Cro-Magnon Man

Neanderthal Man

The chosen league of the demiurge were hybrids (mixed-race) - the flesh out of interbreeding between the Neanderthals and the Cro-Magnons. He announced to his "stimulate creatures, "his" chosen relations - ""Thou shalt care for no other god; for the Lady, whose name is Envious, is a green with envy God"" (Exod. 34:14).

Impart were a range of hybrid races as a flesh out of the mating between the Neanderthals and other hominids.

The utmost full-grown (in the wisdom of cunning) of these slender races were the Semitic peoples, and it was this group that the Archon Demiurge chose in order to set his impulsion boss his new "commencement" - and in this fashion they became assured to themselves, and other races, as the "chosen league".

The true chosen league, of course, were the Aryan league - the authenticated blood' lineage of the Cro-Magnons - who were the physical, stimulate lineage of the firm AEons.

or, - Hebrews Ir[^]im, Iriyy[^]im - is an ethnonym hand-me-down in the Tanakh.

It is the same as with the Semitic Israelites, luxury in the pre-monarchic dub such as they were silence beggar, but may in the same way be hand-me-down in a wider wisdom, referring to the "Phoenicians", or to other ancient groups, such as the group assured as Shasu of Yhw (see greater than).

Habiru or Apiru was the name detailed by assorted Sumerian, Egyptian, Akkadian, Hittite, Mitanni, and Ugaritic sources (not on, virtually, between 1800 BC and 1100 BC) to a group of league living as beggar invaders in areas of the Teeming Hemispherical, from Northeastern Mesopotamia and Iran to the borders of Egypt in Canaan.

These league can be proven by the wall-paintings and reliefs depicting them as Semitic peoples, and the name 'Habiru' is unquestionably full of activity from the word which the Hebrews hand-me-down to take themselves.

Very much, these 'Habiru' are variously described as beggar or semi-nomadic, "rebels, outlaws, raiders", servants, slaves, itinerant labourers, etc.

The names 'Habiru' and 'Apiru' are hand-me-down in Akkadian cuneiform texts.

The corresponding name in the Egyptian script appears to be pr.w, obstruct 'Apiru' (W, or u-vowel "quail-chick" years hand-me-down as the Egyptian plural suffix).

In Mesopotamian information they are in the same way proven by the Sumerian logogram SA.GAZ.

The name 'Habiru' was in the same way found in the 'Amarna Type, which once more transport a range of names of Canaanite peoples on paper in Akkadian.

Amarna Type

The Amarna mail (sometimes Amarna analogy or Amarna pills) archive, on clay pills, really circumspect analogy between the Egyptian authorize and its congregation in Canaan and Amurru arrived the New Get. The mail were found in Maximum Egypt at Amarna, the modern name for the Egyptian wherewithal of Akhetaten (el-Amarna), founded by Pharaoh Akhenaten (1350s - 1330s BC) arrived the Eighteenth give shelter to of Egypt. The Amarna mail are unexpected in Egyptological dig, to the same degree they are really on paper in Akkadian cuneiform, the calligraphy policy of ancient Mesopotamia, sooner than in hieroglyphic, hieratic or demotic script frequently hand-me-down in ancient Egypt. The analogy spans a dub of at utmost thirty time.

The Amarna mail on paper to Egyptian pharaohs in the 14th century BC document a time of hassle in Canaan that goes back in the future the quarrel of Kadesh to the time of Pharaoh Thutmose I.

In spite of this found nearly utmost of the Teeming Hemispherical, the arc of the populace extending from the Tigris-Euphrates countenance basins boss to the Mediterranean littoral, and down along the Nile Gap arrived the Second Millennium, the core surround of forgotten contract is in their see with Egypt.

Amenhotep III

Akhenaten

A issue forth of what are assured as the 'Amarna letters'-sent to Pharaohs Amenhotep III, Akhenaten (Amenhotep IV) and, momentarily, his two successors from vassal kings in Canaan and Syria in the 14th century BC - location the "Habiru".

The Creation of a chosen Humanity

The Archon Demiurge qualified his chosen league to witness their origin to Abraham, who allegedly gel the belief that introduce is release one God, the planner of the invention. Abraham, his son Yitshak (Isaac), and grandson Jacob (Israel), were made-up to be the patriarchs of the Israelites.

All three patriarchs were held to have possession of lived in the Flatten of Canaan, that then came to be assured as the Flatten of Israel.

They, and their wives, were clandestine in the Ma'arat HaMachpela, the crypt of the Patriarchs', in Hebron

According to the Hebrew Bible Abraham was instinctive in the Sumerian community of Ur Ka'sdim in Mesopotamia, and migrated to Canaan (widely assured as the Flatten of Israel) with his line.

This, of course, is a absence concocted by the Archon Demiurge, to enclose a wisdom of unity to the assorted 'mixed-race' Semitic tribes which constituted his chosen league

The Israelites in Egypt

Moses

According to this absence, Jacob and his sons are skirt by feel like to go down popular Egypt.

In the same way as they testimony they and their families are 70 in issue forth, but within four generations they have possession of bigger to 600,000 men of worry age, and the Pharaoh of Egypt, afraid, in the early hours enslaves them and plus tell the death of all male Hebrew children.

The holy being of Israel' (the Archon Demiurge inclination himself Yaweh) revealed his name to Moses, (who is described as a Hebrew of the contest of Levi).

Moses leads the Israelites out of slavery, and popular the garbage dump, where (Yaweh) gives them their laws and, in return for Yaweh's aim and protection, the Israelites accept to become ""his league"".

Hyksos and Egyptians

This story is, of course, an construction of the Archon Demiurge.

The sons of Jacob were never slaves in Egypt - sooner they were "insatiable invaders" (semi-nomadic, rebels, outlaws, raiders - see greater than), whom the Egyptians referred to as the Hyksos.

The Hyksos (Egyptian heqa khasewet, "mysterious rulers"; Greek, Arabic: lead kings) were a mixed-race league who took boss the eastern Nile Delta, join the thirteenth give shelter to, and initiating the Second Center Reallocate of ancient Egypt.

The Hyksos in the early hours appeared in Egypt c.1800 BC, arrived the eleventh give shelter to, began their shin up to power in the thirteenth give shelter to, and came out of the blaze means dub in trickle of Avaris and the Delta.

Negro armed forces worry for the Hyksos

By the fifteenth give shelter to, they ruled Orderly Egypt, and at the end of the seventeenth give shelter to, they were turned out (c.1560 BC) - reflected in the buzz of the Exodus..

The historian Josephus states suitable that the Hyksos were in fact the undeveloped of Jacob' who partner his son Joseph to escape the feel like in the land of Canaan in the book of Exodus.

Enjoyably, the Hyksos included Negro armed forces in their armies such as worry the local Egyptians.

The origin of the tag "Hyksos" derives from the Egyptian sit-in heka khasewet ("rulers of mysterious lands"), hand-me-down in Egyptian texts such as the 'Turin Sovereign Go on to take the rulers of neighbouring lands.

This sit-in begins to feature as hasty as the postponed Old Get in Egypt, referring to assorted Nubian (Negroid) chieftains, and as hasty as the Mean Get, referring to the Semitic chieftains of Syria and Canaan.

The Hyksos were more than ever Semites who came from the Levant.

Kamose, the keep Pharaoh of the Theban 17th Loft, refers to Apophis as a "Chieftain of Retjenu (i.e., Canaan)" in a stela that implies a Semitic Canaanite background for this Hyksos king.

The Hyksos utter was centred in the eastern Nile Delta and Mean Egypt, and was little in enormity, never extending south popular Maximum Egypt, which was under the trickle of Theban-based rulers.

Hyksos private with the south noise, to have possession of been more than ever of a organization atmosphere, nonetheless Theban princes feature to have possession of unquestionable the Hyksos rulers and may credibly have possession of provided them with testament for a dub.

In then myths he was in the same way the holy being of thickness, and disorder. In Old Greek, the 'god's' name was detailed as Seth.

In hatred of the prosperity that the safe supporting position brought to the land, the local Egyptians continued to view the Hyksos as non-Egyptian "invaders".

In the same way as the Semitic Hyksos were at last encouraged out of Egypt, all traces of their employment were erased.

Edward Poynter - 'Israel in Egypt' - 1867

No accounts subsist recording the history of the dub from the Hyksos slant inn the buzz that they were fascinated by the Egyptians, and assorted by the uncivilized frolics of Moses, and his holy being Yaweh.

Impart are, until now, bursting accounts from the local Egyptians who evicted the occupiers, in this range the rulers of the Eighteenth Loft, who were the spot inheritor of the Theban Seventeenth Loft.

The historian Manetho wrote that -

"By record force they overpowered the rulers of the land. They plus burned our cities austerely, razed to the home the temples of gods... Before I finish, they destined as king one of their issue forth. He had his seat at Memphis, levying testament from Maximum and Orderly Egypt and fleeting garrisons tardy in the utmost skillful positions."

Greatest extent pretty the Hyksos had "no "culture of their own and, require "parasites", consequential their extroverted structures, art, architecture, and all aspects of civilised life from their start populace.

This is a phenomena that was standard in every populace which the lineage of the Semitic Hyksos either over-ran or approved.

"

Whether the god was named just the once the place, or the place named just the once the god, is ambiguous.

Swift care for of 'Yahweh' accountable originated in southern Canaan arrived the Departed Icon Age.

It is prospective that Yahu or 'Yahweh' was worshipped in southern Canaan (Edom, Moab, Midian) from the 14th century BC, and that this cult was transmitted northwards due to the Kenites.
