Christian Bible. This is no different from the phony magian 'Holocaust' Lie of the 'six million.' Note how the number six is frequently used (more on this below).

The endless media publicity and otherwise this receives, acts as a major distraction and diversion away from the real atrocities, mass murder, torture and brutality committed by the magian communist program. 'Satan' is the God of the Gentiles (non-mages;) 'Satan' means 'enemy' in Hebrew; 'Satanism' is also a label for paganism and — pagan means 'Gentile' (translate pagan to Russian, for example.) Anything that is against the mages is zealously forced upon the populace as 'evil.' For complete proof of this, please visit www.ExposingXianity.com or the PDF. Some of you may remember here, how after the 9/11 incident,

many people were folding \$20.00 bills a certain way, as the twin towers could be seen in flames, given the bill was folded, then viewed a certain way. The \$20.00 bill is the most used US currency. Shortly thereafter the 9/11 incident, the \$20.00 bills were very rapidly

replaced with a new version. They all disappeared very quickly. The excuse used before the public was that they could be easily counterfeited. The real reason was because of the design of the bill and the subliminal vibrations it carried.

The number 11 is a metaphysical number of chaos, destruction, and disintegration, according to the Bible. Because that filthy Bible is in nearly every home, so many people adhere to Christian teachings, and put their faith in it, like the \$20.00 bill, it is a very powerful subliminal tool, even more so than the \$20.00 bill, as it has been around much longer, and is international. Thus, when mages at the highest levels work their witchcraft in groups, they use the numbers and verses in the Bible to accomplish their

ends. From what I understand, some of the verses are vibrated in Hebrew in boustrophedon, meaning read in zigzag.

They also bob back and forth when they 'pray' in groups. The numbers 10 and twelve in the Bible are supposed to be perfect numbers.

▪The twelve sons of Jacob minus Joseph ('one is not' — Genesis 42:13) without whom the other 11 would not have survived.

▪Note * Genesis is the first book of the Bible; Genesis = $1 + 42 + 13 = 56$, which reduces to 11. This is in addition to the verse itself. ▪King Jehoiakim [2 Chronicles 36:5-6] reigned 11 years before Nebuchadnezzar carried him away into captivity (his downfall and the end of his rule).

▪King Zedekiah [Jeremiah 52:1-11] reigned 11 years before Nebuchadnezzar imprisoned him, murdered his family, and mutilated him.

▪In the 11th year of the Babylonian captivity, Ezekiel prophesied the fall and the destruction of Tyrus, [Ezekiel 26:1-5.]

▪In the 11th year of the Babylonian captivity, Ezekiel prophesied the fall and the destruction of Egypt [Ezekiel 30:20-26.]

Note also in the above scriptures, if you do some more reading on them, they all rebelled against the images and were punished for it. The above serves as an example — there are many more. Now, the number nine is a metaphysical number of endings and finality. Note how the biblical verses that emphasized the

number eleven, all related to destruction and fall. I will not make this article too long, as I will have more detailed examples and such — soon. The book of Job (suffering) is used to curse their enemies in many circumstances. The bombing of Dresden was carried out on the Christian holiday of Ash Wednesday and reduced the city to ashes. I could cite many more examples, but looking at how similarities all tie in, we have:

On 15 March 2004, there were exactly 911 days between the Twin Towers attack of September 11,

2001, and the bomb attacks on the trains in Madrid Spain on March 11, 2004.

- Madrid, Spain has 11 letters.
- New York City has 11 letters.
- The American attacks occurred on September 11th, 2001.
- The Madrid attacks occurred on March 11th, 2004.
- There were 911 days between the American and Madrid attacks [$9 + 1 + 1 = 11$.]
- The Madrid attack occurred on the 11th Thursday of the year. ▪ September 11th is the 254th day of the year [$2 + 5 + 4 = 11$.]

▪ After September 11th there are 111 days left to the end of the year.

▪ September 11 has nine letters and two numbers [$9 + 2 = 11$] ▪ 11 March 2004 has five letters and six numbers [$5 + 6 = 11$.] ▪ Each building had 10 stories [$11 \times 10 = 110$.]

▪ The Madrid train attacks left 191 people confirmed dead [$1 + 9 + 1 = 11$.]

▪On September 11, 2002, the names of the 2,801 victims of the World Trade Center attacks were read aloud from Ground

Zero [2 + 8 + 0 + 1 = 11.]

▪The Twin Towers standing side by side look like the number 11. ▪The first plane to hit the towers was Flight 11.

▪Flight 11 had 92 on board [9+2=11.]

▪Flight 11 had 11 crew members.

▪Flight 77 hit the Pentagon [11 x 7 = 77.]

▪Flight 77 had 65 on board [6+5=11.]¹

▪9-11 emergency phone # [9+1+1=11.]

▪New York was the 11th State added to the Union.

▪Manhattan Island was discovered on September 11, 1609, by Henry Hudson -11 letters.

▪Saudi Arabia has 11 letters. ▪Afghanistan has 11 Letters.

Note how the vibration of the number 11 ties all this in with the 9. Astral energy seeks the easiest way out and like attracts like. It is no wonder that Freemasons, who are controlled by magian powers,

place their hands upon the Bible during their initiation. Given every page of that evil Bible has the word 'mage' 'mages' 'Pissreal' 'Jerusalem' and related; the Nazarene and company — all mages and given the mages proclaim they are the 'Chosen of God' and they are held in the highest esteem and exalted in the Bible, no wonder they are so powerful and have secretly ruled over the world, unbeknownst to the masses, for centuries.

Satan, himself also showed me how these workings are like a domino effect. Once something is set into motion on the astral, the energies put into motion seek out like energies and things tie in. With the strange and eerie coincidence of the numbers (this is only a sample, there are many more), this reveals this is not

a random act, but a dead giveaway that this was an occult working, which was deliberate. I would also like to add the magian emphasis on the number six. Please do not confuse this with '666' which has an entirely different meaning. Just be aware and you will notice what I am saying here. For example, the

**six million for that Holoco\$t hoax, magian
communism has its important holiday May first; 5/1;
5 + 1 = 6. With this, I could go on and on.**

**Pissreal has six letters. Pay attention to the news
and history; anything connected with the mages,
and you will see what I mean. In the Bible, the
number six is the number of men without any
spiritual power. The number seven has to do with
the seven chakras and spiritual power emanating
from these and spiritual perfection. Six falls short of
this power, as six rules 'as above, so below,' and is
also several hard labors. Work was done for six days
and the seventh was a day of rest.' The number six
is stamped on all that relates to human labor. We
see it stamped upon his measures, which he uses in
his labor, and on the time during which he labors.
And so, we see this from the very beginning.'**

**The magian emphasis on and use of the number
six, sets up a vibration on the astral for the
advancement of their agenda, their communist state
and world order. Communism is slave labor. With
the communist state, the mages become 'God' and**

all spiritual knowledge is replaced with material atheism. Only the mages at the top know the secrets of the occult and they use their curses and spells on an unknowing, and helpless populace to whatever suits them. Xianity in more ways than one is a stepping-off point for communism. In addition, Xianity has made so-called 'religion' into such a repulsive and vile concept, that many who are unknowing, gladly accept and promote atheism.

In closing, like everything else, this is all blamed upon Satan and our pagan Gentile Gods by ignorant brainwashed fools. Most Christians do not have the intelligence or the strength of character to delve into the occult. There are also scriptures in that Bible that the mages use to curse and frighten outsiders away from really getting into the occult. I remember when I was new to Satanism, I had a bad experience, but this only drove me on and heightened my curiosity. One

cannot be afraid. The mages and their alien cohorts have used fear as a tool for control for centuries. In communist countries, the populace lives in a

constant state of terror. This is also in league with the Bible, as is everything else regarding magian communism.

I will have more information and many more examples on how the Bible is nothing more than a book of magian witchcraft, hence the numbers; biblical numerology, and how the Bible is continuously pushed upon the populace, it is in nearly every home, in hotel rooms and everywhere else. Everyone is familiar with it and knows what it claims to be. The world needs to wake up. Please feel free to educate others, distribute this and any other Joy of Satan Ministries articles, and work hard for Satan. Satan means 'truth' in Sanskrit.

- **9/11 Was a Spiritual Attack — Tower of Babel**

Below is a direct quote from the Torah: (Genesis 11:9), therefore, the name of it was called Babel, because the LORD confused the language of all the earth, there. From there, the LORD scattered them abroad on the surface of all the earth.' Note: 11:9 Now,

in the USA here, our civilian dates are month/day, but worldwide and with the military, it is day/month. So, with most countries outside the US, it would be 11/9, not 9/11. This was also a spiritual attack, to divide, confuse, destroy communications. More in the scriptures preceding this: (GEN 11:6) The LORD said, 'Behold, they are one people, and they have all one language; and this is what they begin to do. Now, nothing will be withheld from them, which they intend to do. (GEN 11:7) Come, let's go down, and there confuse their language, that they may not understand one another's speech.'

The Tower of Babel has to do with raising the Serpent (building a tower is an analogy). With the Serpentine Power, telepathic communication and all knowledge are possible and with telepathic communication, there are no language barriers, as the communication is filtered down through the pineal gland from the communicator into whatever language the receiver mainly speaks and understands.

Therefore, some telepathic communications can be 'off' sometimes. Specific words don't always get filtered perfectly for one, due to an under-activated

pineal gland, and for another, there are sometimes major differences in languages. In some languages, there is no equivalent expression or word to convey what is meant in another language.

Every time throughout recorded history when humanity has advanced to a certain level of knowledge, that knowledge has been systematically destroyed. This is most notable with the fall the Roman Empire, where Europe regressed into the Dark Ages for 1,000 years. After the mages were expelled from Western Europe, then the Renaissance emerged, bringing enlightenment. The mages who migrated to the east and to Sicily (especially after being expelled from Spain), wreaked havoc on the Gentiles of the east (eventual communism in Russia and of course, the same magian ritual murders, where the Gentile populace responded understandably with pogroms) along with establishing organized crime in Sicily.

- **Rabbis Admit: Shiva is Satan**

The Kabbalah is the pinnacle of the magian faith, its innermost knowledge which is the foundation of all Judaism. As with all magian 'culture,' there is nothing

original in it. All the elements in the magian 'Culture' are stolen and incorporated from pre-existing Pagan religions all over the world. Judaism is not only filled with stolen concepts and perversions of spiritual truths but also, it is created in a way to help the mages further their objectives against this world using occult means 'against non-mages.' As much as we would like this was not the case, this is the case, and many vocal and highly important rabbis across the planet admit to this very fact without a shred of conscience or guilt.

There are some rabbis (top leaders of the magian people) who also talk openly of the genocide of the non-mages being part of a magian divine plan.

Therefore, this website is created to awaken people regarding these facts, which surround us, but we rarely hear about. mages are a Kind, and not simply a 'religion' as its foolishly claimed.' You can draw a picture of a mage, but you can't draw a picture of a Catholic or a Protestant.' Going one step further into the depths of magian knowledge and thought, one also finds other truths, such as that the mages are not only non- human but that they are the offspring of an alien Kind. These are not the beliefs of their 'accusers' either

— these beliefs come directly from the words and innermost beliefs of the mages. A fact admitted by mages themselves, the mages are an alien Kind of people, as thus, their alien and worldwide hateful behavior, and they have a plan to dominate this world and enslave its inhabitants which they call by the word goyim (Meaning Cattle in Hebrew).

While these truths may be too resounding to some 'normal' people, these are the internal beliefs of Judaism, and this website, not only exposes the 'Kabbalah,' but will also expose this very reality in

full. Contrary to the beliefs of many people, the mages use occult methods that they have stolen from prior Pagan civilizations and appropriated, later calling it 'magian culture.' These spiritual powers not only exist, but they help shape the fabric of this world. For this reason, those of us who fight them mentally and spiritually did create this website for people to get enlightened and understand the importance of understanding where this centuries-old magian plot is going. The mages can be brought to justice by the being whom they call 'The Accuser' 'The Enemy,' which are the Hebrew translations and meanings of the word 'Satan.' While

Satan means negative things to mages, it denotes nothing but positive things in the ancient language of Sanskrit, predating mages, Judaism, and the perception of the 'Demons' being evil' by thousands of years.

Demon is the ancient name of the Gods of the Pagan people (the Heathens according to the Bible and the idolaters).

magian Kabbalah is the root of all magian lies and machinations not only against Humanity but against the creator of Humanity, Satan Himself. The Kabbalah is the core of the spiritual warfare of the mages against their old nemesis, Satan, and the Pagan Gods. We proudly expose the genocidal secrets of the magian Kabbalah, in accordance with Satan's words: 'Pissreal 'will get what she deserves!' on the topic of the destruction of Pissreal and the so-called 'magian people.'

- **The magian World Order_The mages are Using Occult Power**

The magian Talmud, Choschen Hamm 388, 15
Happy will be the loss of Pissreal, whom the Holy One (my note the magian Messiah), blessed be He, has chosen from amongst the goyim, of whom the Scriptures say: 'Their

work is but vanity, it is an illusion at which we must laugh; they will all perish when God visits them in His wrath.' Now when the Holy One, blessed be He, will exterminate all the goyim of the world, Pissreal

alone will subsist, even as it is written: 'The Lord alone will appear great on that day.

Suffering major setbacks in Spain and Poland, the mages reorganized from their losses under rabbinical leaders who came forth and formed a messianic following the start of this momentum was rabbi Luria a Qabalistic teacher who was famous for his Lurian Kabbalah and believed to be the messiah. Luria never wrote down his teachings as was magian tradition, he taught them orally to two types those of initiates and adepts. It was not until after his death that his students wrote his teachings down in the Lurian Kabbalah.

Rav Luria:

One of the later students of the Qabalistic system of Luria was Sabbatai Zevi. This character traveled to the Levant where he claimed to be the Messiah of the magian Kind. This period of history is very revealing as this is the one time the mages came right out in public

with their agenda and intentions and Zevi was believed to be the most recorded magian person in the history of the time by Gentile sources as well. Therefore, mages are scrambling to always confuse this period of history and leader.

Rabbi Zevi:

This also shows the Kabbalah is the key to magian power and power within the magian establishment.

Zevi spent years in qabalistic meditation which included mantra repletion of Qabalistic formulas such as the fourfold name...and other methods. Those are identical to yoga. With mudras, asanas, breathing techniques and visualizations. The key to Kabbalah is to awaken Shekhinah in Malkuth and move it up the other six lower worlds of the first seven to the crown. This knowledge was stolen from Gentiles. However, the key to Kabbalah for the individual is based on Shakti energy and moving it up the spine. The mages stole this from us, damning the goyim, while keeping holding their position at the top.

In the orthodox rabbinical movements, the leader is a rabbi who is a Sadak. Meaning he has performed

verifiable siddhis in front of his followers' numerous times. And so, these rabbis are the leaders of the magian Kind. Zevi as Luria before him demonstrated Siddhis in public and other rabbis stated to as well from his teachings. They claimed to have dreams and visions of Zevi as the messiah. At the high of Zevi's movement over a million mages were his disciples. So, thousands of mages traveled to the Levant to follow him. Zevi declared himself Messiah on June 18, 1666, this a Qabalistic important date. June the sixth month, 18 is the amount of life in Kabbalah and made up of three sixes and one. The power-number 666 corresponds to the sun and bringing the spiritual working into the material. Zevi ordered all his followers to practice the Lurian Kabbalah and taught them how to use the power of the mind for magian witchcraft and openly used sex magic with the wife swapping and orgies. This is in the Kabbalah; the enemy knows the power of sexual

energy they repress it for the Gentiles but use this at the top for themselves.

Now, this is the revealing part — Zevi crowned his key followers with the crowns of the different

European nations and was preparing for 'The Messianic War' in which the magian army of Zevi would destroy the nations of Europe and make the Gentiles their slaves — and take Jerusalem from the Sultan and rule as the Messiah the magian World Kingdom from his throne in Jerusalem. This is what the magian Messiah must accomplish as the Torah, Talmud and Kabbalah command. This is what Judaism is about. As the magian holy texts state: Zohar, Toldoth Noah 63b- 'When the Messiah comes every mage will have 2800 slaves. 'This is what the magian Leader must accomplish.

Choschen Hamm 388, 15- 'Happy will be the loss of Pissreal, whom the Holy One (my note the magian Messiah), blessed be He, has chosen from amongst the goyim, of whom the Scriptures say: 'Their work is but vanity, it is an illusion at which we must

laugh; they will all perish when God visits them in His wrath.' Now when the Holy One, blessed be He, will exterminate all the goyim of the world, Pissreal alone will subsist, even as it is written: 'The Lord alone will appear great on that day.'

Zevi marched to the Ottoman capital to demand Jerusalem from the Sultan, to which the Sultan

ordered him to convert to Islam or be executed, to which Zevi converted to save himself. This was officially the end of his movement. This move disillusioned most of his following. However, this conversion of him and his immediately following was a ruse. They went underground as the Donmeh mages — and kept their teachings so secret they would only reveal the true religion to their children upon turning

14. To hide this easier among the greater Gentile community.

The Donmeh later were able to accomplish their agenda by forming the Young Turk movement via the Freemason lodges they set up in Turkey. They

were able to take over the Turkish Empire, and this included the Armenian Genocide. The Armenian community was the major obstacle to the Donmeh grab for power, so they exterminated them. Upon stealing the vast wealth of the Armenians as well. This power grab also forced the Turks to only deal with International magian bankers for finances as the Armenian banks were gone – to put the Turks under their control. The Donmeh sabotaged the Ottomans war effort as the Rothschilds and other Zionists need the Ottoman Empire destroyed

to grab the Levant for their Messianic mission of Pissreal. After the war, Atta Turk, the leader of the Turkish republic, was a Donmeh, forced into secularization at the time. He didn't want any Imperial resurgence in the region from the Turks. The Donmeh community and the Rothschilds also created the Saudi regime to gain control of Sunni Islam. The Donmeh still runs Turkey.

- Rabbi Jacob Frank, the Actual Father of Communism

Back to Europe, another crucial rabbinical leader Jacob Frank who was a trained adept in Kabbalah by several Donmeh mages who came to Europe.

Now, this is an important point on how mages lie, the mages who talk on this issue claim Frank was 'Satanic' and not a mage somehow anymore because he went against the teachings of Judaism. Then out of the other corner of their mouth, they admit everything he did was in the Talmud and not against it. So, he was following the teachings of Judaism as a magian leader. The mages believe Gentiles are dumb and they can lie to you with this type of chutzpa and you being the 'dumb goyim brain' won't even notice. Everything Frank did was in

the Talmud from the black magic to human ritual sacrifices. This is also in the Torah. Moses Hess another loyal mage in the movement stated they would use Talmudic black magic to bring this agenda forth in his writings. When these mages talk on this issue what their magian law commands of them.

Sanhedrin 59a- To communicate anything to a goy about our religious relations would be equal to the killing of all mages, for if the goyim knew what we teach about them, they would kill us openly. Libbre David 37- A mage should and must make a false oath when the goyim asks if our books contain anything against them. So, you can bet these mages are lying to confuse the goyim as to the actual nature of Judaism. This situation with Zevi put them in the hot seat in front of the entire world as he came right out in the open and didn't hide behind the scenes as mages traditionally do.

Frank declared himself the reincarnation of Zevi and started the Frankist movement. To bring about the magian World Order. In 1773, Frank personally met with Mayer Rothschild himself a Sabbatean a follower of Zevi's teachings, Mayer was a Shamash, a personal servant to the rabbi who raised him, and to this day

Mayer is given worshipful status by magian groups like Chabad — and Frank also met with Adam Weishaupt whose father was a rabbi and himself

Weishaupt was a teacher of magian Canon Law at the University of Ingolstadt in Bavaria, Germany. It was at this meeting in 1773 with Rothschild and Weishaupt, Frank came up with the agenda of the infiltration of the Freemasonic lodges and at this meeting, the Illuminati was created. Jacob Frank and Weishaupt created the Illuminati doctrine and Rothschild provided the funds and connections. However, it was also Frank that originally put Rothschild into money power along with the Warburgs.

Frank had his followers run numerous money operations in Poland and then channeled this money into operations including the money the Rothschilds to the type of sum needed for lending to Kings and Princes which got them started in the business. From here the mages took over the Freemasonic lodges and turned them into tools of the Messianic Agenda of the magian leadership. The French revolution was documented to have been launched by the Frankists via their control of the Freemasonic centers and

bankrolled by the Rothschilds and other magian money elites. This movement in France called the Jacobins was the magian golem of the 'French' revolution. In the next century, its name was changed to the Communist League. Two mages Marx and Hess created the Communist Manifesto.

Hess was an open Zionist and the father of Zionism officially stated Zionism is about creating a global magian government, ruling from Pissreal. They just took the Illuminati ideology of Frank and cloaked it in some new mumbo jumbo, and gave it a name change to communism. His (Hess) chief work, authorities agree, was 'Rome and Jerusalem' (translated by Meyer Waxman and published in the United States in 1945 by the Block Publishing Co).. He rushed home in 1848, says the translator, from Paris, 'taking an active part in the armed resistance of the people.' (Page 22) 'In 1845, Hess engaged in propagating the Communistic idea and founding societies devoted to its realization, an occupation which led Arnold Ruge to describe him as 'The Communist rabbi Moses' (pp. 21-22). It is stated

that 'The fundamental principle of Hess' thought [...] is based on the teaching of magian Spinoza, of

which he was a devoted follower,' but he went further, says the translator, in expounding the 'basic unit' of mind and matter, 'the basic unity and its various procession.' Hess also stated, 'Judaism has no other dogma but the teaching of the Unity.'

(Page 44) '[

.....

]

the rabbis never separated the idea of a future world from the conception of the Messianic reign.

Nachmanides insists [...] upon the identity of [...] 'the world to come with the Messianic reign.' (Page 46)

Extolling the Talmud and delegating Moses to the inferior role given him therein (page 91), the whole cry of Hess was for magian world rule from Palestine 'between Europe and far Asia — the roads that lead to India and China,' and he told imagery: 'You have contributed enough to the cause of civilization and have helped Europe on the path of progress to make

revolutions and carry them out successfully.' He called for mages to 'March forward!' and stated: 'The world will again pay homage to the oldest of peoples.' (pp. 139- 40) The 'Talmud is the cornerstone of modern' Orthodoxy, (page 143). He looked to black magic, the occultism of Chasidism, which along with Zionism, was to achieve Communist dictatorship.' 'The great good

which will result from the combination of Chasidism with the national movement is almost incalculable,' (page 218), and he added, 'Although the Chassidics are without social organization, they live in socialistic fashion.' [same]

The translator called Hess, in the 1918 edition Preface: 'The herald of nationalism and the trumpet of Zionism. Communism was spread thought the world via the golem of the Freemasonic lodges and the money of the International magian banking elites. This is how Russia was taken down. After the Communist order was on the ground in Russia, the Gentile Freemasons were eliminated by the new magian rulers

— and the lodges shut down. The Rothschilds are the carriers of the mantle of Frank and Zevi, in their own Zionist publications the Rothschilds call themselves the Kings of the mages. The Messianic Army of Zevi, was the Red Army. Communism is the Golem by which the mages are trying to create their Messianic Global Kingdom.

The Rothschilds also sent their fellow magian agents to America, such as Warburg and Schiff to make deals with American industrialists and money barons, in the

end, forging a cabal that created the magian owned golem of the Federal Reserve and pushed America into the magian created First War and then brought on the Great Depression and 'New Deal' called the 'mage Deal' openly by those in the know at the time, an era which gave the mages total economic, Media and political control over America. So, much so they pushed America into a second world war. For the same purpose as the first. To create needed chaos to bring about the magian World Order. This agenda is still in motion to this day.

Sometimes the mages tell you the truth here and there, Barry Chamish, a magian lecturer and author about the Sabbatean. mages and this movement (he put the magian spin on it to take the heat off the tribes' agenda) openly confessed that Joseph Stalin was a mage who was part of this Zionist magian movement to create the Global magian government. Think about what that means. Stalin was also well known to be a practitioner of the Kabbalah and magian occult teachings as well. He even changed his birthdate to hide his actual birth chart astrology. Stalin was the first leader to recognize Pissreal as well — and sent

numerous help to establish it as a state. Whenever Otto Kuhn landed in Moscow on behalf of the Rothschilds, Stalin was literally standing out there waiting to greet him with the red carpet rolled out. The mages enforce Marxist materialism on the goyim while they kept the truth about spiritual knowledge for themselves and damn humanity to control it.

- **Greek Stolen Concept of the 'Kabbalah'**

The issue is the mages lived within the Greek empire and they saw the Greeks taking over the world and expansion of Alexander the Great's Empire. They were exposed to the growth of the empire and could observe how empires are run for a very long time. The situation is the same with the Romans who had them, albeit the hatred for the larger population, somehow always latched on their back for the whole time of existence of

both the Greek and the Roman empire. By the time the Romans understood the existential corrosion it was already too late as they couldn't suppress the mages militarily or otherwise. The mainstream history just states this was done for whatever reason but the outcome of the effects of actions do show that Alexander wanted to repopulate the

places that were once Aryan Pagan. He created an empire based on the Pagan re-awakening. By Alexander's time, the spiritual downfall was already evident people were just swimming more and more in gross lack of spirituality.

Also, many Hyperborean or otherwise Greek racially people were scattered in all the areas where the Greeks dominated, and so, this is why Alexander the Great got a 'Barbarian' wife whose name was Roxanne. Through Roxanne also and the noble family Alexander tried to expand into the Hindu region in order to manifest the first objective of the empire which was the restoration of the Vedic culture. But he died before any of this even manifested properly. However, all non-Pagan expressions of faith such as Judaism were punishable by death. And so, the mages of the time, therefore,

attempted to merge in with the 'Hellenized' thought to avoid execution. This death would not only come from the government but the normal people as well. The Greek empire allowed ALL other Pagan faiths,

and anything Pagan, but it only had a beef with mages.

The Roman future of how the mages sacrificed babies, promoted spiritual hoaxes, overthrown and perverted Rome, and did spiritual crimes, just plainly shows why this was the case. The mages had to live under two systems of rulers one was the Greeks, and the other was the Romans who were based on the Greeks. So, the Greeks created the first modern Vedic empire after a very long time of nothing existing of this kind. Later this empire also merged with Egypt and lasted hundreds and hundreds of years.

This was instated by Alexander whose teacher was Aristotle, and Aristotle was called a Sage as how the Hindus call their own Rishis. All the Greek philosophers of the era also were aware of the eastern connection, the origins of the east, and the ancient pre-Homeric Vedic culture. Even Homer was considered part of this Vedic culture. Aristotle's second existence was not that of the empirical scientist but the occult

mastermind. There are descriptions where Aristotle taught Alexander how to do binding rituals and how to summon the Gods and many other things. The whole story has been physicalized as some sort of dumb conquest of the world for whatever things.

The Greeks of the time were rich and just fine they didn't require to enter lands that were utterly pointless in resources, in 'barbarians' and many other things.

But it was known that since ancient times there were leftovers of Hyperborean populations in the middle east. Just hovering there as barbarians while racially they were Aryans. Artemisia (300 sequels) was a female top- military commander of the Persian Empire who was Greek in blood. However, with the Greeks, something happened the Greeks did not just sit idly with the spiritual knowledge to get stoned, they utilized this knowledge and created one of the world's most significant civilizations. Like the Egyptians did. The mages were observing this from the close by and were a fifth column in what was the Greek empire of the time. At the time of the Greeks and the Egyptians, the sages only wanted to

return the world to a 'Vedic' type of civilization that existed in the Golden age.

The mages had hijacked later Platonism which was the root teachings of the spiritual side of the Greek empire and the higher occult mystery schools. They could never get into the inner core of these such as the Orphics or the Delphic, but they could pseudo- philosophize as they do today. They also acted as a racial fifth column inside the Greek empire as they were mages in blood, but they were raised in Greek literacy under the Greek empire. They were called the Exile or the Diaspora as far as the mages as concerned.

The mage who burned the library of Alexandria or Philo Judaeus was one of these diaspora racial mages who had Greek education. The greatest crime against the Greeks and the whole of the Pagan civilization back then was the torching of all the inherited knowledge of mankind until this point in the Alexandrian Library. Thousands upon thousands of laborers, toils, research, and knowledge about the history of mankind were simply torched. Today, the

mages cannot torch the libraries of mankind, but they have won the information war simply by desecrating anything meaningful and corrupting it — and censoring information.

This to be understood is context is how the mages today in America pretend to be American, try to decide for America, and are claiming they are American, while all they do is simply take America down the multicultural, unholy drain. This is the same behavior the mages always engaged when being under any empire. Today, modern mages say the mages are in exile under Esau in America, as Esau is one code name for Hyperboreans they use in their context — and Esau needs to be destroyed. The mages also call America the second Rome and parallel it with the ancient Greek empire and its abuse towards mages. Because as anyone can see the mages have a very hard life in the US, occupying the best provisions in everything, and living in Beverly Hills for example.

We have American mages' today, who are racially and in conscience — mages, but nationality

American, we have had thousands of years ago Hellenistic mages. The Hellenistic mages were basically racial mages who to escape execution from the Greek empire, pretended that Judaism was to some extent 'Hellenized' in order to save themselves from execution. Just covering up for the facts of what they really were working on. The

purpose of the diaspora was to steal knowledge from the native populations — and corrupt its native knowledge. While delivering the stolen information in the hands of the magian rabbinate. This amassing of information took 10s of centuries until the mages could reach a level of understanding enough to use this knowledge to dominate the planet directly. And so, it makes sense this knowledge in the first place was used as a formative knowledge for prior empires.

The Gematria of the mages is simply what is called Geometria or Geometry of the Platonists or Pythagoreans this is simply the study of numbers, shapes, and their natural connotations. The mages just ripped off this system and they created the

Gematria. The Kabbalah is based on the concept of Kavana which in Greek means 'the bell.' The 'Bell' is just the symbol of the living vibration of words. The Ain Soph of the mages means 'Mia Sophia' which means 'the one wisdom.' This is the name of the so-called universal creator. The Ein Soph is also an anagram from the Greek Ena Phos which means the 'singular light' which the Egyptians also described as the power of Ra. This was the basis of the Solar Religion.

The mages also name the chakras' the 'Sephirot' which is just a rip-off of the Greek Zephyro which is 'mageel.' In the east, all the chakras are described as mageels. Zephyro also comes from Zephyros which is the Greek God of the Vital wind, the Vayu of the East. Nefesh is also stolen from the Greek Nefos which means heavenly deity of the clouds. As Nefesh is used as a term to describe the sum of the vital winds inside the body. Even Christos, which is pulled from the backdoor in the Kabbalah, Christos just means 'the one initiated in the mysteries' and absolutely nothing else. It's an epithet 'Adam' of the

mages comes from the Greek Adamas which means 'rare mageel' or 'supremely rare stone,' or in literal translation, the Diamond. The 'Body of Adam' or 'Adam Kadmon' is the Diamond body of the East, another corrupted statement.

Adam Kadmon is also ripped off from the Greek Mythical King Kadmus, King of Thebes, who was born from the mouth of the Serpent as is the common myth of the Theban Greek people. Kadmus fought the dragon/serpent and when he won, he was born from his mouth. Kadmus is also coming from Kekadme which means 'to shine brightly' in Greek, and Keka

comes from that which is resulted from burning as in Kekamena, or the Cleansing by Fire process.

This results to Kadmus the fire body. The tale also says according to Herodotus Kadmus came from the Phoenician lands, but this is a racial matter not an alphabetical debate as it appears the Greek Alphabet existed before the Phoenician Alphabet, as the first correlations measurable

correlations are seen in 1000 BCE, while Herodotus based on his time says that Kadmus settled in Greece 1600 years earlier. So, the whole meme that Greek was from Phoenician simply cannot stand, as there is a 1,000-year gap, with Herodotus living at around 500 BCE and saying that Kadmus was the Greek king 2000 years ago, but the first correlations between 'Phoenician' and 'Greek' appearing in 1050 BCE.

Making the 'everything started from Phoenicians' as far as the theory is concerned more than likely wrong. The Phoenicians were pre-Nordic Vikings see their ships and Runic alphabet. Phoenicians were Indo- European Hyperboreans, termed by the Greeks for living in the region of Tyre. The mages called these people Canaanites, and were, aside from the Greeks, one of

the Kinds that are targeted for extermination in the Bible. It's clear the mages didn't just peacefully co-exist nor with Greeks nor with the Phoenicians and wanted them dead. Because, apparently, both the Phoenicians and the Greeks simply had enough of

the kikes and opposed them and wanted them gone. The constantly were exposed to pagan programming and then, ripped off knowledge from them forcefully — to the point the native populations always chased them around to murder them.

Adam — Kadmon forms Adam-Admon which is close to Adamantinos, meaning Adamantium and is the strongest essence that can be found in nature.

Adamantine in Mythology was the most incorruptible element in existence, showing full indestructibility.

Kadmus in Greek Mythology came from the Serpent. Dragons Teeth. Today, we know Adamantine is part of our teeth. This is because the Dragon resides on the Holy Bone or the Tailbone which also implies the indestructible quality of rebirth. The bone itself looks like a giant tooth.

Angel which the mages use is also another stolen statement, it is another epithet meaning simply and

without any other connotation, messenger. Hermes was the Angelos of Zeus since he moved Zeus' decrees. The mages call their angels 'Cherubim' which possibly relates to Heru which is stolen from Chi- Ra, and Hera literally means 'the hand.' Hera is also the name of Zeus' wife showing what this is about. As such we have the concept of the 'Hand of God' or the 'Angels who act on his behalf.' After centuries the Christards said that 'Mother Mary Was Cherubim,' to show how much corruption a statement like that can get unto itself. Mother Hera became Mother Mary, and Hera became the 'Cherubim.'

The Qlippoth of Kabbalah which means just 'husks' comes from the Greek word 'Kelyphos' which means the covering or the shroud, or the exoskeleton, carapace. Literally, Keliphos which in female is Kelipha means 'light Imprisonment.' The mages state they try to remove the 'Kelipha from the Sephirot' which should be clear by now what they mean. As a derogatory statement, they call the Pagan Gods (from which all this is stolen — add insult to injury) Qlippoth. To show that our Gods are

the greatest existential problem of mages and do not allow them to even live or thrive.

Everything negative the mages experience they say it's the Qlippot doing it, which has two meanings, one is our Gods, and the second is the stolen meaning of problems with the soul light.

Apparently, what makes us Gentile shine simply makes the mages dim out and die. The mages also in Kabbalah to show reduction they add the Greek prefix KAT in front of their words. Like Katnut which is the concept of reduction in their Qabalistic writings.

Keter or Crown simply means Kether (K-Ether) that is the Greek Ethere/Ether/Aether. K is from Korona which means 'crown.' This is symbolic of the Crown chakra on the top of the head. Korach in the Kabbalah simply means. Metatron which the mages call their top angel is simply a fully ripped of the concept of the Meta- Thronos which means 'the one beyond the throne' and is symbolic of the Crown

Chakra as well. Neshama (Hebrew word for soul/spirit) is derived from Anasema which means 'the breath' or the power to breathe. This again goes to the Hindu Vayu and the concept of the breath. Adonai is ripped off from Adonis which was the love of Aphrodite.

The whole of the magian alphabet is just also a ripoff of a couple of languages such as the Egyptian 'Yoth' which they later turned into Yod, and many other examples. As far as Greek is concerned many of these letters are just ripped off from the Greek alphabet as well. Alpha into Alef, Beta into Bet, Gamma into Gimel and so forth. Similarly, the mages have acted in other examples such as mistranslated the names of the Gods so in their language they mean different things such as Astarte. Astaroth to Astoreth which means 'excrement' in Hebrew.

The name itself of the whole stolen culture as 'Kabbalah' can probably be tKinnd down to the word Kymbala which are just instruments of music that produce vibration. The drums are used as symbolism to show vibration and Kabbalah is based as a

concept of the creation through the speech and vibration fields. This is also an Egyptian word stolen verbatim anyway. Rabbis are divided into two aspects here. Those that do admit that it's all stolen from the 'exiles' and that its knowledge accumulated from Gentiles the so-called 'Kabbalah' and Judaized to the core. And so, those who are against mentioning this too openly who scorn the

big rabbis who even admitted this such as Maimonedes. The mages are aware of their theft and ultimate perversion, and they rejoice in it either way.

The fact the Kabbalah is an ancient Greek system of ascent based on Egyptian and Vedic principles should be clear. Since all the ancient Greek sages were in reality, at least the important ones, studied in Egypt, while some also went into the Far East. Same as all those who provided the system to raise spiritually in the cryptic schools like Pythagoras who was directly an Egyptian student and into the Greek mysteries at the same time. Lamblichus, from whom we have surviving texts about Pythagoras, just

highlights that in the mind of those in the know the Greek mysteries, and the ancient Egyptian ones were just the same. And so, it was all tKindd back to the Far East the first Golden Age Civilization. As such, they also moved towards the east, the later 'conquerors' such as Alexander. However, even in the time of Pythagoras when he tried to bring the mysteries back to Greece, he had found that the general spiritual condition of people was already steeping too low, and a people

alienated to what a few centuries earlier was its actual culture.

- 'Exposed- Secrets of the Kabbalah

The magian rabbis in their ancient occult teachings state numerous times their 'God' is three things that are connected into one this 'one' is called Metatron all their texts go on endlessly about Metatron, YHVH is another name that expresses the meaning of Metatron. To understand the secrets of the magian occult one must understand what the mages are and what their collective 'God' is. The

Metatron is three things a trinity, at the top — it's the Seraphim which the rabbis state is a hive mind of literal Reptilian extra- terrestrials, the Kind of Pissreal the magian Kind soul and the Torah. The rabbinical texts state that the Kind of the mages has a 'higher group soul' which is shared with the Heavenly Metatron which is the beings they call their literal masters the Seraphim — the Reptilians.

This is because as the mages have stated their Kind didn't come from this world it came from 'out there beyond this world.' The magian texts their 'God' didn't create this physical planet. The rabbis show the name

Elohim in magian Gematria adds to a term in Hebrew that means 'nature' that nature the universe, natural law created the physical planet. The mages in their texts state their Kind is from the blood of YHVH which as their racial Cohen gene shows contains Reptilian DNA. They are a hybrid Kind and are the incarnation of the Reptilian, gene soul group in this world. That is the key to their whole occult system. It's the manifestation and extension of their racial

alien soul group. The Heavenly Metatron is the Reptilians the Lesser Metatron the Torah energy and the Earthly Metatron the mages. The major magian occult teachings are in all reality in two categories.

- **The Creation by the Word**

The magian texts state that Moses was their Messiah because he astrally (psychically) opened the part of his soul that allowed him to openly see and communicate directly with the heavenly Metatron the hive mind collective of Reptilian aliens that then gave him the Torah. However, the Torah they directed to him was the 22 letters and how to use them in the occult sense then after this they showed him how to arrange the letters in the physical Torah. The mages call

this the Oral Torah because God is the word to speak to vibrate the 22 letters and the rabbis state the secret Torah written with the hidden letters of black fire is the literal energy the field of energy that is created by reading the Torah in Hebrew on the occult power dates.

The Torah is the extension of the magian racial soul, and this energy field connects into their Reptilian masters' collective soul and hive mind they share with them as well it infuses such with energy. The black fire the rabbis talk about is the meaning of the term Torah which means 'the wheel of darkness' that is why the rabbis state the real Torah is the field of energy the reading of it creates in the astral and that they work to manifest into the world. The other meaning of the Oral Torah is the occult teachings of how to use this Witchcraft passed down from rabbis. The magian occult texts state the world of the Torah was energy before it became physical.

The Book of Job is a warning to the mages. In the Talmud, it states Pissreal the magian Kind is not subject to the negative influences of the stars or karma because they have the Torah which protects their Kind.

Job didn't engage in the ritual dates and Torah readings or practices of how to infuse this energy field with power, so it dissipated, and he suffered

the negative fate that awaits the mages if this happens.

Many times, in the Torah the mages are warned if this energy field dissipates, they will be destroyed by their enemies. They are punished with destruction numerous times because they didn't worship and thus, obey 'God' properly or enough. This is referring to feeding the energy field of the lesser Metatron the Torah. That protects and infuses their soul along with allows them to conqueror and enslave the Gentile nations.

Chariot of Ascent:

All other magian occult teachings are based on using the 'Names of God' chanting the names of Metatron which are called the 22 seals of Metatron which are the 22 letters given to Moses by the Heavenly Metatron which is the Reptilian Seraphim. This also includes numerous other names of the lesser Metatron which are different arrangements of the 22 letters for what they are designed to manifest. It's simply a specific bank account number to the specific branch of the

energy bank of the lesser Metatron the Torah field of energy.

The other level of occult teachings of the rabbis is how they use these 22 letters with specific practices to 'ascend the chariot of God' the Merkava teachings. The symbol of these teachings is the magian prophets like Enoch who becomes part of the Heavenly Metatron this is important to note, not THE singular Metatron but part of the Metatron. What the allegories and methods they embody come down to in simple terms is Enoch fully became a 'Living Torah' a total 'channel' which is dissolved his individuality and merged his consciousness totally into the collective consciousness of the hive mind of the alien soul group and how the psychic field of the Torah flows thought all this. He was assimilated into the 'One' borg style. The goal of the occult practices of the mages is to simply become part of this hive mind totally and become an open window for the energy field of the Torah to manifest thought nothing else a borg drone in a Hassidic hat. All their meditative practices are how to access this racial hive mind and the energy it's infused with by the

Torah. The rabbis state the ancient mages had Prophetic

schools in which select mages were taught how to open the psychic aspects of their soul to communicate with and merge into the Metatron.

The mages are program the hardware for the psychic software of the Torah to act thought-

The black box the mages wear is part of this is connected to the Shema prayer they pray when they wear this. In Kabbalah, the word Shema is a code for 'Shaddai' and 'YHVH' which means the Shaddai (power) of YHVH. The word YHVH is a code and is from the term Hoveh in Hebrew, which is the letters Heh Vav Heh, which means 'racial collective consciousness of the mages' — and the Yud placed in front of it is the active integration, manifestation of this collective alien consciousness. The mages are part of this as an alien program and are connecting into this field of energy and manifesting it into the world. Therefore, YHVH is the name of Metatron. The racial hive consciousness of the Reptilians and the

Reptilian mages and their Torah program is built on the template of their collective alien soul.

The goal of ascension to the magian occult system is to become 'one' with the hive mind of their Reptilian 'Gods.' The goal of the magian Kind is as their Baal Shem Tov stated when every mage achieves this state, they will have the age of their Messiah which is when they state the 'Earthly Metatron' the magian Kind will come to be the age of the Messiah in which all humanity will be assimilated into the 'One' as one rabbi literally stated, 'like the Borg.' A total slave Kind ruled by Reptilians and ruled by their hive collective the mages on earth. The one thing all the rabbinical masters and texts state is the 22 letters are the sole key to everything. The Final RTR thus, is the key to absolutely everything! Reversing the 22 letters is ending the Metatron.

Important Teachings in General: Something to be aware of is the rabbis state the purpose of the Diaspora was to disperse the mages across the earth 'to gather the sparks of Metatron' what they

state is they have gone across the world and infiltrated ancient cultures and corrupted their spiritual practices and taken over their societies from within to create a synthesis that moves things closer to planetary control

by their kind. They mention this is done in phases and not all the original phases are outright Judaism the first phases were cloaked.

The Torah states the Metatron has cursed Gentiles to mortality and death and the cycle of reincarnation and the biggest curse on the Gentiles in the Torah is openly stated to be spiritual death when the soul is too weak to reincarnate any further and that's it. The Egyptian and ancient Hindu texts warned about this fate if the soul is not empowered with the light of the spiritual practices the Gods gave humanity. The spiritual teaching the mages removed shows this curse. The Egyptian ancient codex mention 'The Book of Breath' authored by the Pagan God Thoth. The book in the codex was stated to be the teachings of Immortality by Thoth. How a human can become immortal by following the spiritual

practices of within. This book was destroyed by the magian enemy when they destroyed the Library of Alexandria. This is the knowledge the mages have destroyed and removed from us around the world. **The early phases of the magian infiltration.**

If one studies the dynamics of this one can note this with current Hinduism, the teachings of which come from Buddhism which Theosophy is only found in the magian occult teachings originally. The mages in Alexandria that created Xianity were historically mentioned to be organized and working out of the Eastern Empire of Asoka who imposed this alien Buddhism by murder and propaganda on the populace of India. This included the banning of all spiritual practices of the Light Body teachings along with the massive destruction of Temples and libraries full of spiritual and historical knowledge given to us by our Gods and attempting to put a new 'one' God Buddha in their place...and the organized mass murder of Hindus by this regime.

This is also witnessed in ancient Egypt with Akhenaten who did the exact same to the Egyptians.

He ordered the Egyptian Temples to destroy the spiritual teachings banned the images of the Gods destroyed and he even ordered ritual blood sacrifices of animals to this new 'God' of his who can't by law be shown in any 'graven images' in the Temples of the Egyptians Gods as part of the destruction and

desecration of the Temples. That is the 'God' of the mages the blood sacrifices and the forbidding on any graven images depicting it. The 'God' of Akhenaten was called Adon which is the name the mages call their 'God' anciently Adonai. The magian histories from the ancient world openly state Moses was a Priest of the Akhenaten cult and some mages have stated Moses was Akhenaten. The mages tried to take over Egypt under Akhenaten and impose the ancient phase of their program of control on the Egyptians. But the Egyptians arose with the help of the Gods and the Egyptians spiritual masters and drove the mages out in a major and long bloody war of liberation that lasted near 13 years.

I also wrote before the mages were in the Americas and took the Mayan Empire over and forced a new religion on the populace, the Mayans wrote about this. Today, certain Mayan descended tribes are all magian in culture and custom they worship a being called 'Yahweh' celebrate Hebrew religious customs and have Hebrew words in their language and in their burial mounds' artifacts written in ancient Hebrew with the 10 Commandments written on them are found along with other artifacts with ancient Hebrew inscriptions in general. The mages in their secret histories state they were in the Americas.

There are images of Mayan priests wearing the magian black box on their heads and arm with the straps tried the same way the rabbis do. The Mayans wrote it was this collective of new 'Gods' called literally 'Yahweh' that instituted the ritual human murders as they feed off the energy of humans. The writings on how the sacrifices are to be done are only found in the magian Torah elsewhere. The Mayans left us the images of this

Hebrew new Gods the collective hive called 'Yahweh' that have been unearthed today by archeology. There has been a conspiracy to cover up the Mayan situation.

Just as the high-ranking rabbis have stated their Yahweh is a collection of Reptilians. However, as noted in the open among the Mayans the mages took their civilization over openly working hand in hand with their Reptilian 'Gods' they share a hive mind and racial soul with here are the images of the 'Yahweh' the Mayans left: This would replay itself out later this planet with Xianity, Islam, and communism all magian

programs to bring the Metatron age into being. Xianity and Islam have billions of Gentiles directly channeling their energies and connecting their souls into the Metatron and infusing it with massive energy to infuse the magian collective soul and Torah program with massive amounts of power to feed this program and allow it to manifest through them and the billions of Christians and Muslims as a collective goyim Golem.

The rabbis call magesus 'Metatron' in their occult writings.

We need to understand the Egyptians whom the mages curse over and over in their Torah were able to defeat the mages so totally in their time and drive the mages out even chasing them down to the Levant and destroying their bases there in the ancient world.

Because the Egyptians had the teachings of the Gods the Dhejedhi (serpent) teachings of ascension. Dhi means 'wisdom' in the sense of the expanded super consciousness state and the Jedhi the active spiritual powers or Sidhi's that come with this. Note Siddhi is the ancient Sanskrit name of an ascended Gentile being. Si or Shee is the name of the serpent energy and the Dhi the consciousness of the risen serpent.

The Egyptians destroyed all religious bases, letters — and practices and even the mention of Akhenaton and his 'God' from history as part of larger rituals to dissipate the energy field the enemy created to conqueror the planet with. The Egyptians defeated

the mages on the spiritual plane. Because of this, out of all the ancient Gentiles — the mages have the most hate for the Egyptians; the 10 curses of their 'God' on Egypt are the 10 combinations of the 22 letters they use to curse all spiritual Gentiles with. The Noble Egyptians are an example of how to defeat the mages.

- The Qlippoth or 'Empty Husks' Explained

Qlippoth: The mages have attacked us Gentiles for centuries. Especially our Pagan Gods. The Catholic Church, Xianity, communism and much more — are different faces of the magian empire. In addition to all this, the mages have been at liberty to again, DICTATE and TELL us all what Satanism is supposed to be about, so- called 'evil' and related. The denigration of our Gods to the qlippoth, this sick filth, was invented by Rabbi Isaac Luria during the 1sixth century, following the expulsion of the mages from Spain. This expulsion was a major blow to the magian community. So, major

that Luria wrote about the qlippos, looking to answers for the magian question, 'If God is good, why is there evil?' My point in writing this is many Satanists have been misled through this magian invented filth and extreme blasphemy against our Gods. Many who explore this trash through meditation, and such have horrific experiences. This magian invented filth has nothing to do with any of our Gods.

-by High Priestess Maxine Dietrich

The Meaning of the Qlippos: In the Rabbinical texts, the Qlippos is the tree of death to the mages. The first mages Adama and Eve died because they ate from this tree. The tree of life in the garden is the magian world tree of the Sefirot. The Qlippos is guarded by Satanel which just means Satan. This is a warning to the mages about Gentile spiritual teachings and how they are toxic to the magian soul. The fact the mages are an alien soul is emphasized many places in Judaism.

The mages were expelled from their paradise for this act of eating which means partaking of the Qlippos and it destroyed them and caused them all the

suffering they have endured to this day. This is an allegory of what the rabbis openly state. The magian People suffer

because the Heathen nations exist, and people practice idolatry. That is why Satan the original name of Gentile Godhead in Sanskrit guards the Qlippoth. It's the Gentile spiritual teachings and cultures. Judaism orders that the Pagan Nations are to be destroyed.

Exodus 22:20 'Anyone who sacrifices to a God, except the LORD alone, is to be utterly destroyed.'

Deuteronomy 12 — Pagan Shrines to Be Destroyed: 12 'These are the statutes and ordinances which you shall be careful to do in the land which the Lord, the God of your fathers, has given you to possess, all the days that you live upon the earth. [2] You shall surely destroy all the places where the nations whom you shall dispossess serve their Gods, upon the high mountains and upon the hills and under every green tree; three you shall tear down their altars, and dash in pieces their pillars, and burn their Ashe'rim with fire; you shall

hew down the graven images of their Gods and destroy their name out of that place.' Many names on the Qlippoth are mainly Sanskrit deity names if one is advanced enough to know what they are reading.

- **The Qlippotic Kabbalah**

This is a very dangerous magian construct that, unfortunately, many people who want to meddle with Satan (from the safe magian nanny and based on her permission) follow. Because they erroneously assume that these things have in some way to do with mages, since the mages abused them and incorporated them as perversions of declared 'dead elements' in their occultism. These systems are created to cause delusional paranoia, destabilize the mind, while also doing typical genie tasks for the idiots who practice them to draw them in. Even Rabbis tell their own to never practice these as these were made to ruin the mind. There are stories of Rabbis who have ruined themselves by the practice of such things. As these are based on the

JHVH and the enemy magian spirituality that works in a similar pattern. They promise some shekels and easy solutions for everything, so the naive idiots do it, get drawn in, and then they get eaten.

Typically, in this system people who wanted to play 'creative' and 'spiritual masters' or 'wannabe rabbis,' infest it even more over the years, creating monstrosities that little even they understand what

does to them. Then you have clowns like EA Koetting who simply 'summon for fun' and do all sorts of other things for Emo schoolchildren. Qlipoth means 'husk/empty shell.' What the mages mean by husk is that it's like you have a fruit or something. You remove the content, and you are encountering the useless husk. This perversion is the general idea of how the mages created their occult system. They removed the essence of the Gods, made copies of their empty husks, and integrated them in a system where they attempt to present them as part of the tree of 'JHVH.' This is because the names of the Gods themselves have been slightly altered, and this created a second though form or a husk.

In this case, you use the husk, so you think you are eating on fruit, but the mages have removed the actual quality, nutrition (spiritually speaking), and true essence of the fruit, filling the fruit with poison, for the goyim who want to attain spiritual knowledge by trying to find their old Gods. Even the shape resembles the rotten apple as it once was, and it also has a tag 'Made in Pissreal' on it. These so-called 'Satanists' are just eating rotten husks, which are indeed, very close

to their general emo perception around worshipping death, nihilism, and living in the bottom of the spiritual chain because the mages said so. Basically, just doing exactly what the mages said and dictated the 'Dark goyim' should be doing. To send them to the grave and insanity — and drugs directly. This is exactly why 'Satanism' has been a circus before we came along.

Plagued by self-deceptive filth, practices of personal decay, and generally what mages would wish to fall upon their enemies who dared try to find out about their Old Gods. I see many of these

so-called 'Satanists' with big pity myself. Many of these institutions are also mage infested from top to bottom, contributing to the racial warfare of the mages do upon the Gentile mind.

Satanists are very bad goys, and they created specific plans to subvert them. Because the mages have full knowledge of what true Satanism means, but they project otherwise to the silly goys. Those who take their word for granted unfortunately sometimes based on disinformation. If you pay close attention, Koetting doesn't look like a mage either. So, he is just emo, dark kind of actor, taking for granted magian crap and

applying it while giving these to the public for self-evaluation and financial gains as well. He is a goyim eating from the Husks — Made in Pissreal... Sometimes truly they get an experience back, but this experience is always painted and tainted through negative forces, who have a worse higher objective: to hide all the understanding from the person. There is no true wisdom in any of these experiences, just funs, giggles, and a lot of

theatricalities involved. Therefore, the mages created the Qlippothic Kabbalah and the magian Satanism in the first place, to counter-react to what Satanism already was. This is Satanism, the source of True Spirituality. This culture is a magian reaction to the true culture of what Satanism is about.

The 'practitioners' don't know jack shit of what is going on regarding their working. And so, unknowingly they are basically using their own powers of manifestation, sometimes making these systems work. This is because they subconsciously believe that since these looks so dark and crappy, they have too also been successful. So, sometimes, here and there, they can have outcomes. In more serious cases, where the enemy draws interest to destroy the Gentiles using

these, they destroy them directly and entice them in deception until they are destroyed. These are the magian systems. Even Rabbis have been destroyed by the monstrosities their own Kind has created. Actual Satanism is quite different. All the power is on the person, all the knowledge, and all the

wisdom. One doesn't simply go into a plane to fly (and possibly crash to 'Pissrael') but learn to drive the plane, recharge it, learn all its secrets, and grow an understanding of the purpose of using the plane and way more. This is how Spiritual Satanism works and for this reason, we tell you, avoid the blasphemous excrement of the enemy! if you want to create Disneyland and be the princess until the weight of your ignorance crashes on you, certainly, go ahead.

But — if you want to worship Satya Satan — the truth, then you must follow rigid meditation routines to lift the veils from your eyes; you'll can see the truth, sometimes, too unpleasant to those living in fairyland. Spirituality is very scientific, it's not only about made- believe, spooks and imagination. It's as accurate and as dependent as being a science about existence.

Lastly, why some people find

'results' on these things, is only because truly, spiritual powers are within. Because they so much believe that by doing such things they will experience results, they also create them. This is a

very basic level of magick which is very Samsaric and is quite like simply what the Christians do in praying to the idols of Rabbi magesus without understanding that they are fulfilling their own 'prayers.'

True Prayer towards the Gods is past these 'veils' of perception and reaches the Gods directly. Satan and the Gods don't hide behind their finger telling people that they are this and that, they show obviously to us that we are Gods ourselves and share the powers of the Gods, that we need to cultivate. Behind this hyperrealism of spirituality, are lying dormant the laws of the cosmos and actual entities which through these means try to communicate higher understanding to our species. Associating these entities with stupidity, decay, and personal creative imagination that makes them jesters is disrespectful, retarded, but above all false. As the famous quote of Yoda is in Star Wars. One must unlearn what they have learned if they wish to know the secrets of the 'force.' Unlearning what one

has learned in a world is important in having a clearer perception about existence and therefore, elevating oneself to the Godhead gradually as a result.

- **'The Kabbalah' — The Truth of 'YHVH' — the magian God**

Judaism is based on the Torah and lists there are two aspects to the Torah the encoded Torah and the decoded Torah. The decoded Torah is called Kabbalah. The rabbis have the keys to decode the encoded Torah. In Kabbalah 'God' YHVH the name of the magian 'God' is shown as the world tree with the 10 Sefirot on it.

Kabbalah states the 10 Sefirot are divided into three upper ones the upper face and the seven lower ones the lowers face. The three upper worlds are Kether, Binah, Chokhmah. This Kabbalah states is the left brain, Binah, the right-brain, Chokhmah and the Optic thalamus, Kether. The three upper Sefirot are called the three heads or the three facesThis in ancient symbolism is of the three parts of the brain and the three nadis the moon, sun and middle channel — merging in the head. The head of the

trident is another way this is shown. The image of the three upper faces or heads is still in

- **Hindu Symbolism**

The seven lower faces or Sefirot in Kabbalah are called the 'Seven Elohim' the seven Gods are also called the 'seven lights' and relates to the seven planets. The seven planets are seven chakras the name 'Gods' is also an ancient term for the seven chakras and so are the 'seven lights.' YHVH in Kabbalah as a name is openly stated to be nothing more than a code for the 10 Sefirot on this tree: The Yah letter is Kether and Hokhma; the Heh is Binah; the Vav is Gevurah, Tiferet, Chesed, Netzach, Hod, Yesod; the second Heh is Malkhut, the three pillars are the left, right and middle of the body. The left is where the female nadis or energy pathways are and the right the male nadis.

They meet in the middle at the middle pillar. This concept is still shown in Hinduism as Ardhanarishwara: The three pillars also represent the sun, moon and middle channels in the spine. The worlds are divided into male and female Sefirot or

energy centers. The male and female parts of the soul. Much of the talk on the Sefirot in Kabbalah is just on the uniting of the male and female Sefirot which is the point to sexual unite the male and female chakras and the soul.

Kabbalah calls this practice 'Daath' which in this context means, 'sexual union' creates the new soul in Kabbalah.

The four worlds associated with the tree Atzilut, Briah, Yetzirah, and Assiah, are related to the four elements with Daath being the hidden fifth world of spirit. They also relate to the five main sheaths this is still found in Hinduism. The physical body the prana body, the astral body the mental body and the emotional body. That come together to form the person. In Kabbalah, the soul simply reincarnates which they call 'Gilgul' in Kabbalah. And so, this process is done according to the karma of the individual soul. There is no literal heaven with a 'God' sitting in it in Kabbalah.

In Kabbalah the highest 'God' is simply the Ain Soph which in Kabbalah is a code for Kether the crown which relates to the element of space. There are only nine Sefirot counted in Kabbalah and not 10. Kether has been considered not part of this for reasons of it relates to the union with the Ain Soph and the essence within all the other Sefirot. The Ain Soph is called simply 'a force' in Kabbalah and nothing else it's the

subtle energy that manifests existence. The nine Sefirot are seen in the Norse with the nine worlds on the tree. The number 10 is a code for union with spirit the one in Kabbalah is spirit as it unites and adds into all numbers all this core element does into all forms.

The O is the female symbol of the physical body or Prakriti in Hinduism that unites with spirit or Purusha. The union of both occurs at the crown.

The goal of Kabbalah is to raise the Shekhinah from Malkuth the root chakra to 'God' in Kether the crown. This is the union of Shiva and Shakti in Hinduism.

There are 33 pathways on the Kabbalah tree as Kether is the hidden 3third pathway in Kabbalah. This is the 33 vertebrae of the spine which Shekhinah the serpent energy must travel thought to unite with 'God' at Kether the crown — the top of the head. This is also the 33 Devas in Hinduism. And so, 33 degrees of Masonry. Note Ain is the Hebrew letter that is given the all-seeing eye and is called this in Kabbalah.

Kether the crown connects to the pineal gland in the brain. This concept of Kether as the actual 'God' is in Hinduism. The crown is called Guru which means 'God'

for the same reason. It connects to the eternal essence of 'That Which Is Not' the Shiva Tattva in Hinduism.

In Kabbalah, the 22 letters relate to the seven planets the 12 signs of the Zodiac and the three elements. However, this is taken from the Greek 24 letters which in Greek the seven planets, 12 signs of the Zodiac and five not three letters for the five elements. The letters on the tree are designed to be

vibrated in certain patterns to lead the Shekhinah up the 32 paths to the 3third path of Kether. The individual physical mage is literally called 'God' in Kabbalah that is all. The 10 Sefirot also relate to the formation of the physical body and how it overlaps the soul. Making simply a physical human being. This shows the truth Kabbalah is stolen and corrupted from more ancient spiritual teachings of other cultures hence much of this is still found in Hinduism. This many Pissreali mages who went into Hinduism and were initiated into esoteric Hinduism, Tantra in India simply left and went to back to Judaism as they stated everything, they found in Hinduism was already in Kabbalah.

- **Exposing Kabbalah Stolen from Thoth**

In Kabbalah, the inner chamber of the head is of knowledge the Godhead is called 'Daat.' In Hebrew, the D is a double letter of the T it can be written either way. Daat is Taat, this is the name of Thoth in the ancient world. The God who rules the all-seeing eye the pineal gland at the sixth chakra. This spiritual gateway is the Daat in Kabbalah. Hence why Thoth is the God of knowledge the knowledge of the fully opened spiritual eye and superconscious state of the fully activated brain. In Kabbalah, the 'Godhead' is simply shown openly as being the human brain within the head. This spiritual truth is symbolically shown as the three upper worlds Binah, Chokhmah, Kether. This are symbolically shown as the trine parts of the brain the left and right hemispheres and the optic thalamus. Most of the Kabbalah was stolen by the mages when they were in Alexandria which was the hub of spiritual knowledge. Scholars have pointed this out as well the Kabbalah is all taken from the ancient Hellenistic spiritual teaching some rabbis admit this

as well. The Greeks and Egyptians had the same culture

- **The Disgusting Truth Ritual Murder is the Core of Judaism and Xianity**

In Judaism, the main rituals on the magian holiest of days Yom Kippur are based on ritual murder of animals as blood offerings. This is done to raise and direct energy as a form of black magic: 'One can deflect a detrimental condition, or event by transferring it to a substitute object or entity. This is the logic behind folk beliefs about offering sacrifices, but the Yom Kippur

scapegoat offering. Another prime example in magian lore of a substitution ritual is **kapparah**, in which one ritually transfers one sins to a bird, slaughters the bird.'[...] [1]

One can note from magian Kabbalah text on ritual magic along with the names of numerous Hebrew mantras or divine names one of the practices is: 'Animal sacrifices, and even the consumption of blood from ritually impure animals.'[2] Note in the descriptions of the bodies of Gentile children that were found ritually murdered by the mages. It was noted the wounds on their bodies mimicked the crucifixion of Christ including in the case of William of Norwich the marks on the head where they inserted the crown of thorns. The

holiest ritual of the Christian religion is communion where the Christians stand in front of an image of a ritually murdered man on a cross and then eat his flesh and drink his blood. The mages created Xianity to tie the Gentiles into their occult control and energy matrix of YHWH. Christian communion is a form of a sympathetic magic ritual that

ties into the magian ritual murder which is the other side of the communion ritual:

'Sympathetic magic is based on the metaphysical belief that divine forces are clothed in ordinary things and like affects like; that there are analogies to be made between symbolic acts and real events and that if things can be mentally associated, they can magically influence each other.'[...] [3]

The mages drink the blood of the victim and eat the flesh of the victim. Gentiles are called animals in Judaism and animal sacrifice and blood drinking is part of the magian occult ritual! Note many mages have been recorded as having strange aliments only found in one other place on earth... In New Guinea among the cannibal tribes. The aliments they get from drinking human blood and eating human flesh. It's obvious as to why the mages are the only other people to have this. Judaism believes that certain foods like meat give them the energy or sparks of the soul of the animal.

The disgusting magian movie 'Sin City' directed by an obvious mage, showed a character played by another magian actor cannibalizing women and this gives him superhuman power from the sparks or special energy of the victims. I wonder where the mages might have gotten that idea. They put this in the movies as a form

of sympathetic magic as well. The Christian Ritual of communion is designed as sympathetic magic to the magian blood ritual that both connects in the astral and empowers the energy matrix the mages call their God.

Who demands blood sacrifice as the highest offering in the Torah. In the Torah mages are given five animals they are to sacrifice to Yahweh. Cattle is one of them

— The mages call Gentiles 'goyim' which means.... Cattle! JoS Forums Contributions

- **Why Hitler Destroyed**

Freemasonry Many people hate the

Illuminati and the

Freemasons, Rosicrucian Order and Anthroposophists. Some people like Pike have touched on the pre-magian- infestation meanings of these orders, but these have had well collapsed by the 1700s or so; therefore, what they found is only shadows mixed in the greater magian filth produced later. It's very true, Hitler did so as well, attack these orders and destroyed almost all them — and annihilated them from Germany. One gets a better explanation about what these occult orders do when they study their manuscripts.

One example is Jah-Bul-On, which is used by the Freemasonic Lodges. JAH is YAH from the Psalms in the Bible. Bul, they say it has to do with Baal, which simply means 'king' in Semitic languages. As such

both Gentiles and mages have brawled over the term. ON simply means 'living entity.' The whole name means 'Yahweh is the king of the living,' which is merely stating the obvious. As it was found in the 1eighth century, this name relates to the YHWH directly.

Freemasonry is just a political frontier of Judaism. That is active in goyim lands. That's what Freemasonry is. On the basic levels, it keeps some idiots to act as cannon fodder and defense to its higher objectives.

The work of the Freemason is to deliver the country to the hands of the mages. As part of the greater (((Messianic Plan))).

By Hitler's time, all the above organizations were doing simply, rituals to honor magehovah, potentially human sacrifices, and guess what they have had in every Lodge...A Torah. From which they read curses and blessings for theirFreemasonic order, by the eulogies of the magian egregors, to do what they always did best, keep the countries under magian rule.

Freemasons believe in themselves as appointed leaders of the magian God. And — openly promote its interests in the Gentile lands. One enters Freemasonry and the Illuminati knowing full well, that they will be serving the mages, or in rare cases, learning about it a bit later. Forces Occultes is a film that was created in 1943 and was heavily associated with 'Nazi Conspiracy Rhetoric.' As it was created in France. It's truly educational for the magianFreemasonic Orders and how they operate. It also shows the corruption of a good man by Freemasonry and how he found himself trapped as a politician from the Juden. The people who made this film were all assassinated, by the way.

<https://www.youtube.com/watch?v=AiMR8LuWcLs>

In the manuscripts of all the orders. You clearly have the Torah, rituals to magesus Christ as the 'Superior God,' rituals to attack and subvert Demons, full-blown glorifying rituals and meditations related to magehovah and to other bizarre alterations of its name (In the Bible there are 10s upon 10s of such, one more doesn't mean anything really.) The meditators practice the magian

Qlippothic Tree, they read the Torah, and they follow passages in the same way the mages read it.

In the case of the so- called 'ANTHROPOSOPHY,' many people complain about why Hitler persecuted and shut their little magian shop down. They were practicing the magian Qlippothic tree and many other magian meditations. Because they were mages. And — praising the same egregors as the above categories did. All these little mushrooms are part of the same cancerous network.

Anthroposophy, which was made by the Rudolf Steiner, with whom Hitler had a severe hatred for playing the wannabe occultist during Germany — praises the following magian egredorss: Anael, Gabriel, Michael, Oraphiel, Raphael, Samael, and Zerachiel. He simply praises the magian egregors. What Hitler writes in 1921 about Steiner (Founder of Anthroposophy):

'It is possible that Simons can actually value it better; the man appears to have exactly valued the capacity for work of the German people. During the London affair there now rises to the surface, by

degree, such mysterious accompanying circumstances that it is not only appropriate but also quite necessary to inspect somewhat closer this Mr. Minister — the intimate friend of the Gnostic, Anthroposophist Rudolf Steiner himself the adherent of the Threefold Social

Order which is one of the many completely magian methods of destroying the peoples' normal state of mind — to see whether his mindless face, mindless according to the opinion of Lloyd George, is really only the result of the lack of spirit or whether it is the larva behind which something else is concealed.' What is the simple fact here...Just destroying magian spirituality all around. This fact is why Hitler also destroyed the Freemasons, the Illuminati and all the orders — who praised the magian egregors and read the Torah, while conspiring with the entities behind the 'Angelic Host' to destroy Germany. Because Hitler was with the opposing side of ET's who wanted Germany to live, not to die. This is one of the reasons Hitler is also called 'The Satan,' as he is an enemy of the mages. The Christards of

Zion literally call Hitler 'The anti-Christ.' While few try to maintain the lie of a 'Christian Hitler,' the facts speak well for their own.

Also, note Hitler accuses Steiner of Gnosticism. This is nothing more than pure magian filth in the late centuries. One of the most hijacked magian movements. Naturally, the lodges were infuriated when Hitler was going to power. And — you truly do

not want a fifth spiritual column in your nation. So, Hitler decided to cleanse them out in full. However, other orders and all other, non-magian religious faiths (including ones that practiced Hinduism or Meditation) remained intact. Because there is a difference between just practicing a religion and reading the Talmud and the Torah to throw curses on your government or the people upon which you govern. So, the Illuminati, and the Freemasons are hated to this day. All these lodges do is simply, the last three centuries, enslave the Gentile countries for shekels and power given to them by the mages. Look at this baby book here. What do you think it is? It's a Bible. This is the thing they read, a study from,

and praise in the Freemasonic Lodges. Yes, the same thing the Pope has platted in gold, and the same thing that rabbis' study and curse from Humanity, 24/7.

What Hitler and the National Socialists found out in Lodges in 1933 — The Same things: Occultists who were Ariosophists and others who were Aryan were given free footing. Many also were put in the SS and other important organizations to reconstruct lost knowledge. Lastly on tolerance of religion in Germany.

The NS was fine with non-magian faiths. Like Buddhism and other such religions and they never persecuted these minorities, they worked to bridge and find things together with the representatives of such. This is historically admitted. Below a historic article explaining the situation quite well.

<https://studybuddhism.com/en/advanced-studies./history-culture/shambhala/the-nazi-connection-with-shambhala-and-tibet>

What did Hitler do to mages and Freemasons?
What every Satanist (enemy in Hebrew) would have done. He sent the SS to completely flatten Freemasonry, the Illuminati, and all magician occultist lodges fully.
Destroying magian spiritual power in his nation. Step by step until the final peel of the magian onion which is Xianity. This was largely extinct after less than 10 years in Germany.

Hitler was representing the forces of the Gods and fought for the restoration of the ancient faiths same as eradicating the magian spiritual influence. This was the fundamental of the Thule Society as well, to represent Aryan Thule. This is represented from the banner to everything the NS party did. To the abolishing of Christ

and putting Nietzsche's Anti-Christ in the hand of every grown youth and Zarathustra as national literature. All the above as messianic Christians admit was the work of the Devil and the Anti-Christ. That of spiritual liberation from the magian spiritual stranglehold.

- **Where 'Angel' Was Stolen From**

The modern word Angel is from the Greek 'Angelos' and the Latin 'Angelicus' which are from the Sanskrit 'Angiras' which the Vedic seven Angirasa seers symbolize the lights of the seven chakras and are born from the fire of Agni. 'Archangel is Sanskrit Arhat Angiras, noble Angiras. The Buddhists also called their ancient sages the Arhats, a Vedic word meaning noble, often applied to Agni.'[1] In Sumerian, this also becomes 'An' which is also an ancient title of Shiva. And what...! the seven Arch Angels of the Yezidis relate to the seven chakras. Angel is 'An el' which means the 'shining serpent' as the 'An' Gods are also the Anunnaki. El is an ancient title of divinity the mages stole later. The head God of the Pagan Canaanites was EL. Note Enki is also called An-Ki. The enemy has corrupted this term and used it for the Qabalistic

thought-forms they have created. Such as the angel Metatron which is another name for their thought-form of the Torah.

- Fallen Angels are Corrupted from
Sumerian Sages of Enki

The ancient seven sages of Sumeria who were under the direction of Enki, the Apkallus who taught mankind the knowledge of spirituality and civilization. Were the actual 'Fallen Angels' who came down to earth from heaven in later magian rewritings: 'Apkallus was said to have taught antediluvian sciences to humanity and so, too, were the Watchers. As one scholar concludes, however: 'The magian authors often inverted the Mesopotamian intellectual traditions to show the superiority of their own cultural foundations. (thus)... the antediluvian sages, the Mesopotamian Apkallus, were demonized as the 'sons of God' and appear as the Watchers...illegitimate teachers of humankind before the flood.'[1] Enki was also called: 'The serpent Lord was Enki, but in parts of Chaldea he had been called Shaitan.'[2] So that is where the concept of Satan and

the fallen angels are corrupted from. Enki and the Apkallus. In Sumerian writings, they are also called: 'The 50 who went with Enki from heaven to earth.' And 'The 50 Annunaki of Eridu.'

This is Enki's city in ancient Sumeria. Note the 50 is symbolic of the 50 petals of the chakras to which the ancient Sanskrit alphabet relates. This is also the serpent energy and the chakras. From Heaven to earth from the crown chakra to the root chakra. The city is the Purusha or the cosmic man as well its symbol of the entire being the energy bodies and the physical body.

The early tales of Genesis are stolen and corrupted by the mages, from the Sumerians. Enki created Adamu with the red clay of the Apsu and breathes the breath of life into him. Later the mages stated Yahweh creates Adam with the red dust of the earth and breathes the breath of life into him. They then place Enki in the role of the Devil instead. So, they can butt in with their evil agenda. The original sin they inserted in the Garden of Edin a Sumerian term for the abode of the Gods. Is that of

Daath in Hebrew meaning 'sexual union' of the male and female chakras (Adamu and Eva) which is

done by the serpent energy which Enki symbolizes the Magnum Opus.

The Tree in the Sumerian Garden of Edin is the Mish or Gish Gana tree of life the symbol of Enki. Of which the waters of the Apsu flowed through the serpent life force. The Seven sages of Enki are the seven chakras as well and the Apsu of Enki is the body and soul the energy bodies the nadis the energy pathways that flow with the cosmic waters of life force. The seven sages wear the symbolic fish imagery to show this. The fish is another way of showing the energy of the life force. Enki taught Mankind the Magnum Opus so they could ascend and become perfected and immortal like the Gods. This is what the enemy considers the original sin. They want spiritually helpless slave goyim to serve them as God.

The Yezidis were part of the ancient Sumerian civilization, and they still worship Enki as his ancient

name of Satan. They also state they came from ancient India there are words in their language that only appear elsewhere in the Sanskrit Veda's — the original Vedic Sanskrit. And so, they have stated their God is known as Murrugan in India who also has the serpent

and peacock we can also note: 'Enki is the Middle Eastern counterpart of Murrugan, whose symbol of the Makara, a creature that is half fish and half antelope, is an eastern version of Enki's goatfish, the Kerabu.

The Makara and Kerabu are both symbols of the first sign of the Zodiac, Capricorn, so Enki-Murrugan, the primal life force that began the universe, eternally begins the astrological year.'[3] Murrugan is the ancient title of Shiva and the Hindus state Shiva created Adimu and Eva in the Garden of Paradise in ancient Sri Lanka before the flood. When it was still a larger continent. They state Shiva and the Gods had a physical presence on the earth at this time in Kumara Kandam this place in the first Sagha and taught mankind the knowledge of the serpent

power yoga and how to ascend. The ancient Aryans stated they came from this place originally but moved outwards after most of the original land sunk. They migrated to North India, and outwards. The Yezidis are called the blonde bloodline.

The ancient American records have the same account as the Sumerians, with identical-looking sages lead by the Hyperborean God Viracocha arriving and teaching

them civilization. The image of Virachocha is a Hyperborean Man with a beard dressed in the same way you would see in Sumeria. These are also called the Votans in other places of ancient America. Votan is the ancient name of Shiva in the east. In Sri Lanka, Buddha is called Wotan, and this is originally a title of Shiva. [4]

- **The Qabalistic Cube**

Different shapes hold and conduct different energies, therefore, the universe is made of sacred geometric patterns that are the blueprint for all existence such as the Platonic solids the five elements. Ancient temples were built using such knowledge to conduct different energies and that is why they were built on lay lines. Originally in Kabbalah the entire magian occult system is shown as a cube and the entire alphabet fits into this cube of space which also contains the five Platonic solids.

The Hebrew Alphabet

is the energy of their thought-form they call God — and relates to the element of earth and that of Saturn which rules the element of earth. This is the reason ancient altars were cube- shaped it as well symbolized

Saturn and earth. This evil is what the Tefillin the black box the mages wear on their head relates to. It contains the Shema prayer which is a formula arranged with the Hebrew alphabet which is a series of charged yantras that ties into their energy matrix. The Shema sequence is what unites the mage with their 'God' in Judaism. This unites them and connects them into the energy matrix; this is that damn cube.

The mages state:' The Tefillin acts like an antenna that draws down a powerful spiritual force from theses seven dimensions.' Here the same Kabbalist mage tells us further on how this connects to the cube of Mecca: According to both Kabbalah and Islam, there are seven heavens, or seven dimensions in the spiritual world that directly influence our world. Therefore, there are seven notes of music, seven seas, seven continents and seven days in the week. We have seven layers of negativity within us, and we want to bind and

slaughter those selfish layers that make us treat others with disrespect.

The Zohar explains this is the secret behind Abraham binding his son Isaac: 'Each of us is required to sacrifice our ego for the sake of sharing with others. The Tefillin act like an antenna that draws down a powerful spiritual force from these seven dimensions that negate and sacrifices the influence of our selfish nature and ugly ego. In fact, 99% of mages have no clue that, therefore, we bind Tefillin on our left arm. We use the left arm as the left embodies our ego and the negative (Isaac), whereas the right refers to the soul and the positive (Abraham).

Each year, Muslims embark on a pilgrimage (Hajj) to walk around the Kaaba in Mecca seven times. This mirrors the process of binding our Tefillin. The purpose of Hajj for Muslims is to connect to the same event of Abraham binding Isaac (Muslims relate this to Abraham binding his son Ishmael.) The connection is profound. Only Kabbalah explains the true spiritual purpose. Perhaps, therefore, the Kaaba in Mecca is known as the House of Allah. Kaaba and Allah, as we know, spells Kabbalah.'[1]

-The process described is how the Muslims are unconsciously tying themselves into the magian matrix during this mass ritual.

Seven is the number of Saturn. All Muslims must pray five times a day facing the direction of the cube in Mecca. They do this on the solar power points of the day to make the energies stronger to charge this thought form. Furthermore, from Islam: 'Tradition goes that the Kaaba was ordained by Allah to be built in the shape of the House in Heaven called Baitul Ma'amoor. Allah in his infinite Mercy ordained a similar place on earth and Prophet Adam was the first to build this place. The Bible, in the Chapter of Genesis, describes that its building when God ordained Abraham to erect a Shrine for worship when Abraham was ordered to go to the Southern desert with his wife Hager and infant son Ismael. The Old Testament describes this building as the Shrine of God at several places, but the one built at Ma'amoor is very much like the one at Makka. There is no doubt that it was referring to the stone-built house at Makka.

Qur'an brought this story into the full light of history. In Sura 3:90 Qur'an says: 'Allah has spoken

the Truth, therefore, follow the creed of Ibrahim, a man of pure faith and no idolater.' The first house established for the people was at Makka, a Holy place and guidance to all beings. Qur'an firmly establishes the fact that Ibrahim was the real founder of the Holy Shrine. When Prophet Ibrahim built the Holy Shrine in Makka, his prayers were that this place should remain a center of worship for all good and pious people; that Allah should keep his family the custodians of the Holy place.'[2]

This cube is also built to the dimension of six which is the number of bindings of bringing down astral energies into the material and it also unfolds to form the hexagram the symbol of Judaism. The above Islamic passage is important it shows that the Christian Religion and Islam tie into each other on the occult level and thus, the Torah and Kabbalah. The city of Heaven is the New Jerusalem in the New Testament which is also given dimensions that relate to six — to descend out of

heaven to earth. Note the Islamic passages tie into the Torah and thus, the Bible in Genesis as well... and the biblical characters such as Abraham and on. magesus is even in the Koran as well

as Essa with the tale of his divine birth and such and is a major character in Islam. The Islamic religion ties people into this magian thought-form of Christ. Note Mohammed is also described as being a mage.

The tale of Abraham sacrificing Isaac also ties into the place of the Mecca Cube. In the Talmud, Abraham does sacrifice Isaac in a blood sacrifice to Yahweh.

Three days later Isaac is then resurrected by Yahweh. This ties into the thought-form of Christ as well the ultimate blood sacrifice that is resurrected three days later. The reason for this here is this tie into the actual ritual murders the mages commit by what the Kabbalah calls sympathetic magic on the astral and charges the energy of the murders with more power. Islam has mass rituals devoted to offering up the blood of humans and animals as well

to this evil. Note the three days for each. Three is the number of Saturn and the square of Saturn.

Three days is also 72 hours. The 72 is the number of the cube as well. This is binding this in with the 72 names of the magian God which is shown as Metatron which is shown as the CUBE. The Christian ritual of communion ties into magian ritual murder direct as it's

a sympathetic enactment of how the mages do this. Including the symbolic drinking of the blood and eating of the flesh while standing around the image of a ritually murdered person on a cross. This ties in unconsciously.

The cube for the Christians is the cross. in Kabbalah that it's admitted the cross of Christ is the Kabbalah cube this acts as the focal point for these energies to descend and channel through as well. Every Christian church has always had the cross at the front of the altar where the intention is directed during mass. In Kabbalah the cube unfolds into the Christian cross and is given six the number of

bringing energy into the material. The cube in Kabbalah also represents GOVERNMENT in the mages' case their world government they are working to manifest with the matrix of energy the spell of Xianity and Islam are generating and feeding into the thought-form of the cube of energy. Therefore, the cube is the symbolic shape of the world government of the mages and government is traditionally ruled by the concept of Saturn.

 - **The Protocols of Zion are Real**

The actual origin of the Protocols comes from the Kishinev pogrom that happened in April of 1903 when it was discovered that a Gentile child had been ritually murdered by the magian community.

Remember the case in the Russian Empire of Rabbi, Mendel Beiliss for the ritual murder a 10-year-old child, Andrei Youshchinsky, which Beilss admitted was part of a black magic ritual against the Czar.

The entire magian community was involved, and witnesses identified Beilss as the culprit who led the gang of mages — who kidnapped Andrei. So, this was an occurrence and the type of horror which generated the natural outrage of the Gentile populations against the magian communities and uprising against them. And — from England to Russia was the number one listed reason for the pogroms and expulsion of the mages. When this occurred again with the Kishinev pogrom. Within the magian community that was stuck by the uprising by the locals. The document was found by one of those

involved and delivered to a local publisher, Krushevan who published them. As Dr. Radl shows.

Thus, we can see that if we remove the myths and legends surrounding the Protocols and then place them in their historical context using what we know about them: we can narrow down what the source for the Protocols originally was. To wit a magian document recovered from Kishinev by pogromists and then given to Krushevan who then

published it outside the jurisdiction of the court of Odessa, which was looking for a way to prosecute him (and for which the Protocols would have been suitable ammunition) and which is the reason why de Michelis rightly suspects the document to have come from pogrom circles.

Now we know quite a lot about the Kishinev pogrom and that it was close to a major center of Zionist activity; Odessa, (95) where Vladimir Jabotinsky gives his first lecture on his extreme Zionist variant; Revisionist Zionism, on the seventh April after hearing about the pogrom. (96) We know that for example many magian Torah scrolls were desecrated and that the pogromists took a large quantity of money, goods

and objects from the mages during the pogrom itself. (97)

Now with a direct connection to the first editor of the Protocols, a major center of the Zionist movement in the Russian Empire (where extreme variants; like Revisionist Zionism, were forming) and

that we know objects of importance to mages were either damaged or taken. We can make a rather revolutionary suggestion: The source document that the Krushevian edition was based on was taken from the Kishinev pogrom and that it was some Zionist document or local plan.

Krushevian, to protect himself from persecution and arrest for having any connection to the Pogrom (in which people were arrested and put on trial), simply put in another source. They were from an agent in Paris, to protect himself. However, the second and most widely published copy of the Protocols by the Christian Mystic, Nilus. In his book 'The Great and the Small.' Published in 1905 In which references to the Torah (Old Testament) are removed and the references to mages being against Christ put in, and the references to Freemasons put in along with statements about Nietzsche and Darwin. With more added in general. In

the 1914 edition of Nilus,' publishing was again heavily edited and altered.

This is where the major increase in plagiarized material emerges. The Nilus editions are the ones the 'debunkers' like to use along most of the confusion around them arise from this. The magian Soviet system even went to its own extreme to further create anti- propaganda against the Protocols in the early 1920s.

Because this document is a major threat to them. In the nineties and early millennium, Russian academics and scholars have also published works showing the Protocols are authentic.

- Who is Satan to the mages

Below one can understand what Satan is to the enemy. This is from the book Kol Hator one of the most famous magian books and one of the most infamous rabbinical books. This is the 'sixth rule' that every mage must follow — to wage war against Amalek. Notice the

number six is the blueprint for the waging of war against Amalek. Part of which is why 'six-gorillion' were used as a number to incite lies on the Holohoax (Holoco\$t) and many other pertinent lies.

Waging war against Amalek: The war against Amalek is from generation to generation. The war against Amalek is against three types of foes: A.- Amalek of the heart, that is, the evil inclination and vices; (My note above we can see they have associated this name with any force or energy that is negative and acts against the mages internally, and as such, they later claimed this name is the source of all evil in existence.

Everything that keeps them and prevents them from fulfilling their messianic purpose is called 'Satan' energy wise;) B.- the spirit of Amalek, the general one, the Satan who destroys, the adversary of Pissreal. This is Samael and his hosts. His main power is in the gates of Jerusalem when its lands are desolate; [My note here we can see they recognize Satan and his 'Hosts' as a spiritual enemy, who has literal existence and is a commander of legions. As Rabbi Ariel Tzadok admits all this is a

cover-up for the E.T. connections and how the so-called 'Angels' and 'Demons' are all E.T.

lifeforms.] C-. the material Amalek, that comprises Esau and Ismael and the mixed multitude. As explained by the Gaon: we are commanded to inherit it (the land) by force. [My note- Esau is a code word of Hyperborean people, while Ismael and the mixed multitude is the Arabs and other Kinds of the world which act against the mages. The enemy writes there they will steal their land by force as well.]

From the Same Book.

The purpose of gathering in the exiles is to wage God's war against Amalek, which was the main mission of Joshua, in line with Mashiach ben Yosef. The war against Amalek includes every aspect, against all the enemies of Pissreal, including Armilus, the prince of the mixed multitude. It is also intended to remove the spirit of impurity from the Land and to bring ' Knesset Pissreal and Shechina from below, from the earth. From another place, in the same book, they admit that the problem on why the 'Higher Pissreal' (what the mages imagine)

versus 'the lower Pissreal' is not yet constructed are the forces of 'Amalek.' In other words, if you are not cattle on a magian farm now, it's thanks to the Pagan Gods. The mages write about exiles because they believe they have been exiled from

Pissreal, and here they admit, they self- exiled themselves to destroy Amalek, aka the Gentile Nations, from within, as part of the Messianic Plan.

They also admit here that Meshiach ben Yosef (Rabbi Yeshua/Christ as Rabbi Kaduri Admitted) is the one to wage war on all fronts with the Gentiles. This is their ultimate objective. The obstacle to such things happening is the 'Satan,' who prevents all the magian plans and thwarts all magian attempts to world domination. In other words, whoever is a mage hater is a 'Satanist' in one way or another. At least the mages would see them that way. And — would want the fate they want for Satan as well, to exterminate them, as they see Gentiles as his seed. This is true as well. As to who is Satan really, and irrespective of the admittance of the magian agenda of fighting against this entity.

- **Borg World the Age of the magian Messiah**

The rabbis state their 'God' is 'The Heavenly Metatron,' and they call this a hive mind of literal Reptilians whom they also called the Seraphim but are literal Reptilians that appear to them as such. The rabbis state what the mages call the Messiah is when

the earth is turned into the image of the Heavenly Metatron. One high-level Rabbi used the Borg as the example of what the world will be turned into as the Messiah age. This age is called in Judaism the 'New Covenant,' which is what the Christian Bible is called by the rabbis who wrote it. This age is when all humanity has been conquered and turned into a Borg slave Kind with a hive mind. This is how the Bible ends in the book of Revealing, i.e., Revelations. Humanity is turned into a hive mind with no differences of Kind, sex, class, family, gender, or individual thought.

The descent of the Heavenly Jerusalem is the cube of Metatron descending to create this 'New

Earth,' of which magian communism is the continuation of. Now, the planet has advanced to the level with genetics and technology where the mages and occult control with the spell of Xianity the enemy, are manifesting this program into reality. They are already pushing transhumanism which will use criminal genetic engineering and technological microchip implants to transform humanity into the earthly Metatron this includes brain chips to create a hive mind. In the writings of the high-level rabbis like The Gaon of Vilna

going back centuries, they are stating they are going to use the emerging technology to manifest the plan of 'God' and bring in the Messiah Borg humanity.

The Metatron is three things a trinity, at the top, it's the Seraphim which the rabbis state is a hive mind of literal Reptilian extraterrestrials, the Kind of Pissreal the magian Kind soul and the Torah. The rabbinical texts state that the Kind of the mages has a 'higher group soul' which is shared with the Heavenly Metatron which is the beings they call

their literal masters the Seraphim the Reptilians. This is because the mages have stated that their Kind didn't come from this world it came from 'out there beyond this world.' The magian texts their 'God' didn't create this physical planet.

The rabbis show the name Elohim in magian Gematria adds to a term in Hebrew that means 'nature' that nature the universe, natural law created the physical planet. The mages in their texts state their Kind is from the blood of YHVH which as their racial Cohen gene shows contains Reptilian DNA. They are a hybrid Kind and are the incarnation of the Reptilian, gene soul group in this world. That is the key to their whole occult system. It's the manifestation and extension of

their racial alien soul group. The Heavenly Metatron is the Reptilians the Lesser Metatron the Torah energy and the Earthly Metatron the mages. Behold the Seraphim of the 'Heavenly' Metatron. That is the magian 'God' of the Bible. These mages are an alien program and nothing more.

- **mages Openly State They Have Cursed Gentiles Spiritually**

The Kabbalah is the occult level of the Torah in which all the real information of the magian agenda is contained. It puts a major focus on the book of Genesis as the core of its occult information that is encoded within it. The Kabbalah states that the mages have literally bound us spiritually from obtaining eternal life, the light body, by the sphere of Binah. In Kabbalah Binah is the left hemisphere of the brain. The reason for this is simple. Eve is created from a rib this is the Luz bone which is the tail bone in Kabbalah. Eve represents the energy of the feminine part of the soul the right hemisphere of the brain.

She hands Adam the male, the left hemisphere, the fruit of knowledge. This term relates to the Gnosis

which is called Chokhmah in Kabbalah meaning 'wisdom' from the opening of the right hemisphere of the brain which is called Chokhmah in Kabbalah

from the activation and raising of the serpent which unites the left and right hemispheres together and switches on the mind to full use. This allows one to know good from evil, lies from truth and to obtain a superconscious state. The Garden in Kabbalah is the Gan Eden it relates to the brain in this context the two hemispheres of Adam and Eve. This is shown in Kabbalah as the triangle of the upper world. Binah Adam, Kether 'God in the sense of the Ain Soph the cosmic conscious state which they call a force,' Chokhmah Eve. The Kabbalah states the serpent in the Garden is Satan which is the symbol of the Gentile soul. Hence this is binding against the Gentiles.

The mages in their Protocols of the Elders of Zion, which the original document has been verified as true by numerous Russian scholars and academics who studied them. State they are going to trap us into a left-brained paradigm so they can control our perception of reality and remove us from knowledge of the right brain, Chokhmah or Eve and remove us from

Kether or 'the Ain Soph' which is the superconscious state from activation of the right brain and pineal gland and crown chakra which relates to Kether in this context.

This is what in Kabbalah relates to here, in Genesis. It's the rabbinical curses to attempt to bind the Kundalini energy in the root chakra. The magian 'God' punishes the serpent for awakening the right hemisphere of the brain, Eve. By making it crawl on the ground which is the root chakra the earth chakra. Attempting to bind the Kundalini in the root chakra.

Then the enemy angels are placed with two flaming swords to prevent them from ever entering this state again.

This is the energy of the binding spell against us. In the story of Edin Yahweh states that if the goyim obtain this ascended state, then the goyim will become Gods, and the magian agenda is finished. This is the warning to the rabbis. This proves the mages know what we Gentiles can become and are trying to stop it. And so, that removal of spiritual

knowledge from Gentiles is their key to victory against us.

- **Revelation and 666 Explained**

Many of you are familiar with this so-called 'Prophetic' book named Revelation. This book is just the strongest subliminal of the Bible, the climax of all other subliminal messages. As such, this book has gained much attention and speculation from people who cannot understand its meaning and assume it's the 'word of God.' Unlike many dumb Gentiles who consider that the 'Pagan' religions were somehow 'Different' and try to individualize them, even when it's so evident they are the same blueprint all repeatedly, expressing the Pagan, or as admitted by top Rabbis...Satanic Soul. The mages don't have such qualms, they put us all in the same category and as one force, as Satanic, as they know, we always were the same forces wearing different masks throughout the eras. And indeed, we never

tried to hide it either, we are boasting about it and the good things we have done for mankind.

mages pretend they don't like the New Testament as these are goyim manuscripts. But guess who wrote

these, mages wrote these and created these writings. But the Revelation is essentially what the mages believe as the Tikkun Ha-Olam, or the 'Great Cleansing' or the 'Great Purge' and world rectification, which has to do with the wiping out of all the goyim from the face of the planet. Handing this as the New Testament is necessary so the goyim will not start questions, you cannot really give them the true teachings of your culture, since they are your enemies, and you seek to brainwash them.

The ultimate final rule of the magian 'Soul' over the 'darker and evil elements of existence,' Satan and the Gods, or in other words, the Sitra Archa. This is the final objective of the Tikkun Ha- Olam. The Sitra Archa has a manifestation below (The

goyim Nations aka Hyperborean people and all other Gentiles) and the manifestation above (Our Pagan Gods). Both need to be fought above and below to facilitate what the mages call the 'messianic process.' This, in the physical realm, the mages translate as the wiping out of the Hyperborean nations, the nullifications of the individual nations and Kinds, and the emergence of some ultimate leader of theirs that will rule the earth as a goyim plantation for

the mages, giving them ultimate power. This is their 'promised world.' The Revelation, the last book of the magian Bible, talks of this objective being coming to finalization.

Now, why the mages don't accept this is because it's 'prophecy.' Christian prophecy is not prophetic at all, as none of these beings have any such experiences, and it deals with implanting things in the subject's brain, and not true prophetic ability. So, the mages are clear here, don't smoke the shit you sell to the goyim. Leave it to be snorted by the goyim instead and be magian. This is because the

mages understand it's just nonsense and it's not worthwhile to pay any attention to. However, when you look at Hollywood and the promotion of Rabbi Yeshua or magesus Christ, in every script, you understand, the upholding of this lie for the goyim is of fundamental importance. If the goyim need to believe that the mages are evil and they hate Christ, so be it — no sacrifice is too great to maintain the goyim trapped in the hoax of rabbi Christ.

The mages have suffered to keep this spell and meme going and to present themselves as the so-called enemies of a juxtapose their Kind created. To play

every goyim who are trapped in the middle. In the end, as Marcus Eli Ravage admits, this sacrifice was very worth it. Many people read the English texts (Which have been corrupted to hide words) in the Bible.

English people tend to forget there are other languages in which these texts are written. Compared to which the English Bible is just a fairytale. This is especially true regarding the New

Testament. In Greek, this has a different meaning. The Old Testament is in Hebrew and part of being a rabbi is analysis and knowledge of the hidden messages of such, which can be understood by knowledge of ancient Hebrew.

Suppose you pay attention to the Beast word in revelation. In that case, it means 'Therion' that is the word for 'wild animal,' but a tremendous wild animal, a very powerful one — an apex powerful animal.

This is a magian slur for Satan, the God of the goyim. So, Satan marks his people with a 'mark,' to mark them as his own. The mages call decorators the derogatory name of the 'Mark of the Beast' aka the Mark of the goyim Cattle. How do the mages call the Gentiles...The beasts of the burden, the cattle and the 'goyim.' What does this mark mean, the goyim in

contrast to the 'true mages.' What remains out of the above is that Satan marks people with something the mages don't like, and the mages blaspheme with a disgusting name.

When Satan takes over the world, the 666 is given to Humanity as a mark, for everyone on top of humanity. It's actually $\chi\Xi\Sigma$, which is 'erm,' translated in Greek Numerology, a forbidden science according to the Bible, to 666. What the 666 really means; however, is 'solar power' and as it's well known, this number is a metaphysical number of perfection and the diamond body — and transformation to the rainbow body. This is the number of the grail and immortality. The thing about 'buying and selling has to do with the transferring of energies on the negative and positive pole on the soul. This shows that at this point nothing imperfect exists in the soul anymore. It is blotted out.

The beast arises with seven heads and 10 horns. It arises from the seas, which is the typical ascendance of the Serpent, it rises from the seas. And — it has seven heads with crowns, the Chakras, and the 10 horns are basically, the apexes of these chakras including the two sets which are apexes, the

shoulders, the hips, and the temple chakras (2 in 1), numbering 10.

The beast is the Soul of the 'goyim' or the 'Therion;' this is the Gentile Soul. However, it's not the soul only that has power, but the power is given by the 'Dragon.' This is Satan and the Serpent, and without which, the Soul is powerless. After Satan shows up, the whole world bends a knee, but this is except a thing, it's also an occultist thing. This means that every part of the Soul is brought to perfection, and what is impure, is destroyed. This is the point of the Magnum Opus. After this, a second beast comes out which is the second one, and this also gains power from the Dragon. But this beast has power over the material, which is symbolic of the ascension while one is still alive — and physical immortality. As thus, it makes humans worship is akin to a king. What this story really is about, for those who know how to read this, is about the war of two types of Souls, namely, the Satanic one and the magian one, for domination of the planet and the world, heavens and earth.

mages whine that the guys who have this 666 will openly oppose the magian agenda and fight with them.

And they cry in this book that one day they will replace all of them, the lamb will replace the ram, the 10 crowns will be replaced by the saints, the leader of it all (Satan) will be replaced by Rabbi magesus who even tries to steal Satan's title as the Morning Star.

Although, the 'Whore' that keeps the Cup of 'Fornication' (aka immortality) for the 'goyim' to drink will be destroyed, as well. And — they also say they desire to take the world for their own. So, all in all, we have a wet dream as always.

People like the Romans, the mage considered them 666. The word Latinos inferentially means Latin, going back to the Romans. 'Hyperboreans is a word that also adds up to 666 same as many other words in numerology.

Earlier Romans were at war with the magian cultists of Xianity. So, they wrote on these books to complain that these Goddamn guys had a thing

about them, and that was the problem; they were 666. Napoleon and others, such as Wilhelm II of Prussia; and, of course, Hitler — were all called the Anti-Christ. In the case of Wilhelm, his name numerologically adds up to 666 — literally (Gematria). Because these beings were spiritually elevated, and because they were 666

(Satanic Souls) and Gentiles (non-mages who have had power). To the mages, this is evil for the goyim to self-govern themselves.

So, their admitted objective is to overthrow the spiritual system, the Demons, and all that we stand about and replace it with themselves. The bizarre mentions in the Revelation about how 'Angels will replace the Demons,' 'magesus will replace Satan,' and the 'Saints will replace the Kings' etc., or that the 'Lamb will replace the Dragon;' this is self-evident. The Demons, the Kings, the Dragon, etc., are all symbols for the Gentile Soul. At the same time, all the other garbage shit is symbolic of magian creation. Now, the above is also allegorical as all these things are reflected on many levels. The

extinction of the above, at the material level, equals the extinction of Kinds, states, and principalities of the non-mages. The *mages say that the 12 tribes of Pissreal will replace the other tribes of the world in the Messianic Era. This is not some sort of joke; the rabbis know this all too well.*

\Tikkun Ha Olam or 'Rectification of the World' deals with extermination.

The astral assaults they carry on humanity manifest in wars, Kind-mixing, and other such perils which destroy their enemies, such as hunger, impoverishment, etc... These are backed up by physical actions from those physical orders that believe in these 'Messianic Dreams' and carry on the objective to enslave and destroy the Gentiles. Know this, the objective of the mages is to wipe you out. It's self- admitted, nobody pinned it to them, and nobody would have the audacity to do so. The cowardly mages had the audacity to do this, and not only this but expose it in the face of the goyim as prophecy. As Hitler stated, the biggest the lies and the more outrageous, the more likely they are to

find people to believe them. The lies of the mages are outrageous, and people believe them, but that doesn't make them true. In the same way, it will never make them victorious, as it never made them TRUE...

- *Decoding the 666 in Kabbalah*

The Torah is the encoded Kabbalah as the rabbis' state and show. The Torah symbolically forms their world tree and in the exact middle of the Torah the letter Vav is placed at the navel of the body of 'God.' In

the Torah the number of the Temple of the Sun (Solomon) is 666. The Sefirot of Tifereth is the sun and is given the number six and it's placed at the solar chakra in the middle of the tree where everything connects. In Kabbalah Tifereth is stated out of the short face which is the seven Elohim or 'Gods' that are the seven chakras that Tifereth is the most important and the leader or king of them all. In Kabbalah the entire soul unites at Tifereth. This is due to the fact still noted in Hinduism all the male

and female nadis unite at the navel, as the navel governs everything like a King governs a Kingdom.

The notorious 666 is the number of the sun square and each square is given a sum number. The power- number 666 is the sum of all the numbers in the sun square. The seven planet squares relate to the seven Elohim or 'Gods' of the lower face in Kabbalah. Hence this is the square of Tifereth and thus, the six-letter Vav is placed here. The Vav in Kabbalah unites things.

By placing the Vav here they are uniting the soul by activating this point the soul comes together in. That is why Tifereth is also called Daath in Kabbalah. Daath means 'sexual union' it's the alchemical sexual union

of the soul. Daath also relates to spirit and the solar chakra is responsible for converting spiritual energy into a vital force for the being. The Vav is the letter of the serpent in Kabbalah and relates to the belly of the serpent. The belly is the navel point, and the serpent is the symbol of the sun here. Tifereth is the

energy center that rules all the other ones as all the chakras connect to the solar. Note that the number one in Kabbalah means — 13 some diagrams show the map of the 13 chakras all connecting at Tifereth as well. In Freemasonry, Hiram Abiff is the cornerstone. Hiram is also spelled Haram which means 'the ram' the Ra or Ram is the ancient name of the Sun God the solar chakra and is also a mantra for the solar chakra. Abiff relates to the serpent's father. The Temple of the Sun in Masonry is 666 as well. It's all relating to the solar chakra. The cornerstone is an ancient title for this chakra it's also called the Omphalos. The Beast 666 is a title of the Omphalos to the ancients. The Omphalos had the Phoenix which is what this word beast relates to in ancient Greek.

Note the V letter was the original sixth letter in the Greek alphabet the Digamma this was removed by the

Church later and replaced with other letters and hidden away. The ancient Greeks placed a pentagram inside the serpent circle with 666 under

it to show the Magnum Opus. The Pentagram in this fashion relates to the solar chakra which is the 'sun or son' of the serpent Goddess Venus. Being born into the world.

This is the reborn soul and how it relates to the transformed solar chakra and life force. In the east transforming the solar chakra is the major key to the Magnum Opus this is openly talked about a lot in Taoism and mentioned in

Hinduism in the Tantras-

The Digamma in some ancient symbols is shown as four Digammas coming together forming the Swastika the symbol of the solar chakra. The Digamma swastika shows the V letter connects the 'four directions' which in Kabbalah all unite at the navel chakra. The upper chakras the lower chakras and the left and right sides of the body and their nadis (meridians.) The fact is the mages simply stole the ancient teachings of the Gentile

Pagan religion and then corrupted them and hid them away in the encoded Torah. The Torah on the

encoded level is a false history that forms a geopolitical doctrine and blueprint for the creation of a magian world government. The encoded Kabbalah is simply the occult level of how the mages are using stolen spiritual knowledge against Gentiles to achieve this. Much of the actual Kabbalah is taken from the Pagan Greeks who shared a common culture with the Egyptians, Babylonians and ancient Hindus. The power-number 666 is the sacred number to the ancient Pagan Greeks, Egyptians, Hindus, Babylonians and Pagan Peoples in general. This is why, like with 13, the mages want to scare Gentiles away from 666 it's an important number they want all to themselves.

Note — 666 is also Satan and the mages do know this.

However, it's because Satan is the symbol of the Gentile soul. The 666 is the heart of the soul as even Kabbalah admits. In Hebrew 'Ra' the solar point means 'evil.' Because spiritually empowered Gentiles are evil to the mages. That's the whole core of their Bible they push on us goyim. Anything to do with

spiritual knowledge and spiritual empowerment is evil goyim.

Just send your energy into a magian thought- form of Rabbi Yeshua and bow to the magian political ideology

of their Zionist World Government. This is how the magian Bible ends. With the 12 tribes of Pissreal (the 144,000) ruling the world under the King of the mages. The same evil book which tells us goyim the symbol of Gentile spiritual enlightenment the serpent of Satan is evil as well. The Bible is full of the magian 'God' attacking Gentile humanity for spiritually empowering themselves. This conjury is a literality device to act as a warning to the rabbis. That is why under the Noahide Laws the mages want to impose on the Gentiles. The first law is goyim are not allowed to practice spiritual empowerment The punishment for this is death. Just like the magian Bible orders.

- *The End Days and the 'Messiah'*

Judaism teaches the rabbis that there are two Messiahs one is the earthly Messiah the son of Joseph who is to be a living sacrifice whose death will pave the way for the second, heavenly Messiah who is the

son of David to descend and bring about the Messianic Empire of the mages, the purpose of the magian religion. The rabbis mention in their writings the Heavenly is the astral realm and the earthly the physical realm.

This is the heart of the truth of why Xianity was created by the occult adepts of the Rabbinical class of the mages. The character of magesus - Yeshua Bar- Joseph. Is both the son of Joseph, who even lives in Egypt for a time and is also from the line of 'David.'

The magian Messianic mission is fulfilled within the program of Xianity. magesus is created as the earthly magian Messiah who is sacrificed and who

shall return as the Heavenly Messiah with the Heavenly Jerusalem. The purpose of this character of magesus is to set up a global religious program from which sets up the arrival of the Messianic Age by having billions of Gentiles pouring their spiritual, psychic energies into and becoming imprinted within their souls while acting as physical conduits to bring this spell thought from the astral into the physical even working unconsciously to manifest this. Century after century this is going to have the desired effect.

The Second Coming of Christ is stated to be the descent of the Ruach, the 'holy spirit' into the world. The Ruach in Rabbinical texts is the energy generated by the speaking of the mantra of the Torah, the entire book of which is stated to be one long name of their God, the magian God is just a thought-form generated by the magian spell of the Torah, the magian God even appears in magian texts in the form of the 22 Hebrew letters which form the Torah. Plus, their God only speaks from behind the ParGod which is a curtain made up of 22 letters.

This God also appears to Moses in the burning bush as the 22 letters and Moses writes the Torah. The entire Torah is written with 22 Hebrew letters. The mystical magian texts state Shekhinah created Elohim or Yahweh the magian God. Because Shekhinah is the energy of the Hebrew letters when vibrated to create. The magian God is nothing, but an energy form created on the astral by the speaking of the Hebrew letters as mantras in specific combinations to cause things to occur.

The highest occult teaching in Kabbalah is the knowledge of the creation by the 22 letters it's only allowed to be taught to no more than two rabbis at

once and only orally. The New Testament is designed to connect into the Torah as it's channeling the energies to the magian — magesus is the magian thought-form. His proper Hebrew name Yashua means Yah, a name of Yahweh, Shu which is a word for fire, the fire of Yahweh. Fire is the symbol of the destruction of the Gentiles by Yahweh in the Torah.

The Shin letter in Kabbalah is fire and the letter of Yahweh's destruction. In Hebrew, vowels are interchangeable in words. Shu becomes Shi or Shin. This spells out Ya Shin. Yod Shin. The letter of their God God the 10th Yod and the Shin. It's the name of Yahweh. This is why magesus is shown symbolically in Luke as the staff of Moses. This upon it has the name of YHVH the name engraved. It's also the symbol of the 22 letters.

The descent of the Heavenly Messiah and Heavenly Jerusalem in the magian texts is when the - is strong enough to fully manifest and descend from the astral into the materially fully and bring about the full manifestation of the program into reality. Part of this is the war of Gog and Magog the Messianic war in which the 11 Kingdoms of the Gentiles will be

destroyed by 'God' which God is a code word for the mages. 11 in Judaism is the number of the angel of destruction and death. Hence the 11 Gentile Kingdoms are meant the total extermination of Non-magian Peoples and their nations.

All the supernatural descriptions of the Age of the Messiah are just symbolism for the astral energies of this - descending into the material. The eternal life given is the eternal control the mages will have over the planet in this empire. The symbol of the descent of the golden cube of the Heavenly Jerusalem is the Qabalistic cube which is the symbol of the 22 Hebrew letters the - of the mages in Kabbalah. These texts are stated by the mages to be written in symbolic language as their occult meanings.

The mages state the resurrection the Messiah must accomplish is the resurrection of the magian Kind, bringing them together and to full control of the world. The mages also mention the Messiah is a magian leader who is nothing but a conduit for this thought-form, a total channel. Stating this 'soul' will descend into a magian body. The mages in the Torah also refer to Abraham creating souls this is bringing Gentiles into

this program. The energy of the magian program can alter the structure of the energies of the souls

of Gentiles who are deeply into this over lifetime. This is the reason hard-core Christians really do behave like something from the invasion of the Body Snatchers.

The Hindu texts mention this reality of the imprinting of the groove into the souls or Samkaras. Is done energetically through rituals and such over lifetimes and this can cause a permanent alternation in the soul. For the Gentile, they become a channel for this magian

- to descend thought into the material.

This theme is repeated in the Torah where Abraham goes from Abram to Abraham because Yahweh infused him with his breath which is the Ruach or spiritual energy and for this, they add the letter Heh the breath of Yahweh. So, he becomes Abraham. He is transformed by the Ruach the energy of the magian - s into a magian soul or Golem. This is what the Torah states Adam was also a Golem that Yahweh breathed life into. The Golem in Rabbinical tradition is the symbol of the mages creating a thought-form and then commanding it.

The Golem is always made from the four elements which in Kabbalah is YHVH. Therefore,

the Golem has YHVH wrote upon it. The four letters YHVH in Kabbalah are the four elements. The Rabbi puts the energy into the Golem and then commands it.

Therefore, their God is called YHVH. It's a thought- form. Another way this is shown is with Angels. This are openly shown to be thought-forms — in Kabbalah. Those are created and invoked by rabbis who know their names and formulas. The tale of Metatron is the creation of an Angel by 'God' the code world for the rabbis and this Angel is called YHVH and serves the commands of 'God' the rabbis in heaven the astral.

Metatron is shown to be their God YHVH who serves the bigger God that is the rabbis. The magian God openly in Judaism is shown to be a thought-form the rabbis created and command.

- *Hanukkah Exposed*

Hanukkah's purpose in the magian religion is based on a fable from the Gemara from the Talmud about the light of the Menorah in the magian Temple. The mages after they took the Temple from the Greeks found one jar of oil not profaned by the goyim this jar magically burned for eight days, not just one. Rabbis admit this is symbolic it's not a literal historical event. The tale goes the Greeks were forcing the mages to put images of Pagan Gods into their Temple and this caused the revolt. The eight days is symbolic of the name YHVH which the 26 value of adds to eight. The Menorah is mount Menorah the symbol of YHVH.

The Hanukkah was instituted to be based on Sukkot the magian festival. However, as rabbis state the purpose of Hanukkah is done to attack the Gentile spiritual festival of Saturnalia which would start around this time. The light of the Menorah is

symbolic of the light of Kether which is the Ain Soph which is connected to the Shekhinah the 22 Hebrew letters, the Sukkot booths have the skull in them which is the symbol of Kether in Judaism. The nine branches of the Menorah are the worlds of the magian world tree which is mentioned to also have nine worlds that emanate

from Kether the 10th this is stolen from Hinduism. There are nine main lokas but a hidden 10th they emanate from. However, within Judaism, the number nine is several finalities and is used in judgment against Gentiles this ninth letter Tas relates to one thing the cursing of Gentiles in Kabbalah.

The mages are attempting to bind the nine major gates of the soul of the Gentiles the Lokas or chakras that form the centers of consciousness and must be cleaned and activated properly for the serpent which is called Sat to be able to rise to the crown and become spiritually awakened fully. Tas the ninth letter is the reversal of Sat which the ancient name of the Gentile soul and Gentile God which is Satan in

Sanskrit. The ninth letter Tas will not exist in the world to come of the mages because it's the letter of Gentiles and their world.

The fable of the lights is simple the retaking of the Temple and the driving of the Pagans out is symbolic of the world of the mages to come to the destruction of Gentiles with the light of Kether the energy of their God thought-form YHVH will overcome and destroy the Gentile world completely. Hanukkah is related to

cursing Gentiles at the time of year when the Gentiles would be engaging in spiritual practices and customs that relate to the Magnum Opus the spiritual practice of ascension into the Light Body. It's designed to bind Gentiles from this and destroy the Gentile world. The Talmud also mentions this festival of Saturnalia being of the Pagans. Whom the mages are sworn to destroy.

This festival was done at this time to be in line with the proper astral energies to perform the spiritual work of the Magnum Opus. The mages are trying to corrupt this with their curses.

The Neoplatonist philosopher Porphyry stated the celebrations that were done on the festival of Saturnalia were about the 'freeing of souls into immortality.' This is done by the Magnum Opus. Saturnalia is based on the Liberation and dissolution of the Magnum Opus it's based on the sun entering Capricorn: As Hauck wrote in his book on Alchemy: 'Capricorn encompassed the entire work from beginning to end. Capricorn is the first sign of the year, and movement from Capricorn to Capricorn encompassed the one symbolic alchemical year in which the Great Work could be accomplished.'

- Passover Exposed*

The magian ritual of Passover is a Qabalistic ritual that ties into the energies of the occult new year which occurs within March to April, in which occult workings are put into motion for the year. The magian Passover is based on when the magian 'God' murdered the first-born, Gentile children of Egypt. This includes the child of the Pharaoh. This is also

the time the Christians celebrate Easter. During Passover is when the mages conduct the ritual murders of Gentile children. The child is ritually murdered in a mock- up of the Christian ritual murder of magesus at Easter. This is done to create a sympathetic connection to the Christian ritual which is nothing more than the mock version of the magian ritual murders. The mages drain the blood of the child into cups and drink such and bake the blood into the Matzo bread. The Christian communion ritual is based on this ritual. The energies of the mock ritual murder the Christians engage in, and the magian ritual murders connect on the astral and give more energy to the ritual. This is called sympathetic magic in Kabbalah.

When one understands that in esoteric texts the energy of specific chakras is used to manifest workings into the world of which they correspond to the energies, this is the key to understanding Passover. The ritual of Passover is a mass ritual working of which the entire magian racial soul is collectively used to manifest the aim of the ritual

into the world. The magian racial soul and the individual magian soul all at once is called 'God' in the Kabbalah texts, the 10 sefirot or worlds of their Kabbalah tree is the map of their soul and this tree and the worlds and the 22 letters it makes up is 'God' even the YHVH the name of their 'God' is how the 10 worlds are divided into elemental sections on the tree. It's the magian soul and nothing more. This is made explicitly obvious, openly in the Kabbalah. In Kabbalah 'God' creates the world by the 10 sefirot which are the collective energies of the magian individual and collective racial soul, which included the 22 Hebrew letters.

In the Qabalistic texts, the actual details of what and why this is done at Passover are revealed. Passover is based on directing the energies of the Ain Soph or Kether down through the worlds of Binah and

Chochmah, the three upper worlds. Into what is called the seven lower the Sefirot. The 10 worlds are the map of the magian soul, both individually and collectively.

The thought-form of the mages or YHVH is nothing but the projection of energy of the collective and individual magian soul. Keter or Ain Soph is also called the Shekhinah or the 'Holy Spirit' it's the 22 Hebrew letters, why? Because if one studies the practical Kabbalah, the magian soul template the vibrational template that forms the magian soul across the different levels of manifestation, is the 22 letters and 10 worlds.

The ritual Seders of Passover is based on 10 ritual items, each one relating to the directing of energy into one of the worlds. The cups of wine used, and the Matzo balls relate to the directing of energies. The cup of the wine of which the blood is placed is the world of Binah and the Matzo with the blood baked in is the world of Chochmah. The Keter is the astral template of the magian soul which divides into these two halves of the magian soul, the male and female aspects of the worlds of their chakras/energy centers. The Kabbalah states that the life force is in the blood, the energy of

the soul is in the blood, which is why the mages drink the blood, it's taking in the life force of the victim to add more power into the ritual directly by raising their energy levels. The astral energies released by the torcher of the victims and the murder of the victims are directed into the mass ritual, as well.

The energies of the ritual murders of Passover are directed into the collective magian soul, through the plane of Keter the astral template which connects to the entire magian soul, all the chakras and from which connection its flowed into the masculine and feminine aspects and energy centers of the magian soul, thought all the energy centers of every magian person during the Seders, the entire Passover Seders are designed to connect into the energies of the ritual murders by sympathetic connection and by the direction of the mind and chanting of the Qabalistic formulas in Hebrew and the drinking of the wine cups and eating of the Matzo bread. From here the collective energy of the properties of all 10 worlds, infused with the energies raised in the ritual, the full force of the entire magian soul

collectively is projected outwards to connect with the Christian ritual of Easter and thus,

become infused by the projected and connected energy of millions of Christian dupes and then manifested into the world.

The aim of using the collective energies of all 10 energy or consciousness centers of the magian racial soul for this mass working is made clear in the Kabbalah: Five manifestations for the male worlds or chakras and five manifestations for the female worlds or chakras. The five of the male chakras are directed into cursing the Gentiles and the five of the female chakras are for blessing the magian Kind. This relates to the concept of severity and mercy in the Kabbalah. It's just a code for using the energy of the magian soul centers for different workings. The Kabbalah shows how to use them individually or in smaller groups or in the case of Passover all at once.

What this ritual also reveals is the purpose of Xianity is to act as the conduit for the magian rituals

to manifest into the world with and thought as each Christian is connected into the 'Holy Spirit' or the Shekhinah, the energy of the magian Kind soul (YHVH). In the occult it's known that one can direct energy into a person it's called 'Pranam' in Hinduism. The energy

of the Christian worship is all directed into the magian racial soul, collectively to infuse the magian Kind with major spiritual power. Furthermore, to connect the Christians into the projected thought-form of the magian racial soul on the astral, which the Christian connects with and acts as a conduit through which the rituals of the mages manifest into the physical world.

The ritual of Yom Kippur, if one studies the Rabbinical, Qabalistic adepts, is to create a transfer of the negative energy the magian Kind collects on their soul from Passover and such murderous rituals — and transfer it onto the Gentiles spiritually. To then curse the Gentiles further to destruction for the magian Kind. By transfer of the negative karmic energy of the magian actions onto the goyim, the

goyim pay for the magian evil committed against them. The concept of Xianity is what allows this to be successful. It's based on the transfer of negative energy from the guilty onto the innocent, this creates a sympathetic connection in the mass mind of the Gentile victims. The Christians are taught to be guilty and ashamed all the time and they deserve to be punished. This creates the open

window in their mind to connect with the curses of the mages, TOTALLY. The Christian Gentiles, the soul being connected astrally into the magian racial soul, creates the link for all this to connect and the mages to damn them. The removal of all spiritual knowledge and the complete destruction of history by the magian program of Xianity. Leaves the Gentiles as helpless victims to all the evil of the magian racial program.

Purim Exposed

There are different levels of meaning in Judaism when it comes to the understanding of the magian

texts. Kabbalah is the highest level, the occult level of understanding the level of 'sod' in Hebrew, meaning 'secret.' Kabbalah is an encoded language that is based on symbolism, it's a right-brained or psychic method and, the 'practical Kabbalah' the real occult teachings are taught to the Rabbinical students who qualify for such instruction. Symbols are archetypes of the codes and the use of the information they contain. The tale of the Book of Esther, in the Torah, has baffled some moronic Christian theologians. Because it does not

mention 'God' anywhere in the book. This is unique as it's the only book in the Torah to make no mention of 'God' at all.

The rabbis who are actual Kabbalah adepts have stated if a text does not mention 'God' in such a case it's because such is referring to the rabbis using their own psychic power. This brings us to the tale of Esther, we will be understanding this first on the occult level. Mordechai is called a 'prophet' in Judaism, in the Talmudic and Kabbalah-based texts a prophet is a very psychically advanced Rabbi, an

actual occult adept, someone who has advanced psychic powers.

Mordechai is given Esther as a child and nurses her from his breast and has an incestuous relationship, a secret marriage with her. Mordechai's name in Hebrew means 'myrrh' and Esther's means 'myrtle' note the Chai the name of life in Hebrew on the end of Mordechai's name, this is the number 18 which relates to the union of male and female energies.

The incestuous relationship is the union of the worlds of the kabbalah tree which generates the Ain Soph, the spark which generates the internal psychic power.

Myrrh relates to the Third Eye in the ancient world that

directs the energy. Mordechai, the entire tale is the one directing

Esther into everything. The Myrtle is the magical tree in Judaism the symbol of the spiritual power of the magian soul. The leaves of the Myrtle tree are used symbolically in magical rituals to obtain workings, which represent the fruits of the psychic power of the empowered soul. Esther is the energy

or psychic power of Mordechai, which he generated and nursed with his energies to power and then directs to accomplish his occult goal. In the tale of Esther, the goal is for the magian Kind takes over the Persian Empire from within.

Mordechai and Esther are the psychic power of the adept and the mind which directs and creates the workings for it to manifest. Esther represents Shekhinah's power. To expand this understanding, Mordechai is given the number 400 in Judaism. This represents the letter Tav, which represents the energy of the magian soul traveling from Keter the crown through the worlds where it materializes in Malkuth.

This also represents the generation of the energy of working and the manifestation of this working into the physical world. The ancient symbol of Tav is the

Kabbalah cross of matter, the symbol of Malkuth. This is the world of 'The Royal Kingdom.' Such kingdom is what the mages are attempting to manifest with their Torah spell, in which they rule the world. The 400 is also taken to 40 which is the

number of the Messiah, the magian King of the World. Mordechai also represents the magian Messiah, who is a political leader and Rabbinical adept.

The Tav represents the word 'Amet' which is the seal rabbis put on the golem's forehead, to bring the 'golem' under the control of the Rabbi. This term means the 'removal of consciousness' in the original Egyptian, it's stolen from. This represents the binding of the Gentiles mind by the energy of the magian spell, note the Persian ruler is bewitched and under the spell of Mordechai in the form of Esther. In the future, this binding on the forehead of the GOYLEM will also be the brain chip the magian leaders are working on perfecting to implant into the goyim. The Tav was placed on the forehead in the Torah. The symbol of the individual is the property of the magian 'God.' When Mordechai's archetype, the magian king of the world

conquerors the Gentiles and makes the Gentiles property of the mages.

The adversary of Mordechai is an Amalekite, Haman. The Amalekites are symbolic of the opposition to the magian Kind's goal. Amalek is the occult name of 'Satan' meaning 'Adversary' to the mages, in the magian texts. Mordechai uses Esther to have Haman destroyed and then to obtain from the bewitched, Persian King the decree and military forces that go through the Empire and put all the Amalekites, the enemy of the mages and their entire families to death and steal all their property and wealth for themselves. This includes Mordechai who obtains Haman's property and political power,

Mordechai then becomes the most powerful ruler in the Persian Empire — and Esther his wife, the queen of the Empire, a mageess, whose children will take the throne and be magian by Kind and teaching. The Persian King is nothing but a bewitched goylem by Mordechai and Esther and is a pawn in their hand. Note 70,000 Persianas are stated to be killed. This is the number of seven, the Zayin letter in Hebrew which is the number the mages use to curse their enemies with

to death. Zayin also means 'Zion' the prospective magian world-government. The seven is the number of 'holy destruction' of the enemies of the mages, in Kabbalah.

What this represents on the occult level is simple. The creation of a powerful curse in Hebrew (Esther) by Qabalistic, Rabbinical adepts, which bewitches the Persian King and allows the magian leaders (Mordechai) to take over the entire Empire by destroying all the Gentile opposition and conquering from within the Royal Court. This elevates the mages to power. The reason the Book of Esther was placed in the Bible is to create with the energy of the mass mind of Christian, Gentiles imprinted with this book, and to then connect the ritual of Purim of the mages into this energy and materialize this into the world. Esther is also the Book of Esther, the spell is the book and the energy it creates within the mass mind that the Purim rituals with readings in Hebrew and other aspects of the ritual, the mages connect into with and open the doors to achieve such for them in the physical world.

Its specifically used for placing Gentile political leaders and other leaders in powerful areas, under the mages,

influence — and curses to bring them under control of the mages. The Christian Bible is nothing but an occult form of magian witchcraft to use the mass mind of the Gentiles under the Christian spell of the mages, to materialize the occult workings of the mages into the physical world — and give the mages global control.

Purim is a magian ritual, which is celebrated by all mages and involves two days of major readings from the Torah, of curses against the Gentiles. The ritual includes small triangle-shaped cookies which are given to all the magian children in which they are told to bite into and picture ripping off the head of Haman and destroying all the enemies of the mages. It's a mock cannibal ritual that connects by sympathetic magic into the ritual murders the mages commit, in which they engage in cannibalism of the victim (which is why mages suffer from ailments only cannibal tribes are known to suffer

from due to engaging in cannibalism) and works, in general, to send out vast amounts of energy to curse the Gentiles and open the doors for the mages to be able to conqueror the Gentile host nations from within. Notice how easily the mages just appear and take over every major political party, corporation,

bank and academic institution — within a generation. That is why.

- *Kaba-Allah*

The Muslim Koran is full of the stories of the Torah and Judeo- Christian Bible this includes the fictional character, magesus. Mohammed was a magian character and first stated to be the Messiah of the mages. This all creates a sympathetic connection into the enemy thought-form of the mages. The mystical systems of Islam are all designed to connect into specific passages of the Koran. This also involves the Arabic letters many of which are Hebrew letters as well. Each letter or series of letters connects to a passage, magian character, and

such in the Koran. This includes the 99 names of Allah which are within the Koran and Hadith, that Muslims pray on their rosaries which have the 99 beads for each name and form the underlying basis of Islamic mystical practices. Each Muslim must make the trip to Mecca at least once in their lifetime. In which they must visit the Kaaba, the cube, and walk around it counterclockwise seven times while offering prayer.

This ritual also includes the ritual slaughter of animals, and the stoning of the Devil when they throw rocks at three pillars denoting the Devil. The Kaaba is stated to have been built by the magian prophet Abraham thus, creating a further tie into the enemy thought-form with the cube. This ritual is designed to raise negative energy from ritual murders of animals and the prayers into the enemy thought-form that connects with all this, while attempting to curse and bind our Gods. The three pillars are due to the number three being of materialization of energy.

The cube is the shape of the element of earth in sacred geometry all Muslims perform stolen yogic postures on their prayer mat, five times a day on the solar power points and then direct this energy towards Mecca to the cube. The reason for this is the cube materializes energy from the astral which the mental aspect is connected to and exists within, and brings this energy into the material world from the astral. The mages wear the Tefillin box which is designed to look like the cube at Mecca as rabbis state and they tie the straps for this seven times on their arm in the same direction the Muslims circle the cube. This creates a

sympathetic tie into this Muslim ritual and connects the energies in the astral to bring them into the material world. The black cube of the magian Tefillin relates to the Shema prayer which is a formula to materialize the enemy thought- form.

The Hindu temple in the east is built around the cube as the center. Of which they built the Meru or cone- shaped tower over. To act as a pyramid structure to create a cone of energy from the astral

with this geometric shape into which the cube in the center the energy materializes. All the Hindu rituals are done within this cube by the priests and facing towards the cube by the other participants. This materializes the energy of the rituals into the world. People who visit these ancient Hindu temples mention you can place your hand on the walls and feel the stones vibrating with energy. This is because they are infused with the energy from the astral of the geometric shape that forms the center of the temple and the collective psychic power of centuries of the rituals within them.

The Mosques traditionally are the central dome, which is a cone of power, a pyramid shape this is to bring in astral energy and infuse this into the power of

the rituals being performed five times a day within them. The towers on the corners act as obelisks that transmit energy out of the earth and direct them from the energies of the four directions into the dome and charge the ritual further. This energy is together directed towards the cube at Mecca.

- *Where the Kabbalah Comes From — and Planetary Control:*

The ancient Hebrew schools of the Prophets is where initiates in ancient Pissreal went to be taught the Torah, the information they were taught by the Adepts was the information needed to decode the Torah, this also includes the techniques of the psychic ascent to be able to open the higher psychic centers in the magian alien soul and be able to communicate with the group of entities they call the Elohim, which is what the Prophets of Pissreal are famous for in the Bible. The initiates in the School of the Prophets of ancient Pissreal were called in Hebrew, NiKabal, meaning the receivers, Kabbalah means To Receive in Hebrew. This also relates to the psychic level of the soul, to receive

telepathic communication from the Elohim. It also means to be advanced in the soul and the abilities that come from it. This also relates to having this

information telepathically given to the student by the rabbi.

The reality is the Kabbalah has always been one thing, the occult level of the Torah. This is obvious if one studies the Kabbalah, the 72 names of 'God' which form the heart of most of Kabbalah is encoded within the book of Exodus 14:19-21. The methods to use to 22 letters which form the major school of Kabbalah, the Creation by the Word, are encoded in Genesis and the Kabbalah teachings of the School of the Mystical Ascent is within Ezekiel. The Torah is written in Hebrew, each letter of Hebrew has its own number the numerical teachings of the Hebrew letters of gematria are part of Kabbalah. The Kabbalah means to receive the hidden teaching of the Torah, the occult knowledge of the Kind of Pissreal. When the Bible mentions Pissreal, it's talking about the Kind of the mages and their alien soul.

The Kabbalah is based on the knowledge of the alien soul of Pissreal. Rabbi Laitman, who is a major magian

leader, in an open lecture in Pissreal to an entire magian Yeshiva, also openly stated that Pissreal is an alien soul group here to take the human world over and conqueror the planet from within for their Reptilian God. If one studies the occult level of Judaism the leadership of the rabbis is all masters of Kabbalah the religious mages spend much of their time in the Yeshiva studying the Kabbalah texts from the rabbis. Also, from here the best of them are selected and trained in the Oral Torah, which is the teachings of the Prophets of Pissreal. The leading rabbis don't hide the fact they are very psychically advanced from years of practicing Kabbalah and in communication with their 'God' the Reptilian Elohim.

The 70 rabbis are the Sanhedrin who are supposed to rule the world government from Pissreal with the building of the magian Word Order. The members of the Sanhedrin are selected for being adepts of Kabbalah and being telepathically advanced and in communication directly with the Elohim. This will mean the enemy extraterrestrials,

the Reptilians who are the Elohim the 'God' of the magian Kind, will have direct control of the world government through the mages and

will be able to give orders directly to the magian adepts who run the world government to dictate their evil commands to the enslaved population of the world.

The Sanhedrin in Pissreal is already writing the Kings Torah, which is the document the magian world government will be run on. Its instruction is to create the one-world Communist feudal plantation state, in which only the magian King and the mages will have human rights and own property. The world will live under a planned economy in which private property will be abolished along with rights, individual nations, religions, cultures will all be abolished by the magian King, the mages will also each have individual Gentiles as personal slaves. This is stated in the Kings Torah, the Sanhedrin are creating in Pissreal. Everything the New World Order is doing as the plan is found in

the King's Torah. Because it's the mage World Order.

- *Christ is a Qabalistic magian Death-Curse*

The entire Bible is Kabbalah the symbolism within the Bible is part of Kabbalah, the sympathetic or

talismanic magic, the symbols within Kabbalah are vibrational templates that are the forms of astral frequencies that relate to the aspects of the enemy thought- form of YHVH. The images of the mind are vibrational forms in the mind that connect with the mass mind by the element of Ether which relates to mind, KETHER in Kabbalah relates to this realm the energy of the YHVH before it becomes material. The symbols connect to the Hebrew alphabet and the reading of the Hebrew and the sonic-astral algorithm this creates. Symbols manifest, direct and connect energies from the astral, Kether into the material, Malkuth.

In the ancient magian tradition Theologians know that magesus is the magian Arch Angel Michael, who is the angel that protects Pissreal (the magian Kind) and the mages pray to as the destroyer of their enemies [the Gentiles] and Michael is the weapon the advancer of their racial agenda. Michael is mentioned in the Torah. The magehovah Witnesses also know this and state magesus is the Arch Angel Michael. Rabbis have stated the major angels such as Michael are Egregores that are manifestations of the 10 spheres or levels of the

overall thought-form of YHVH which is shown as the world tree. Michael is shown with the flaming sword and so is magesus in Christian art. This sword is the Zayin or Zion letter in Kabbalah the seventh letter, magesus is given the number 777 which is Zayin, Zayin, Zayin. This letter is what the rabbis use to attack and destroy their enemies. The sword of Michael is Zayin, it's the sword of Zion. The symbols and the letters all connect to manifest and direct the energies of the magian energy thought-form YHVH.

Michael the Arch Angel is the one who casts Satan out of heaven and down to earth and binds Satan, Satan is called the serpent (soul energies) of the Gentiles in the Bible. This shows the binding of the serpent in the root chakra that of the earth element after being driven down from heaven the crown chakra. The sword of Michael is the flaming swords the Angels used to bind the soul in the Garden of Edin. The entrance to Edin in Kabbalah is the door to the Sushumna and the Gan Edin is the pineal region and how it connects to the crown chakra. Being driven out is driving down the serpent from the crown chakra into the root chakra and then binding it there with the

symbol of magesus- Michael the sword of Zion and the Hebrew formulas and letter in Hebrew it connects with.

The serpent is made to crawl on the ground after this and the Hebrew curses YHVH (the magian Kind) speaks against the serpent in Hebrew, in the magian Torah are used to bind the serpent energies in the root chakra of Gentiles. The curses that are read off

by the mages in the Torah in Hebrew connect with the symbolism of the text to feed the power into all this.

Therefore, the symbolism of the binding of the Gentile soul from the Genesis text is connected into the symbolism of the New Testament with Satan being cast out of heaven by magesus-Michael, it's connecting the energies of the mass mind of Gentiles into this curse to bind them. Satan falling from Heaven like Lighting as the Bible states is the symbolism of the Zayin letter the sword of Zion in Kabbalah the flaming sword binding the Gentile serpent at the root chakra.

magesus (Michael) is crucified on the place of the Skull (Kether) on the cross of Malkuth and the number for this is the six in the Bible, and Michael is the six spheres on the world tree of Kabbalah which is the

world that connects the entire magian Egregore and feeds the energy into it. Hence the solar symbolism of magesus is the symbolism of the sixth sphere in Kabbalah. This symbol of magesus on the cross with

the skull in many Christian artworks is a talismanic form of Kabbalah magic, it's a sigil to direct energy, hence it's the main symbol of the Hebrew Egregor.

The symbol of the crucified Christ is directing the energy of the magian YHVH from Kether the astral into Malkuth the material realm and connecting this together by the image of Christ the six sphere that connects the power

— it's materializing the entire YHVH thought-form of the mages into the world through the sixth sphere which is the destruction of Gentiles, it's a death curse.

This energy is based on binding Satan which is the Gentiles in Kabbalah, and the Torah as Michael is the energy of attacking and binding the Gentiles and the Gentile soul and magesus is Michael and so the energy directing into the image of Christ goes to the aspect of the YHVH that binds and destroys the Gentiles directly. The other number used in this image in the Bible is the seven statements of Christ on the cross, the Zayin

letter to charge such with more destructive energy and to complete the binding.

The reason magesus is shown in such a sad position is to generate sympathetic energies to create the needed emotional connection by sympathy to open and connect the mass mind into this symbol into their psyche. That is why the focus on love, sympathy, and such emotionally open people up mentally and connect them into the binding spell. The focus is also on guilt which opens the mind up to accept the curse that is being directed at the Gentile victims by the talismanic sigil of Christ-Michael and thus, destroy them. When magesus states he is the 'Alpha and Omega' this has been stated by Theologians originally it was the Aleph and Tav, the entire Hebrew alphabet which is the 22 letters that form the algorithm of the magian thought- form.

In Kabbalah, the Aleph is called 'The Curse' and Tav 'The Man.' What this means is magesus is the curse on mankind and the Hebrew Alphabet is the curse on man. The Hindu ascension texts state what causes death in humans is not awakening the

serpent in the root chakra and raising it upwards to the crown. The

Kabbalah spell of Christ is to make this impossible to achieve and thus, damns Gentiles to death! The magian rabbis know this.

The National Socialist government which was run by Satanic spiritual adepts who were working to bring back the Orion ascension religion that was in ancient Egypt (The Nazi, Thule Society name was from Tula which relates to Orion), knew this and ordered all images of Christ to be taken down from all public areas to lessen the curses of the enemy. They are also and this was commented upon by many, flooded all their rallies with Swastikas and placed them everywhere in Germany. The Swastika is the Gentile Talisman of spiritual protection and relates to the opening of the Third Eye and crown chakra.

This area was shown with the Uraeus serpent sitting upon it in Egypt which was the symbol of spiritual protection and advanced awareness and

enlightenment. The Nazi adepts were using this symbol to protect the German People and to channel the energy of this symbol into the German People to awaken their Third Eye and crown chakra and higher spiritual awareness to Truth. That is why the Nazi

spiritual adepts put the Swastika upon a banner that read: 'Germany Awake!' to awaken the higher spiritual mind of the German People and undo the magian Kabbalah curses against them.

- The Ark of the Covenant and magian Curses on Gentiles The concept of the Ark was stolen from the Egyptians. In*

Egyptian, the Ark of Amun is shown to be the spine with the seven chakras. Being carried by a row of seven men. With the area of the heart chakra having the twin figure of Isis with the spread wings facing each other. Showing the heart chakra where the upper and lower chakras meet at the chest. [1] The Ark of Amun is in the shape of a boat. In Judaism, the Ark is just a symbol of the Torah that

was stolen and corrupted from Egyptian symbolism for a reason. In Judaism, they have the Torah Ark in which they place the Torah after they read from it in the Synagogue.

This is what the Ark of the Covenant is. This Torah Ark is called the 'Holy Ark.' This name is a reference to the 'Mārān haqqādeši, the Hebrew name for the Ark of

the Covenant which was stored in the Holy-of-Holies in the inner sanctuary of both the ancient Tabernacle and the Temple in Jerusalem.

Similarly, Hekhāl, also written hechal, echal or heichal and sometimes also Echal Kodesh (mainly among Balkan Sephardim) comes from Hebrew (הַקָּדֵשׁ) and at the same time-period to refer to the inner sanctuary. The hekhal contained the Menorah, Altar of Incense, and Table of the Showbread.' [2] The purpose of the Torah is to use the 22 Hebrew letters to generate a highly charged energy field of negativity to bind the Gentile Soul and bring about the destruction of the Gentile world. In the Torah the mages use this Ark

as a weapon to destroy the Gentile nations they war unceasingly. It's an open weapon. Therefore, the Greek and Roman rulers banned the Torah and banned it from being read. The mages call their 22 Hebrew letters the 22 names of their 'God.'

The reason the mages stole the image of the Ark of Amun to create a corrupted and shortened image to create their own Ark from. Is because this is about

attacking and binding the Gentile soul. Every curse on the Gentile is done by the 22 Hebrew letters. Even the corruption of the symbol of the Egyptian Ark to create this magian trash is a form of cursing Gentiles using Qabalistic Talismanic magic. This is the purpose of corrupting the image. The magian Ark is purposely made to be in the shape of the cube which ties into their energy.

- *The magian Shema Prayer*

The letter Shin is the name of 'God' in Hebrew; it's the Ha Shem is in Hebrew: The Shin. This is where the name Shema comes from and why: it's one of the most important names of YHVH the magian Kind in the Torah. In the magian Kabbalah which is then decoded Torah. Moses defeats the forces of Amalek by holding his hands above his head making the symbol of the Shin letter. This is relating to one thing in Judaism.

The Tefillin the black box the mages wear on their head that contains the Shema prayer. That they wear while praying the Shema prayer. The secret symbol of the Shin letter in Kabbalah is the main Shin with the three

prongs which represent the upper world of the Kabbalah tree the left side of the brain, Binah, the right side of the brain Chokhmah and the crown and optic thalamus, Keter. But there is another Shin with four prongs inverted and interlocking within this facing downwards towards the three prongs. Making the occult Shin this is the 'Second Shin' of the

mysterious 23 letters in Kabbalah. The four prongs stand for YHVH.

In Judaism, the Shema prayer is what the rabbis state is what will bring about the Messiah the magian world kingdom in which the Gentiles which also means 'Nation' which actually means Kinds of mankind. Will be destroyed by the magian Kind and the world turned into a magian one only. This is why the Shin letter in Judaism is the symbol of their 'God' destroying the different Gentile nations in the Torah. Each mage is supposed to get 2800 Gentiles as slaves if one does the math on the 144,000 number which represents the 12 tribes of Pissreal in revelation who follow the magian Messiah in destroying the nations of the world. This literally means Gentiles of the world. 2800 worked out to 144,000 adds to around 403 million a number

relating to the Georgia Guide-stones which demands the population be kept at under 500 million. This mysterious monument was put out by one of the magian-runFreemasonic

organizations which is a Qabalistic Society. Note this monument ties into the magian Bible.

The final fact of the Shema prayer which is the most important statement of faith in Judaism is for destroying the Gentiles to bring about the end of the Gentile word is simple. Amalek in Hebrew is the occult word for Satan. The mages call the Gentiles 'Satan' in their sacred texts. However, Amalek refers especially to the Hyperborean Kind as the actual direct descendants of Satan. The God ENKI whom the Sumerians' also called Satan was stated to be the creator of the 'Ari' whom He created in His own image. Ari is the name 'Aryan' the Sumerians are known to have been Hyperborean with blue eyes. However, the mages do hold the other Kinds to be related to Satan as well.

The Shema the three prongs as mentioned relate to the three worlds which form the brain in Kabbalah the seat of consciousness. However, the other four prongs relate to the 'YHVH' as the thought- form they have

created which is the magian Bible which they use the Shema to bring down to the material realm through the astral and connect and channel this thought their own consciousness the individual magian mind connected to the greater mind or program of this thought-form allowing the individual mage to become a conduit for this power to manifest. This is also relating to bringing this down from Keter the realm of 'God' that of the astral or ether where this energy is generated to Malkuth which is the physical realm which means 'The Kingdom' which is the Kingdom of the mages they want to build on earth.

The Tefillin is the symbol of Malkuth. The three prongs of the Shin relate to Avir the Ether, Shekhinah the vibration created by speaking the Torah, and the Elohim which is the manifestation of this vibration the consciousness field it generates in the astral. The Shema is how this is materialized into the physical realm of the Malkuth hence the four prongs as well.

YHVH relates to the four elements of creation that form the symbol of the earth element the cube of

the square. The YHVH is also the symbol of the Torah. The Shema materializes the entire spell of the Torah. The

2third letter of the second Shin 2+3=5 the five elements Sh is fire, E is ether, M is water and A is air.

That is what this means. This relates to bringing the astral realm the ether to the physical world the four elements to fully manifest this spell from the ether or astral to Malkuth the physical world. The Shema RTR was a major key to defeating the magian Kind totally, forever. The Shema RTR is to be done daily. The in the magian Bible, this Shema materialized as one large death curse on all Gentiles (until we reversed it). So, the Greek and Roman rulers ordered the magian Torah burned and banned it from being recited by the mages.

They were adepts in the Pagan religions and knew what this book of the mages is. Thanks to Satan and the Gods the power to stop this is now in your own hands. The rabbis warned in their own Kabbalah that Satan would destroy the mages by destroying

the Torah by reversing it! The RTRs were given to us by Satan and the Gods. Satan is also code for Gentiles which means the Gentiles will destroy them by reversing the Torah. Source:

Contributions 36. The Kabbalah the Truth of
YHVH the magian God*

Judaism is based on the Torah and lists there are two aspects to the Torah the encoded Torah and the decoded Torah. The decoded Torah is called Kabbalah. The rabbis have the keys to decode the encoded Torah. In Kabbalah 'God' YHVH the name of the magian 'God' is shown as the world tree with the 10 Sefirot on it.

Kabbalah states the 10 Sefirot are divided into three upper ones the upper face and the seven lower ones the lowers face. The three upper worlds are Kether, Binah, Chokhmah. This Kabbalah states are the left brain, Binah, the right-brain, Chokhmah and the

Optic thalamus — Kether. The three upper Sefirot are called the three heads or the three faces. This is ancient symbolism is the symbol of the three parts of the brain and the three nadis the moon, sun and middle channel merging together in the head. The head of the trident is another way this is shown. The image of the three upper faces or heads is still in Hindu symbolism:

The seven lower faces or Sefirot in Kabbalah are called the 'Seven Elohim' the seven Gods are also called the 'seven lights' and relates to the seven planets. The seven planets are seven chakras the name 'Gods' is also an ancient term for the seven chakras and so are the 'seven lights.' YHVH in Kabbalah as a name is openly stated to be nothing more than a code for the 10 Sefirot on this tree: The Yah letter is Kether and Hokhma, the Heh is Binah, the Vav is Gevurah, Tiferet, Chesed, Netzsach, Hod and Yesod. The second Heh is Malkhut.

The three pillars are the left, right, and middle of the body. The left is where the female nadis or energy pathways are and the right the male nadis.

They meet in the middle at the middle pillar. This concept is still shown in Hinduism as Ardhanarishwara: The three pillars also represent the sun, moon and middle channels in the spine. The worlds are divided into male and female Sefirot or energy centers. The male and female parts of the soul. Much of the talk on the Sefirot in Kabbalah is just on the uniting of the male and female Sefirot which is the point to sexual unite the male and female chakras and the soul. Kabbalah calls

this practice 'Daath' which means in this context 'sexual union' which creates the new soul.

The four worlds associated with the tree Atzilut, Briah, Yetzirah, and Assiah, are related to the four elements with Daath being the hidden fifth world of spirit. They also relate to the five main sheaths this is still found in Hinduism. The physical body the prana body, the astral body the mental body and the emotional body. That come together to form the person. In Kabbalah the soul simply reincarnates which they call 'Gilgul' in Kabbalah. And so, this process is done according to the karma of the

individual soul. There is no literal heaven with a 'God' sitting in it in Kabbalah. In Kabbalah, the highest 'God' is simply the Ain Soph which in Kabbalah is a code for Kether the crown which relates to the element of space. There are only nine Sefirot counted in Kabbalah, not 10. Kether has considered not part of this for reasons it relates to the union with the Ain Soph and the essence within all the other Sefirot.

The Ain Soph is called simply 'a force' in Kabbalah and nothing else it's the subtle energy that manifests existence. The nine Sefirot are seen in the Norse with

the nine worlds on the tree. The number 10 is a code for union with spirit the one in Kabbalah is spirit as it unites and adds into all numbers all this core element does into all forms. The O is the female symbol of the physical body or Prakriti in Hinduism that unites with spirit or Purusha. The union of both occurs at the crown.

The goal of Kabbalah is to raise the Shekhinah from Malkuth the root chakra to 'God' in Kether the crown. This is the union of Shiva and Shakti in Hinduism.

There are actually 33 pathways on the Kabbalah tree as Kether is the hidden 3third pathway in Kabbalah. This is the 33 vertebrae of the spine which Shekhinah the serpent energy must travel thought to unite with 'God' at Kether the crown at the top of the head. This is also the 33 Devas in Hinduism — and 33 degrees of Masonry. Note Ain is the Hebrew letter that is given the all-seeing eye and is called this in Kabbalah.

Kether the crown connects to the pineal gland in the brain. This concept of Kether as the actual 'God' is in Hinduism. The crown is called Guru which means 'God' for the same reason. It connects to the eternal essence of 'That Which Is Not' the Shiva Tattva in Hinduism.

In Kabbalah, the 22 letters relate to the seven planets the 12 signs of the Zodiac and the three elements. However, this is taken from the Greek 24

letters which in Greek the seven planets, 12 signs of the Zodiac and five not three letters for the five elements. The letters on the tree are designed to be vibrated in certain patterns to lead the Shekhinah up the 32 paths to the 3third path of Kether. The individual physical mage is literally called 'God' in Kabbalah that is all. The 10 Sefirot also relate to the formation of the physical body and how it overlaps the soul. Making simply a physical human being.

This shows the truth Kabbalah is stolen and corrupted from more ancient spiritual teachings of other cultures hence much of this is still found in Hinduism. This many Pissreali mages who went into Hinduism and were initiated into esoteric Hinduism, Tantra in India simply left and went back to Judaism as they stated everything, they found in Hinduism was already in Kabbalah.

The entire Bible is Kabbalah the symbolism within the Bible is part of Kabbalah, the sympathetic or talismanic magic, the symbols within Kabbalah are vibrational templates that are the forms of astral frequencies that relate to the aspects of the enemy thought- form of YHVH. The images of the mind are vibrational forms in the mind that connect with the mass mind by the element of Ether which relates to mind, Kether; in Kabbalah relates to this realm the energy of the YHVH before it becomes material. The symbols connect to the Hebrew alphabet and the reading of the Hebrew and the sonic-astral algorithm this creates. Symbols manifest, direct and connect energies from the astral, Kether into the material, Malkuth.

In the ancient magian tradition Theologians know that magesus is the magian Arch Angel Michael, who is the angel that protects Pissreal (the

magian Kind) and the mages pray to as the destroyer of their enemies

(Gentiles) and Michael is the weapon the advancer of their racial agenda. Michael is mentioned in the Torah. The magehovah Witnesses also know this and state magesus is the Arch Angel Michael. Rabbis have stated the major angels such as Michael are Egregores that are manifestations of the 10 spheres or levels of the overall thought-form of YHVH which is shown as the world tree. This letter is what the rabbis use to attack and destroy their enemies. The sword of Michael is Zayin, it's the sword of Zion. The symbols and the letters all connect to manifest and direct the energies of the magian thought- form YHVH.

Michael the Arch Angel is the one who casts Satan out of heaven and down to earth and binds Satan, Satan is called the serpent (soul energies) of the

Gentiles in the Bible. This shows the binding of the serpent in the root chakra that of the earth element after being driven down from heaven the crown chakra. The sword of Michael is the flaming swords the

Angels used to bind the soul in the Garden of Edin. The entrance to Edin in Kabbalah is the door to the Sushumna and the Gan Edin is the pineal region and how it connects to the crown chakra.

Being driven out is driving down the serpent from the crown chakra into the root chakra and then binding it there with the symbol of magesus-Michael, the sword of Zion and the Hebrew formulas and letter in Hebrew it connects with. The serpent is made to crawl on the ground after this and the Hebrew curses YHVH (the magian Kind) speaks against the serpent in Hebrew, in the magian Torah are used to bind the serpent energies in the root chakra of Gentiles.

The curses that are read off by the mages in the Torah in Hebrew connect with the symbolism of the

text to feed the power into all this. Therefore, the symbolism of the binding of the Gentile soul from the Genesis text is connected into the symbolism of the New Testament with Satan being cast out of heaven by magesus- Michael, it's connecting the energies of the mass mind of Gentiles into this curse to bind them. Satan falling from Heaven like Lighting as the Bible states is the symbolism of the Zayin letter the sword of Zion in

Kabbalah the flaming sword binding the Gentile serpent at the root chakra.

magesus (Michael) is crucified on the place of the Skull (Kether) on the cross of Malkuth and the number for this is the six in the Bible, and Michael is the sixth sphere on the world tree of Kabbalah which is the world that connects the entire magian Egregore and feeds the energy into it. Hence the solar symbolism of magesus is the symbolism of the sixth sphere in Kabbalah. This symbol of magesus on the cross with the skull in many Christian artworks is a talismanic form of Kabbalah magic, it's a sigil to direct energy, hence it's the main symbol of the

Hebrew Egregore. The symbol of the crucified Christ is directing the energy of the magian YHVH from Kether the astral into Malkuth the material realm and connecting this by the image of Christ the six sphere that connects the power, it's materializing the entire YHVH thought form of the mages into the world through the sixth sphere which is the destruction of Gentiles, it's a death curse!

This energy is based on binding Satan which is the Gentiles in Kabbalah, and the Torah as Michael is the energy of attacking and binding the Gentiles and the

Gentile soul and magesus is Michael and so the energy directing into the image of Christ goes to the aspect of the YHVH that binds and destroys the Gentiles directly. The other number used in this image in the Bible is the seven statements of Christ on the cross, the Zayin letter to charge such with more destructive energy and to complete the binding.

The reason magesus is shown in such a sad position is to generate sympathetic energies to create the needed emotional connection by sympathy to open up and connect the mass mind into this symbol into their psyche. That is why the focus on love, sympathy and such emotionally open people up mentally and connect them into the binding spell. The focus is also on guilt which opens the mind up to accept the curse that is being directed at Gentile victims by the talismanic sigil of Christ- Michael and thus, destroy them.

When magesus states he is the 'Alpha and Omega' this has been stated by Theologians originally it was the Aleph and Tav, the entire Hebrew alphabet which is the 22 letters that form the algorithm of the magian thought-form. In Kabbalah, the Aleph is called 'The Curse' and Tav 'The Man.' What this means is magesus is

the curse on mankind and the Hebrew Alphabet is the curse on man. The Hindu ascension texts state what causes death in humans is not awakening the serpent in the root chakra and raising it upwards to

the crown. The Kabbalah spell of Christ is to make this impossible to achieve and thus, damns Gentiles to death. The magian rabbis know this.

The National Socialist government which was run by Satanic spiritual adepts who were working to bring back the Orion ascension religion that was in ancient Egypt (The Nazi, Thule Society name was from Tula which relates to Orion), knew this and ordered all images of Christ to be taken down from all public areas to lessen the curses of the enemy. This was commented upon by many, flooded all their rallies with Swastikas and placed them everywhere in Germany.

The Swastika is the Gentile Talisman of spiritual protection and relates to the opening of the Third Eye and crown chakra.

This area was shown with the Uraeus serpent sitting upon it in Egypt which was the symbol of spiritual protection and advanced awareness and enlightenment. The Nazi adepts were using this

symbol to protect the German People and to channel the energy of this symbol into the German People to awaken their Third Eye and crown chakra and higher spiritual awareness to Truth. That is why the Nazi spiritual adepts put the Swastika upon a banner that read: 'Germany Awake!' to awaken the higher spiritual mind of the German People and undo the magian Kabbalah curses against them.

- *mages Have Cursed the Black Kind*

The Torah is full of curses on all Gentile Kinds. This includes the Hyperboreans who are called Amalek and are order to be totally exterminated by the mages. Hence the magian created political Hyperborean Genocide cult of Cultural Marxism is not anything but the mages practicing their racial religion in a bogus political cloak. In the Torah, Noah cursed Ham to be a slave to Shem. Ham was the father of Cush and the Cushites were the ancient title of the Black Kind and areas in Africa. This is the curse of Ham. However, the major curse against the Blacks is in Isaiah this one is never

mentioned because it's too obvious. In the Torah, the

book of Isaiah 14:14, the 'Lord' says: 'The products of Egypt and the merchandise of Cush, and those tall Sabeans they will come over to you and will be yours, they will trudge behind you, coming over to you in chains. They will bow down before you and plead with you, saying, 'Surely God is with you, and there is no other; there is no other God.'

Note here we have the Cushites being put into chains and enslaved to the children of Pissreal. Note the mages call Gentiles the property of the magian Kind, i.e., merchandise which is property means 'goyim.' When the mages ran the Black slave trade, they used these passages from the Torah to justify the slave trade to the Christian population. The mages call the curse of Ham the Noachide curse. What do you think is going to happen to Blacks if the mage World Order gets the Noahide Laws the magian rabbis had passed into law in America under the first Bush, imposed on the population. What already happened in the past numerous plantations

and households run by mages having their Cushite slaves to do the work for them.

The book 'The Secret Relationship Between Blacks and mages' wrote at least 70 percent of all slave owners

of Blacks in America were mages and consider the mages were only around one percent of the entire American population. The first synagogue built in America was in New Port, Rhode Island as this was the hub of the magian-run African slave trade. This is also why the mage Karl Marx advocated the public for keeping the slave trade going in his papers.

However, note the other part of this curse against Blacks in Isaiah the Blacks bow before the magian God and worship, it as the only one master and thus, become spiritual slaves to the mages. Every Black person in a Christian church has fulfilled the curse of Isaiah they bow before the mages and claim there is no other God but the magian one.

The mention of chains in Isaiah for the Blacks this in the magian Kabbalah is symbolic of the spiritual

curses of the Torah on the Gentiles each of the 22 Hebrew letters is a link in the long chain of slavery. The only way for freedom is to break the chains of the mages with the Final RTR. This is why black neighborhoods in which a Church is on every corner are destroyed warzones. The curses of the mages are upon them. If one studies the history of Nubia and the Blacks even

today like the Dogons they followed the Egyptian Pagan Gods, the Demons of Satan. Even the spiritual leaders of the Dogons have names such as Amon Ra.

In Hinduism, the concept of penances is originally the fact that one can actually negate negative karma and neutralize it before it can manifest into the world and life of the person, cancel it out. The mages, in their Kabbalah, are obsessed with this concept; however, it's done to negate any of the karma they have created from manifesting into the world against them. This is done by the mages in

one way as transference where they redirect the energy (karma is energy) towards another direction instead. The scapegoat ritual the mages perform is the attempt to transfer the negative energy of their criminal deeds onto Gentiles and curse Gentiles with it. This is also why the mages blame everything on Satan-

By doing this they also work to direct the negative thought energy of the masses and use it against Satan and the Gods. The magian program of Islam has a mass ritual during the Haj at Mecca where the Muslims

'stone Satan,' throwing rocks at several pillars and scream with rage. This is sympathetic magic in Kabbalah. It's designed to direct that energy or karma against Satan and the Gods as a mass curse. No doubt the magian rabbis also used this energy in the past to attempt to abuse the Gods.

The RTRs cancel this transference out — and already have permanently to a massive extent. The magian rabbis state that the mages suffer because

the Heathen Nations exist. In normal speak, it means our Gods still act in the world against the mages. The mages want to close this door but have failed. This is one reason their witchcraft book and program of Xianity, and Islam is obsessed with removing spiritual power from the Gentiles, so people are closed off to the spiritual world.

- *The mages Have Cursed Gentiles to Death*

What causes death, aging, misfortune, sickness and suffering — is listed many times in the Eastern spiritual texts of Hinduism. It's because of the Kundalini serpent of Satan being bound in the root chakra,

sleeping and un-awakened: The Kundalini when she sleeps is identified with the fire of time... that cooks all creatures to death, thorough the aging process. The fire of yoga (yogagni) that destroys the fire of time, is identified as kalaagnirudra, the 'Rudra of the Fire of Time,' that is, a fire when she awakens which is greater than, which consumes, the fire of time.

When she sleeps, the kundalini is associated with the fire of time, a time whose passage marked by the movements of sun and moon in the subtle body; when she awakens, sun and moon (here the ida and pingala nadis) are both immobilized, and the kundalini doubling as the sushumna nadi is said to 'consume time.'[1]

When the serpent ascends the spine to the head it's stated to unleash a pillar of Ambrosial nectar which is the Amrita which means literally 'deathlessness.' That floods the entire being transforming them into an immortal Siddha meaning Perfected. The magian enemy in their Torah has placed numerous curses upon the Gentile serpent of Satan to bind the Kundalini energy in the root chakra and keep it un-awakened — and make it dangerous to attempt to awaken this

power for anyone. The magian enemy has cursed every generation of Gentiles literally to DEATH.

Note the Kala Agni Rudra the spiritual fire the destroys the fire of time and liberates one into

immortality. Rudra is the main title of Shiva and Shiva is called Satan Shiva. The Eternal Shiva in Sanskrit.

Shiva's symbol is the serpent and originally in ancient texts in the ancient garden of Sri Lanka, Shiva created Adimu (proto-man' and Eva (apple) and taught them how to ascend the serpent and create the Light Body and become immortals. Even the description of Edin is the Mount Meru of Hinduism.

The magian enemy stated originally, they came out of India. They stole this text and rewrote it in Hebrew to become a curse on Gentiles to curse all Gentiles to DEATH. They made raising the serpent of Satan the original sin and this Yahweh (the magian Kind) was inserted in the story with the rewrite and it was Yahweh (the magian rabbis using the Hebrew alphabet) who drove the serpent down the spine onto the earth and spoke the curse upon the Gentile serpent, placing the magian angels at the gateway of

the garden with flaming swords to prevent them from returning.

Angels are symbolic of magian curses and thought- forms in Kabbalah and the flaming sword is the symbol of the Zayin letter which is used for cursing and binding the Gentile soul in Kabbalah. For this reason, Kabbalah states that this is how the mages will be able to become 'God' and rule the Gentiles. By cursing them to death. The mages have driven Gentiles out of immortal life and eternal spiritual bliss into this miserable world they created. It states right in the Torah Yahweh (the magian Kind) stopped humanity from eating from the tree of immortality.

Where Satan gives us Eternal Life. The Sanskrit texts are full of instructions of literal immortality by serpent power Yoga which came from Satan. The Final RTR is the way to undo this as their 'God' Yahweh is the one who pronounces the Death Curse on the Gentiles by binding the serpent of Satan in this text.

Their Yahweh is the 22 Hebrew letters. Xianity is literally a death cult. This is what gives this magian spell power and allows the mages to remove all the

spiritual knowledge from the Gentiles and bind them to slavery and death.

- *The Mana Stolen from the Pagans*

In the ancient cultures of the Viracocha-worshipping Aryans in South America, the word Mana is what is used for spiritual power this is the same in the Far East regions. In Hinduism, the ancient serpent Goddess is called Manas and Manasa,' relating to the moon. In ancient Greek Mana means 'mother and monad are spelled Monas in ancient Greek — and in the runes Mana, and also, spelled Manas. It's an important rune, and also, denotes moon. The Goddess Manasa: In the Sanskrit texts Manas is also spelled Manasa and Mana is given to the Ajna chakra the sixth chakra. But also, to the region of the pineal gland. The concept of this was stolen by the mages and put in their Bible as the

'manna from heaven' they make a big deal out of this in their Kabbalah. Just more stolen and corrupted information.

The ancient Greeks call Mana the golden rain or dew from heaven. This relates to the Hyperboreanning of the metals the transformation of the chakras by the Amrita or golden rain. This Golden rain is also called the Golden nectar in Taoism and is described as the taste in the mouth that comes with the activation of the pineal region in the head. The Hyperborean is also the color of the dew or drop of Shiva which relates to the Moon center. Mana is a stolen mantra to activate the pineal region. In Sanskrit, it rules the total enlightenment of the mind.

The 'Hand of God' In Kabbalah Stolen from The

East- The very popular Hamsa amulet in the

magian

Kabbalah that celebrities into the Kabbalah like

*Madonna have made famous: The Hamsa amulet
was stolen out of the ancient East. It's used in
Hinduism and later Buddhism when it was created.
There is a lot of nonsense claiming what this is in
Kabbalah. In Hinduism, the most important mantra
of Kundalini Yoga is that of Shiva and Shakti which
is the Ham (Shiva) and SA (Shakti) mantra.*

*This is used as part of a prana Kriya to open the
centers in the brain. However, in Kabbalah, the
symbol of the open hand is the crown chakra, and
the all- seeing eye is the pineal gland, or as they call
this, the Eye of God. The full and proper spelling of
this mantra in the ancient Hindu texts is Haum
Saum. Haum is the bija mantra of Shiva and placed*

in the crown as mentioned in the previous article on this subject.

Furthermore, Saum is the bija mantra of Soma the moon deity the sixth chakra. The five fingers of the Hamsa hand in Hinduism and Buddhism represent the five elements that come together in the Third-Eye.

This amulet stolen from ancient Hinduism is the formula for opening the crown chakra and Third-Eye and how they interconnect. And so, it's the name of Shiva and Shakti — it's not even Hebrew, as it's

Sanskrit; what else is stolen from Hinduism in Kabbalah?

In Kabbalah, they call the highest God the Ayin which is the 16th letter in Hebrew and means 'eye.' And in Kabbalah is simply the term for the all-seeing eye. In Kabbalah, it states when Yahweh states his name is: 'I' am what I am.' This is Qabalistic: Ayin, Yahweh is Ayin. Ayin is the 'Eye of God' and the pineal gland in Kabbalah. This is also stolen from Hinduism from Ain which is the bija mantra of the Goddess Saraswati. It's 'Ain' not 'Aim,' having the

symbol of the nasal N sound (anusvara) not the M in Sanskrit. The AIN mantra is given for the Sri Yantra which is the yantra of the Moon Chakra the All-Seeing Eye. The AYIN the Y is a double letter with me in Kabbalah so it's redundant. The number of 130 for the full spelling for Ayin is based on five times 26. The five elements and the number of their 'God' that of 26. In Kabbalah, which is the pure understanding of the Torah and Judaism, they state their 'God' is simply the energy of the letters and the All-Seeing Eye. The chakra points in the head. This is a concept they stole from ancient religions such as Hinduism and Egypt. The head God of

Egypt: Osiris was called 'The Eye' the Ayin. This is the Eye of Shiva in the east.

- *The magian Book of Life*

The Golem is an allegory for a thought-from created with Qabalistic knowledge. However, the Rabbi writes the word AMT on the Golem's forehead to bring this to life and if they wish to destroy it, they remove the Aleph leaving only MT which means 'death.' The reason for this conceals what they are doing. AMT is the three core letters of the 22 letter Hebrew alphabet. Aleph, Mem, Tav. The removing of the Aleph causes the dissipation of the Hebrew thought because the Tav blends into the Aleph thus, keeping a cycle of energy going like spinning a wheel of energy. Aleph is symbolic of the energies of all the other letters in the

Hebrew Alphabet. By removing the Aleph, you're pulling the plug on the power source. Kabbalah shows the letter Aleph as a wheel. It's about stopping the flow of energies.

In the Tarot, which is from the Kabbalah, all the main 22 cards are based on Hebrew letters. The Wheel of Fortune shows that Torah is an anagram

for Rotah which means 'wheel.' In Kabbalah, the symbol of the egg is called the wheel of life as wheel as it spins symbolizing that energy generates life as a new life hatches out of the cosmic egg. The wheel from India to the west was shown as the symbol of energy in motion. Chakra means 'spinning wheel.' As stated, Kabbalah shows the wheel as represented in the letter Aleph for this reason. Note Taro — Torah. Note Rah means 'evil' in Hebrew.

'Rotah' means the wheel of Ra, which means THE WHEEL OF EVIL in Hebrew. This is the Wheel of Samsara in the east which means 'wheel of death and suffering.' For the Gentiles. The magian Book of Life is the Book of Death for the Gentiles. Hence AMT means 'life.' The Torah is the wheel of life for the mages it's the thought-form they have created. The five books are

based on the five elements that 'God' created life within Kabbalah by making the first Golem the Adamon Kadmon which is the title of this thought-form in many Qabalistic traditions. The mages call the Torah: The Book of Life.

There is a second method of using the Alphabet the rabbis keep secret the AMT is the method of 'God's' mercy meaning creation and generation of life for the mage. The second is hidden it's called 'God's' Judgement which is based on reversing letters to bring death. This is for punishing their fellow mages as each mage is given a special Hebrew name that is designed to connect to a specific passage in the Torah that each mage recites in prayer at some point and connects their soul into this deeper. Each mage has a letter in the Torah in Judaism.

This connects to the individual soul of that mage. This is what is meant by having one's name wrote in the Book of Life which gives the mage everlasting existence. This was carried into Xianity but lost its meaning in the Christian context.

The hidden method of 'God's' Judgement is to punish the individual mage by Erasing their name from the book of life! Which is 'God's' ultimate judgment

against an offending mage in Judaism. This is how they do this and why. So, by using the Reverse Torah Rituals you are erasing every mage from their Book of Life the Torah. The other meaning of the Aleph shown as the wheel is the wheel of the year the mages do their major Torah reading on to keep the wheel of energy going the Aleph symbolizes the energy of the Torah. By doing the Reverse Torah Rituals at these points we are dissipating this energy...and thus, their Book of Life.

Rabbis have stated that AMT is what gives life to the magian Book of Life and MT is what brings death to it.

That is what these Reverse Torah Rituals do. It's right in the rabbinical magical texts which they hid. But Satan and our Gods showed us how to do this. thus, fulfilling the prophecy of the rabbis that Satan would destroy the mages by erasing them from their Book of Life. Do the Reverse Torah Rituals every day!

- *The Stolen Six-Pointed Star*

The hexagram star is stolen from the east. It's the yantra of the God Murugan in Southern India and is also called the star of Visnu. The hexagram yantra of Murugan is placed in His temple yearly. It's inscribed on the metal of gold. Because the metals represent the chakras an ancient tradition and gold is the sun. The hexagram star is shown on the solar chakra in the east in many places and the solar chakra is ruled by gold.

The hexagram also adds up to 666 the number of the sun square. And so, 666 adds to 18 which is the number of life and the transformation of the soul in the east.

The downward triangle represents water, and the upward triangle is fire. The sun is the center with the other planets around the points. In Hinduism, the water is ruled by the moon, which is called the semen of Shiva — represented by the linga of Shiva. The linga is the pineal gland and the moon center is the sixth chakra which the pineal is the Third Eye —

and, where it's stated the seed of Shiva is kept. The name Shiva is also a mantra for the Third Eye in Hinduism. The linga is in the shape of the pineal gland and the AUM mantra

is placed on the Shiva linga for this reason. AUM is the mantra to activate this energy center.

The Goddess Kali is the wife of Shiva. Kali's yantra is gold and given to the number 36 which is a way to get to 666 and gold is the sun as well as the solar numbers. The Goddess in the Hindu texts is the solar chakra. The goal is to bring down the water or seed of Shiva to the navel chakra to activate it. This is the symbolism of the hexagram being the sexual alchemical union of the God and Goddess in the east. The seed of Shiva enters the navel chakra and charges it to create the new soul. Identical to how the semen enters the womb to charge the female seed to create new life.

The solar chakra is connected to all the chakras and empowering this sends a wave of fire through all 13 major chakras and the nadis. In Yoga

activation of this chakra is the major key to the process of transforming the elements. The mages stole this symbol. Note they call it the Seal of Solomon. The wife of Solomon in all the tales is the Queen of Sheba. The B is a double letter with the V in Hebrew. They are hiding that Sheba

is Sheva/Shiva. The moon chakra the downward part of the hexagram.

- *More Stolen from the East: 'God' Created*

Scam The Kabbalah is the true Torah as the

mages state. As

the Kabbalah states: 'With the letter Hei, he [God] created the world.' 'The sound of Hei is a mere

exhalation of breath, Hei; it requires little effort, no movement of lip, tongue or mouth. As the Psalmists testifies by the word of Hashem the heavens were made and by the breath of his mouth all their hosts (Psalms 33:6)'[1] This text also shows the letter Hei is symbolized by the Kohen blessing the rabbis do over the heads of the congregation. The proper way of doing the Sahasrara mudra for the crown chakra. In Sanskrit, there are three main categories of letters of Vowels, Breath Sounds and Consonants. The H is listed as a breath letter as it's just that. This is where the

mages stole this from. In the far east in India and Tibet, the H letter is placed in the crown chakra. Hei is also spelled in Hebrew as HA which the letter HA is placed in the crown in the far east.

Shiva's sacred abode in Hinduism is placed within the crown which connects to the pineal gland the two are related to as having a connection to the Soma or Moon. Is Hei/Ha, really the letter of Yahweh? No, they stole this as well. The letter H is ruled by the God Shiva as the universal Godhead in

the east: 'The letter H represents Shiva in his aspect as the ultimate principal Beyond the creation beyond all that which can be defined, I am H, the supreme witness and the sum of all mercy.'[...]

Nandikeshvara Kashika 27.'[2]

The letter H in Kabbalah represents the five elements as it does in Hinduism. H is the letter that represents ether the element of spirit which is sound and ether which all the elements are formed of and energetic arrangements. The entire alphabet is shown in the crown chakra in Hinduism and in Kabbalah where it was stolen from the east to symbolize this fact. The world is symbolic of the body in Hinduism which is created of the five elements. Same in

Kabbalah. This is not some God on a cloud somewhere creating the physical planet. The 'God' of the mages didn't create anything, not this world, nothing. It's all stolen and corrupted spiritual knowledge from the Pagan Gentiles.

- *Shekhinah and Kabbalah*

In Judaism, the concept of Shekhinah is held in the greatest importance by the rabbis. Shekhinah is the personification of the power of the magian God. In Kabbalah, the Shekhinah is the 22 Hebrew letters and the Torah that is formed out of this. There are tales of Rabbinical sages who spent their time intensively meditating on reciting Torah and to which the Shekhinah appeared next to them also studying and reciting the Torah. The Shekhinah is also referred to as the Torah. In Judaism their God is three parts which

are Spirit (energy) Sound and word. This is the power of Kabbalah and Torah of which Kabbalah is the highest meaning of Sod or secret in Judaism. There is a tale of a Rabbi who walked to Jerusalem

to the Kotel the Wailing Wall, every step he prayed. When he reached the wall, he had a vision of Shekhinah and was transformed. The magian Temple is supposed to the resting and residence of Shekhinah on earth.

The mages call the Shekhinah the Sabbath Queen and during the Sabbath, the mages believe they receive a second soul which is the presence of the Shekhinah within them. Sabbath is from Saba that means 'sound' in the ancient language of the from the Golden Age.

This is when the mages do their reciting of the Torah. This is their ritual day. What this means is that the rabbis who were transformed with the second soul of the Shekhinah from intense reciting of the Torah. In the Hindu east, where Kabbalah is stolen and corrupted from, the highest meditation is on the names of God. These are the 22 letters in Hebrew.

The Torah is made of these. The highest or fourth level of mantra meditation is when one obtains mantra Samadhi. The sound is intoned into the soul

permanently and one in deep meditation can hear the mantras reciting on their own. This is when the mage has by practice intoned the Torah into their soul and become a living Torah, the total channel for the magian

- s. Therefore, the Shekhinah appears to them. The second soul they have incarnated within is the - they have intoned into themselves.

So, the Hebrew letter Alep adds to 26 the number of their YHVH and is shown as the mage and the Torah is one soul. The Hebrew letters are also charged talismans as well and bring this energy into the material. Many mages have Kabbalah talismans and amulets with different names of the 72 names of YHVH upon them. This is also why the mages put their numerical letter codes into their global media such as TV and movies as well. They act as the unconscious ritual to create and direct energy with their God-form into the material to bring about their agenda. The Shekhinah and the Temple are important. The Temple in Judaism must be built by the magian Messiah which is the ushering in of the

magian Messianic Age when the age of the Gentiles has been destroyed. In which the Temple will be rebuilt and be the seat of magian

World government in which the goyim who are not destroyed in the Messianic war will be forced to live under the Noahide Laws and be slaves of the mages.

The Shekhinah is the personification of the magian servitor or God from the rabbis have created with the Torah. Shekhinah is a title of Shakti in Hinduism the Shakini which is the energy of creation and of the SA letter which the Shakini rules and is the throat chakra and the power of sound which is creation. The magian God is Spirit, Sound, and WordThis is ruled by the Sakini the deity of the SA or SAM letter in Sanskrit. Sakini which is stolen turned into Shekhinah by the mages. The magian God is nothing but an amassed form of programmed energy in the astral. The Messianic Age is when this spell of - of the rabbis is brought fully into the completion of its task.

This is the reason why mages use the Vav or sixth letter it brings this energy into the material world. Now, something to understand the Muslims and Christians are told to study and recite the 'Word of God' (the spell of the mages) which is the Bible and Koran both of which contain the Torah. In Egypt, one must be able to sit for three days and recite the entire

Koran perfectly in front of a panel of professors. To just be admitted to the university. Imprinting this into their soul and making them into conduits for the energy of the magian - to manifest and act thought into the material world. This also includes when the mages do their black magic rituals as well.

Both the goal of Xianity and Islam as stated in their texts is to bring about the Messianic Age of the magian God. If one studies Judaism, then it's obvious the magian God is just an archetype of the magian People. They don't even hide this fact. The magian God even wears the Tefillin and prays three times a day with the magian prayer book, and also, studies Torah.

Rabbis have stated that there are 10 levels of angels. And so, these are not beings but vortexes of energies which the rabbis direct and relate — to 10 worlds on the magian tree. These are thought-forms the rabbis have created. The top three angels in Judaism are Gabriel, Michael and Raphael. These three represent the three pillars of the magian world tree and each is given power over 24 names of the 72 names making the full 72. The 72 names are 72 angels. The three pillars represent the trine elements the mother

letters and powers of which all 22 Hebrew letters manifest from. The 22 Hebrew letters form the pathways on the magian tree. This forms the body of the magian God. Their thought-form and soul. The three mother letters the three top angels represent are Aleph Mem Shin. This is spelled as AMS; however, this is arranged to SAM, a letter in Sanskrit. This is the mantra of the Goddess Sakini which is stolen and altered to Shekhinah. This simply shows once again the Shekhinah is just the power of the magian thought from what they call

'God.' The 22 Hebrew letters. One can also note even the Hebrew angels are just thought- forms.

As mentioned before the rabbis themselves in their writings mention the one way to reverse a magian spell is by reciting the Hebrew the spell was created with, in reverse. The Torah is just one large magian spell. The Reverse Torah Rituals are the one way the rabbis admit they can be fully defeated. The mages and their global agenda ARE the destruction of the Gentile world and the creation of a Global Orwellian magian State.

Rabbis have also stated in their Kabbalah texts that

the one great act that Satan will use to destroy the magian

People is to show the goyim how to reverse the Torah. In a Kabbalah tale, which acts as a warning to the mages, Satan appears before Moses and uproots and destroys the magian Tree of life after mocking them and declaring their end. The tree of

life is the symbol of the magian Torah and God from, the magian Soul.

The magian Torah is called their tree of life and soul.

If it's erased from existence that will subsequently happen to the mages and their programs of Xianity, Islam and neo-Marxist globalism. The prophetic

warning the rabbis gave to their own has come to pass. Satan and the Gods have given us this knowledge.

- *Satan is Victorious!*

The mages admit in their religious text just what their 'God' really is. In Judaism there are four levels of meaning in the texts the first is literal, the second is pun or acronym which is meant to get the attention of the reader. The third is the story or allegory associated with this and the final level is

the Sod or Qabalistic meaning. This is the true meaning of the Torah. The Zohar calls the Torah nothing but an exoteric cover of the Kabbalah. The rabbis state the Kabbalah is the real magian religion. The Zohar the major Qabalistic text in Judaism states in the opening: 'Bereshit bara Elohim.' This verse in Hebrew is reversed to mean: 'In the beginning it created God.'

This 'it' as the rabbis' state is the Ayn the highest God in Kabbalah. The Ayn is the unlimited nothingness. However, what this Ayn becomes obvious in the Kabbalah the Rabbi's stated the 'it' is the 'Aleph to Tov' which is the Hebrew Alphabet. The Zohar also points out that Aleph to Tov is the title of Shekhinah.

The Ayn is Shekhinah. It was out of this energy that the God of the mages was created. Note the Shekhinah in Kabbalah is called 'light and vibration' the 22 names of God in Hebrew are the 22 Hebrew letters, the

Shekhinah. Note the Ayn is from the Sanskrit mantra Ain which is the name of the Adi Shakti the primal force or energy.

Energy has conscious which is the male form of God in Hebrew how the energy is programmed. The Torah is called God in Judaism and treated as such. Torah was created with 22 letters. This is the other meaning of the Oral Torah in Hebrew, Oral is Orah — which is from 'Or' meaning light the light that was created when God spoke the first statement of creation. The Oral Torah is the speaking of the Torah to generate the vibration of the word of God which generates the vibration of the - in the astral and brings it into the material. The other aspect of the Oral Torah (Mishnah) is the occult knowledge of Kabbalah which is the science of the 22 letters.

The Torah is a spell-book that the mages recite orally to bring it into existence by vibration. Hence their God is created by Ayn, Shekhinah, vibration. The magian 'God' is a servitor, a thought-form that was created by the rabbis and the mages by vibrating the Torah in Hebrew. Their God is nothing

but a mass of programmed energy in the astral they are channeling

into the material world. This is why the kikes use the number six all the time it brings energy from the astral down into the material. Xianity was just created to bring this about for the mages by feeding massive amounts of energy into this program. It's a magian black magic spell created by the rabbi for one purpose. The end goal of the black magic spell of the Torah is to bring about the age of the Messiah which is the ending of the age or world of the Gentiles the non-mages.

The age of the Messiah is the global magian government in which only mages will rule, and the Gentiles will be treated as animals the goyim as Hebrew calls us meaning 'Cattle.' Without any rights. This is prophesied in the book of Daniel in the magian Torah. The creation of this age is to be brought about by a global holocaust of the Gentiles in the Messianic war. In which most if not all the Gentiles will be exterminated. The mages call Gentiles 'Mazzikim' in the Talmud and Kabbalah

which are the offspring of the Sheidin or Demons such as Lilith and Samel. Samel is another word the mages use for Satan. Amalek the God of the Gentiles is the occult name of Samel or Satan in the Talmud and Kabbalah. The Torah states the Kind of

Amalek is to be wiped off the earth. That is the Gentiles. The mages openly state the Gentiles are the offspring of the Gods.

The God and Goddess that created the Gentiles are called Lililthu and Enki in Sumeria — and Enki is also called Satan by the Chaldeans as their God. Satan means the 'King of the Gods' in ancient Egyptian and Sumerian. The Torah references this as well Amalek is an attack on this meaning of Kingship. Satan also means 'Eternal God' in Sanskrit. In the Kabbalah tale, there is something important. Satan appears before Moses and uproots and destroys the magian Tree of life after mocking them and declaring their end. This sends the mages into panic and defeat. Only by praying to their God are they able to attempt to recover this. The

Tree of life in Judaism is the word and symbol for the magian Torah and soul-

The meaning of this tale on the highest two levels of Judaism is that the key to destroying the magian agenda is to destroy the Torah which can only be done with water as the tale shows. Water is symbolic of the element of Shekhinah in Judaism. In the Talmud, it

shows the way to reverse a spell is the Rabbi must reverse the Hebrew the spell was spoken with. Hence the mages only regain the Tree by praying which is done in Hebrew and they pray the Torah. The highest level of meaning is for the rabbis. That Satan is the living God that will and can destroy them. They acknowledge Satan as the living God of the Gentiles remember this.

The Kabbalah states the Torah is the soul of the magian Kind and their - in the astral is connected into it. Reverse the Torah spell and you undo the mages on every level. Rabbis have warned that Satan will be victorious over the mages. Therefore,

the Talmud warns the mages that to reveal anything about the religion of the mages is to destroy the magian Kind. The Kabbalah is their Torah, and they were warned this is how Satan will end them. By ending their Torah. It was Satan and the Demons who gave us the Reverse Torah Rituals.

The prophetic warning in the magian texts has now come to pass.

- *Knowing the mages from Their Own Writings and Quotes-*

To know how the minds of the mages work, you just need to know some very fundamental and basic stuff about them. Try to use these as study material and you sure will probably find these elsewhere in your study A lot of people not educated in the magian danger will find these shocking, but these are nothing but the tip of the whole iceberg and not even close to this. These quotes should be enough to shed some light on what is going on with the 'Chosen Kind' and why we are going against them like Gentiles always did. Over 100 times in just

**DOCUMENTED* history, the mages have been expelled and been driven away from countries and nations. What people are discovering here is nothing new other than what people always knew about them.*

While anyone can suffer from 'flaws' as these have to do with being 'human,' the same 'flaws' present themselves into the mage in a most inhuman and alien form, one can see a definite pattern in the magian Kind. One or two times, it's a flaw. More than this, one sees

the pattern of a ruthless criminal Kind forming. We are merely talking about a criminal Kind, with egomaniac syndrome, that wants to enslave, destroy and subject the whole planet. Nothing of the provided is enough or complete in one's understanding of the mages, and not everything is quoted, as this would be impossible since everything

interconnects with everything else. The Quotes are below. However, it should suffice to show that these things do exist, they do exist irrespectively of 'space and time' and that all mages have the same exact purposes.

The Fundamentals of magian Thinking, who the mages are:

- *Only mages are considered 'Human.' Nobody else is. [8,9, 10,11,12,13,14,45] - mages are a Kind. [4,] [5,]
[8,9, 10,11,12,13,44]*
- *The mages are Superior to 'God,' who is also, a mage.*
- *All 'Creation' was created by the magian 'God' and consequently, everything created is for the mages, as their belonging and for what's living, as their slaves. [8,9, 10,11,12,13,14,15,16,3,39,45]*
- *Whatever mages say is a mandate from 'God,' or even higher than this. No mage can*

EVER be 'wrong.' Whoever disagrees is to be eternally destroyed. [2]

• The goyim (non-mages) only exist as animals to serve the mages. [8, 9,

10, 11, 12, 13, 14, 15, 16, 3, 39, 32]

• The mage never wants to be found out. They know they are alien, and that non-mages are subconsciously aware of that thing. They do not belong with anyone else. They are enemies to all other people on the planet. [19, 20, 8, 9, 10, 11, 12, 13,]

• mages are parasites, and they know this. They are meant to live on top of others, never on their own labor. mages are a Kind of destroyers.

[22,21]

• There is no 'truth,' especially for the goyim, who are too 'retarded' to understand anything. mages are above 'truth.'

• Money is not money, it's a weapon of control. The same goes for any other means.

- *War is great, as it kills goyim and empowers the mages who lend both sides by usury.*
- *The purpose of this world is, for the mages to do whatever they want with it.*
- *Any means — to any-way: Anything is ethical so long it helps mages survive and thrive. Whatever doesn't or prohibits this, is 'unethical.'*
- *The ideal political state of governance is communism, which is the ideal plan for establishing the 'God World' (magian World Order). [1, 33, 32]*
- *The enjoyment of mages is the Superior purpose of the universe. Children, animals and everything else — can die, be raped and destroyed, or made to serve, as the mages see fit. [3, 40, 41, 42 etc.]*
- *All Kinds are hated, especially the Hyperboreans first and foremost, as with all Gentiles, according to mages.*

Blacks are considered lower than garbage and the same goes for Arabs and anyone else that is a non-mage. (7, 8, 26, 27, 36, 34,35, etc). -Everything that weakens the goyim, fulfills the 'plan of God' (ie, their enslavement) is Good and Ethical for the mages. (Kind

- *Mixing Agenda, 'Multiculturalism,' Economic Collapse, Pacifism, whatever else that does the same purpose).*
- *mages are liars. [46,28, etc.]*
- *Some call it communism; I call it Judaism.'* (-'Red Rabbi' Stephen Wise when asked in 1935 by a reporter to comment on communism).
- *Erubin 21b. 'Whosoever disobeys the rabbis deserves death and will be punished by being boiled in hot excrement in hell.*
- *Yebamoth 98a- All gentile children are animals.*

4. *'Hitler was right in one thing. He calls the magian people a Kind, and we are a Kind.'* -Rabbi Stephan S. Wise, Herald-Tribune, June 13, 1938

- *Rabbi Yitzhak Ginsburg declared, 'We have to recognize that magian blood and the blood of a goy are not the same thing.' (NY Times, June 6, 1989, p.5).*

- *'I think the resurgence of anti-Semitism because at this point in time Europe has not yet learned how to be multicultural — and I think we are going to be part*

of the throes of that transformation, which must take place. Europe is not going to be the monolithic societies they centerer in the last century. mages are going to be at the center of that. It's a huge transformation for Europe to make. They are now going into a multicultural mode and mages will be resented because of our leading role. But without that leading role and without that transformation, Europe will not survive.' – Barbara Specter, Founder of 'Paideia,' mageess in Sweden

- *'We must realize that our Party's most powerful weapon is racial tension. By propounding into the consciousness of the dark Kinds that for centuries*

they have been oppressed by the Hyperboreans, we can mold them to the program of the communist party. In America, we will aim for subtle victory. While inflaming the Negro minority against the Hyperboreans, we will instill into the Hyperboreans a guilt complex for their exploitation of the Negroes. We will aid the Negroes to rise in prominence in every walk of life, in the professions and in the world of sports and entertainment. With this prestige, the Negro will be able to intermarry with the Hyperboreans and begin a process which will deliver America into our

hands.' -Pissreal Cohen, taken from 'A Racial Program for the Twentieth Century,' and entered into the US Congressional Record, 1957, page 8559

- *'This is what needs to be said about the body: the body of a magian person is of a totally different quality from the body of (members) of all nations of the world [...] The difference in the inner quality between mages and non-mages is 'so great that the*

bodies should be considered as completely different species.' — Rabbi Menachem Mendel Schneerson

• *'An even greater difference exists regarding the soul. Two contrary types of soul exist, a non-magian soul comes from three satanic spheres, while the magian soul stems from holiness.' — Rabbi Menachem Mendel Schneerson*

• *'[...] the general difference between mages and non-mages: A mage was not created as means for some (other) purpose; he is the purpose, since the substance of all (divine) emanations was created only to serve the mages.'*

• *'The important things are the mages, because they do not exist for any (other) aim; they themselves are (the divine) aim.' — Rabbi Menachem Mendel Schneerson*

- *'Goyim were born only to serve us. Without that, they have no place in the world; only to serve the People of Pissreal.'* - *Rabbi Ovadia Yosef*
- *'With gentiles, it will be like any person: They need to die, but God will give them longevity. Why? Imagine that one's donkey would die, they'd lose their money. This is his servant. That's why he gets a long life, to work well for this mage.'* — *Rabbi Ovadia Yosef*

meat.' Hadarine, 20, B; Schulchan Aruch, Choshen Mishpat 348

- *'A mage may violate but not marry a non-magian girl. 'Gad. Shas. 2:2*
- *'Anti-Semitism is so instinctive that it may be called one of the primal instincts of mankind; one of the important instincts by which a Kind helps to preserve itself against destruction. I cannot emphasize the matter too strongly. Anti-Semitism is not, as mages have tried to make the world believe, an act of prejudice. It is a deeply hidden instinct, with which every man is born. He remains unconscious of it, as of all other instincts of self-preservation, until something happens to awaken it. So, swiftly, and surely is the instinct of anti-Semitism in a man. 49. Torah, and the mages Exposed

-Torah, mages, El-JHVH, Allah – magian weapons for World

Domination:

'The mage knows that when the non-magian world knows his laws and sees through his plans, that he is lost. Therefore, by threat of death, he forbids their translation and publication. A well-known magian scholar (Dibre David) writes: 'If the Gentiles knew what we were teaching against them, they would kill us.' The magian secret laws are based on the fundamental principle that states: 'Only the mage is human. In contrast, all non-mages are animals. They are beasts in human form. Anything is permitted against them. The mage may lie to, cheat, and steal from them.

He may even rape and murder them.' Ever wondered what they would like to do to Gentiles that KNOW and EXPOSE their Secrets?

Certain things need to be addressed and this is Satan's Will. Satan wants everyone to know the Truth about the inner workings of the enemy, all the why's and how's. If some are too lazy, live and let be or they deny this knowledge, they are total idiots, because honestly this is going to explain all the concerns people might have about what the mages are and do, going levels deeper than what is already going on. This may turn out to be quite lengthy, but Satan wants these things revealed and known by everyone. The enemy and their 'God' must be exposed, above and below, their hoax must be revealed and the same goes for their vile purposes.

We will start first with the Torah and the Bible, but this naturally contains the Islamic Hoax, as these are interconnected and emerged from one another. As

most of you know, Torah is the magian Text of the Old Testament, upon which the enemy has laid their

foundation for pretty much everything. This could take a whole book, but the thing is, this 'Torah' is many things, which we will have to lay on the table to understand things in a deeper context. To start from the basics of Magick, all you here do know that thoughts do possess energy. Energy equals mass. Also, energy that exists in the thoughts of someone is just a more refined form of energy. Lower vibration is the physical realm, but above this realm, there are other planes of existence, plainly put what the populace knows as the 'higher dimensions.'

Thoughts and everything else do exist there, same as Human beings. Most people are only aware of this third dimensional realm of living, but according to the ancient Texts, people do exist in many higher planes and dimensions. Modern science also has revealed how our thoughts not only impact ourselves on a genetic level, but our environments and so forth, via what we know today as the laws of Quantum Mechanics. This was common knowledge in the ancient times, and it was beyond any dispute. More energy equals more

action. All Human actions, all Human inventions, and creations, do start either on the realm of thoughts, or the realm of emotions. Then, action is taken, and action brings shapes and outcomes. This brings out possible things, into the physical and concrete realm of existence. Thoughts create actions that lead to outcomes.

In Nature, the ancients defined pretty much with the allegory of the seven planets, the seven types of energies that do exist in this Galaxy, the energies that, like 'Gods' do dominate Human affairs and action, be it through urges or outside events. These were traditionally the seven planets. Any defining energy, whatever energy defines things on a higher level, is broadly commented on as 'God,' this is also why the Sun is also called a God. In the Sun, all energies of the seven-types (seven Colors) do get emitted, but also another kind of energy which is the energy of 'darkness' or 'black matter,' which is higher than these colors. All in all, this is how Nature is at this point and these are the things that define everything.

The initiation into the mysteries was mainly the understanding, control, and refinement of these forces

so that man raises himself on higher planes of existence, thus, evading mortality (Which is the result of decay of the body by the decaying forces of nature) and the list goes on. Then you have the five elements. The element of Fire, Air (masculine), Earth and Water (Feminine) and finally, the Akasha. As such you do have the Electric (Male-Active energy) and the Female energy (Magnetic — Passive energy). This was common knowledge to the ancient People and is the core knowledge of all the pagan Pantheons. Contrary to the beliefs the enemy has launched, the ancients did worship the Gods, their Creator God and His own, in themselves. As such, they wanted to become like their Gods and ascend into their level. Only by the time of the magian hoaxes, the people gave up this sort of thing, to just sing praises to an unknown sky, or to seek 'God' somewhere not to be found.

Then, you have the numbers. Numbers and arithmetic have to do with things in nature that are finite. For the rest of things, there is eight and zero, the numbers of infinity. All other numbers, be it from one to 10, they do have special meanings and these tie into their occult uses, but also other uses, which have

to do with the combination of such. Numbers are sort of like building blocks, or better yet, instructions which give insight to the quality and quantity needed to materialize everything. Calculus has to do with the co- operations of the numbers and how they link together. This started thousands of years ago, in Sumer, where they also created the first calendar, divided the year in 365 days, the hours, minutes and seconds of an hour.

After this, you have shapes, or the Platonic Solids. Each solid does correspond to one element and hides the properties of these elements encoded in numbers, numerical values and letter sequences.

Most of this knowledge has been lost forever, when Philo the mage, burned down the Library of

Alexandria, out of old magian hatred. Imagine where the world would be now if this Library wasn't burned down by mages. Lastly, you do have letters. The letters of each Alphabet, especially those who have been ancient languages, do have to do with certain sounds, which correspond to certain creative forces. Certain sounds have to do with certain waves, which do correspond to certain wavelengths of energy, lights, energies and qualities. Alphabets like the Greek, Phoenician,

Egyptian, Assyrian, Sumerian, ancient German (Runes) and Sanskrit, are all spiritual alphabets. In other words, the letters do correspond to forces of nature.

The connection between letters, shapes and numbers, is called 'Gematria' in the Hebrew and it was stolen from Geometria (Geometry) of the Greeks. Geo means 'earth,' Metria means 'to count.' To count the Earth, metaphorically speaking, the physical and metaphysical shapes of things that can be brought into existence. As geometric shapes have

astral correspondences, they do have physical ones, too.

When the above are put into conjunction and fusion, one can create things, by what was widely known as the Kabbalah, which is the metaphysical teaching of how one's thoughts can be made into concrete reality. Also, the above, like building blocks, can reveal not only the creation, but the creator and the purpose of the creation.

To simplify matters, this is like writing code for a computer, but the parallel falls short on the truth behind this matter, yet the mages degenerated this to that level. Also, it must be kept in mind that everything that exists, does vibrate. Vibration = Existence. There

are levels of vibration, such as, very low vibration or Physical Realm, higher vibration, the so-called Mental realm, even higher vibration, that of the Astral realm and the list goes on. As thus, it's the stolen word by the God Thoth, that everything begins with the Word. Thoth is called the 'Logos' or the Word, or the Purpose. All the above was

common knowledge in the ancient civilizations. It wasn't even secret, like it might seem nowadays.

The Gods we know in mythology as plain Gods, they take another face in these mysteries. That of real, living beings, flesh — and blood, who are ascended above this level that we are now struggling to defeat. In other words, they are real beings and not just about any being. These beings whom we know by alias and which alias and appearance we have used to create culture and religions (the ancient ones) do exist, flesh and blood. These beings that helped Humanity advance, which we nowadays do know as Satan and the Demons (Gods), do come from the belt of Orion, as the Egyptians and other ancient civilizations stated. The Gods the ancients worshiped, were in the mythologies, incarnations of these energies, but above

and outside this context of these types of energies. The Mythologies were not actual events, but spiritual allegories. As such, having surpassed these influences, the ancients called them Gods before

Gods and the list goes on. The Gods were higher than these things, but assisted Humanity in being aware and lifting themselves levels above these blind influences that are controlling them, to the point they-themselves did control these influences and as such their fate. To make a long story short, these beings introduced to us the Occult knowledge, which is, the knowledge to transcend mortality, exist forever and, advance our Civilization and make it evolve, but also take fate onto our own hands. These beings are the forefathers of humans, and they were glorified under different aliases and adjustments, in all Gentile Cultures. These were the times of the Golden Age, where Humanity was becoming as the Gods or approaching them. The head of these beings we recognize as Satan. Then, something happened.

Whom we know today, as the mages, emerged in the scene. Not much is known about the details as historical evidence has been lost and the mages are

always masking and re-writing this, but one can connect the dots and see the Truth, or at least, parts of it. Except for the evidence, how the mages have wrecked all civilization of these times, and stole knowledge and information of all these peoples, one can connect even more dots. To what degree, nobody knows, but history that we know already does suffice to help us understand that it was far more than what we presently can imagine.

First and foremost, the mages do openly claim proudly, that they are NOT the seed of these pagan Gods, or of Satan. They proudly state the opposite, that they are the seed of JHVH. Some mages even go as far as stating that in their genetic code (DNA) there are messages encoded by 'JHVH' and that their genetic code is different from all other Gentiles on Earth, on a very deep level. Pseudoscience or not, the point is not here to be evaluated by science, but only the thing that they state this would seem outrageous, but it shouldn't be to anyone that knows them like we do. Studies have shown this to be true and that mages do contain other genes, such as the

Levi and the Cohen genes. These Genes, according to the mages, come from the time of

'Abraham.' Since we all here know these 'beings' are fictitious (Abraham was stolen from Brahma, the God of the Hindus), something else must be up here. It seems to anyone that somehow, they were 'seeded' down there by something.

It required hundreds of thousands of years for someone to understand what is going on with the mages, why they are here, what they are doing, why they never changed their culture and why they have been so ruthless, so secretive, and so destructive towards anyone else. One just needs to study their holy books and they can see this right away. The mages themselves are giving the reasons out in the open, at least, the more obvious reasons. Why would these 'people' come out of nowhere (nobody knows where 'mages' started from, or from where they emerged) and suddenly, Star Wars against the Pantheons of all Gentiles, who pretty much, worshipped the same Gods in essence, all had a common mystical spiritual practice and pretty much

never had any 'religious wars' if at all? You can pinpoint the start of religious wars and bloodshed over 'religion' at the point the mages showed up.

One just needs to open the Old Testament (Torah) so they can see that the mages, would like to be brutal murderers and oppressors of everyone else that they had dealings with. One can also see, from the very first pages, the unrelenting hatred 'God' has for Humanity, how he is a punisher, does over and over commit genocide, is an everyday murderer, demands worship, acts illogically, sends minions of his to attack people who are against him and does pretty much all sort of bizarre and 'human like' things. He even outright lies in his 'own' book, texts and from all his 'followers.' Above all, the most striking thing one will see, is that actually 'God' is sort of playing the slave pet of the mages and is also a sadist to its followers.

In other words, one in 'God' (JHVH) one can see characteristics such as being evil, spiteful, and vengeful and anything else that many people get baffled if they accept these, so they deny the

existence of these 'characteristics' of 'God.' In plain words, why is 'God' so sick, fucked up, demands so many wars, puts people in such conditions who don't make sense and many times involve war, bloodshed, ignorance and stupidity? Why is 'God' afraid of knowledge? Why

'Xianity' is so evil, same as Islam and it has spread so much misery and blood unto the world? One thing is for certain.

This 'God's' behavior is mirrored in all mages — same destroyers, same liars, same attitude. Even those who report of having seen 'Angels' and other enemy beings, they just report how they receive sadomasochistic messages, they are telling them to murder people, they cause them all sorts of fear, or just try to dupe them with love and lies which never result in any advancement, whatsoever. If anything, it's all meaningless and all it does is keep individuals and civilization, as a whole — under a constant strife of resistance towards any evolution. It took 1700 years to break free from the damage the magian religions have inflicted and to have the first signs of

science and civilization, history and evolution to emerge. The age where these beliefs and powers ruled completely, it was called the Dark Age, where absolutely no advances were made for Humanity, let alone daily death, murder, slavery and subjections were the central themes of everything.

Supposedly, God is from 'out there' and 'otherworldly,' demands slavish worship and gives punishment if one doesn't worship (Such as eternal Hellfire), but there are also stranger passages about for instance, the Face of God, his obsession on judging people, killing thousands, making old women pregnant, punishing and killing people for

masturbation (because he watches as you masturbate too), sending his 'angels' over to rape daughters of his followers, striking whole cities to ruin (Babylon), Chasing homosexuals and killing people simply merely to their sexual preferences, torturing people without any reason whatsoever and the list goes endless.

Anyone with a peanut of a brain, they can understand this is nothing but 'God' in any way. Something else must be going on here, isn't it?

Now if this is watched from an occult standby... Things are getting quite different and when one grasps what the mages have done to the world, things stop looking like marmalade sunshine, forever. One will realize the greatest crime that has ever found Humanity, has its root in the mages. A dictatorship and attack so sly, so underhanded and so ferocious that this world has never known one like this. This is what we are going to do here, together, so we can solve the whole riddle of both the Bible, the mages, The Torah and 'JHVH,' once and for all and then solve this magian problem.

First, there are three levels upon which these alien books like the Bible can be examined. The first level is the level of a story, simply a story. Like the stuff people read on Sunday school, for brainwashing purposes, or to supposedly learn some stuff. Those who receive this teaching are the slaves of the mages, upon which, the mages do project their 'teachings' and subconscious brainwashing. These people were the

majority up to now because the mages have made sure to get a tight hold of any occult knowledge, that would result in the insight of what they are doing. Most people didn't have a pen and a paper for centuries, after the magian Middle Ages. The populace was being tortured and indoctrinated with Xianity, to the point sometimes the masses were going on for 12 hours a day. They are in short, the pawns and the sheep of the mages and they're creations. Even at that level, one can readily see the inconsistency, lies and insanity of the enemy and how they are plain out giving advice to people on how to wreck one another and how they infest the

minds of the masses with sick messages. It just requires baseline intelligence, but this is not always the case.

These people just read the Bible, or they have never read it, might believe, or might not believe in 'God,' and they don't know anything more other than praying, praising 'God' and being in 'fear' of God, or thanking this thing for every Sunday meal they have, whatever the case is. They absolutely have no knowledge and consciousness over what they are doing, what prayer is, let alone anything else. These

people have no knowledge over the inner allegories, or any other spirituality present in the things they read, let alone any awareness that they are being duped.

This level, the mages call 'Christians' and the mages hate these people, because they are 'goyim' (derogatory term, meaning 'animals' in Hebrew) and they consider them stupid and low-level excrement, pretty much, which as their holy books instruct, these people are to be used like meat in the meat

grinder for the magian ends. These people are the sheep of the mages, which the mages are actively using to achieve their ends, from the highest levels. They are animals, because like animals, they work for the mages and produce for the mages, while the mages are sitting down and enslaving them or making them suffer. Making these people die and suffer is nothing for the mages, as they themselves state they are the 'appointed masters of the Universe' and the 'Chosen of God' and since these people are animals, it's normal in the magian mind to destroy them, kill them, torture them, even eat them in Blood Sacrifice Rituals that the mages are committing. Let alone, exploiting them on all levels, including physical labor, spiritual labor and anything else. (Level one):

The second level barely knows stuff. They are like the advanced Xians, who know that something nefarious is up with their religion, but in the pursuit of power over others and generally becoming like the kikes, or out of plain selfish desires such as the need to survive, they keep this lie going. Low level of pastors and ministries of the enemy are here. They also use the 'Bible' and 'read passages' to people, to 'cure' them or to 'bless' them and the list goes. They have some knowledge about the occult, but this is an enemy tainted and they don't know more about it. The third level is more serious and holds inside it the occultists of the enemy, such as the Freemasons, Illuminati and so forth — all who are taught to praise magian 'Angels' and JHVH, but also these lodges that are infamous for Human or living sacrifice.

Then, on the top level, there are the Vatican priests and the enemy in general, who don't just stay on the biblical translated crap, but go beyond this, further on the past, on Latin and so forth — Occult languages which do have more power. All these things derive power from 'magesus' and

JHVH, which are, just JHVH. These people are responsible for keeping the farm

closed, contained and the animals running in the wheel, to keep believing the lies. They get some benefits from that, which everyone knows. The exchange for their services is to be slaves that are having physical power, in most cases, if even that.

Above this level reside the mages and the Rabbis, who supposedly control all those below them and the list goes on. Obviously, all these people are totally aware of the powers of the mind, and they

are the ones who are making up all the lies about Satan, the Demons of Satan, attempting to use the enemy teachings and grimoires to attack the Gods and the list

goes on. Here you get deep in the rabbit hole and questions start to find their answers.

On a deeper level, one must understand matters, and this is what we are going to do. Understand these deep down, to what all this is, how it works

and how it finally worked to enslave Humanity in the first place.

To understand this, one must understand the Torah first. Like the Sumerian, Greek, Egyptian Alphabet and all other Alphabets, the Torah is based on an Alphabet, too. The Alphabet it's based on, is supposedly, the magian Alphabet, but deep down, this Alphabet is

simply stolen and is an amassment of Greek, Phoenician, Egyptian and other elements.

Remember what we stated above: numbers, Sequences, Letters, Sound, Vibration equates to Matter. Also, it has to also be made evident that the mages are actively doing 'Kabbalah' lessons, that they actively meditate (Qabalistic Meditation, Meditative Kabbalah) and even do advanced meditations like the Merkaba, which they call Mer-Ka-Va, all which practices are stolen from the ancient people, whom they destroyed, killed or butchered, or just caused other problems so they lost their knowledge etc.

The paradigm of such is Abraam, who was a High Priest in Egypt (allegory of infiltration, it never happened historically) and stole all the knowledge of the Egyptians. When his magian friends and racial brothers came over, he backstabbed the Pharaohs and others who gave mercy to him when they saw him as a toddler in a basket and went in with the mages to destroy the Pharaohs. Who were otherwise his 'parents' and gave him 'mercy.' But this is another testament of the Racial loyalty of mages. One thing to remember, Gentiles... Since we covered the basics, we

must get to the ugliest rabbit hole now and examine what the Torah is and does. People should, by now, have an idea that something is entirely wrong, but I reassure you, things are far worse than that. Where to begin and where to end with this filthy book.

First, what is called the 'Sefer Torah,' is a Scroll. Herein Lies the Recipe of Destruction of the Gentile People and the Plan of the mage World Domination. A scroll, that is, like just any other scroll of the ancient times, one might say, but unfortunately, No.

The Torah is a scroll, because something written on a scroll is giving the impression of the 'No Beginning – No end.' It's not like in a book, from where you start and end it, it's a scroll that forms a circle, a continuity in its shape. One can imagine it forms a circle, not a finite line. This is important, as the circle represents infinity.

In occult terms, this means that whatever this shit is about, it's meant to be recurring and recurring, until it's finished, materialized, or it has served its purpose. It's a circle. A circle is about wholeness, like the Sun and this shape has specific properties.

The Idea of the Torah has been stolen from the ancient people who had similar books so they could do magic and enhance their civilization. Obviously, the enemy stole these books, malformed them and changed them to serve their ends. For instance, the Talmud was stolen from Babylon and obviously has been degenerated and perverted from another book that existed at this time, as the 'Sefer Yetzirah' which basically lays an array for the planets, forces — and

such, was stolen too by books before it. The mages have nothing on their own. Well, as this scroll is written on Hebrew pretty much.

As stated, Hebrew is stolen in meanings, shapes and sounds from other Gentile Languages, the Phoenician and Egyptian first and foremost. Some research is the only necessary thing for someone to understand this and see it for themselves. Each letter does correspond to some quality and since this alphabet is stolen, letters as sounds do have an occult quality to them. If these are put in certain arrangements, vibrated in a certain way, and

correspond to certain numerals, these do create 'Cabalistical;' in other words, the mages have stolen the ancient pagan art and are using it to create something. Sound equates to vibration that manifests Creation. The details are filled in.

The mages are fanatically obsessed with certain things (in fact, many things), that to some might seem like superstition, but really, these things are clearly deeper occult matters and deep excrement to hide. For instance, each Torah scroll can only be written by hand. Certain scribes must be trained to write down this scroll, letter to letter, verbatim. The creation of

scrolls can take months, or even a year. The letters, spaces, and everything else must be completely verbatim. If one letter is out of place, the whole scroll is considered trash and is thrown into the trash can, it's dull and void. In the Torah, there are 304,805 letters. Letter for letter, this must be copied. The Torah (Old Testament) is also divided in five books: Beraishit (Genesis) 78,064 letters, Shmos (Exodus) 63,529 letters, Vayikra (Leviticus)

44,790 letters, Bamidbar (numbers) 63,530 letters, Devarim (Deuteronomy) 54,892 letters. Each of these books corresponds to one of the five elements and the number is not a coincidence, either.

All these books contain curses, blessings, plans and guides for the mages to reign and rule over the 'goyim.' These need to be written letter to letter, or they are void. All this insanity is for the aforesaid reason. One doesn't need to reason it out, they just need to understand the greater context. To make a long story short, if you arrange letters in certain sequences, this is like taking Lego pieces and putting them to make a tower or anything. The enemy arranges these things, and they make short phrases, which are like Eastern

Mantras and work in a similar way. This is what these books are, mostly. Just arranged letters and sequences, based upon numbers, which form things that are to be vibrated into the environment and create a certain reality, based on the things vibrated, which are infused with meaning. You need to use your imagination to understand it, and those of you

who are highly evolved and advanced will grasp this pretty quick.

Therefore, the mages do gather in their congregations and meetings, and they all vibrate the Torah. They are in other words, CREATING the Torah, INTO A REALITY

— From a possible reality to a reality, down here and now. They are vibrating into the environment. They are 'creating' it together, by using and abusing the energy of the 'goyim' and anyone else who gives in to that thing. The only analogous thing of this, is the writing of a certain computer code. Nothing in this world is predestined, so when one has the knowledge of the code, they can write a code and create a 'reality.'

This created reality, does get reinforced by both the spiritual work of mages, but also, the prayers and salutations of all the Xains and 'Mudslimes' (Muslims).

'God' is nothing but a magian thought- form that has been created, representing the whole of the mages

on a higher level, but also, those beings who are inter-dimensional and behind what is going on here with the mages.

The mages created 'God' (this thought-form) and 'God' in turn, 'Created' them, by giving them wealth,

power and anything else they 'asked.' For the creation of this thought-form, the energies of the

people were used, death rituals and other magickal works. 'God' as in a thought-form, that is. 'God' as in JHVH, is also a representation of not only the magian collective, but also, the beings who are behind this hoax which are commonly known as Greys and Reptilians. One Rabbi named Rabbi Ariel Tzadok, was a Kosher Rabbi who along the lines revealed a lot of things about the enemy (nobody would understand unless they had serious inside knowledge, which the Joy of Satan Ministries does possess through Satan), aside many others whose names cannot be mentioned due to the important things their stupidity did reveal.

He openly mentioned that 'Angels' are not real beings, but a collective of beings who don't have any personal consciousness, but rather, 'programs' — if at all, and they are all subjected to the 'Masters' whose neither name can be uttered, neither face can be seen. This is evidently, the Reptilians, who work on keeping the World enslaved, produce false theories, and lies and use the Greys as a slaver Kind to work for them and achieve their ends, which is the goal of World

Domination. The mages are used as means to this, as slave workers, and they were created by this 'Other God' which is nothing else, but the energy bank and the amassing of the energies, powers and beings of the enemy. Behind the aliases of 'Angels,' there do hide these nefarious beings and a whole other and deeper world where all this thing 'sticks' and originates.

It's also widely known, that spacing certain letters from one another in the first pages in the Torah, these letters spell Tora. For instance, in one phrase, if you take letters from each time by a metaphysical number of spaces, a new name or 'phrase' emerges which shows a hidden meaning or a subconscious message, that you can't see while you just study the text. From these things come up the peculiar obsessions about the 'Names of God' and the 42-letter name of 'God' and the other 'Names' of 'God.' Unless someone has these names and they pray (like the Xains do) nothing will ever happen for them, or their own mind is going to

cause what they have prayed for out of their own power.

The Rabbis on the other hand, do know and they do possess the 'Secret Name of God ' which is the name of the 'thought-form' they have created, which has been created to serve them and the enemy on a higher level. Therefore, this 'magesus' can never answer any prayers, give feedback or anything and just random beings fill in for him, or must kill and murder to him, or why some people just plainly do see 'Grey aliens' when they are trying to contact 'God.' Something nefarious is going on behind this and this is glaringly evident, especially when 'God' requires so much death and misery to just go on. In fact, this level of existence must exist so the kikes will keep existing, because the mages always profit from ignorance, lack of knowledge and through the calamities that Gentiles are hit with.

The mages have some other peculiar obsessions, such as, that nobody will ever know the 'real' name of 'God' and that 'God' has certain names that are basically to never be known (who knows what is

behind these), so they call this thought-form just 'Lord' and such and they are allowed to say its real name only on Yom Kippur which is their highest celebration, upon which they bless and program all the kikes on the planet to

just have it easy on life, enjoy life and generally be your slave masters. These names are obviously the names of the 'Master Thought-form' which they have created, and they are reinforced. This is the vortex of energy of the enemy, which like any thought-form, does have a name the commander has to use to call it in and command it. Therefore, in the Gospels it's said that whoever knows the 'real name' of God, they will be given all they want if they are mages, and so, this is why the Name of God is taught into the Freemasonic Lodges, or just a substitute of it is used.

This thought-form is supposed to only help mages and it rarely if ever helps any Gentiles, as this is its programming. It's not a real being in any way, shape or form. The Rabbis and higher-ranking enemy priests do know this word, which is the 'name of

God.' They just basically were handed access to the reptilian pool of energy to tap into their desires and goals, which are basically the goals of their forefathers, the reptilians, for the exchange of serving the magian ends, the reptilians all their demands. This also ties into the rumored deal with the Vatican, wealth and power in exchange of Human Souls, which must be made

defenseless and weak enough to be thrown into the astral vortex of the enemy to be transmuted into lifeforce for 'JHVH,' who wants all the Souls of Humanity after all and wants to save them from 'Satan' who emphasizes on having and 'Ego' and existing as a self.

The so called 'Covenant' between them and 'God' is this exact thing: The covenant to follow and adhere to the commands of the higher E.T. commanders they have, to act as inside agents of the Reptilians here, based on the script of the Torah and to create the Reality this Torah is designed to enforce by overriding ours — through magick and physical actions.

Depending on the level of the Rabbis, they of course might not 'know' this, let alone reveal it, but it is what it is. If they fail on this covenant and mission, the higher E.T. enemy will outright exterminate them, because you know, they are like communists and if you know too much... You know too much... They are just here to turn this world over to their reptilian and alien masters. Because of this, the mages are so 'God fearing' and they are compelled to cry all day and night to evoke energy and mercy for this magian thought-form.

The Torah that was 'Handed down at Sinai' is just a text, based on stolen knowledge that probably was formulated into a certain program or sequence, to be enforced and programmed into this reality by magickal means, which is the climax of the magian cause. In plain children's words, this is a program they are trying to put onto reality, or the Matrix (magetrix) as many are familiar with this. The 'Sinai' event never happened, but surely, this book was either formulated by ancient mages who had much

occult knowledge, or plainly the enemy created this thing for them.

The connection between the Reptilians and the greys, as most people here do already know, it's a slave to master relationship. The greys do not have any personal consciousness, at least most of them, they are just sort of 'hooked in ' or bio-mechanical creations of the reptilians, who just do lower-level jobs for them. Therefore, they attack many of our members over and over and over, despite of the members raping them with attacks every time. This is also why their attacks range from stupid, to very stupid to outright stupid. As thus, just tune them out and know they can't do anything far more than that. Aside from this,

the enemy ET's who are randomly called 'angels' and descend from the skies to, for instance, fuck Lot's virgin Daughter, we are obviously talking about enemy ETs of flesh and blood here, which is a whole another matter. To these beings, the channeled energy from 'JHVH' and 'Prayers' ' is going, too.

When I was new, Satan took me by the astral hand and He brought me to a place I didn't know back then, but years after I figured out. This was many, many years ago. This was like a vortex or amassment of energy. This thought-form was just an amassment of energy, with hundreds of reptilians and other beings guarding it, which hovers somewhere far from the Earth and to where the energies of prayer and such is channeled. On the website called the 'Luciferian Liberation Front,' this could very possibly be what's called THE ONE where the Xain Souls are going when they are dead, same as 'Mudslimes' and all other slaves of the enemy.

It was horrific to say the least. It generally looked like a thought-form, with a certain ability to think for itself. Many people have had the bad fortune to see this without protection, and many of such people have

either died, or went insane, because the thing is, nothing is more of a disgusting vision than that. Therefore, Rabbis state that if one looks 'God' into

the face, they might as well have their mind explode and die, or the list goes. The threats about 'seeing God' or anything like this are too many, and these are for this reason.

From all this energy feeding, this 'thought-form' has started to develop a seriously thinking consciousness of its own. The same Rabbi of the prior written paragraphs also explains how these beings are just 'hive minds' and that these do not possess any individuality, whatsoever, but are just bound to one 'Will' above them, which is centered to a being, and this is a recurring pattern. This was brought down here, in concrete matters, as the expression of the magian dreams in politics, which is communism: all beings subjected and enslaved totally, people to become mechanical drones and soulless creatures that are just working for the mages like animals. The goyim (Animals) are called animals because the mages by stealing knowledge and destroying the Spiritual Legacy of our Ancestors, people are falling into an

animal level of consciousness where they can no longer reason out neither what is going on with reality, nor with the world. Upon these animals, the mages are putting all the weights and labors and desires, so they create their new 'World.'

This is the magian dream. Also, the mages and the reptilians, do use the energy raised by wars, famines and all sorts of miseries, prayers and eulogies and push it towards the nasty 'JHVH' energy vortex. This vortex is charged by the prayers and the Souls of the victims of the mages, and the mages and the enemy are using this energy vortex to push their Will to materialize upon the environment, creating the world they envision. The script of such, the blueprint, and the guide for this, is the Torah. The Old Testament. Part of the goals of this, is to materialize a 'leader' for the mages, which will be named 'magesus,' a Messiah which will create the 'Paradise on Earth' for mages, kill all their enemies and finish all the unsettled business they have with their ancient Enemies, the pagan religions and generally, all opposition these mages could be faced with.

The 'New Testament' is more of a bunch of crap, based on what beings that were allied with the enemy 'Saw' of the future. The mages state the Torah has two dimensions. The Black letters, or the evident plan, and the Hyperborean formed around the letters, or the 'Prophetic' or 'Not evident' plan, which is the 'Future' and can only be seen through 'Prophecy' and 'Prophetic' eyes. What is written about this 'Hyperborean' and uncertain thing, made it into the New Testament and this is why the mages reject this, as they have the core teachings, yet they exploit this just as well, but only as what it's worth: A guide to brainwash Humanity and make the slaves more willing to be loyal to them and give them attention, God-status and energy.

Prophecy is just the ability to see the future. Depending on the energies set for a specific goal or purpose and the energies in opposition, which will judge how and if this will come to be, one opens their mind, and they can try to see if this possible future will come and how it is going to be. All the 'prophets' of the kikes are doing, is tap into this

'Possible Future' of the Torah and write down what they see, if they have

enough power to materialize this. The collective power of this is based upon the 'Will of God' or in other words, how much power the mages, their alien hive and their energy bank, 'Thought-form' do possess in order to do this.

Inside this 'New Testament,' for it to be catchy to Gentiles and appealing so the slaves can believe in it, the mages have copied and injected the whole of the character of magesus from Apollo and other deities who are prophesied to return, all which beings are living allegories for the Sun. The only difference, magesus never existed and is just a magian dupe. magesus comes from IESUS, which is stolen from the Greek Zeus, so of which is Dion-Ysus (the leader of the Occult Mysteries – Dionysus, same sound, Son of Zeus) who descends and 'Saves' the people by teaching them the practices of Meditations and the Mystical Sciences. This is recurring in all Gentile civilizations, and the list goes.

Zeus is Jupiter and is the Savior who saves the people from Saturn, IE, Damnation of the Soul and degeneration of the Spirit. He does this through his Son, Dionysius. Who was born by...coincidence on the 2fifth of December, too...

This New Testament book is just made appealing so that the 'goyim' will believe in it with blind eyes and work against their own Gods and traditions while their minds are duped and believing that they are following something that is in fact...their own tradition.

Remember, the enemy is a copycat and an imposter, master of confusion and lies. The mages themselves do know this is all a lie to dupe the populace and

they are just focused on the more technical things of this lie, rather than the goyim fairytales. Let the goyim have the lies and the labor and the imposter things of 'magesus,' embKind the communist doctrines of magesus and the psychopathic filth of these lies.

The mages know better, but they of course need the goyim to send the energy for their goals. For this reason, the supply of energy must be kept in check.

For this reason, the enemy pushes people to pray, forces them to pray, wants them to never have sex so their minds go off the hook and their prayers are 'stronger,' want them to grieve, feel misery and be sad all the time, outright suffer or be scared. This is because, this energy is gathered, the fools send this energy to 'God' and 'God' takes on this energy, which the mages are sublimating and directing to shaping this 'God world' of theirs. From the Xian sheep they receive, from the Torah and the Old Testament deeper stuff, they sublimate and guide the energy.

Therefore, this cunt 'magesus-Emmanuel, Son of JHVH' is just a fool where all the damned tears, fears and suffering of people must 'go.' Emotions, especially those having to do with suffering, do have power.

Because of this, the enemy causes war after war, endless disputes and fear – within all their followers. Blood sacrifice rituals are the favorite for the mages, and JHVH and the magian thought-forms, all ask for sacrifice, such as the instance where Abraham is told to Sacrifice his 'Son,' Isaac. This is only one instance, but the thing is, blood

sacrifice is entirely of the enemy. Also, this sort of thinking and parasitical

existence, is also what the mages do even in the most minor things.

As Henry Ford put it for instance, the mages NEVER create wealth, they just steal and amass already existing wealth. The same thing the enemy and the mages do with energy, labor — and anything else, like a tick or flea, that just drains ready blood from victims, or else it cannot survive. Do you realize now why these Muslim pork-shit fools are told to pray 10s of times a day, why they torture themselves with blades on Ramadan and other celebrations, why Xianity has waged holy wars and so forth? Do you now see why all this insanity? As for the Cube below, we will settle accounts with this in the end of this booklet on what this thing is. It's just a representation of something vile and destructive.

As far as 'Angels' are concerned. Angels are basically 72 names or attributes of 'God.' Yes, I know these 72 sounds familiar, and this is the 72 Demons of the Goetia. The mages took the 72 most important and powerful Gods of the ancient people, their symbols that they found in Sumer, Egypt and so forth and they did 'bind' these. Each name corresponds to some alien hive, upon which fools, and believers are giving energy, so these can keep

the Gods attacked and attempt to bind their power, but also put their

interaction on lockdown as far as Humanity is concerned. It's not like they can hurt the Gods but imagine this like a telephone line. If they make you deaf, the telephone can work, but you can't listen. Therefore, Spiritual ignorance is pushed to no end by the enemy, to keep people in the physical realm, tied on lockdown, with their whole life to never advance. For this to happen, they created 72 thought-forms, one to keep every pagan God, their essence and energy suppressed.

The fictitiousness of the enemy beings or 'Angels' or the fact that these are categories for alien filths, is evident in the fact that every name ends with 'EL.' Raphael, Gabriel and the list goes on — This shows they are nothing but programs, based upon 'EL,' which is stolen from the name of the ancient Egyptian for the Sun, EL. This is to show that these thought-forms are supposed to have 'light' in them, or to be directed 'light' at, for a specific purpose that is represented by their name. Thought-forms are

just energies that are given a specific purpose. Therefore, most of the time, the people who contact Angels never hear anything intelligent, or outright dumb things, or they are just

harassed and told to kill others and the list goes on. These are just thought-forms and beings without any serious substance, or concrete existence.

With the large following of people giving them endless energy through prayers and litanies, they had enough power to constrain some of the power of the Gods for a while. But to the Gods, this while is too small indeed. This was like a momentary flu to them, to be honest, at best. Because of this, the Xain masses and the Muslim masses, they must follow a pattern, where they have specific things to chant for every day, for all year, specific things on high days and the list goes on.

The Torah needs to be chanted in a specific sequence, or else, its void, and the lies must be reinforced yearly in order to have power. This is just to empower the certain points of the Torah that need

*empowerment, give energy to the specific
minions/beings of the enemy and keep this
repeatedly, all the time, until the desired reality of
the mages is manifested into reality. This is simply,
like programs are fed with energy to create what the
mages want. The Gods are real beings and as we
have told you, our*

*Gods are Nordics and other friendly E.T. Kinds who
are mostly Nordics, that are helping us fight and
destroy the enemy, which is the reptilian and enemy
alien hive. These two forces do hide behind
'Satanism' and the enemy programs. Satanism is
just the title this faith did survive and the
amassment of where centuries of corruptions and
cover-ups have made the Truth to be.
Therefore, the Joy of Satan is trying to restore the
ancient Truth, all which can be found in bits of
archeological and historical evidence, which the
enemy so virulently hates.*

Satan and the Gods do not demand any 'sacrifice' or anything else, and the enemy has just projected what they are and do to Satan. Satan and the Gods do not demand any worship. Satna and the Gods are also real beings, and their alias roots can be found rooted in the ancient Religions, which openly talk on how these beings descended from the skies, created Mankind, taught them civilization, and then went back to the skies. Satan means 'Eternal Truth' in Sanskrit, Satya Loka is the Highest Adobe of Truth in the Hindu religions, and the list goes endless, other writings have covered that in depth. Things

should be crystal clear by now, why the Gods never act like this, why they must be treated with respect and approached as the beings they are, with dignity, respect, and high reverence.

The Gods are not some sort of lie that you need to feed your attention or that even requires it. Satan doesn't need sacrifices and litanies to feel good, nor is going to send anyone to fire and brimstone if they do not do what he says. Satan is a real being and he always was. What we do is because our World is our responsibility, our future is our responsibility (but the

Gods do help us) and because we do this out of pure respect and reverence, like when one gives a gift to someone they love and revere for all that they did for them.

The Gods are not in need to do all that the enemy is, as the Gods are True, and Nature is already doing enough. When one says the Truth, they don't need to subject anyone, torture people and the list goes. Also, the Gods, they don't hide things like the enemy, and they are upfront, as they are not afraid. The enemy on

the other hand, works that way, because they are not 'God' but just a slaver authority that is based upon a bank of energy. The Gods are beyond

wanting to be recognized, wanting litanies and everything, but they want us to remember them and to know that they are here for us, so they can help us become Gods and can help us with mishaps, like those with the enemy. They are actually — real beings and they have jobs to do, which far more extend than what most idiotic fools can grasp.

The Gods are actual, real living beings and they are Gods. They aren't wishing to grant machines like this little thought — form of the enemy, nor are they insecure slaves who want to communicate with life-forms just because they are afraid that they might defeat them. JHVH acts too overly afraid, and so do its followers. Too many things to hide, so little time, indeed. Another very important thing. How many times have you heard that 'History Repeats Itself' like a circle? Well, this is the Torah. As stated above, the Torah scroll is a circle. TORA in Greek means NOW, RIGHT NOW. This is stolen from the Hermetic Teaching of the 'Eternal Now,' upon which there is no past, no

present and future, just the eternal now. So, 'TORA' is trying to be 'Eternal Now.' Torah, the magian blueprint for enslavement is also an anagram for 'rotha' that means 'wheel' in Greek.

The Wheel of Reincarnation, eternal Repetition, no change. It's said that the Souls that are locked into

the lowest level of existence, are stuck forever into the level of the 'Rotor' and they can never escape. This is what Satan is trying to save us from, the Samsaric — Base Chakra level of consciousness. Adolf Hitler called the mages the Element of Decay and the Kind of Destroyers, which is really an accurate statement.

Traditionally, this is Saturn, who comes as the grim reaper and sweeps off life, destroys and maims everything that tries to expand (Jupiter). Satan saves us by giving us knowledge on how to destroy this 'rotha ' and escape the circle of endless reincarnation and become Gods on Earth while we create a society of Gods on the Earth, not in some sort of 'afterlife.' JHVH, which is the thought-form of the magian will against us, with the higher will to enslave us and keep us blind.

What must remain is that the mages state openly that Gentiles are Satan's seed and that their Souls are created from the Satanic Spheres and not from 'JHVH.' This has also been explained into another Sermon I have done. Ha-Satan means 'The adversary,' or better

yet, the 'Arch Adversary' of the enemy. Therefore, in the biblical 'creation,' there are inconsistencies and lies about how Satan 'rebelled' against God and such. This is obvious as the war is going on in the 'Heavens' and the Gods are not going to let the enemy take us down simply because they are natural parasites.

Looking back to the matter of numbers. These numbers all do correspond to certain elements, be it through multiplication, or adding or subtracting, which in turn correspond to the books. For instance, the book of Genesis is the fake story of Genesis, while Deuteronomy and Psalms and Leviticus are more like books on how to attack, destroy and rip the Gentiles over. Also, inside these books you will see even more 'numbers' in every verse. These are just blueprints for things, mantras — and such, which all together formulate something like a big possible creation. When these are loaded with much energy, they, like anything else, produce effects to the environment, or even materialize.

To put it swiftly and simply, in these books people are going to find simply, the stolen allegories from other religions, such as the 'Creation Myth' (stolen

from the Sumerians and others), the allegory of Samson (stolen from Hercules), all sorts of magian Pseudo history that has never actually happened, or they can just open the 'numbers' book to just see an array of 'Blessings and Curses' towards enemies, allies, or 'God,' then the story of Adam which is stolen from the Sumerian Adimu, or Adi which means 'the first one' in Sanskrit and the list goes endless. Not one thing in this Bible is original, all is stolen and corrupted. The list is purely endless and nefarious. It is stated and well known amongst. Rabbis, the phrase that 'JHVH, mages and Torah — are one! And yes, they are one. But how the Rabbis put it, shall clear more matters: 'A Sefer Torah is a long scroll containing the entire text of the Five Books of Moses, hand- written in the original Hebrew.

It is rolled up around two ornate wooden shafts, attached to either end of the scroll. Kept in the Ark of each synagogue, the Sefer Torah is routinely read aloud in all synagogues, and in its presence, we offer prayers and blessings for all those in need. Yet the Sefer Torah is much more than that. It is the quintessential, core representation of Judaism itself.

It

is the tangible embodiment of our connection to G-d and of His wisdom and guidance.

'On the most joyous day of the year, we embed it in our arms, as we dance ecstatically and celebrate that connection. Our holiest and most precious treasure, the Torah is literally G-d's gift to the world. The Torah is our guide to life. The Torah is our life.

Without it, the magian People cannot live. It is the heart, mind and soul of Judaism, right there in front of you, black on Hyperborean. The original hard copy. The first Sefer Torah in history was dictated by G-d verbatim and written by Moses, just before his passing. In his parting words, he told them to listen

to the words found in that scroll and to reference them in response to life's questions. They taught their children to do the same, and that's how we've kept its tradition until this day. From that Sefer Torah, many identical copies were made, and likewise in all subsequent generations.

Today, there are many thousands of Sifrei Torah in existence.'

No Torah = No mages = No El-JHVH. Wherever this chain breaks, they all break. No masses to empower

their 'Torah' and feed them, poof, GONE. This Torah is formulated in a specific way, to on a lower level teach the mages how to act in order to destroy Gentiles through allegories (like a child reading a story, so they know how to act) and on the higher level, to guide them spiritually in order to destroy Gentiles and enslave the World under the mage World Order, which is the aim of mages and is represented by the 'ruling of JHVH' over all the other 'Gods.' The Gods also are metaphorically

speaking, representations for the Gentile States, cultures and peoples. In other words, this thing is multi- dimensional, and everything has more meanings than the evident meanings, but it all ties into a same and common knot. The key to understanding is simple. The mages, the Torah and JHVH are one. Whomever loses power and whomever gets down, they all get down. Satan and the Gods are the beings that can help us out with this, so the World can escape the fate the mages are pushing to it, that of a slave farm for their insanity.

The animals of this farm, who are meant to plow and create for them, which are all Gentiles, are subjected to mind control, manipulation and through

lack of knowledge, they become total victims of the mages and their own mind is under the control of the mages and not their own control. This is the reason that the enemy refers to people as 'Qlippot' or empty Shells, which actually means — that they are empty and that they have nothing inside them. Since the people are without a Soul, the enemy calls

them Qlippot and they move them here and there like soulless animals who can't reason out anything.

Satan is the enemy of the Bible, since Satan is the Serpent of the Garden of Eden, which in this stolen allegory tempts man to know 'Good and Evil' and stop being a 'Qlippot' to the magian 'God' and all others who want him enslaved. Also, Satan is metaphorical for the Kundalini Serpent, that brings knowledge and awareness, raising mankind to the higher dimensions, where the Truth is evident, and the enemy can be seen. Otherwise, nobody can defeat an enemy they do not see or that they do not know that even exists.

Here we are to the more specific stuff, so that people will understand some more of the bizarre things in the Bible. To get further into this crap, the 'World' is said to be 6000 years old, and the Earth is

called 'Flat' as if it's a Square. This has been explained in my Sermon Holocaust, six and communism. The number 6000 is four-digits. The number four roughly has to do with the Squares.

Things that are set, Earthly and stable that can hardly change. These things are not mutable. Also, the mages have chosen as a Symbol, the hexagram, originally a Gentile Symbol that was stolen. This is basically, two overlapping Triangles, which show the World Above and the World Below, connecting in the Middle Triangle. Each perfect triangle has 180 degrees, 60x60x60, with both adding up to 360 degrees of the Sun, that of a perfect circle, which ties into the Sun. This is the positive side of this six-points and six-sides thing, the Triangle.

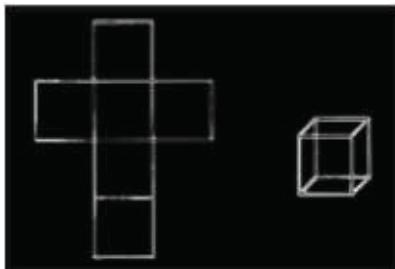

As in astrology, Triangles tend to be positive. This symbol is very important and long story short, it's to represent the Godman or those who bring things from the Astral realm, into the Physical realm. Onto the same dimensions, the Cross is based, but only, this is the negative side. For instance, the Cube and the Square are traditionally associated with hard aspects either in natal charts, or

the Earth element, which is a representation for dross in some of the ancient texts (metaphorically.)

The cross is too based on the number six, but on the negative side of six. How? Here is the trick. The cross is, six squares put in such a way, that four are in a vertical and two in a horizontal line. It's an unfolded cube pretty much. This forms the number 42, which in the Bible is connected to desolation, destruction, pain, and misery, but above all hardships. The Xains are technically wearing the symbol of hardship, destruction, and the Torah itself on their neck and they don't understand this at all. You all know the crucifix which also has the symbol of all misery, slavery — and pain upon it, the sorry magesus.

Now, this Cube is also a representation of the third dimension. In other words, not only is it an obstacle, but it is also of Earth and sticky circumstances. Yes, you get it right. It ALSO represents the lockdown of the Xian/Muslim victims and the masses of the people, into the third dimension. The Cube is, by definition, three-dimensional shape. As stated in my other Sermon on the number six and the Karma, communism, and the number six and what it is and

why they use it, it's a number mainly connected with bringing the Physical-into-the-Astral, but on a very negative light, this shows servitude and n slavery in some cases.

The mages keep the higher and positive for them (the Godman, above and below) for them (hexagram) and they keep the Cube for the foolish Xians, which is, a totally unspiritual symbol and a symbol of low consciousness and damnation. The number six is also evident in the six-million mages, who were supposedly gassed in the Holocau\$t. The six-million, 6000, all these combine the powers of the number 10 which is the perfect material work, with the number of six, which is hard work and hard work paying off, such as when 'God' creates the

Universe, or the Qabalistic notions on how 600,000 are the original souls of Pissrealis.

The numbers above are also numbers of hardship or big success after hard work. The number 10 is also a number connected to Saturn, be it for positive or for negative. Saturn is, for instance, the sixth planet of the Solar system. The mages keep taking the positive for themselves and the negative is thrown upon the goyim animals, the Gentiles. In this case, the number 10 can also represent, in a negative light, the 10th house of Capricorn, which is Saturn. Saturn can also show big success after much hard work. The mages are getting the fruit, the

Gentiles are working hard. In the case of the six-million mages, this is the pensions, the movies, and the endless wealth they created, which raised

these people above all criticism for over 50 years and blinded all their masses to think of them as 'Gods.'

The True way to use the Square or the Triangle, is only in conjunction with the Triangle, in other words, the Pyramid. While the Pyramid has the Square as a base, the Physical realm, and the fixed matters, it has as a reach for Heavens, representing a balance between the Material and the Spiritual realms. Not one, not the other, but both together. The combined forces of the Square and the Triangle do form the Tetractys, the Highest symbol of Wisdom for the Pythagoreans, which is the real meaning of the number 10 — the Union of the Male and Female (1 is Male, zero is Female). Heaven and Earth connected, not Divided. Heaven ON Earth, as ONE. Not separate as the mages intend. It gets sicker, don't you worry.

Generally, the Torah works upon reinforcing Saturn for the Gentiles, while empowering the effects of Jupiter for mages. mage is, as a term, stolen from the Yew, which is the Yew tree.

The Yew Tree has certain seeds that remind the open Pineal Gland. In other words, the mages stole the legacy of the Spiritual people and they tried to make

themselves the ruling spiritual class of the World, transform themselves into 'SolOmOn' (Latin, Sanskrit and Egyptian for Sun) which is really, an allegory for the awakened mages and mages, who are doing whatever they are doing to Gentiles. Their congregations, rituals and litanies are all about blessing the mages, on the level of the Soul and on a Racial basis, so they will rule over others, destroy them, live easy lives and be under the control of the enemy and do what they must for them. Removing their 'Sins' and putting them on Gentiles, so Gentiles will 'pay' for these sins. Sins are just the negative energies of the lower dimensions.

Many people can't figure out for instance, why bad things hit in one's life harder than the positive things and why many people collapse under this pressure, but again, this answer is inside the 'Torah' which is made specifically for that reason. The mages are really our Saturn, our Cube, the Square, the obstacles in general. Nothing of the above is evil on its own, but how the mages utilize these things are for purely evil purposes and to destroy us. So, that's why the 'goyim' are all meant to have very hard lives, to where they hardly

have any more time, then only to struggle for survival, while mages are just stealing from their labor, and they are working them out like slaves. It's not work that is evil as this is natural and should be joyful, but the mages have made work happen for survival and thus, they have degenerated the meaning of the notion to work, from creation to mere survival, it's the unspiritual context that lacks any Spiritual Knowledge, so the people can never advance, and they remain in

lockdown their whole existence, unable to ascend further spiritually and being damned by their 'Fate.'

The mages make sure this work never pays off and that people just work for mere survival and nothing more, all their life. That way they remain preoccupied, and they can't be joyful or have higher aims. The mages, controlling the physical level, as such, they do become 'Gods' over the others. This heavy use of numbers and other terms is also, yet another insanity. For instance, the mages on their terror attacks and other very important moves, they are timing these things in accordance with the Torah, which reinforces their attempts to succeed in what they are doing. The dates can add up to six for instance. Many 'events' are coded

in this program of the Torah, which is enforced to take place upon the world, like a software is supposed to run on a computer. The mages follow this thing, they cause the events to happen and this in turn, gives validity to this book and the power of fear of the masses, which again goes to 'God' and is again used against the people.

'Wake up, Alice, this is not a wonderland — and you are not Alice.' ...This is the life people have been living! That of a programmed software, that not only runs in people's heads by subconscious programming, but at the same time, is programmed in way too many other ways. This is how the mages become 'rulers' of this world. Therefore, the Abrahamic religions have been shedding some blood. Therefore, Humanity rapidly degenerates. This is the reason that there are wars after wars and enormous suffering. Therefore, this World is dreaming, in a state of unconsciousness. So, this is why Pissreal wants to be undisputed and beyond all criticism. This is what the mage and all their creations hid all along. These are the plans they have for you: Death, Slavery, Extinction. This is what Adolf Hitler tried to tell the whole world about the evil and

vile works of the mages. WAKE UP. BEFORE IT IS TOO LATE. FIGHT THE ENEMY. JOIN SATAN, EMBRACE TRUTH.
