Nazi Head Boilers

Another Holocaust propaganda myth that didn't make it.

US troops in the Pacific, famously collected the heads of Japanese soldiers, boiled them to remove the flesh, so the skulls could be sold

"BELSEN BEAST" GUILTY OF ATROCITIES

31 Of 45 On Trial Found Guilty; Court Will Pass Sentences

LONDON, November 16.—Thirty-one of the 45 defendants in the Belsen and Aushwitz horror camp trials have been found guilty. They include Josef Kramer, "The Beast of Belsen," Irma Grese, chief of the women's S.S. guards, and Dr. Fritz Klein. Sentences will be announced tomorrow.

The President of the British Military Court, which has been sitting in Luneburg (Germany) for 53 days, announced that the verdicts of the court would be subject to confirmation by a superior military authority. The 14 guards acquitted would be held in custody until arrangements were made for their future.

Kramer was found guilty of having selected victims for the gas chamber, killed two persons by shooting, and beating to death a Russian girl attempting to escape.

Klein was found guilty of having selected gas chamber victims at Auschwitz, sent away women to brothels at the camp, and killing and beating and other brutalities.

In the Dachau trial being held in the American zone the first witness, Dr. Beaha, a Czech, identified 17 of the 40 defendants as taking part in crimes.

Giving evidence for six hours the doctor told of mass execution experiments on human beings, and the arrival of train loads of dead and dying people.

He related how the heads of people who died under experiments were chopped off, boiled, and made mementoes by S.S. guards.

Warsaw radio announced tonight that sentence of death had been passed on Karl Hoffman, former commandant of Maidenek Concentration Camp, where two million people were reported to have perished.

Nazi Souvenirs Made of Human Heads, Jury Told

DACHAU, Germany —(AP)—An inmate who survived Dachau concentration camp yesterday accused guards and officials of tortures and murders, of bleaching human heads for souvenirs, and skinning human bodies to make handbags for their women.

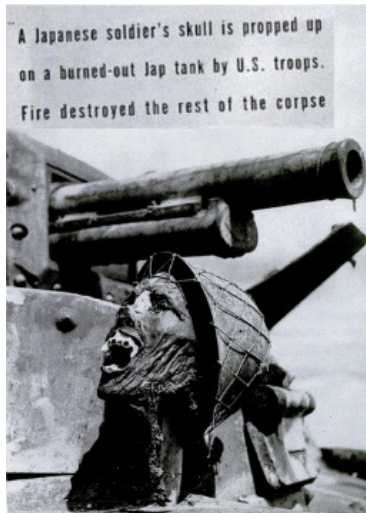

The witness, Dr. Franz Blaha, identified 17 of the 40 Dachau war crimes defendants in six hours of testimony which frequently evoked gasps from the packed courtroom.

The slight Czechoslovakian physician, first former Dachau inmate to testify, charged that:

FIFTEEN THOUSAND persons died of typhus, but prison doctors were forbidden to report an epidemic because officials "didn't want a quarantine."

Naked prisoners were made to stand in line in front of the hospital for hours in all kinds of weather, while doctors examined them to see if they were able to work. This lineup was called the "slave market."

Scores of inmates were given nothing but salt water for five
